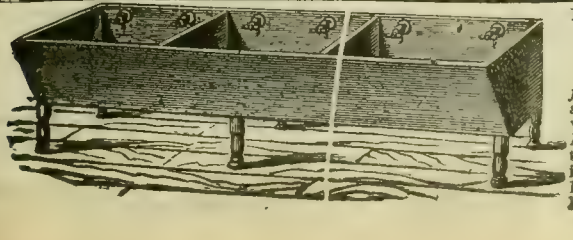
City and County of New York, s. s: On the 9th day of February, 1881, before me personally came William Wicke, August Roesler, Frederick C. Miller and Henry C. Peters, all to me known, and known to me to be the individuals mentioned, and described in, and who executed the foregoing certificate, and severally acknowledged to me that they executed the same.

GEORGE W. VULTEE,
Notary Public,
City and County of N. Y.

City and County of New York, s. s.



Frederick C. Miller and Henry C. Peters, being severally duly sworn, do each for himself depose and say that they are the general co-partners mentioned in the foregoing certificate, and that the sums therein specified, to have been contributed by William Wicke and August Roesler, have been actually, and in good faith paid in in cash.

FREDERICK C. MILLER,
HENRY C. PETERS.

Sworn to before me February 9th, 1881.

GEORGE W. VULTEE,
Notary Public,
City and County of N. Y.

CO-PARTNERSHIP NOTICES.

THE UNDERSIGNED, DESIROUS OF FORMING A Limited Partnership, under the Statutes of the State of New York, hereby certify:

1st. That the name or firm under which said partnership is to be conducted is the H. L. HAAS CHEMICAL MANUFACTURING COMPANY.

2d. That the general nature of the business intended to be transacted by such partnership is manufacture and sale of polishing materials and nickel plating supplies, and such other business as is incidental thereto.

3rd. That the names of all the general and special partners interested in said partnership are as follows: Harry L. Haas, who resides at 49 West 39th Street, in the City, County and State of New York, is the general partner; and Leopold Haas, who resides at 49 West 39th Street, in the City, County and State of New York, is the special partner.

4th. That the said Leopold Haas has contributed the sum of five thousand dollars as capital to the common stock.

5th. That the period at which the said partnership is to commence is the 1st day of February, 1881, and the period at which said partnership is to terminate is the 31st day of January, in the year 1884.

H. L. HAAS, General Partner. [L. S.]
LEOPOLD HAAS, Special Partner. [L. S.]

Dated this 26th day of January, in the year 1881.

City and County of New York, s. s.

On this 26th day of January, 1881, personally came before me the above named Harry L. Haas and Leopold Haas, to me known to be the persons described in, and who executed the above certificate, and severally acknowledged to me that they respectively signed said certificate.

JAS. J. CAMPBELL,
[L. S.] Notary Public,
N. Y. Co.

City and County of New York, s. s.

Harry L. Haas, of said City, being duly sworn, says: That he is the general partner named in the annexed certificate, and that the sum specified in said certificate to have been contributed by the special partner in said certificate named, to the common stock of said partnership, has been actually, and in good faith paid in cash.

Sworn before me this 26th day of January, 1881. } H. L. HAAS.

JAS. J. CAMPBELL,
Notary Public,
[L. S.] N. Y. Co.

NOTICE IS HEREBY GIVEN THAT A LIMITED partnership has been formed by the undersigned pursuant to the laws of the State of New York.

That the name or firm under which such partnership is to be conducted is STIRN AND LYON.

That the general nature of the business intended to be transacted by such partnership is the importing and exporting, buying and selling of toys, china and glass ware, fancy goods, and fireworks.

That the names of all the general and special partners interested in the said business are Carl P. Stirn, Amos M. Lyon and Francis H. Ruhe; that the said Carl P. Stirn is a general partner, and his place of residence is in the City of Brooklyn, in the County of Kings, and State of New York; that the said Amos M. Lyon is a general partner, and his place of residence is in the City of Brooklyn, in the County of Kings, and State of New York; that the said Francis H. Ruhe is a special partner, and his place of residence is in the City, County, and State of New York.

That the amount of capital which the said special partner, Francis H. Ruhe, has contributed to the common stock of said partnership is the sum of twenty-five thousand dollars.

That the period at which the said partnership is to commence is the first day of February, 1881, and the period at which it will terminate is the thirty-first day of January, 1884.

Dated New York, January 31, 1881.

CARL P. STIRN,
AMOS M. LYON,
General Partners.
FRANCIS H. RUHE,
Special Partner.

THIS IS TO CERTIFY THAT THE UNDERSIGNED have formed a limited partnership, pursuant to the provisions of the Revised Statutes of the State of New York.

The name or firm under which said partnership is to be conducted is APGAR, MERRILL & CO. The general nature of the business intended is the buying and selling on commission, of Stocks, Bonds and other Securities. The place in which the business is to be carried on, is the City of New York.

The names of all the partners are as follows:

Louis J. Apgar, who resides in Jersey City, New Jersey, George Merrill, who resides in Raritan Township, New Jersey, and William S. Hartt, who resides in the City of New York, are the general partners, and Nathaniel Dole, who resides in the City of New York, is the special partner.

The said Nathaniel Dole has contributed the sum of twenty-five thousand dollars in cash, as special capital.

The said partnership is to commence on the twenty-fourth day of February, 1881, and is to terminate on the twenty-third day of February, 1883.

Dated, New York, 68 Broadway, and 17 New street, February 24th, 1881.

LOUIS J. APGAR,
Member N. Y. Stock Exchange. } General Partners.

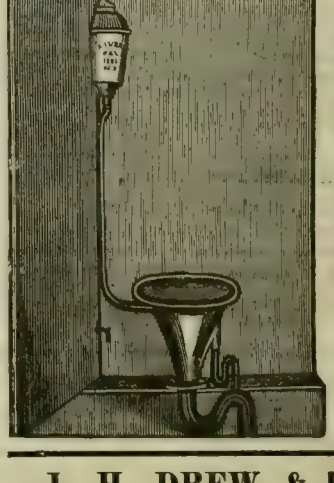
THE
FIRE-PROOF BUILDING COMPANY
OF NEW YORK.
LEONARD F. BECKWITH, President & Treasurer. E. GILLET, Vice-Pres't

Hollow blocks of any pattern, uniting strength and resistance to fire and water. The Hydraulic Lime of Teil (France), one of the strongest cements known, is largely used in this manufacture. The blocks do not conduct heat, cold or sound, and weigh 60 per cent. less than brick.

Fire-proof partitions, floor arches between iron or wooden beams, and ceilings under iron or wooden beams erected in following buildings:

Western Union Telegraph,	Orient and Queen's Insur.
Coal and Iron Exchange,	Museum of Nat. History,
Equitable, Staats Zeitung,	Hudson R. R. Freig't Dep.
Wil'msb'gh Savings Bank,	N. Y. Hospital, Boreel.
Windsor & Westm'r Hotels	Cluny & Youngs H'tls, Bt'n
Syracuse Savings Bank,	B'k N. Y. & Stevens B'ldg.
Columbia College, Tribune.	Coryell & Vancorlear Flats
Baltimore Safe Deposit Co.	Peabody Institute, Balt.
Peabody Museum, N. H.	John Hopkins Hospital, Balt
United Bank Building,	Astor Library,
Hotel Vendorne,	Mason Building, Boston.

Sidewalks laid at Lenox Library, Tribune, etc. Hollow burnt clay Bricks for Flat and Curved Arches, Partitions, etc.; and Skewbacks for Brick Arches.



Sole Agents for the United States for HYDRAULIC LIME OF TEIL, and LAFARGE PORTLAND CEMENT.

Sole Agents for the U. S. for METTLACH ENCAUSTIC TILES, laid in Tribune, Staats Zeitung, Mineral Spa, Central Park, Belvidere Hotel, etc.

Our fire-proof work is the only one approved by the New York Board of Fire Underwriters and the Superintendent of Buildings, after severe public tests.

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

VOL. XXVII. NEW YORK, SATURDAY, MARCH 19, 1881. No. 679

Published Weekly by The

REAL ESTATE RECORD ASSOCIATION

TERMS:

ONE YEAR, in advance - - - - - $6.00

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

THE REAL ESATTE RECORD, to-day, enters upon the fourteenth year of its existence. It has lived through a period of depression, unequalled in the history of the country. It is not in the nature of things that real estate in this city should ever again be so depressed as it was from 1873 to the close of 1877. Good times have come again and to stay; but, as yet, prices have not reached the figures which obtained in 1870. Yet the population of the city is larger, we have made great local improvements and have an elevated railway system which makes New York city travel unequaled for cheapness and comfort.

The establishment of THE RECORD met a want, long felt by the real estate interests in the city. For the first time the Conveyances, Judgments and Laws and City Ordinances affecting real estate, were given with fulness and scrupulous accuracy. The building interests, also were appealed to, and the carefully edited price current and the review of the lumber and building material market for the week, made this paper indispensable to all who were erecting houses in and near New York. Some of this news had been given in the daily newspapers, but in an irregular and careless way. All who deal in real estate wish to keep the record of transactions, and this could only be done by having a file of a paper which made it a specialty. To do this work well cost a good deal of money, and during the hard times we were forced to advance the price to $10 per annum. Appealing as it did to a wealthy interest, the REAL ESTATE RECORD naturally became a paper for investors, that is to say, its readers are not only real estate owners and dealers, but bankers, financiers, merchants, leading lawyers and large holders of government and railway securities. An advertisement in this paper, relating to a really first class enterprise that will commend itself to the judgment of investors, is naturally worth more than when put in an ordinary daily paper. The increase of our business from this source has led us to believe that we can now afford to reduce the price of the paper, as well as give more attention to general financial topics. There are so many papers published in the interest of advertisers, that the field is open for at least one weekly paper published solely in the interest of the investor.

In its new departure, the REAL ESTATE RECORD will no longer be a local paper. It will be circulated all over the country. The whole world to-day speculates on and in the New York market, and the time is coming when vacant lots on this island will be bid for by capitalists in all parts of the country. The example of the California colony will be extensively followed, and people who make money as merchants or speculators in any of the interior cities, will be tempted to have a home in this splendid metropolis of the Western world.

The REAL ESTATE RECORD will retain all its old specialties during the coming year, and will add several features of interest. It will discuss all topics which affect investors, furnish the latest and fullest news about real estate, pay some attention to mining and will collate from the exchanges the best expressions of opinion from every quarter.

In a few days, not later than Wednesday week, to meet a special want, a new paper will be issued from this office, entitled "CITY AND SUBURBAN INDEX."

Would it not be well for capitalists with spare means to pay some attention to investments in New York water fronts? New York is destined to be the entrepot of the commerce of two continents. All roads lead to this metropolis, and every ship that ploughs the sea, whatever its flag, makes in time for this harbor. From the nature of things, our commerce cannot but grow. We have, apparently, a good deal of water front, but, after all, not so very much that is available for immediate improvement. The deepening of the waters at Hell Gate and the removing the rocks will make the fronts on the northeast side of the city of very great value. The improvement of the Harlem River, which cannot be long delayed, will make other fronts available. This is not a very tempting kind of property to look at, but its potential value is very great. Nor should any one invest unless he make a specialty of the business. A wise purchase to-day is certain of a large percentage of increase within the coming five years.

FINANCIAL JOURNALS.

As the REAL ESTATE RECORD, expects to take a hand in commenting upon the stock market, it may not be out of place for it to pay its respects to other journals, which make a specialty of discussing upon the news of the "street."

The *Wall Street News*, has won a deserved reputation for the points it has given during the past year. It has been mistaken at times, of course, but people who followed its advice, have generally made money. It has given misleading points about Erie and other stocks, but, on the whole, it has been generally successful in divining the course of the market and the advances in particular stocks. It generally is quite bullish in tone, but for several weeks past, has had the good sense to warn operators against purchasing for an advance. Indeed, its advice recently has been decidedly bearish. Rumor has it that some of its inspiration comes from James R. Keene.

The *Graphic* is also famous for its well edited Wall street column. This department bristles with points, generally very good ones. It is not chary of giving advice, and it is so far inside, that no operator can afford to be without the 4th edition of the *Graphic*. Generally bull, it has lately been bearish in tone. Some of its inspiration is said to come from Jay Gould, but Prince & Whiteley, and even James R. Keene, are said to give its editors points.

The *Tribune*, has a very well edited money column, but the compiler is a confirmed bear. During the rise of the last three years, the *Tribune* money writer has steadily predicted disaster. Whoever follows him has lost money; but the Monday article is very well worth reading. There is no trace of Jay Gould in that department. But there could be no mistaking the inspiration of that operator in many of the recent articles on Rufus Hatch.

The *World's* market gossip department is openly in the interest of Jay Gould. There is no disguise as to who it is inspires the whole course of that paper on money questions, from article to paragraph. Even the dislikes and spites of the great speculator, are openly expressed in the gossip department. This is shown by its frequent attacks on James R. Keene. Its advice is not always safe to follow, for Mr. Gould is sometimes selling when he wants other people to buy, and vice-versa. Everybody reads the *World*, however, to find out what Mr. Gould wants people to believe.

The *Commercial Advertiser* has a money column worth reading, conducted by Dr. Norval, formerly of the *Times*. It is generally bullish and always accurate, and sometimes gives a point which is worth considering.

The *Times* wastes a column of space every morning, on what it calls market news, which might be just as well omitted. It is utterly without character and no one reads it.

The *Herald* money article is pleasantly written, but is of no value.

The *Evening Post* money column shows some conscientious work, but is of more account for its facts than for its judgments.

In view of the multitude of papers published to cater to the interests of Wall street, the REAL ESTATE RECORD proposes to distinguish itself from them by being strictly an investor's paper. We shall not attempt to give tables or figures, but will collate the best opinions from all quarters and give such general judgments from all the markets as will be a guide to those who wish to invest wisely. We propose to occupy the higher department of financial journalism.

How often it happens that schemes which look well on paper and seem reasonable, are disappointing when tried. When Mr. Haskell started Llewellyn Park on the side of Orange Mountain, it seemed to embrace every condition that would insure its success. The location was all that could be desired, it was near New York, of its healthfulness there could be no doubt. The conditions under which the building plot was sold, secured the purchasers against nuisances and undesirable neighbors. The abolition of fences, with the regulations about fowl and cattle, were calculated to convert the park into a great garden in which the varying tastes of hundreds of wealthy gentlemen could be exercised so as to make a charming *ensemble*. But though many rich and cultured people were attracted to the park, it has not proved financially profitable.

Chicago has a beautiful neighborhood

park, the owners of which have had the same experience, and San Francisco another. It may be that these enterprises were started prematurely and that the projectors did not allow for business disasters, or were involved in debt at the very beginning. Solvent associations for buying property in mass and reselling to people who want pleasant homes in desirable locations, have been reasonably successful. This is true of Larchmont and Huguenot Park, one to the north and the other to the west of New Rochelle. There is a great deal of money to be made from this time forth, by wise investments in real estate, by capitalists or companies in which the property is divided up into building lots and money advanced to those who wish to make permanent homes for their families. But these enterprises want individual heads. Co-operative associations rarely succeed, Mount Vernon in Westchester County being one of the very few exceptions.

UNFORTUNATE NAMES.

Let sensible folks say what they will, people who invest in securities are very apt to believe in luck. If they note the fact that disaster generally overtakes the enterprises in which certain names appear, they are led to believe it is better not to have anything to do with new companies in which these same operators turn up. Take the mining interest, for instance. Certain gentlemen have come to the fore in the organization of the stocks called in our local markets, and people who have invested on the strength of these names have lost their money. Of course, there is a liability to hold these operators responsible for the losses, and honest men have often been called swindlers because of mistakes they have made. At any rate a great many superstitious people would prefer not to have anything to do with companies which have come to grief under their management. Among the gentlemen who have figured for the past two years in one or more unfortunate enterprises are the following:

George Roberts,	William M. Lent,
Ex-Senator Chaffee,	Senator John P. Jones,
William Brandreth,	Ex-Gov. Taber,
Drake de Kay,	A. H. Gill,
Mr. Moffat,	S. V. White,
Supt. Keyes,	George Daly,
General Dodge,	Mr. Havemeyer.

The public will recall these and other names in connection with the former managements of Chrysolite, Little Chief, Hukill, Freeland, Little Pittsburgh, Bodie and other properties, investments in which have proved unfortunate. We judge these and other gentlemen have been roundly cursed by certain exacting investors, who have probably called them harsh names and wished they had never heard of them or their mines. We, however, take a charitable view of things, knowing the uncertainty of mining. Of course, all of these gentlemen must have lost immense fortunes for their mistakes in judgment. If their friends suffered for being in the same boat with them, they can mingle their tears in common. Still, superstitious people will probably avoid any mining company in which these gentlemen have anything to do, either as officers or manipulators. Indeed, the impossibility of the investing public keeping track of every new mine listed will give special value of their endorsement by certain names. For instance, it is the same group of operators, with Mr. Haggan at the head, who have listed on this market the Homestake, Ontario and Deadwood Terra mines. These have paid dividends for so long a period and have to all appearances been so well managed that they have inspired confidence among investors, and any new property that they would endorse would be promptly taken up at high figures. People who value their reputation and whose names are associated only with good properties can make large fortunes on this market. For investors will follow names before they invest in mines. But mine promoters who have been mistaken, unfortunate or worse, must not expect to gain credit in the mining stock market.

CONDITION OF THE MARKETS.

The outlook is mixed. It is evident that a monetary stringency of some kind is feared, and so we have a dull market at the Stock Exchange, in which the variations are but slight. Judge Bond, who was elected President of the Reading road, is supposed to have certain affiliations with the Pennsylvania Central, which may detach the Reading from the coal combination. This fact has doubtless had much to do with the weakness of the coal stocks during the past few days The coal properties are dangerous ones for investors to touch, in view of the patent fact, that there is practically no limit to the coal production. It is within the power of the companies, which now own the anthracite region, to, within a year, double the anthracite product, and thus supply three tons for every two which could be consumed. There must be an agreement faithfully observed, or the coal trade, as far as the railways are concerned, goes to the dogs. It is the coal companies which have been the weak spot in the market. There was also a current rumor that Delaware and Lackawanna would declare 1½ per cent quarterly dividend, instead of 2 per cent as expected.

Another element of distrust is the precise attitude of the Treasury department. The new Secretary is a factor in the problem of unknown potency. It is unfortunate that this is the case. Prices of securities should be determined by the laws of trade and the course of business, and not by the possibly interested, and often capricious, action of a Government officer. We have a party in this country which protests against centralization, yet no one has thought it necessary to lift his voice against the power wielded by Mr. Windom, to make money easy or tight, and thus put stocks up or down.

The bears have made much use of the storms in the West to depress stocks; but it seems St. Paul earned during the year 1880 fully 10 per cent on its capital stock, and can well afford to pay the 1¾ per cent quarterly dividend just declared. Both the St. Paul and Northwest have lost heavily by the recent storms, but then the spring business will more than make up, as the amounts of freight to be carried are very large. Thirty-eight roads report a business for the month of February, 1881, of $10,645,569, an increase of $462,718 over the same month last year, that is about 4½ per cent. But there was an increase of mileage operated on these roads of 4,127 miles, or 17 per cent. Northwest earned $957,300 this February, against $1,131,683 February 1880. St. Paul earned $683,000, against $738,749 last year. Illinois Central earned $492,851, against $603,806 last year. This is a bad showing, especially as the mileage on these roads was 2,500 more than last year.

The strength of the stock market for the last few days is due to a belief that an extra session of Congress may soon be called. Usually, such an expectation would depress values, but as the main object of the called session would be the passage of a Refunding Bill, and as that would mean a cheap money market and possible a 3 per cent Government bond, it revives the bull feeling in all stocks. Unless there is war in Europe, an extra session of Congress will bring about an advance in prices beyond anything we have yet seen. From the feeling throughout the country, it is doubtful whether the banks will fare any better in the new than in the last Congress.

Cotton continues weak. We produced more last year than the world can possibly use this year.

Grain has advanced slightly in price, and if there is any threat of foreign war, which is not unlikely, or any doubt about the crops of this country, which is also possible before the season closes, there may be a sharp advance in the price of cereals.

The action of the Governments of France, Germany and Austria, in discriminating against our hog products, has weakened the whole provision market, for the doubt raised against the wholesomeness of one kind of meat discredits all other kinds. It is unfortunate that a few careless and over greedy packers should have been allowed to strike such a blow at the commerce of America. If the old system of inspection at the Atlantic ports had been continued, this calamity would not have befallen the country. But Chicago in its eagerness, to take all the profits, has insisted upon direct trade with Europe, and has managed it so badly as to close for some time half the markets of the world against their hog products.

RAPID TRANSIT IN THE 24TH WARD.

The completion of the New York City & Northern Railroad Bridge, which is now a matter of only a few days, will open a new era in the history of rapid transit, as it will, in connecting the hitherto remote localities of Westchester County with the elevated railroad system of the metropolis, enable the inhabitants of that section to have ready access to the business centre of our city. This bridge will directly unite the Metropolitan Elevated Railroad with the New York City & Northern Railroad above Highbridge, affording a continuous line from the Battery through Westchester and Putnam counties to Brewsters.

The New York City & Northern will connect with the Metropolitan Elevated Line at One Hundred and Fifty-seventh street and Eighth avenue, bearing to the right on a double track viaduct, crossing the Harlem River by the new bridge at right angles to the bulkhead line to the Westchester shore, thence swinging round over the tracks of the Spuyten Duyvil & Port Morris Railroad strike the high ground, whence it continues as a surface road to Highbridge, where it unites with the main line of the New York City & Northern Railroad.

The bridge will be five hundred feet in length and is composed wholly of iron, resting on massive granite piers. The superstructure will consist of two deck spans one hundred feet in length, united by a huge

draw span three hundred feet long, and is the largest except one in the United States.

The whole line from the Battery to Brewsters will be in operation on the 15th of April, a distance of fifty-three miles. The fares to Yonkers have been fixed at 30 cents; excursion tickets, 50 cents, and commutation books, containing one hundred tickets, $15.75; to Tarrytown, at 50 and 90 cents and $23. Arrangements are about being completed for transferring bag gage, express and mail matter from the elevated stations to Brewsters and intermediate points

The New York City & Northern Railroad has lately passed into the hands of friends of the Metropolitan system and has the following directors: C. K. Garrison, W. R. Garrison, Arthur Leary, J. P. Kennedy, G. F. Woerishoffer, R. M. Gallaway, A. V. Stout, W. Ward, Geo. F. Forrest, R. C Livingston, Lewis May, J. F. Navarro and J. F. Navarro, Jr.

The abolition of tolls on western bound freight on the Erie Canal is a step in the right direction, and cannot help to give a large addition to the trade of New York. Now let us urge the abolition of all tolls, east or west. This would require a constitutional amendment, which should be proposed at once. The Welland Canal will be completed within a few years and Montreal will profit, at the expense of New York, unless freight on the Erie Canal is made practically free.

REAL ESTATE ELSEWHERE.

While it is true that the price of realty has advanced in nearly every city in the country, there are still some notable exceptions to the rule. San Francisco real estate is still under a cloud and property is slow of sale. The collapse of all the mining bubbles and the removal of what was profitable in that interest to New York, has reduced real estate values in the city of the Golden Gate. Another drawback to any great advance in price, is the large liberty of choice which the situation of that city gives to would-be residents. In New York, we are confined to an island, and the city can grow in only one direction; but in San Francisco new comers can go north, west and south, and still be near the business portion of the city. The clubs and hotels are all near the centres of trade, nearer in point of fact than the Astor House is to Wall street. As in all modern cities, the finest residences are on the west side, and in the fulness of time, the city will extend to the shores of the Pacific Ocean, and the finest residences will be on the bluffs within sight of that mighty body of water. For persons with a regular income, not obliged to engage in active business, San Francisco is a very desirable city to live in. Food is cheap, rents are low and it has no winter, fuel being required only for cooking.

Baltimore is another city in which the price of realty has not advanced. There are still more houses than occupants, and more stores then there are merchants to fill them. Somehow, Baltimore has not profited by the increase of the business of the country, and the effort of the Baltimore and Ohio road to get an outlet at New York, shows that the owners of that great trunk line appreciate the superior commercial advantages of the metropolis. No doubt the oyster trade and he large canning interests of Baltimore will continue to grow. Its manufacturing opportunities will be tempting to capitalists, for it is an excellent distributing point for the West; but the fact remains that real estate is at a standstill, and that houses can be bought at the prices which prevailed three years since.

Nor has there been much improvement in Philadelphia within the past year, although it is true that certain localities are in demand, and that property which was an actual loss to carry on account of heavy taxes, immediately after the great Fair, improved sufficiently during the winter of 1879–1880 to pay a small profit. The chief sufferers in Philadelphia were the small householders, those who had invested their little means in the building associations. The bad times made a clean sweep of most of these organizations, the money lenders being forced to forclose and hold the property until better times came.

Boston has done well. Real estate is active and much better prices are asked than were common two years since. The stock of the various land companies has increased in value, and well located real estate in the "Hub" or any of its suburbs is a desirable investment at present prices.

New York, Chicago, St. Louis and Kansas City, are the four points where the largest percentage of increase in realty is to be expected for the next five years. Should Jay Gould's scheme of a barge line, to intercept the grain west of the Mississippi and convey it to New Orleans, prove successful, that city must be added to the above list.

MAGNIFICENT BUILDINGS.

Baltimore is called the monumental city, and Washington is famous for its Capitol and other public edifices. But New York in a few years can put in a claim to be called the City of Magnificent Buildings. The Equitable Building, the Post Office, the Domestic Sewing Machine, the Tribune, and the Western Union buildings, with a dozen others that might be named, are all notable in their way. We are soon to have a Stock Exchange and a Produce Exchange, which will be additions to the architectural splendor of New York. The United Bank building, corner of Broadwand Wall street, is a superb edifice, and it is safe to say that within ten years, at least a dozen structures will be rected which will vie with it in costliness and convenience.

But we are soon to have an Opera House, which will rank with the finest in the world, both in its external appearance and internal accomodations. The gentlemen who have put their money into it, can scarcely expect any return, except such as comes from the consciousness that they are adding to the attractions of the metropolis. The site of the new Opera House, on Broadway and Seventh avenue, gives a fine chance for artistic effects, which, it is to be hoped, will be taken advantage of. It is significant that this edifice is to be on the west side, which shows that instinctively the rich people of the city realize that the future fashionable quarter of New York will be west and north of the Central Park.

There is every indication that building operations on the West Side will be more active this season than ever before, consequently the steps now being taken by the West Side Association to have the dock facilities increased is most timely. The dock at the foot of Seventy-ninth street and the one at the foot of Ninety-sixth street are the only points available, and it is important that something should be done immediately to improve the piers. The Department of Docks understands the importance of this and has ordered plans and estimates for the work.

And now, underground city roads are again coming to the front. The various elevated road schemes in Brooklyn have had such a hard time of it that a company has been organized to utilize the old Atlantic Avenue tunnel, and connect it by subways with the principal centres of population in Brooklyn. It is understood, that the Beach Pneumatic Tube Charter has been secured by Melville D. Smith, who is getting a bill through the Legislature to authorize him to use it, to rususcitate the old Arcade scheme. This would give us a second Broadway underground, upon which could be run not only passenger and freight cars, but all manner of vehicular conveyances. But it is very doubtful whether anything in the way of an underground road will command capital to compete with our elevated road system. It is the cheapest and most pleasant traveling in the world. "Never go underground" said Cyrus W. Field, "until you can't help yourself."

LIBELLING NEW YORK.

Some of the daily papers are injuring the reputation of New York needlessly. The *Herald*, for instance, states that eighty thousand persons received aid during the past year from the Superintendent of the Poor, besides the tens of thousands who were helped by charitable organizations. If this were so, one person in ever twelve is a pauper—a manifest absurdity. The eighty thousand does not represent different persons, but the application for aid many times during the year by the same persons. New York is the natural headquarters for all the thriftless, the dissolute and the impoverished. The wealth of this city has to recognize the claim for aid coming from a wide extent of country. The large foreign immigration also adds to our apparent quota of pauperism.

Then, there is the large death rate of New York, which our own papers persist in saying is due to local causes. As a matter of fact, this city, for all who live in comfortable circumstances, is an exceptionally healthy one. Peter Cooper can live his ninety years in New York, and on all our exchanges and in our churches it will be seen that we have as many old citizens as the healthiest cities in the world. But New York has now the principal medical schools of the country, and here are located the hospitals to which patients come from all parts of the country. Ours is a great immigration depot, and we are credited with deaths from fever when the disease has been contracted in other parts of the world. The newspapers should discriminate in commenting upon our city mortality. In point of fact, our location is healthful, and our real mortality from local causes not greater than that of London. There are very few houses of ill fame in Brooklyn and quite a number in New York, but the average New Yorker is not more immoral than the average Brooklynite. A great city caters to the sinful pleasures of the whole country. This is inevitable from the state of things. We

should not foul our own nests or start reports about the metropolis which are damaging to its reputation.

It is settled that an International Bimetallic Congress is to meet in Paris April 19th. The call for this conference is issued jointly by France and the United States. By the terms of the call only nations favorable to bi-metalism will be asked to attend. So the question of a unit of value, or the matter of mono-metalism vs. bi-metalism will not be discussed. There are two vital topics to be determined. First, the ratio between gold and silver, and second, shall there be free coinage of silver as of gold? The probabilities point to the French ratio, 15½ to 1, rather than the American of 16 to 1, for the reason that there are some twenty times the amount of silver coined after the French ratio compared with the American ratio. While we have not much more than $80,000,000 of American dollars coined at the ratio of 16 to 1, there are 600,000,000 five-franc pieces at the ratio of 15½ to 1. According to the statisticians the total mean average from 1600 B. C. to 1880 A. D. is 1 of gold to 12.18 of silver. But for the last 120 years the average has been 1 to 15.13.

IS SAN FRANCISCO DEAD.

[Correspondence New York *Sun*.]

There seems to be a prevailing opinion in the Eastern cities that capitalists are deserting San Francisco, as rats desert an unseaworthy ship, and that this hitherto prosperous city has received a serious if not fatal check to its rapid growth. It is also said that San Francisco's place as the metropolitan city of the Pacific coast is to be disputed by new towns of the north and south of us. This opinion is a very erroneous one. It has a very slight basis of truth as to our present condition, and it involves a very incorrect estimate of the resources of the State of California, and the rapidly growing trade with China, Japan, the islands of the Pacific, and Central America, upon which the solid prosperity of San Francisco rests.

It is true that the city is now suffering a reaction from the inflation which ruled in the bonanza years from 1874 to 1877. During that period stock gambling was carried on to an extent unknown in older American cities. Men and women of all conditions of life risked the accumulations and earnings of years on the wild fluctuations of mining stocks. Every wild-cat mining swindle that was put upon the market was eagerly taken up by the thousands of confiding dupes who believed that mining investments promised a sure and straight road to fortune. Mining sharps who had been but at few removes from beggary when the excitement began became rich men in a few months, and, as might have been expected, they distributed their money freely and lavishly. Few regarded the enormous yield of the two bonanza mines as anything but inexhaustable, and not a few believed that equally productive deposits would be found in many other mines on or near the Comstock. Speculators from all parts of the Union, as well as from England and Germany, flocked to San Francisco. Real estate in the vicinity of the Stock Exchange trebled and quadrupled in value. Speculation in real estate in all parts of the city became almost as wild and unreasonable as that in the stocks themselves. Enormous hotels, that are years in advance of the needs of the city, were constructed, and costly and extravagantly furnished private mansions were built by lucky speculators, who fondly believed that their temporary and evanescent prosperity rested upon a substantial foundation.

All this speculative and imaginary prosperity is now at an end. The bonanzas have ceased to yield their millions, and their blind votaries on the outside are now too impecunious to respond to the call for assessments. Seats at the San Francisco Stock Exchange have shrunk from $35,000 to $3,000, with no buyers; and the rival mining exchange, the Pacific, where seats sold for $7,000 in 1876, is closed. The vocation of the mining stock sharp is at an end in San Francisco. All the members of the fraternity who could collect money enough from the wreck of their fortunes to migrate to New York and Boston are now busily at work in those cities. They naturally picture San Francisco as a ruined and abandoned town, forgetting that it was only their special vocation, and not the substantial industries of the State and city, that had collapsed.

The people have given up stock gambling. They understand that their own and San Francisco's future must be built up by legitimate business enterprise.

The assassination of the Czar and the advent of a new ruler to Russia, may have important consequences in the near future. The new Emperor hates the Germans; he represents the angry Russian feeling at Bismarck's successful attempt to rob them of the fruits of their victory over the Turks. Matters wear an ominous look in the east. The King of Greece has 80,000 men ready to clear the Peninsula of the Turks. He is the brother of the new Empress of Russia, who is reputed to be as hearty in her dislike of Germany as her husband. The latter may wish for war to quell domestic disturbances. Should hostilities take place, they will involve all Europe, for France would probably be found to be the ally of Russia. A general European war would be a serious matter to this country, for it would involve a drain of gold to Europe, heavy realizing on our securities owned by foreign capitalists and, of course, a lower range of value on our stock-market. It would increase the price of our food products and give a great impetus, in time, to our arms factories and allied industries. Eventually the trade of New York, would be largely increased by a great European war, nor would our securities in the long run suffer, for investing Europeans would prefer a continent of peace to one vexed by the tread of hostile armies. Whether it's peace or war, this city is bound to add to its population, wealth and trade.

MARRIED WOMEN'S RIGHTS.

Is it not about time that the transfer of real estate was put upon the same basis as other property, so that the person who bought could sell without the reference to family relations. In other words, why require the signature of a wife to make valid a deed conveying realty? The law now recognizes the property rights of women, married as well as single, and there is no longer any excuse for requiring the assent of wives in the transfer of real estate. The wife can transfer her property legally without the husband's consent, and the dower rights of wives are a relic of by-gone time, when women were wholly at the mercy of their husbands. There might, perhaps, be some sense in recognizing a wife's right where the property to be sold was an actual home, which had been the residence of a family, or a farm which had been a support. But why should real estate, which is bought and sold every day as a matter of business, be put upon any other basis than a transaction in wheat, cotton or the metals. The right of dower involves constant complications, which benefit only the lawyers. Divorces are unhappily but too common and, when they take place, a cloud is put upon titles to realty which checks improvement and leads to needless litigation. Let husbands and fathers be put under bonds while living, and let their whole estate be responsible for all conjugal and filial claims. But there is no sense in interfering with the fullest freedom of contract between man and man in the purchase of real estate.

Mayor Grace we understand, means business, at least so far as cleaning the streets of New York is concerned. He has abundant evidence that our thoroughfares are not cleaned, and it is said that three police commissioners are soon to be put on trial. All their legal rights will be scrupulously recognized by the Mayor, but if he finds them inefficient, they will be removed, and upon Governor Cornell will be laid the responsibility of saying whether they shall remain in office or not. Should Mayor Grace succeed in cleaning the streets, he will become one of the most popular Chief Magistrates this city has ever had. The present scandalous state of affairs, cannot long continue.

WHAT JOAQUIN MILLER SAYS.

The poet of the Sierras has been dabbling in the New York stock market for the past two years, and he has learned so much that he has written a pamphlet on how to operate in the street. It is being given in instalments in the *Graphic*. According to his own confessions, he has lost a good deal of money, and, therefore, he thinks he is qualified to tell people how to make it. But, whatever he may know about the street, he certainly is well posted about Oregon, where he lived for many years. In the article in the *Graphic* the statement is made that the Oregon Navigation Company's stock and bonds are selling for more than all the taxable property of the State wherein it is located. Oregon is a very poor State, not at all rich like California Its governor receives only $1,500 a year. No doubt the completion of the Northern Pacific Road will lead to a large emigration. But to-day that State is isolated from the rest of the country and has very little commercial business. What is there to make the bonds and stock of a navigation and railway company so exceptionally valuable in such a sparsely-settled, out-of-the-way place as Oregon? It is understood that this company now substantially controls the Northern Pacific; but this is a railroad through a wilderness and can have very little present value.

THE UNION LEAGUE CLUB BUILDING.

There is some fear that the ventilation of the new Union League Club will not be as good as is desirable, but, as a matter of justice to the architects and contractors, it should be borne in mind that their designs were modified by the building-committee of the Union League Club. Mr. Salem H. Wales, one of the committee, in a published letter makes the following admission:

The original exterior designs of the building showed a handsome clock tower surmounted by a bronze dome, which not only gave picturesque effect to the exterior, but also a marked character to the entrance; but this tower, which some of us thought to be a beautiful feature of the design, seemed to scare some conservative members. The comments ran about after this fashion: "The building was chimneyized and towerized—it resembled a factory or a cross between a female seminary and a church." In fact, the tower was a bete noir and must come down. The committee recognized this feeling in the club, and the offensive tower was not only eliminated from the design, but other marked features were considerably modified. The suggested changes, however, did not altogether please the architects, and it can be fairly said that upon the club at large rests the responsibility of marring to some extent the more artistic and symmetrical design. The committee at the critical moment proved not quite strong enough to sustain the architects. I well remember a letter written to me at this time by one of our best-known and most skillful architects—not in the competition—warning me against tampering with the architects' design

for, said he, "to do so would be just about as absurd as to order an artist to paint you a picture and then take a seat at his easel and tell him how you wish to have the work done."

If Messrs. Peabody & Stearns, the architects' are called to account for any defects in the building, they will have an excellent excuse. Their designs were altered, and they must not be held responsible for any shortcomings in the building, neither in its architecture nor in its internal arrangements.

ABOUT MINING.

It is now a year since we first began to give advice to investors about mining properties. We have had our say about all the leading mines, and we are very sure that, where our advice has been followed, no money has been lost. Among the mines we have freely commented upon are the Bassick, Belcher, Bodie, Boston Consolidated, Bull Domingo, Bulwer, Calaveros, Cherokee, California, Chrysolite, Consolidated Pacific, Copper Knob, Colorado Prince, Consolidated Virginia, Dunderberg, Father de Smet, Finlay, Freeland, Golden Stripe, Green Mountain, Hale & Norcross Hukill, Hibernia, Horn Silver, Iron Silver, Mam' moth, Noondays, Ontario, Rising Sun, Sierra Nevada, Silver Cliff, Standard, Stormont, Tip-Top, Union Consolidated, and scores of others.

Persons who are interested in mines would do well to get a file of the REAL ESTATE RECORD and compare our judgment with the course of prices. They will find that very few mistakes were made. Other journals have cared more for the advertisements than for the interests of investors. We have been critical and have honestly tried to shield the public against the mining sharps. We have had but indifferent success, for the public who read the RECORD were not those who made mistakes in investments in mines.

We hear good news about Chrysolite. So long as certain Californians were managing this property, we warned the public against investing in it at high prices. But since it has been under the control of Rossiter Raymond, Walter S. Gurnee, Senator Tom Platt and their associates, we have believed in the property and have advised investors to look into it. We understand it has $225,000 in the treasury and is producing $90,000 a month, with an expenditure of less than $50,000. A 25 cent dividend per month is under consideration, but the management do not want to declare it until they are certain it can be continued.

The Iron Silver is another magnificent property, and should the California officers be expelled from it at the election next month, it ought to be a purchase at present prices.

The price at which Big Pittsburg is selling, is utterly preposterous. The property occupies promising territory and its President is at least an honest and capable man. But among the outside manipulators of this stock are some of the most notorious mining swindlers in the country. Some of these people were caught out last year at high figures, the company was organized when the Little Pittsburg boom was under full headway, hence the name. But when that callapsed the then owners of the Big Pittsburgh stock found themselves stuck at high figures. There was the usual mismanagement, money squandered, and nothing to show for it. But as matters looked better at Leadville since, some of the companies having passed into honest hands, Big Pittsburg has been reorganized and some of the officers are really good people. To raise money, bonds to the amount of $150,000 were issued at 50 cents on the dollar. So far there are no developments that will warrent the 200,000 shares selling for more than 25 cents a share. Any person who pays more than that and loses his money, has only himself to blame. Big Pittsburgh may be a very good property; it may sell for $5 or even $10, before the close of the year, but no investor who understands mining and its perils, would pay any such price as the matched figures on the Mining Exchange would call for.

We warned our readers about the Hibernia deal before that stock was put up on the market and we repeat the same caution about the Big Pittsburgh.

Horn Silver and Bassick we regard as a sale at the quoted figures, not but what the mines are great ones and the management honest, but the ore in both cases is difficult and costly to work, and those who handle the mines do not seem to show judgment.

Central Arizona should not be dealt in. It is a cliqued affair and none but insiders can make any money out of it. The way this stock has been worked up and down on the regular exchange, has done much to discredit the mining interests. It is understood that the chief manipulators are old Chicago grain sharps. The mine itself, which was once called the Vulture, contains a great deal of low grade ore, but water has to be pumped uphill to the mill. It is a good stock to leave alone.

The Father de Smet has declared a second monthly dividend of 25 cents; but the stock is not active, and there is much doubt about its future. It sells for about $11. It would be worth at least $14 if investors were sure that the monthly dividends could be continued.

Bull Domingo has been active this week, and has proved a disappointment to those who had purchased it at higher figures. This stock went begging recently at $2.50, yet it was marked originally from $7.50 up to $12.

It is understood that Messrs. Francklyn and Brown, who made so much money in the marketing of Horn Silver and Bassick at high figures, have become interested in gold mines in Trinidad and St. Domingo. The Spaniards found a great deal of gold in the West India Islands, but it was in the washings of the streams, and no serious attempt was ever made to sink shafts or run tunnels on the ledges from which the gold must have been originally washed. Mr. Hamilton Smith, one of the most eminent mining engineers in California, was recently in this city on his way to the West India Islands, to examine the properties Mr. Francklyn and Mr. Brown think of purchasing. This recalls the company which was formed some years ago to work the mine on the island of Orouba, just off the coast of Trinidad. The company was organized at the instigation of Professor Ricketts of Columbia College, since deceased. That, however, resulted in failure. If Messrs. Francklyn and Brown find some good mines in the West India Islands, it is to be hoped that investors will have some better luck with them than they have had with either Horn Silver or Bassick.

A subscriber in Eighty-fifth street asks our private advice about the prospects of the Silver Cliff mine. We have no advice to give any one respecting the purchase of stocks of any kind. We furnish what facts and information we can get, and investors must exercise their own judgment. The Silver Cliff mine is potentially very valuable, but everything depends upon the mill test. The ore is a chloride silver, assaying from $20 to $30 a ton, and there is a great deal of it. The first mill erected used the dry process. It was a failure. A second and much better constructed mill is now treating the ore by the wet process. Opinions will be divided as to its efficiency, until facts are known. The stocks ought to be valuable in time for the company has a vast amount of easily handled ore. But there may be disappointments in the results of the operations of the mill.

The legal contest between the Bodie and Jupiter mines has resulted in favor of the former. This settles the question that the Jupiter Company have no ground. Their claim of the rich ledge, which runs from the eastern edge of the old Bodie ground into the so-called Jupiter ground, as belonging to them, was disallowed by the court. There is a contest under way for the control of Bodie, which will not be settled before next June. Whoever has this mine will have a very valuable property, one which can be depended upon for any quantity of deals and dividends.

Orange is agitating a water-supply. The population of that healthful and beautiful suburb of New York is increasing so rapidly that houses are being erected so close together as to cause fear of trouble from the sewerage. People will have their cesspools and wells near together, and then come typhoid fever and other contagious diseases. There is plenty of water in the mountain lakes near Orange, and as its property-holders are rich, they can well afford to guarantee the town against the danger of sickness.

BRITISH INVESTMENTS.

HOME AND FOREIGN.

The Economist gives the following figures of British investments as tabulated by the Bankers' Magazine:

	Principal.	Interest.
Home government stock, bank stock, &c.	£750,000,000	£27,500,000
Indian Government and railway stocks	180,000,000	8,100,000
Colonial Government debentures, city loans, &c	135,000,000	6,800,000
Foreign government stocks.	750,000,000	28,000,000
Home railway stocks, shares and bonds	720,000,000	30,000,000
Colonial and foreign railway securities	200,000,000	10,000,000
Home bank shares	65,000,000	7,800,000
Colonial and foreign bank shares	25,000,000	2,500,000
Insurance property	20,000,000	4,000,000
Gas and water securities	70,000,000	5,600,000
Telegraph companies	30,000,000	1,700,000
Home City funded borrowings	120,000,000	5,000,000
Other securities of all kinds held by British investors	400,000,000	20,000,000
Total	£3,465,000,000	£157,000,000

In round figures, the principal may be set down at three thousand five hundred millions of stock, yielding about 4½ per cent. per annum in interest —equal to about £4 5s. per head of the population of the United Kingdom, of which nearly £2 per head is payable to us from foreign and colonial sources. What renders the estimate more interesting is a further calculation as to the periods when the dividends are receivable and their effect upon the money market. This part of the paper in question is summarized below:

Januanry	iterest payments		£32,000,000
February	"	"	15,500,000
March	"	"	12,500,000
April	"	"	19,000,000
May	"	"	6,000,000
June	"	"	3,500,000

In the corresponding months in the second half of the year, the figures fall very similarly, though, as a rule, the railway dividends are not so large. We are some of us apt to talk of the pressure for money always experienced at the end of December and the end of June as in a great measure due to endeavors by banks to hold large balances on "balance-sheet night," but the enormous payments effected on the 1st and 6th of January and July, and the necessity of making provision for them, are quite sufficient to cause the temporary pressure for money which then occurs.

NOTES AND ITEMS.

The office of Register of Deeds has been thrown into direct communication with the Fire-Department to guard against danger by fire—the best that could be done as things are at present—but the urgent necessity is a new fire proof building.

A large business is now being done at the Register's office, and the insufficiency of accomodations for lawyers and others is manifest. The crush is so great sometimes, that it is almost impossible to get around. Register Docharty has done all that can be done in the economy of space, but the building is not one half large enough.

Superintendent Esterbrook, of the Building Department, had a large number of firemen assembled together on Thursday afternoon at his office, to instruct them so far as could be, as to what constituted a building, which, under the law required fire escapes. As the firemen are called upon to keep track of violations in this respect, it was found necessary to instruct them as to what buildings required them.

The Board of Aldermen have given permission to the Sun Association to construct an iron bridge across Frankfort street, to connect the Sun Building with French's Hotel, to be used as a fire-escape.

The London authorities have hit upon a good idea. They are converting all the old graveyards into recreation grounds and gardens. In this country we dig up the bones and convert the ground into building sites. Surely the English idea is better, as it provides open spaces for the poorer people where they are most needed.

Mr. Eugene Kelly, the banker, will build a ten-story structure on Nassau street, southwest corner of Beekman street, to replace the Nassau Bank, and to be 100 feet square. Messrs. Silliman & Farnsworth, the architects, are perfecting the plans.

Dr. Wilson, in his "Health and Healthy Homes," argues that every bedroom should contain at least 1000 cubic feet of air. Land would become very valuable in New York if every bedroom was of this size. Why not open the windows?

The Mutual District Telegraph Co. have asked the Board of Aldermen for permission to lay wires underground in this city. Referred to a Committee on Ferries and Franchises.

Probably the lowest rate yet made by an Insurance Company is one mentioned in the *Spectator* of five cents on a dwelling house, and out of this the broker received a commission of twenty-five per cent.

Mr. Browning's bill relative to assessments provides that all assessments for improvements in New York, south of Fourteenth street, shall be laid upon the property benefited, provided they shall not exceed 30 cents per square foot.

A resolution authorizing and directing the Commissioner of Public Works to pave a number of streets was passed by the Board of Aldermen on Tuesday. Particulars of which may be found under the regular heading of Board of Aldermen.

The Committee on Streets and Pavements, to whom were referred the resolution and ordinance n favor of paving 5th avenue from 90th to 110th itreets with macadmized pavement—report and secommend that the work be done.

The Evening *Express* says: An offer of $450,000 has been made within a few days for the building No. 316 Broadway, but was not accepted. A corner building at White street and Broadway, has been refused a purchaser who made a bid of $600,000 thereon. A short time ago not more than $500,000 could have been realized.

The franchise for a ferry from the foot of Pine street, East River, to Hunter's Point, Long Island City, for the term of five years from the first of May, 1881, will be sold at the office of the Comptroller on Wednesday, March 30th, and on the same date the ferry franchise from 130th street to Fort Lee will be sold with a ten years' lease. Before the year 1891, the time when this lease will expire, we predict great value for this ferry.

At First avenue and Seventy-first and Seventy-second streets the Improved Dwelling Company are finishing the sixth story of a model tenement that covers three sides of a quadrangel 200 feet square. It is divided into apartments of three rooms and four rooms, and will have all the modern improvements. The closets and soil pipes are in a separate structure cut off from the main building. As the company want only 5 per cent. net on their investment, they expect to let the apartments at from $8 to $10 a month. Calvert Vaux is the architect.

Mr. Robert L. Stuart will build a sumptuous dwelling at Sixty-eight street and Fifth avenue, with fronts of 200 feet on Fifth avenue and 100 feet on Sixty-eighth street. Within this space are several trees a century old, and these are to be preserved to adorn the garden. Six architects have prepared plans for the mansion. Polished Aberdeen granite columns will cluster about the entrance, and the porch and main staircase are to surpass anything of the kind yet designated in this city.

Mr. Hamilton's bill to exempt certain loans, secured by mortgage, from taxation, provides that all money now or hereafter to be loaned, secured by a mortgage upon lands in the state, the interest received upon which is or shall be at a rate not greater than 5 per cent. per annum, is hereby exempted from taxation.

The bill introduced by Assemblyman Hamilton, on behalf of Commissioner Thompson of the Department of Public Works, is of vital interest. It authorizes the Commissioner of Public Works to construct another aqueduct to conduct fresh water to the city. The cost of the great work is not mentioned, but the Commissioner is authorized to expend $3,000,000 yearly till it is completed.

An architect on his travels with a Herald reporter said of Grace Church: "You may not have detected it; but the spire is of wood, and the sun has given it a southern inclination. Renwick, the architect, told me that he pleaded for marble, such as he is to have in completing his Gothic triumph at Fiftieth street—the Cathedral—but that the difference between $1,000 and $30,000 deterred the men who were trustees in 1843. You would hardly go to Sing Sing Prison for sculptors; but the marble of Grace Church was chiselled in that prison."

There is such a thing as stretching the technicalities of a policy beyond a reasonable limit. One of the city companies a few days ago insisted upon a reduction of thirteen dollars upon a proof of loss, covering a claim for a fire in a dwelling on which there was forty thousand dollars insurance, on the ground that the policy did not include fresco work. The exemption was hidden away in nonpariel type, and, strictly construed, the company was not liable, but other companies were in the same position and allowed the claim as the whole amount was too insignificant for a controversy. As an immediate result, the mercantile firm of whom the owner of the dwelling is a member, sent written instructions to its broker directing him to place the company on a black list, and do no more business therewith on the firm's account.

Quite a lengthy addition to the building law of this city has been reported in the Legislature, and is likely to go through. The chief features are, that in all buildings hereafter erected there shall be on each floor what might be termed a fire-proof band—that is, at a certain point on the wall the lathing, furring and shearing is to stop, and the entire space is to be filled up with a six inch band of mortar, shutting out all air and preventing the passage of fire. Then all the floors of all, except private dwellings, are to be laid in plaster or cement, the stairways of tenement and lodging houses and hotels are to be made of noncombustible material, and the partitions to the stairways and halls are to be built of brick and carried through the roof. Elevators of all kinds must be built in a brick or stone well room. Altogether the laws are decided improvements on those now in force. I trust that the enforcing of them will be found to be as easy as the drafting of them.

At West Broadway and Franklin street, Mr. George W. Da Cunha, the architect, will break ground this week for a nine-story grocery for Messrs. Francis H. Leggett & Co. The entire first story is to be of granite, from the patent light stoop up to and including the cornice. Thence to the eight story the fronts are to be faced with Philadelphia brick, with granite sills, stil cornices and bands and lintels. The ninth story will be formed by the Mansard roof, which will extend around the entire three streets. This roof will be constructed of fireproof materials and faced with rich dark red slate. The cellar floor will be six feet below tidewater, but it is to be made thoroughly waterproof by heavy cement concrete work. There will be six freight elevators, two forty-horse double deck boilers and an eighty-horse power engine.

ABOUT DIVIDEND-PAYING MINES.

The *Tribune* Mining Digest gives the names and offices of 233 mining companies. There are, it is supposed, some 310 companies which have offices in New York City. The Digest gives official information concerning 159 companies. The nominal capital of the companies doing business in this city is about $1,100,000,000. The selling price of such of these as have any market at all would not represent above four and a half per cent. of the above sum. In view of the swarms of companies which have been organized, we give, as a matter of record, the mines which paid dividends in 1880. Of course, this does not include the private mines—those worked by individuals and firms. In this table it will be noticed that the aggregate dividends from the bullion mines is not much over $9,000,000; yet we know the production of gold and silver during the year 1880 was $73,527,546. This, at least, is the estimate of Superintendent Valentine of Wells, Fargo & Co., and it includes the receipts from British Columbia and the west coast of Mexico. It is safe to estimate that two-thirds of our bullion production is the result of the labors of individuals and private firms, who work quartz claims or hydraulic fields without a company organization. It will be noticed how trifling, after all, is the return in actual gold and silver to the companies about which we hear so much. When any one comes along with a tale of the marvelous richness of some mining claim, it will be well for the reader to have this table by him for reference. But here is the table, which, by the way, is not to be found in the *Tribune* Digest:

GOLD MINES.

Bodie Consolidated, Cal	$125,000
Black Bear Quartz, Cal	37,500
Bobtail Consolidated, Cal	22,732
Copper Knob, N. C	15,000
Deadwood-Terra, Da	50,000
Deadwood, Da	275,000
Excelsior, Cal	200,000
Empire, Cal	44,000
Father De Smet, Da	180,000
Fresno Enterprise, Cal	100,000
Golden Terra, Da	75,000
Golden Stripe, Cal	31,250
Green Mountain, Cal	79,375
Great Eastern, Da	24,000
Homestake, Da	480,000
Idaho, Cal	137,100
New York Hill, Cal	80,000
N. Bloomfield, Cal	45,000
Plumas Eureka, Cal	30,469
Rising Sun, Cal	26,000
Standard, Cal	925,000
Sierra Butte, Cal	125,000
Total	$3,097,426

SILVER MINES.

Argenta, Nev	$20,000
Amie Consolidated, Col	175,000
Breece, Col	20,000
Barbee & Walker, Utah	60,000
Caribou, Col	20,000
Chrysolite, Col	700,000
Climax, Col	160,000
Dunkin, Col	80,212
Evening Star, Cal	125,000
Freeland	50,000
Grand Prize, Nev	50,000
Horn Silver, Utah	100,000
Indian Queen, Nev	18,500
Leadville, Col	30,000
La Plata, Col	190,000
Little Pittsburgh, Col	300,000
Little Chief, Col	700,000
N. Belle, Nev	175,000
N. Belle Isle, Nev	15,000
Ontario, Utah	600,000
Ophir, Nev	100,000
Robinson, Col	250,000
Stormont, Utah (quarterly)	135,000
Starr Grove, Nev	40,000
Silver King, Arisona	75,000
Tombstone	400,000
Total	$4,488,712

GOLD AND SILVER MINES.

Bassick, Col	$25,000
Consolidated Virginia, Nev	540,000
Eureka Consolidated, Nev	290,000
Richmond, Nev	472,500
Western, Arisona	525,000
Total	$1,852,500

COPPER MINES.

Atlantic Michigan	$40,000
Central Copper, Mich	100,000
Calumet and Hecla, Mich	2,500,000
Ore Knob, N. C	112,000
Osceola, Mich	75,000
Quincy Copper, Mich	120,000
Total	$2,947,500

QUICKSILVER MINES.

Great Western, Cal	$12,500
Napa Consolidated, Cal	30,000
Total	$42,500

RECAPITULATION.

Gold Mines	$3,097,426
Silver Mines	4,488,712
Gold and Silver Mines	1,852,500
Copper Mines	2,947,500
Quicksilver Mines	42,500
Total	$12,428,638

The above table will be of value also in giving some notion of the market price of certain of the stocks. It should be borne in mind that the low grade gold mines and the silver mines are the most enduring. An exception to all rules, however, are the Leadville mines, which, though of silver, are short lived, because they are deposit and not fissure vein mines. Among the gold mines in the above which promise to endure are the Bobtail, Deadwood-Terra, Gold Stripe, Green Mountain, Homestake, Idaho, North Bloomfield (hydraulic), Plumas-Eureka, Rising Sun, Standard and Sierra Bute. The Ontario and Tombstone are the only first-class silver mines; of the mixed gold and silver mines, The Eureka and the Richmond have the greatest apparent future.

A HARLEM FERRY.

People in Harlem who have occasion to patronize the New York & New Haven Railroad have for a long time been exposed to the disagreeable necessity of tramping over unpaved and unimproved ground a distance of 300 yards, or more, from the depot to the Third avenue bridge, and there to be delayed for half an hour at times should the draw chance to be open. To obviate this necessity the building of a new bridge has been projected, and the necessary charters granted to that end, but owing to some misunderstanding the contractors have not been allowed to commence operations. In view of this delay, a movement has been set on foot, and a request addressed to the Sinking Fund Commissioners, by parties having funds, boats, and everything necessary to proceed to its immediate operation, for permission to carry out the provisions of the ordinance, by erecting and running a ferry from the south side of Harlem River at Second avenue and One Hundred and Twenty-ninth street, across to a point at or near the New York & New Haven depot. Among the subscribers to this request are the names of S. C. Havermeyer, Charles D. Burrill, William F. Emmett, Clairborne Ferris, Samuel B. White and many others.

A well-known broker in Pine street, noted for his shrewdness and knowledge of real estate, predicts that the quickest money on Manhattan Island to be made is by buying in the region between Central Park, One Hundred and Twenty-fifth street, 4th and 8th avenues.

MARKET REVIEW.

REAL ESTATE MARKET.

☞ For list of lots and houses for sale see pages vi and vii of advertisements.

It is a notable circumstance that, although so far this season there has been no large offerings of local property, yet the Real Estate Exchange has not, for the last eight years, been so well attended as recently. On Tuesday it was filled to overflowing, as several choice pieces of property were to be sold. Among others that of Odd Fellow's Hall, which sale, unfortunately, was stopped by an injunction, however, the other auctioneers had eager bidders for all the property offered, particulars of which are below. It is safe to say that were there any such sale as that of the Mutual Life last spring, the Exchange could not contain the crowd of bidders. The time is ripe for a few holders to group a number of smaller properties, so as to make an offering of sufficient magnitude to test the market in different parts of the city. The results, we are convinced, would surprise even the most hopeful of the believers in the price of realty.

It is also to be remembered that there are many new faces among the bidders on the Exchange, with no diminution of the old ones. As a matter of fact, there are a large number of dealers who have heretofore been speculating in other commodities, who are now turning their attention to real estate. All other openings have been disappointing. The consumption of metals is very great, but iron, copper and tin are quoted at the figures of last summer. Cotton, wheat and provisions show few fluctuations, and indeed have been weak, due to the large offering. So the more solid of the speculative class are turning their attention to real estate. Prices of all kinds of property, improved and unimproved, not only in this city and Brooklyn, but in all the suburbs of New York, have shown a decided advance. The appreciation in Brooklyn house property is especially marked. Of course, we are only at the beginning.

What conceals the true state of the market is the strength with which property is held, and the very little that is offered for sale. None but those that are forced are dealing in this market, as the belief is universal that later on prices will show a marked advance from present figures.

In the Twenty-third and Twenty-fourth Wards there seems to be considerable demand at advancing figures. This region, which a short time ago was prolific in foreclosure sales is now seldom heard of in connection with that sign of depression. All of the new houses built during the last year in Willis avenue and Alexander avenue, and One Hundred and Thirty-fifth to One Hundred and Forty-fifth street, have been readily sold or rented in many cases before completion. This region will witness the advent of many new tenants this spring. A complete system of sewerage is now being built, but the great want is to have streets properly paved.

Messrs. A. H. Muller & Son sold during the week various pieces of business property, among others No. 85 Murray street, for $11,950. This property now rents for $1,150, and will prove a good investment. No. 55 Bond street brought $53,500; the four-story brick house No. 30 East Fourth street, near Lafayette place, $13,050, and No. 17 Waverly place $24,050.

The sale of Central Park property by Richard V. Harnett brought together a large number of bidders, prominent among whom were Amos. R. Eno, John D. Crimmins, Judge Flammer and other prominent operators in the market. It is safe to say from the character of the buyers that the prices paid may be considered a true index of the value of this property, as they are not the kind of men who buy to sell at a loss, all of them having plenty of capital and well known as money makers. The detailed report may be found in its regular column.

Of Brooklyn property a large amount has been disposed of this week at prices most encouraging to holders, and the attention of small capitalists, who after all, are the main stay of the market, is being directed to the relative cheapness of this property in comparison with the prices asked on this side of the river. The sale of Jere. Johnson of unimproved lots was an unequivocal success, as was also that of the Messrs. Muller of improved property. At this sale there were a number of buyers who expected to secure houses for $3,500 which sold for $4,500, but they were disappointed and have made up their minds that they must advance their ideas.

The sale announced for yesterday by A. J. Bleecker, of No. 139 West Eleventh street did not take place, as it was sold at private sale the day before for $13,000.

The attention of investors is directed to the advertisement in another column of the sale by Messrs. A. H. Muller & Son, of valuable property on the northwest corner of Duane and Church streets; also Columbia College leasehold, No. 8 College place.

GOSSIP OF THE WEEK.

Mr. Michael Brennan has purchased two lots on Sixty-seventh street, commencing 225 feet east of Fifth avenue, 46 feet front, for $61,000. The same gentleman was the purchaser at auction during the week of the lot on Madison avenue, southwest corner of Sixty-fifth street, formerly owned by Griffith Rowe, for which he paid $34,550.

Mr. Robert L. Stuart has sold two lots on Fifth avenue, between Sixty-eighth and Sixty-ninth streets, for $80,000 each.

Messrs. E. H. Ludlow & Co. have sold No. 106 East Fifty-seventh street, 20x100, four-story brown stone front house, for $28,500; also No. 73 West Fifty-fifth street, four-story brown stone front, 17.6x60x100.5, for $24,000.

The same firm has sold the premises No. 279 Madison avenue, northeast corner of Fortieth street, 34.8x100, with stable in the rear, known as No. 25 East Fortieth street, 25x98.9, for $175,000. This house was the residence of Mr. Benjamin G. Arnold, the coffee merchant who failed recently, and we have no doubt but that the news of this sale will be welcome to the creditors.

Mr. W. & J. O'Brien have leased Nos. 619 and 621 Broadway, between Houston and Bleecker, 50x195, for twenty-one years, with two renewals, to Messrs. Newman & Kohn, for $10,000.

Nos. 649, 651 and 655 Broadway, containing a frontage of 70 feet, owned and occupied by Messrs. W. & J. Sloane, the carpet men, has been sold to Messrs. Hecht Bros., of Boston, for $530,000. The adjoining property, containing 45 feet front, was bought some time ago by Messrs. Naum burg, Kraus, Lauer & Co., through whose advice Hecht Bros. made their purchase, for $230,000, although the vacant ground on which their store is built cost B. L. Solomon $335,000.

We hear of sales of Broadway, Fifth and Madison avenue property by L. J. & I. Phillips, who, however, as is customary with them, refuse to give any particulars.

The house No. 14 East Sixty-fourth street, between Madison and Fifth avenues, has been sold to Mr. E. L. Owen, for $42,500.

Messrs. S. T. Meyer & Sons have sold for the Charter Oak Life Insurance Company, the premises No. 39 Broadway, 28.6x215, to Mr. Schlesinger, on private terms, although the amount is a Pine street open secret. The same brokers have sold a four-story brown stone house on Fifty-seventh street, 20x55x100, between Lexington and Fourth avenues, for $28,500. Also two lots on Sixty-seventh street, between Tenth and Eleventh aveuues, for $3,500 each.

Mr. Einstein has sold No. 51 West Fifty-seventh street, 25 feet front, for $65,000, to Mr. Rose.

Mr. M. A. J. Lynch has sold the adjoining lot to Mr. Goelet's new residence on Fifth avenue, near Forty-seventh street, for $ 5,000.

Mr. V. K. Stevenson, Jr., has sold the four-story high-stoop brown-stone front house, No. 20 West Fifty-first street, 20x50x100, Columbia College lease, for $24,000, to H. K. Enos.

Messrs. Wm. Heath & Co. have leased new offices at 61 Broadway. This is the first banking house who have crossed to the east side of Broadway, and was caused by the purchase by D. O. Mills of the property Nos. 35 Wall and 17 and 19 Broad streets, where the Messrs. Heath have been located for many years.

Mr. E. J. N. Hale, the Boston capitalists, who bought at auction, about three months ago, the property on the northwest corner of Broadway and Duane street, for $250,000, and refused $50,000 advance before taking title, has rented the premises to Holtz & Koenecke, the restaurant men, for five years at the rate of $21,000 per year.

Negotiations are still going on without, however, any immediate prospect of a favorable conclusion, looking to the purchasing by prominent capitalists of the block of ground on the west side of Fifth avenue, between Thirty-third and Thirty-fourth streets, for hotel purposes. This block is owned by members of the Astor family, and the prices which they believe the property to be worth and that placed upon it by the brokers having the matter in charge for the hotel people are so widely at variance that there is but little chance of a favorable termination.

The two lots bought by Mr. Wm. P. Draper on Fifth avenue for $145,000, for which he since refused $155,000, are to be immediately improved by the erection of a magnificent dwelling to cover both lots.

The real estate market in the Ninth Ward is very active, and the demand for investment account greater than at any time since 1872, this may be accounted for by the fact that real estate agents in that locality claim that investments in their ward yield a larger income for the money invested than any ward in the city, particularly for property located west of Hudson street and between Clarkson street and Gansevoort Market.

As evidence of the rise in real estate in this portion of the city, we may cite the property northwest corner of Hudson and Eleventh streets, which was purchased last July for $21,000, and for the same property $32,000 was bid and refused this week; a small property on Charles street, which was sold in December for $4,050, the owner refused an offer on Wednesday of $6,000.

The advance in rents in this portion of the city is from ten to twenty per cent. over last year's prices, and in exceptional cases, the expiration of old leases, as high as forty per cent. has been demanded, and acceeded to by the present tenants.

There is also some inquiry from Wholesale Grocers for stores in the vicinity of Gansevoort Market.

The owner of the old Sweeney property on Broadway, between Thirty-third and Thirty-fourth streets, offered some time since to lease the same to responsible parties for twenty-one years, with two renewals, for $45,000 a year, provided the lessees would improve the property at a cost of not less than $300,000.

The brokers claim to have accepted the offer for their principal, and were surprised when the owner announced that the prorerty was withdrawn from the market, and have brought suit to recover their commission. The broker mentioned is the same who negotiated the lease of Wallacks Theatre.

There are thirty-five new houses, by actual count, now in course of erection, all of which will be finished within the next ninety days, on One Hundred and Twenty-seventh street, between Seventh and Eighth avenues. The tendency seems to be to build above One Hundred and Twenty-fifth street, rather than below it, and it looks as though the region between this street and Macomb's Dam bridge would be built up in advance of that between One Hundred and Twenty-fifth street and the Park.

Ex-Alderman Willis Blackstone is having plans prepared for the erection of a large store on his property, on the corner of Greene and Spring streets.

The following are the sales at the Exchange Salesroom for the week ending March 18:

** Indicates that the property described has been bid in for plaintiff's account.*

Ann st, Nos. 49 and 51, 38.2x86.5x37.9x—, two four-story brick buildings.	J. G. Wendell.	$28,450
Ann st, No. 55, 19x77.3, four-story brick building.	W. A. Spear	13,300
Broome st, No. 39, 25x100, two-story frame dwell'gs and frame stable.	E. Peterson	4,675
Broome st, No. 286, 21.11x102.2, five-story brick building.	William Rowe	14,500
Bond st, No. 55, 22x65.7x22.3x61.3, three-story brick house.	H. Mundheim	13,500
City Hall pl, No. 37, 18.6x100.	L. Nauman, (Executor's sale)	8,500
Delancey st, Nos. 270 and 272, 55.11x100x—, four-brick tenem'ts.	Aaron Stone	16,500
Delancey st, Nos. 292 and 294, 50x100, four-story brick tenem't, three-story and three two-story brick stables.	Eliza Ludwig	8,350
East Broadway, No. 85, s s, 25x75, three-story brick and frame dwell'g.	John Fitzgerald.	11,000
Murray st, No. 85, 23.6x50.3, four-story brick store.	W. Rosentreiter	11,950
Reade st, No. 146, 25x63, four-story brick store.	Robert Day	20,000
Thompson st, No. 210, 25x100, three-story brick dwell'g.	B. P. Johnson	8,600
Thompson st, No. 242, e s, 80.1 s West 4th st, 20 x23.1, two-story brick stable.	Samuel McCreery	4,000
Waverley pl, No. 17, 28.4x132.11, four-story brick dwell'g.	S. W. Sherman	24,050
West 4th st, No. 59, s s, 20.7 e Thompson st, 25x100, four-story brick dwell'g, with two-story brick extension.	Samuel McCreery	19,200
4th st, No. 30, 24.5x84.8, four-story brick dwell'g.	S. T. Meyer	13,050
4th st, No. 230 W., 26.6x101, three-story brick dwell'g.	Louis C. Raegener. (Public auction sale)	15,000
10th st, No. 119 E., 26.6x94.1, four-story brick dwell'g.	John J. Smith	16,100

BUILDING MATERIAL MARKET.

BRICKS.—This may be recorded as the week for the re-opening of trade in North River brick for the season of 1881, and it brings with it quite an unsettled market at a somewhat reduced line of values. The first receipts were on Monday and Tuesday, and embraced a few sailing vessels, with quite a number of barge loads brought down by tugs, the total receipts approximating some two million brick. With this amount before them, and such supplies as were available from other points, buyers were at first inclined to stand off in expectation of a heavy drop in prices, but, finding that receivers did not weaken to quite the extent calculated upon, orders were given with greater freedom and a fair proportion of the offering taken. Subsequent arrivals, however, quite balanced the demand, and the selling interest were unable to regain any advantage, indeed, found it necessary to even shade a fraction more on the undesirable parcels if sales were made, and, as we write, the feeling appears to be rather irregular, with perplexity among both buyers and sellers. A great deal of stock is wanted, but those who will use it at an early day are trying to decide whether it is better to continue purchases as opportunity to handle them presents itself, or to stand off until the last moment on the chance of getting better terms. Receivers, in the meantime, hesitate between the propriety of steadily offering supplies and easing off until they find an operating basis, or of resisting further concessions in hopes of bringing buyers to terms. It is thought that the first flush of arrivals over, the receipts will be smaller and less oppressive, and the position in consequence, more easily managed. There is a great many brick to come forward, but it is believed manufacturers are in a position to deal them out in moderate quantities. The line of valuation for the time being is somewhat nominal. As high as $8.00 is asked for Haverstraws, but $7.25@7.75 is nearer the operating basis. No "Up-Rivers" here yet, but it is believed they would sell well. Long Islands about $7.00@7.50 per M, Staten Island $6.50@7.00 do., and Jerseys $5.50@6.25 for the ordinary brands. Pale brick have not been very plenty, nor were they much wanted, and the cost ranged low, with nothing likely to exceed $3.00@3.50 per M, except the quality was unusually attractive. It is understood that the cost of Fronts will not differ much from last season.

HARDWARE.—There has been a very good local demand with a tendency to still further increase and the out of town orders are slowly but surely gaining in volume. The selection is general so far as regular and standard descriptions may be concerned and buyers in some cases are willing to operate in anticipation of future wants, though this is an exception rather than a rule. Jobbers and retailers who cater to the local trade appear to retain great faith in a large city consumption of builders hardware during the coming season. Prices, in a few, instances are without a settled basis, yet on the average the tone is firm and very little variation from the regular trade lists takes place.

LATH.—So far as made public, there has been no change of a positive character on this market for the week. Supplies received have, as a rule, been placed without much difficulty, and $2.00 per M is understood to have been the rate, with this price still asked, and no very large amount of stock offering. The demand, however, as before noted, is not very sharp, and buyers move careful. Most dealers have a fair amount of stock on hand, and, as a rule, will not purchase in anticipation of the future, especially at a season when there is a chance of larger offerings, even though light shipments are reported.

LIME.—The features of the market are much the same as for a week or two past. Available supplies are small and find a free open demand, which prevents any accumulation, while the basis thus secured give sellers much strength and confidence, and full former rates are in all cases quite positively insisted upon. The purchases now making are a little closer to actual wants than heretofore, as dealers are hopeful that with the resumption of navigation and more settled weather larger supplies may work forward.

LUMBER.—During the past four or five weeks we have several times had occasion to refer to a rather disappointing market on offerings made for immediate delivery, and this feature still continues to a greater or less extent. The difficulty is not so much in the amount seeking sale, which has not been of unusual proportions, but rather in the amount on hand. The severe winter and the serious impediments to transportation have so greatly interfered with deliveries, that a large number of dealers are now left with a greater accumulation than anticipated and until they see this shrinking into small proportions will not make fresh purchases. On the other hand, however, the demand for Specials of both Spruce and Yellow Pine continues good and the capacity of many mills is under engagement a long way ahead, and at full prices. Indeed, the prospective wants of the market during the approaching open season appear quite as full as ever and many of the trade expect a much more decided development of animation within a few weeks. The export demand also promises well on both the South American and West India trade and the African and East India outlet also appears likely to exhaust a goodly amount of stock. Several new buyers having appeared in representation of these latter sources of demand. Most interior accounts are firm in tone.

Spruce on special order continues in very good demand, and in addition to the mills at work and shipping as fast as they can turn out stuf, others have an accumulation of bills in hand which will start them at full capacity as soon as they can get saws in motion and keep them busy for a long time to come. The deliveries, however, are by no means intended entirely for this point, both Portland and St. John, N. B., cutting a great deal of stuf for export, beside which they, in common with other places of production, holding orders of considerable magnitude for East coast and sound ports as well as from Philadelphia, &c. Our buyers, in fact, have of late been a little backward in sending in their orders and continue skirmishing around the random offering with more or less success in securing temporary favors, especially on the latter, making this rather the worst market at present on the coast. Dealers say the amounts they have unexpectedly been compelled to winter over will carry them for some time yet, and are therefore not anxious buyers of additions unless extra attractions are offered, while they argue that in view of the large prospective crop of logs there is no necessity for haste in ordinary specials. According to advices at hand, manufacturers do not appear to be much disturbed, but on the contrary seem to think that demand from other sources must keep them busy and will probably form basis for greater advantages when at last new buyers conclude it is time to commence operations. Poor random might possibly range down to $16 per M., but few sellers are to be found for less than $17, and some ask $18, while specials range up to $20, according to cut and delivery.

White Pine has shown some irregularity. Choice stock, especially South American shippers, remains really scarce and under control, with owners looking for full rates, but on other grades there is occasional indications favorable to buyers. Many consumers have a light accumulation, but are owners of stock at Albany and think they will worry along until this can be reached, while others have found offerings from the West by rail in pretty good quantity and at low enough figures to lead to the belief that there need be no hurry about securing supplies. Exporters are in the meantime moving to a fair extent and diminishing the bonded supplies as well as free goods at full former rates. All advices from primary points assume a firm and confident tone, though in some cases the number of sellers appears to be rather large. We quote $17@20 per M for West India shipping boards; $24.50@26 for South America do.; $16@16.50 for box board; $17 17.50 for do. wide and sound do.

Yellow Pine is not wanted for immediate delivery, and unless very attractive draws only low bids. We find, however, that holders are not pressing matters, but incline to carry stocks under the full belief that the bulk will be wanted as the season progresses. For specials the demand is unabated, and still covers a general range for manufacturing, building and docking purposes, with periods of delivery in some cases extending well into the fall months. Prices well maintained, and where buyers are somewhat in a hurry, there is a quiet offering of premiums as an inducement for manufacturers to "accidentally" give late comers precedence over earlier orders at a lower basis. We quote random cargoes at about $23.50@25 per M; ordered cargoes $24@26 do.; green flooring boards, $24@

25 do., and dry do. do., $25@26.50. Cargoes at the South $14@17 per M for rough, and $19@20 for dressed.

Hardwoods continue in demand, a combination of influences insuring a strong market, and the retention of extreme quotations on all grades. Through shipments on foreign orders continues to a fair extent. We quote at wholesale rates by carload about as follows: Walnut, $77@85 per M; ash, $33@36 do.; oak, $35@40 do.; maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $45@47 do.; white wood, ¼ and ⅝ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

From among the lumber charters and engagements recently reported we select the following:

A Ger. barque, 490 tons, from Portland to Montevideo or Buenos Ayres, lumber, $14.25 net; a new Am. barque, 645 tons, from Portland to Montevideo or Buenos Ayres, lumber, $14.50 net; an Am. barque, 1,191 tons, same voyage, $11 net; a Br. brig, 509 tons, from Brunswick to Rio Janeiro, lumber, owner's account; an Am. barque, 880 tons, from Savannah to Corunna and Seville, resawed lumber $15, and hewn timber $15.50; an Am. brig, 390 tons, hence to Havana, lumber, $4.25; two Am. brigs, 431 and 242 tons, hence to Matanzas, white pine lumber, $4; a scr., 225 tons, hence to Jamaica, lumber, at or about $4.50; a schr., from Boston to Cuba, 900 empty hogsheads, 70c.; a schr., from Portland to Havana, shooks, 23c.; a schr., 260 M lumber from Satilla Lower Mills to Boston, $7.50; a schr., 280 M lumber, from Darien to Camden, Me., $7.50; a schr., 200 M lumber, from Jacksonville to Philadelphia, $7.50; a schr., 200 M lumber, from Wilmington, N. C., to Bath, $7; a schr., 280 M lumber, from Darien to Belfast or Camden, Me., private terms; a barque, 591 tons, from Savannah to New York, resawed lumber, $6.50, and timber $7; a schr., 300 M lumber and timber, from Charleston or Darien to New York, private terms; a schr., 350 M lumber, from King's Ferry to Philadelphia or New York, $7.40; a schr., 300 M lumber, from Pensacola to Bridgeport, $8.50; a schr., 142 tons, hence to Jacksonville, general cargo, and back with lumber, $10 for the round; a brig, 175 M lumber, from Pensacola to New York, $8.50; a schr., 228 tons, from Barren Island to Norfolk, fertilizer, $1.25, and back with lumber, $3.50; a schr., 300 M lumber, from Brunswick to Boston, $7.35; a schr., 155 tons, from Rappahannock to Bath, oak timber, $5 ℔ ton; a schr., 230 tons, hence to Fernandina, and back with lumber, $9 ℔ M for the round.

Exports of lumber from the port of New York:

GENERAL LUMBER NOTES.

THE WEST.

The Northwestern Lumberman as follows:

CHICAGO.

When the lumber dealers of a market in the face of such weather as has prevailed since our last report was written, declare themselves satisfied with the volume of trade, we can only come to the conclusion that trade is good. This is the case with the dealers of Chicago at present, notwithstanding the fact that for the past six days railroad communication has been almost wholly suspended in all parts of the country with which they are accustomed to deal. So seriously has the severity of the last and worst storm of the season been felt, that in some directions no trains penetrated to a distance of 40 miles from this city, and no mails were received from further points, for fully four consecutive days. On the 10th inst. trains reached this city from Minneapolis which started on the 3d of the month. Under these circumstances it is not surprising that the actual shipments as shown by the figures were exceeding small as compared with the corresponding week of last year, while in considering all the facts, it is a matter of surprise that the dealers, instead of feeling dispirited, are buoyant in the reception of a large number of orders, so that we have failed to find one who is not in the best of spirits over the immediate and future prospects of trade.

Inquiry reveals a dearth of dry stock in all grades, while small timber is so scarce as hardly to be obtained. What there is in stock is controlled mainly by one house, whose foresight has led it to secure all the available supply of this stuff. Prices, while not generally advanced, are steady and firm at and above the published list, it being no unusual thing for dealers, in their interchanges with each other, to charge from $1 to $3 per thousand feet above the established list prices. A wager was laid last fall between two of the leading dealers of this city, the one contending that fencing strips would sell at $15 before the 1st of May, and the other willing to risk a suit of clothes to the contrary. At the last meeting of the lumber dealers of the city, the assertion was made that one pile of 14 feet and one pile of 16 feet strips had changed hands during the past week at $15. This fact indicated the tendency of the market, as the list price of this grade of lumber is but $13.50. Were it not that so large a proportion of this stock now on hand is outside the category of dry lumber, a general revision of the price ist would at once be necessary, and in any event we annot believe that it will long be delayed.

Hardwoods.—A report of any class of "trade" in this city for the past ten days must neccesarily be meager. For once the oldest inhabitant throws up the sponge, and says that the business of the city was never so sat down upon by a storm before. Probably not a half dozen car-loads of hardwood lumber came to town within a week.

The contracts made by our dealers for maple aggregate millions of feet. The demand for maple flooring has not been met for some time past, but there is no probability that it will be scarce for some time to come, although the dry kiln will be for a while called in use. That the sales of this kind of flooring for the present year will exceed those of any two years past, there is no doubt. At the same price many prefer it to ash, and the high price of the latter will cause it to be looked upon with still less favor.

Some of our largest dealers are full of oak, and are rejecting proposals to buy. It will be the most plentiful hardwood in market, and, unfortunately, it is one of the woods upon which dealers make the least money, especially when it is bought green. Unless piled with the greatest precaution, the checks which come with seasoning throw it into a grade lower than it was inspected in at.

Dry, thick ash is eagerly sought after, but rarely found. An out-of-town manufacturer was looking for a couple of car loads yesterday, but at last accounts his search was fruitless.

A manufacturer, who has a large contract, has been picking up all the dry walnut, 1¼ and 1½ inch, possible. From one yard he obtained two car-loads, but no concession was made in prices. Some yards are entirely drained of culls, and but few have anything like a respectable stock.

The furniture men are talking strongly of advancing prices, and doubtless will do so soon. We learn, authoritatively, that one firm is sending out bedsteads upon which it makes but 10 cents each, and there is no reason to doubt but that others are in the same boat. The tendency of walnut is still upward rather than otherwise. Some parties out of town, who are holding fine lots, think they see more money in them than at present they are able to obtain. Such a condition naturally forces furniture manufacturers to the conclusion that the price of their wares must be advanced, or that their labor and outlay will meet with poor reward.

NEWS FROM THE LOGGERS.

The general report from the logging districts is that the last storm was rather more than many of the operators could stand, and that, becoming disgusted with the situation, numbers of them gathered up their effects and withdrew from the scene of action. It would not be the truth to say there has been a general exodus from the camps, or that the season is by any means ended. Such is not the case. A great many camps are in as full operation as they have been at any time this winter, and hope to accomplish considerable work before the season closes. The complaints that the snow is too deep for the work to progress advantageously come from all parts of the Northwest. The weather is not as cold as it has been, and between the storms the snow settles some and packs down pretty readily; but up to the time of our latest reports from the front, the storms were rather ahead of the warm weather, the depth of snow ranging in the pineries from three to five feet and still gaining. It will not be questioned, now, but that the extraordinary depth of snow and unusually severe weather of the last few weeks has put back the work amazingly. Our White River correspondent estimated, in the latter part of January, that fully 60 per cent. of the anticipated cut of that stream was then banked; his letter of this week states that there is not now more than 75 per cent. secured, which shows that during February, which is generally considered one of the best months of the season, only 15 per cent. of the work was done. If we assume the logging season to last five months, it will be apparent that the last four weeks fell short of its proportion by fully one-quarter. It may be said that the White River case is an extreme one; possibly it is, but, at the same time, we question whether there are many streams in the Northwest upon which so large a part of the expected cut of logs has been banked up to this time. Undoubtedly a greater proportion than this of the total amount that will be secured by the time the season closes is now obtained, but it is also true that on a number of streams the total amount that will be ready for the drives when they start will be less by a good many million feet than what was figured upon last fall. In a word, it is the opinion of the Lumberman that the total log cut in the Northwest for the winter of 1880–81 will be less by a large percentage than it was expected to be. It is not meant by this that there will be a lack of logs for the next season's demand of the mills; nothing is more unlikely than that the mills will not be able to produce all the lumber their owners wish them to. The result, in case the present indications of a shortage in the winter's cut prove correct, will be to increase the summer logging operations of a few months hence. There are not very many streams left upon which logs can only be secured while there is snow on the ground, and the possible shortage on these few cannot in any event be large enough to overbalance the increase that may be effected on the numerous streams where log hauling with modern devices is nearly as easy in July as it is in January. If there are any who fear that the log and lumber supply of the Northwest is to be curtailed this season because of the unfavorable weather of the past few weeks, they may dismiss their fears without hesitation. The operators have demonstrated their ability, heretofore, to make good deficiencies, and it would not be very wise to suppose they will not be able to do it this season, with all the inducements they are likely to have during the next six months to make the necessary efforts. The mill capacity has not been increased so largely for nothing, and to suppose that desiring the logs, and having at hand the means, they will not secure them, is confessing to a profound degree of ignorance regarding the enterprise and persistence of the lumber manufacturers of the Northwest.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.

The complete blockade of all the railroads of the West suspended all communications in the West during the week, leaving nothing to report in reference to the lumber business. The feeling is buoyant and hopeful, every one anticipating a general opinion at an early day.

The reports from the pineries found elsewhere in this paper show that our opinion for several weeks was correct. We will have in the northwest 250,000,000 feet more lumber than in 1880. This gain will be largely in the railroad mills cut. Considerably less logs will be sent to the lower market by river than heretofore, but there will be a full supply for the northwest, (to draw it mildly) and some nerve will be required to keep down a contest for trade among dealers, especially as many new men will enter the lists, and many changes be made in the whole situation. Advices from the Chippewa show that there is less than 20,000,000 feet of logs out of the whole cut now on the market, and that good fair logs running four to the thousand readily bring $7 on the bank. This is $1 better than our last week's quotations. This indicates great confidence in the lumber for 1881. This stoppage of mails has cut us off from Michigan news.

FOREIGN.

The Timber Trades Journal has the following:

LONDON.

There was another two days' sale this week by Messrs. Churchill & Sim at the Baltic rooms, beginning on the 23d, with an assortment of all kinds of timber in common use. Quebec bright 1st yellow pine deals drooped again at the sale. Those ex Hahnemann were put up on Wednesday in small handy lots of from 4 to 8 standards, but the best sizes, 12 to 21 in., only went to £18; less favored sizes lower, to £16; 3ds, £8 10s. to £9. But the greatest bargain was, perhaps, a lot of 588 pieces, 3x11 (dry), quality uot mentioned, at £7 10s.; birch 15 to 22 in., averaging 22 cubic feet per piece, went at 1s. per foot, and some lots of Quebec elm and red pine that were put up without reserve, as shown in our report, went for about import price. Ash planks of good sizes average about 2s. per foot cube, and oak about 9d. a foot more. There were above 100 lots of timber put up with a reserve on them, but not a single bid was offered. Pitch pine would have gone at 75s., if anyone had offered. Saldowitz timber was held at £6, then offered at £5 10s., smaller sizes £5, but the room was silent. 77s. 6d. was named as the reserve on best middling Dantzic, good sizes, and 10s. less 2d middling, but there were no buyers. There was a large quantity offered, but the reserve was considered too high; in fact, on this day's sale, nothing elicited a bid that was held for a price, and the proceedings terminated at 2:20 P. M.

At the second day's sale some goods went better—yellow pine, for instance—some 2d bright yellow, good widths, fetched £15 10s., other £12 10s. to £13 10s., but in very small parcels, and Helsingfors 1st yellow, 3x7, only fetched £8 to £8 10s., in good mercantile parcels of 20 to 30 standards.

LIVERPOOL.

There is no alteration in the character of business from that recorded last week, for there is yet a want of that animation and liveliness which most people look for at this time of the year.

Walnutwood and whitewood have arrived rather freely, and prices of these goods have a downward tendency, as the consumption is not at any time large, especially of the latter. The demand for prime walnutwood has been good for some time past, owing to the run now made upon it for furniture, but it is doubtful whether the present fashion will last long, and we think the supply is now overrunning the consumption, hence the probability of a fall in prices.

Several parcels of these woods were sold by auction on Friday, the 18th instant, by Messrs. Duncan, Ewing & Co., but some of the walnutwood, which realized low prices, was of medium to poor quality and sizes.

The black walnutwood sold as follows: A parcel of 35 logs realized 4s. 7d. to 5s. 3d. per ft., averaging 4s. 10¾d. per ft.; a parcel of 14 logs sold at 4s. 6d. and 4s. 9d.; a parcel of 31 logs at 4s. 1d., and one of 20 logs at 3s. 8d. to 4s. 1d. per ft.

For the whitewood there was no bid, and consequently it was withdrawn.

On Thursday last Messrs. Edward Chaloner & Co. offered about 55,000 New Orleans staves, which sold readily at the following prices:

	Per Mille.
New Orleans extra heavy pipe,	£60 to £60 10s.
" single,	£37 10s. to £38.
" extra heavy hhd.,	£38 15s. to £40.
" " barrel,	£23 to £23 10s.
" " keg,	£17 10s.

On the same day Messrs. Duncan, Ewing & Co. sold about 100 loads of teak planks at prices ranging from £14 to £17 2s. 6d. per load, according to the sizes.

HULL.

The state of trade here shows little or no improvement, the cry being "nothing doing." The consumption of wood in the interior is on a very limited scale, and the inland merchants appear to be able to deal with it from their stocks without drawing in any perceptible degree upon the stocks at the ports.

METALS. — COPPER—Ingot without much demand and the market at times showing a really dull tone. Under this influence values have eased off a fraction, but as a rule stocks are under too good control to allow of any direct pressure to realize. We quote at 19@19¼c for Lake. Manufactured copper selling in about the usual form and volume and without new features worthy of note. We quote as follows: Brazier's Copper ordinary size over 16 oz per sq foot, 28c per lb; do do do, 16 oz and over 12 oz per sq foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz, per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 34c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz, per sq foot, 26c per lb and Bolt Copper, 28c per lb. IRON—Scotch Pig has been held quite steadily, and owners of lots in store express confidence in the general situation of the market. Now and then from a landing parcel a comparatively cheap purchase can be made, but the shading is not of a character to establish a reduced line of aluations. We quote at $22.00@24.50 per ton, accord

to brand and delivery. American Pig has been very quiet, no large parcels, coming under call, and even the small orders amounting to less than ordinary. The principal companies have refused to concede on price, but it is intimated that some "outside" offerings have been made for less money, including one or two hypothecated lots. We quote at $25.00@26.00 per ton for No. 1; $22.00@23.00 do do for No. 2, and $20.50 @21.00 for forge. Rails are having the most liberal sale of anything on the market; steel stock doing best, but a very fair proportion of iron also finding calls, and the contracts extending well into next season. Prices are higher and have also reached a point to admit the foreign make, several sales of the latter taking place for delivery at the South. Old Rails have met with rather better inquiry and the tendency has been to check decline and harden values again. We quote Rails at $46.00@48 for iron, and $60.00@63.00 for steel, according to delivery. Old Rails $27.00@29.00 per ton; scrap, $30.00@32.00. Manufactured iron appears to be securing a somewhat better demand, and while not as yet very active, dealers and manufacturers look for a full, free distribution during the incoming season. The stocks at some points are very full, with quite a little competition extant, and this leads to irregularity on values though on the general range about former figures may be retained. We quote Common Merchant Bar, ordinary sizes at 2.3@2.5c from store, and Refined at 2.5@3.5c; wrought beams at 3c. Fish plates quoted at 2⅜@2½c; track bolt and nuts, 3½@3⅝c; railway spikes, 3c; tank, 3@3.1c; angle, 3c; best flange, 6c; and domestic sheet on the basis of 3½c, for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c less on large lots from cars. LEAD—Domestic Pig has sold slowly and in small lots with the general tone of the market weak under gradually increasing supplies. We quote at about 4¾@4⅞c. The manufactures of lead are steady and quoted: Bar, 6c; Pipe, 6½c, and Sheet, 7c, less the usual discount to the trade; and Tin-lined pipe, 15c; Block Tin Pipe, 40c, on same terms. TIN—Pig selling fairly on the general run of trade orders and the position about steady. Holders generally appear to entertain great confidence in the future of this market. We quote 19¾@19⅞c for Australian, 19¾@20c for Straits, 19¾@20c for English Refined, 19½@19¾c for do. Common. Tin Plates were taken from store in small lots to a fair extent and at full rates, but no very heavy parcels called for and values a trifle unsettled. We quote I. C. Charcoal, third cross assortment, $5.75@6.00 for Allaway grade, and $6.12½@6.25 for Melyn grade; I. C. Coke, $4.87½@ 5.00 for B. V. grade; $5.12½@5.25 for Yspitty grade; Charcoal terne, $5.12½@5.37½ for Allaway grade 14x 20; $11.00@11.12½ for do. 20x28; Coke terne, $4.75@ 4.87½ for Glais grade 14x20, and $10.00@10.12½ for do. 20x28—all in round lots. Spelter finds a moderate jobbing trade and about a steady market with only fair offerings. Quoted at 5@5¼c as to brand, etc. Sheet Zinc in good average demand and ruling steady at 7@7¼c according to quality and quantity.

NAILS.—The market, on the whole, has been fairly active, and the advantage remains well with the selling interest. The demand on home account is as general as circumstances will admit, with every promise of further increase as soon as means of transportation improve, and the foreign orders are keeping up to a good fair average. Supplies are not excessive, and holders maintain values without much difficulty at the range recently established.

We quote 10d to 60d, common fence and sheathing, per keg, $3@3.10; 8d and 9d, common do, per keg, $3.45@3.55; 6d and 7d, common do, per keg, $3.70@3.80; 4d and 5d, common do, per keg, $3.95@4.00; 3d and 4d, light, per keg, $4.70@4.80; 3d, fine, per keg, $5.45@5.55; 2d, per keg, $5.45 a 5.55.

Cut spikes, all sizes, $3.45@3.55; floor, casing and box, $3.95@4.45; finishing, $4.20@4.95.

CLINCH NAILS.

1½ inch, $5.70@5.80; 1¾ inch, $5.45@5.55; 2 inch, $5.20@5.30; 2½@3¼ inch, $4.95@5.05; 3 inch and longer, $4.70@4.80.

PAINTS AND OILS.—The movement of supplies appears to be improving as rapidly as the facilities for handling will permit, and, as a general thing, dealers use a cheerful, confident expression in referring to the market. The general accumulation is full enough and sufficiently well assorted to satisfy most calls of an ordinary character, but not excessive, and prices rule about steady throughout on the standard grades of paints and colors. Leads are still showing irregularity, and rather incline to favor the buyer, as the cost of production is diminished by the decline in price of material. Linseed Oil has been slow of sale with a slightly downward tendency on values, though stock is not pressed to an outlet from any source, and some crushers retain considerable confidence. We quote at about 56@57c. for City, and 62@62½c. for Calcutta from first hands.

STONE.—According to present appearances and calculations the prospect for all kinds of building stone during the incoming season is excellent. Large amounts are already under contract, with applications constantly on the increase and agents generally appear to be well pleased with the outlook. Values, too, will harden somewhat, and an upward tendency may be recorded for the various qualities. The local wants will of course prove a liberal source of consumption, but such descriptions as have a shipping outlet are sure to receive a full call, it is claimed, and quite an amount of blue stone even now sold and will be shipped for Southern ports as rapidly as opportunity admits. There has recently been held some sort of convention of the dealers and producers in the blue stone trade at which, it is reported, the price list was revised and advanced some 10@15 per cent. The new figures, however, we cannot as yet give in proper form, in view of the fact that this august assemblage of alleged business men after mature deliberation concluded to print only a few copies for secret circulation among themselves, and to refuse furnishing the Press with a list of the changes made. The excuse is that the publication of prices affords the architect, the builder and consumers generally too much information as to the cost of stone, and we give it for what it is worth, but the adoption of any rule inopposition to a free, open handed conduct of business leads strongly to the suspicion, that the size of colored individual concealed in the fence is much greater than those interested would have known. Our information induces us to believe that the jobbers of this city are the principal promoters of this plan, that they, it is charity to presume, imagine will prove beneficial to their interests.

PITCH.—Business has been fairly active on all regular outlets, and the market in good shape. Supplies do not greatly exceed the outlet, with prices held about steady. We quote at $2@2.15 per bbl. for City, delivered.

SPIRITS TURPENTINE.—A larger general business was done with a corresponding healthy tone to values. Advices from the South came strong, the accumulation on had remained under close control, shippers were buying with some freedom, and the jobbing movement at the same time proving good, holders were in confident mood. As this report is closed, the quotations stand at about 47@48 per gallon, according to the quantity of stock handled.

TAR.—The general situation of the market is unchanged. Supplies are well in hand, owners confident and full rates quite positively insisted upon, while demand keeps well up to the average. The advices from the South are firmer. We quote $2.50@2.75 for Newberne and Washington, and $2.62@3.00 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached. charged or incumbered.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

*In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. * means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.*

DIRECTORS:

LEWIS C. GROVER,	JOSEPH A. HALSEY,
AMZI DODD,	F. T. FRELINGHUYSEN,
HENRY MCFARLAN,	B. C. MILLER,
O. L. BALDWIN,	WILLIAM CLARK,
J. B. PEARSON,	E. A. STRONG,
THEODORE MACKNET,	EDWARD H. WRIGHT.

In August, 1880, this company invited the insurance departments of Massachusetts, Ohio, and New Jersey, to make "a thorough and critical examination into its condition and methods of business." The examination covered a period of more than five months, and was conducted under the personal supervision of the Hon. Julius L. Clarke, of Massachusetts; the Hon. Joseph F. Wright, of Ohio; and Mr. W. F. Van Camp, of New Jersey. The company's assets were rigidly examined. Every piece of real estate owned by or mortgaged to the company was subjected to the most careful scrutiny, both in regard to titles and values. The premium notes were examined one by one, and the stocks and bonds owned carefully appraised. The commissioners valued the company's assets at $35,726-815.93, which exceeds its own valuations (based on par values) by the sum of $1,875,512.72, making its surplus $3,815,382.08, at four per cent., or $5,988,905.08 at four and one half per cent. N. Y. standard. The report gives the company the most unqualified endorsement in every regard. It will be furnished on application to the company, and should be read by every one interested in life insurance.

Every policy issued by this company contains the following conditions, and is absolutely non-forfeitable: In case of Lapse, after two or more Full Years' Premiums have been paid, the full Four Per Cent. Reserve Value will be applied by the Company, at the option of the Assured, in either of two ways: First—To the extension of the full amount of the Insurance, for such period as the full value will pay for at the Company's Published Rates; or, Second—On surrender of the Original Policy within Three Months from date of Lapse, to the purchase of a paid-up Policy. Illustration: A party Insures at Age 35, for $10,000. He pays his Premium for Ten Years, receiving the large Dividends of the Company, and then stops payment. The result will be as follows: First—The whole $10,000 Insurance would be extended for Ten Years and Forty-six days; or Second—He would receive a Paid-up policy for $2,660

CO-PARTNERSHIP NOTICES.

THE UNDERSIGNED, DESIROUS OF FORMING a limited partnership under the statutes of the State of New York, hereby certify:

1. That the name or firm under which such partnership is to be conducted is HALL, NICOLL & GRANBERY.

2. That the general nature of the business intended to be transacted by such partnership is the general business of importing and selling foreign and domestic fancy goods and on commission.

3. That the names of all the general and special partners interested in said partnership are as follows:

Bolton Hall, who resides in the City of New York,

Benjamin S. T. Nicoll, who resides in the City of New York, and

David W. Granbery, who resides in the City of New York, are the general partners; and Marcellus Hartley, who resides in the City of New York, and Malcolm Graham, who resides in the City of New York, are the special partners.

4. That the said Marcellus Hartley has contributed the sum of twenty thousand dollars, and said Malcolm Graham the sum of twenty thousand dollars as capital to the common stock.

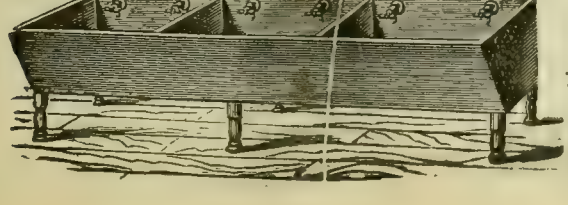
5. That the period at which the said partnership is to commence is the seventeenth day of March, 1881, and the period at which the said partnership is to terminate is the last day of February, 1883.

BOLTON HALL,
BENJAMIN S. T. NICOLL,
DAVID W. GRANBERY,
General Partners.
MARCELLUS HARTLEY,
MALCOLM GRAHAM,
Special Partners.

THIS IS TO CERTIFY THAT THE UNDERSIGNED have formed a limited partnership, pursuant to the provisions of the Revised Statutes of the State New York.

The name or firm under which said partnership to be conducted is APGAR, MERRILL & CO. The general nature of the business intended is the buying and selling on commission, of Stocks, Bonds and other Securities. The place in which the business is to be carried on, is the City of New York.

The names of all the partners are as follows:



Louis J. Apgar, who resides in Jersey City, New Jersey, George Merrill, who resides in Raritan Township, New Jersey, and William S. Hartt, who resides in the City of New York, are the general partners, and Nathaniel Dole, who resides in the City of New York, is the special partner.

The said Nathaniel Dole has contributed the sum of twenty-five thousand dollars in cash, as special capital.

The said partnership is to commence on the twenty fourth day of February, 1881, and is to terminate on the twenty-third day of February, 1883.

Dated, New York, 68 Broadway, and 17 New street, February 24th, 1881.

CO-PARTNERSHIP NOTICES.

FEINBERG AND WINTER.—STATE OF NEW York, City and County of New York, s. s.—This is to certify that we, the undersigned, have formed a limited partnership, pursuant to the provisions of chapter four, title one, part two, of the Revised Statutes of the State of New York, entitled "Of Limited Partnerships," and of the several acts and statutes amending the same

First. The name or firm under which such partnership is to be conducted is FEINBERG & WINTER

Second. The general nature of the business intended to be transacted is that of commission merchants and purchasing agents; and also the purchasing, selling and dealing in general merchandise

Third. The names of all the general and special partners interested therein, and their respective places of residence are,

Moses S. Feinberg, who is a general partner, who resides at San Francisco, in the State of California; Benjamin G. Winter, who is a general partner, and who resides in San Francisco, in the State of California; and Zadoc Staab, who is a special partner, and who resides in the City, County and State of New York.

Fourth. The amount of capital which Zadoc Staab, the special partner has contributed to the common stock is the sum of five thousand dollars

Fifth. The period at which said partnership is to commence is the fourth day of March, 1881, and the period at which it will terminate is the 4th day of March, 1884.

In witness whereof we the above named persons who are desirous of forming such partnership, have made, and severally signed this certificate this fourth day of March, 1881.

MOSES S. FEINBERG,
BENJAMIN G. WINTER,
General Partners.
ZADOC STAAB,
Special Partner.

State of New York, City and County of New York, s. s.

On this 4th day of March, 1881, before me personally appeared Moses S. Feinberg, Benjamin G. Winter and Zadoc Staab, to me known, and known to me to be the individuals described in, and who executed the within instrument, and who severally acknowledged to me that they executed the same.

C. F CONNER,
Notary Public,
N. Y. County.

THIS IS TO CERTIFY THAT WE, THE UNDERsigned, have formed a limited partnership, pursuant to the Revised Statutes of the State of New York, and:

I. The name or firm under which such partnership is to be conducted is MILLER, PETERS & CO.

II. The general nature of the business intended to be transacted by such partnership is the manufacture and sale of cigar moulds and cigar makers' tools, at the city of New York.

III. The name of all the general and special partners interested in said limited partnership, are Frederick C. Miller and Henry C. Peters, both of whom reside in the city of New York, who are the general partners, and William Wicke, who resides in the city of New York, and August Roesler, who resides in the city of Brooklyn, County of Kings, and State of New York, who are the special partners.

IV. The amount of the capital which each of the special partners have contributed to the common stock, is the sum of five thousand dollars, paid in in cash by the said William Wicke, and the sum of five thousand dollars, paid in in cash by August Roesler.

V. That the period at which said partnership is to commence is the tenth day of February, 1881, and the period at which it will terminafe is the ninth day of February, 1883.

In witness whereof we have hereunto set our hands and seals, this fifth day of February, 1881.

In presence of
GEORGE W. VULTEE. {

FREDERICK C. MILLER, [L. S.]
HENRY C. PETERS, [L. S.]
WILLIAM WICKE, [L. S.]
AUGUST ROESLER, [L. S.]

City and County of New York, s. s: On the 9th day of February, 1881, before me personally came William Wicke, August Roesler, Frederick C. Miller and Henry C. Peters, all to me known, and known to me to be the individuals mentioned, and described in, and who executed the foregoing certificate, and severally acknowledged to me that they executed the same

GEORGE W. VULTEE,
Notary Public
City and County of N. Y.

City and County of New York, s. s.

Frederick C. Miller and Henry C. Peters, being severally duly sworn, do each for himself depose and say that they are the general co-partners mentioned in the foregoing certificate, and that the sums therein specified, to have been contributed by William Wicke and August Roesler, have been actually, and in good faith paid in in cash.

FREDERICK C. MILLER,
HENRY C. PETERS.

Sworn to before me February 9th, 1881.

GEORGE W. VULTEE,
Notary Public.
City and County of N. Y.

NOTICE IS HEREBY GIVEN THAT THE UNDER signed have formed a partnership, of which the name is DAKIN & COMPANY. The business is buying and selling stocks and securities, as stock brokers. The general partners are George W. B. Dakin, of Brooklyn, N. Y., and Charles E. Upton, of Rochester, N. Y. The special partners are Lewis P. Ross and James B. Perkins, both of Rochester, N. Y. Each of the special partners has contributed twenty-five thousand dollars to the capital. The partnership begins February the eighth, 1881, and will end February 7th, 1886.

FIRE-PROOF BUILDING COMPANY

OF NEW YORK.

LEONARD F. BECKWITH, President & Treasurer. E. GILLET, Vice-Pres't

Hollow blocks of any pattern, uniting strength and resistance to fire and water. The Hydraulic Lime of Teil (France), one of the strongest cements known, is largely used in this manufacture. The blocks do not conduct heat, cold or sound, and weigh 60 per cent. less than brick.

Fire-proof partitions, floor arches between iron or wooden beams, and ceilings under iron or wooden beams erected in following buildings:

Western Union Telegraph, Orient and Queen's Insur.
Coal and Iron Exchange, Museum of Nat. History,
Equitable, Staats Zeitung, Hudson R. R. Freig't Dep.
Wil'msb'gh Savings Bank, N. Y. Hospital, Boreel.
Windsor & Westm'r Hotels Cluny & Youngs H'tls, Bt'n
Syracuse Savings Bank, B'k N. Y. & Stevens B'ldg.
Columbia College, Tribune. Coryell & Vancorlear Flats
Baltimore Safe Deposit Co. Peabody Institute, Balt.
Peabody Museum, N. H. John Hopkins Hospital, Balt
United Bank Building, Astor Library,
Hotel Vendorne, Mason Building, Boston.

Sidewalks laid at Lenox Library, Tribune, etc. Hollow burnt clay Bricks for Flat and Curved Arches, Partitions, etc.; and Skewbacks for Brick Arches.

Sole Agents for the United States for HYDRAULIC LIME OF TEIL, and LAFARGE PORTLAND CEMENT.

Sole Agents for the U. S. for METTLACH ENCAUSTIC TILES, laid in Tribune, Staats Zeitung, Mineral Spa, Central Park, Belvidere Hotel, etc.

Our fire-proof work is the only one approved by the New York Board of Fire Underwriters and the Superintendent of Buildings, after severe public tests.

Sale by order of FREDERICK C. C. SCHACK, Assignee.

4th AVENUE, Nos. 404 and 406, northwest cor. 28th Street—37.0¾x56 feet, together with 4-story Brick Building, with party-wall on west and north side; covering nearly entire plot of ground. ☞ $27,500 in Bond and Mortgage, which can remain or be paid off.

ALSO, AT THE SAME TIME AND PLACE,

4th AVENUE, No. 408, adjoining the above on the north—18.6x56 feet, with 4-story Brick Building, about 50 feet deep, has party-wall on both sides and in the rear.

7th AVENUE—The handsome 4-story, Brown Stone, English basement Dwelling, No. 49 7th Avenue, between 13th and 14th Streets, 16x65 feet. Lot 100 feet.

WEST 16th STREET, No. 447, between 9th and 10th Avenues—Four-story double Brick Tenement-House, 30x75 feet. Lot, 92 feet.

Maps and furtner particulars at the office of the Auctioneers, No. 3 Pine Street, N. Y.

WILLIAM A. WHITE & SONS, 409 Broadway, offer for Sale

FIVE LOTS, leading thoroughfare Up-Town, suitable Hotel, Theatre, Business Purposes.

THREE LOTS on Lower Broadway, ready for immediate improvement, new building on same would rent for 10 per cent. on investment.

TEN LOTS on 105th and 106th Streets, near Fifth Avenue—no rock—well located for improvement.

FIRST CLASS Building in Dry Goods District, covering three lots; well rented.

THE BULL AND THE BEAR VIEW CONTRASTED.

The views of leading operators on the street are very fairly divided as to the future of the market. It is conceded that the hopeful view should guide investors who wish to buy for a long turn. Even the cone or two crop failures will not permanently injure our railway lines. The only difference of opinion is as to the immediate future. Are the floating securities of the street a purchase or a sale, say for the next sixty days? On this point opinions differ so decidedly that prudent operators are out of the market, and hence the sales are few and the fluctuations in prices unimportant.

On the bull side it is shown that we have exported $13,000,000 more since January 1st than we did in 1880, while there is a decrease of nearly $18,000,000 in the value of the imports. We have imported, in consequence, some $8,000,000 of gold and silver since January 1 against $2,700,000 last year. In other words, the changes show a comparative difference in our favor of nearly $25,000,000 this year, compared with last year.

These are striking facts, especially if we keep in mind that since January 1st nearly $20,000,000 of gold and silver from our own mines have been added to the bullion reserve of the country. The banks are taking out more circulation. Our greenback and national banks together give us some $740,000,000 of paper circulation, while the gold and silver in the country coined and available for coinage amounts to nearly $650,000,000. Our circulating medium since the first of January, 1879, has more than doubled, and from no quarter is there any possibility of contraction.

Then, look at the emigration. It is far in excess of what it was this time last year. Our manufacturing industries were never so active. There are no indications that the foreign demand for our securities has ceased. To sum up, the bull argument is heavy exports, light imports, the flow of bullion from abroad, the retention of our own bullion, giving constant additions to the currency, the large emigration, the activity in manufacturing and prosperous trade.

We now come to the reasoning of those who are out of the market or have sold it short. They point out:

1st. The fact that the recent bull movement and an advance in prices has been confined to the walls of the Stock Exchange. In the "boom" of the fall of 1879 everything advanced in price. But since the summer of 1880, while railway securities went kiting, food products have declined in values, cotton is lower than it has been for two years past, the metals have not advanced despite the heavy consumption, and real estate, while strong and firm, does not show as much speculative activity as it did in the spring of 1880.

2d. We have passed through a winter of phenomenal severity. It has not only diminished the business, but it has largely increased the running expenses of all railroads north of the Ohio and Missouri Rivers. The Grangers have suffered unprecedented losses, and the only railroads that profited have been the coal carriers, and with these the expense account has been largely increased.

3d. It is now certain that the crop-planting season will be late and the acreage seeded far less than for the last three years. The weather has been so exceptionally bad that a short crop, if not a disastrous failure, is among the probabilities. As the street always discounts such events, the market is a sale.

4th. The prospect of a refunding bill making money very cheap added at least ten points to the prevailing prices. As there is now no hope of any such measure and no short time treasury notes to inflate, the market, it is argued, should recede in prices.

Then, there are the spring settlements and the uncertainty as to the policy of the administration, all of which tend to check speculation and create a bearish feeling.

The above epitomizes the situation. We really think the time has come when prudent investors will let the market alone and turn their attention to a kind of property about which there can be no mistake. We mean real estate. Stocks may go up and stocks may go down, but real estate on this island is like the tides in the "Propontic Sea," which knows no "retiring ebb."

THE WORLD'S FAIR.

It was THE REAL ESTATE RECORD which first advocated the appointment of Ulysses S. Grant as the chief executive of the World's Fair to be held in New York. Our advice was followed, but General Grant seems to have been dissatisfied with the site selected and has resigned from the position of President of the proposed exhibition.

It is not to be disguised that this question of site is what has, so far, prevented our citizens from subscribing liberally for the stock of the company. As a matter of fact, the location is not yet decided, nor can it be.

By section 21 of the act of incorporation of the commission, it is provided "that not less than $1,000,000 shall be subscribed and not less than 10 per cent. thereof be paid in, before said commission shall do any corporate act other than the acts necessary to its organization." As $250,000 of the million, which, it is claimed, has been subscribed, is conditional upon the raising of $4,000,000, it is doubted whether the commission can adopt any site or do any corporate act.

It is the misfortune of New York that there are seven or eight excellent locations for a fair. The friends of each are so powerful that they can prevent any general subscription to the stock. Had the Central Park and Manhattan square been adopted, as was urged by the commission originally and by ex-President Grant more recently, there is no doubt but what the necessary funds could have been easily raised, for the location appealed directly to the personal interests of every hotel and lodging house keeper in New York, the heads of all the business houses and the caterers to the amusement of the public. But Inwood is so remote from the centre of business activity that shrewd business people fear that hotels and stores and amusements would be provided for the thronging multitudes in the immediate neighborhood. Then, the Vanderbilt subscription was a disappointment. Had the Central road subscribed a million of dollars, as it should have done, General Grant would not have resigned the Presidency and the fair would now have been on the high road to success.

It does not seem possible to get the press of New York to tolerate a fair held in the pleasure ground of the city. Whatever business reasons may be urged, there is the sentiment very generally diffused that it will not do to convert the Central Park from its present uses. We could have a fair that would add tens of millions to the trade of this city and would have given an immense stimulus to the value of property on this island. But the only site which would secure the fair and make it a financial success is just the one to which the newspapers of New York unanimously object. So the exhibition will be held in all probability in some Western city, Chicago perhaps, where sentiment does not stand in the way of the business interests of the community.

Our Albany information to-day will be found interesting. There is every reason to believe that the Legislature will remain in session until June, and it is too soon to say whether any wise legislation will be effected. Public opinion will probably force the Legislature to pass Senator McCarthy's amendments to our present charter. So far as we can see, the changes are judicious, but there is always danger that, towards the end of the session, amendments will be smuggled in to continue old abuses or make an opening for new ones. As one party has absolute control of every department of our State government, it will be held to a rigid accountability if it fails to give New York a good charter.

A member of the West Side association says there is nothing before the Legislature affecting that part of the city. There may be some bill incubating of which they know nothing, but they have nothing to ask of the powers that be at Albany. By the way

some of these West Side gentlemen still think that the World's Fair may be located at Bloomingdale or even further down town.

CITY MATTERS AT ALBANY.

But little progress has been made lately on measures affecting real estate interests in New York City. There are a few minor bills introduced and others advanced towards their passage, but no general measure.

A bill introduced in the Senate by Senator Astor has been ordered to third reading in that body, directing the Corporation Counsel and the proper authorities to take all necessary legal measures to open, regulate and grade One Hundred and Twenty-sixth and One Hundred and Twenty-seventh streets east of Second avenue. It provides for the appointment of commissioners under the law of 1839 for street openings, to proceed to take property for opening of the streets.

A bill has been formally reported in both Houses which amends the provision of the present charter relative to the disposition of piers and docks by the Dock Department, by adding at the end of section 6 of chapter 574 of the laws of 1870 the following:

"Said (Dock Department) board is hereby required, in appropriating any of such wharves, piers, bulkheads, basins and slips as lie in the district embraced between Morton and West Thirtieth streets to reserve, set aside and designate for the use and accommodation of local and inland commerce so many of such wharves, piers, bulkheads, basins or slips as are required to fully and freely accommodate such commerce. Provided that not less than three piers shall be constructed without delay between West Thirteenth and West Thirtieth streets, and set aside for the use and accommodation of such inland commerce, and that the usual rates shall be charged thereon for wharfage and dockage."

That bill is known in Albany as McClave's act, having been introduced on a petition from that gentleman.

A bill has been introduced and favorably reported in the Senate this week authorizing the Park Department to complete the entrances on Eighth avenue at Seventy-seventh and Eighty-sixth streets to the westerly drive, and on the avenue between these streets to transverse roads, to the American Museum of Natural History. The bill provides for an appropriation of $50,000 this year, and the same amount next year, by the Board of Estimates and Apportionments to do this work.

No progress has been made this week on the bill repaving Fifth avenue.

Several of the harbor-masters are in Albany urging the passage of a bill making the assent of the Captain of the Port necessary to the leasing of dock privileges by the Dock Department. The argument used by these officials is that there are not sufficient docks, piers and bulkheads reserved in the lower part of the city for local commerce, for supplies of coal, vegetables and other articles required in that section of the city. Further, that under some of the present leases steamboat companies engaged in inland commerce use the docks to store their vessels in the winter, whereas, rights might be reserved to use portions of these piers in the winter to land cargoes of potatoes, fruit, coal, and other articles of supplies. They desire the Captain of the Port made one of the parties in making these leases, so as to reserve this right, whenever possible, to local commerce.

The Act, which passed the Senate several weeks since, regulating the plumbing of houses hereafter constructed in New York, meets with determined opposition in the Assembly by some of the representatives from New York. This is the measure started at a public meeting in the Cooper Institute last fall, requires all plumbers to be registered to do business, and the plans for plumbing for all buildings hereafter erected to be submitted to the Board of Health, and approved by that board before the work is done, and gives that board power to enforce the plumbing work and the drainage to all buildings hereafter erected to be done in accordance with the plans so approved. It is a sanitary measure, and the opposition of some of the members suggests that they are in the interests of the undertakers. Th list has been amended so as to apply to Brooklyn also. Its supporters have succeeded in amending it as they desired, to make it efficient and practical, advanced it to third reading with instructions to have it read the last time on Friday.

The Harbor Masters of New York, in order to obtain facts, as they claim, to aid in passing the bill giving to the captains of the port some voice in leasing the piers and docks, secured the adoption of a resolution by the Assembly on Thursday directing the Committee on Commerce to go to New York and investigate the building and leasing of piers by the Dock Department. Their charge is that the steamboat companies obtain favors from the Dock Department in leases at the expense of general commerce. While this may be good in the point of revenue to the city from that property, yet there is such a thing as discommoding and injuring general commerce by making revenue from piers and docks the first and foremost consideration. There is evidently to be a sharp contest between the Harbor Masters and the Dock Department on this point.

An important bill, affecting the interests of builders, those who furnish materials for buildings and the mechanics employed in their structure, was reported by the Assembly Judiciary Committee on Thursday, in the form of an amendment to the Mechanics Lien Law. Its purpose and object is to prevent builders placing on the building and lots on which the former is being erected, what is termed a blanket mortgage, or a mortgage in excess of the money paid and used, and up to its full value, thus making the liens of the mechanics and those furnishing materials valueless. It places upon the builders who mortgage the property the responsibility of the proof that the mortgage represents money actually received and not intended to cut off claims for work actually done. It does not affect the honest builder who does not plan to defraud, but those who deliberately plan to cheat the parties who supply material and the mechanic who does the work.

An act to compel companies and associations organized to erect apartment houses, whether known as tenement or French flats, to come under the restriction of the tenement house act, in reference to providing ample means of escape from their buildings or apartment houses, in case of fire, has passed the Senate and is ordered to third reading in the Assembly.

The street cleaning bill, the outcome of the Cooper Institute meeting, has been presented to the Senate and placed at once on the general order calendar, without reference to a standing committee. It gives all the power required to the Mayor to do the work, and in one or two instance reaches too far. Take for instance the twelfth section in regard to snow, which is intended to apply to street railroads, but in its phraseology it would, in case of successive heavy fall of snow, make every householder who shovels the snow off from the side walk, guilty of a misdemeanor. Under the general law, the householder is fined if he does not clean the snow off his sidewalk after each storm, and the section referred to, just as soon as there has been sufficient fall of snow to impede in the least travel in the streets, the householder commits a misdemeanor if he shovels any more off his walk into the street. He is thus fined if he don't clear his walk of snow and commits a misdemeanor if he does.

NOTES ON MINING.

A subscriber, in a complimentary letter to the proprietor of THE REAL ESTATE RECORD, asks us some questions as follows:

"While in communication with you let me thank you for your valuable mining news. It has seemed to me (and I have watched it for axes) to be the most disinterested, and therefore most reliable, of all the mining news columns in the New York papers. Your expose of the 'Californians' in this matter has been thorough and timely, but your praises of the Haggan's seem to me strange, in view of the collapse of the Excelsior Water and Mining Company, which they floated on this market last year at $22.50 per share after it had ceased earning dividends, under assurances that the subscribers were 'as sure of regular dividends as holders of Government bonds were of their interest.' Can you explain this? I have so far seen no notice in your columns of the Globe City, Arizona, mines, into which a good deal of New York money has gone? I refer especially to Silver Nugget, Maco, Morris Silver Era, Golden Eagle, &c."

What our correspondent says about the Excelsior Water and Mining Company is true enough. The stock was sold at $22.50, the dividends paid for a while, when they ceased, and the shares are now scarcely quotable. But all mining ventures are treacherous. Mr. Haggan relied upon the best expert testimony in California, Louis Janan, among others, approving of this Excelsior property. The mistake made was in marketing the stock at such high figures, and this is a grievance which applies to all of Haggan's stocks. The Excelsior property will in all probability come out all right in time, for the gold-bearing gravel is in sight and there is an abundance of water. But to Haggan & Tevis belongs the credit of putting some of the best mines on this market. They placed Ontario at $20. The original subscribers have all their investment money back and, we believe, some $8 per share besides, while the mine seems to be good for ten years ahead. The Homestake has proved an excellent investment so far, as also has the Deadwood Terra. Still, we have thought that these two properties were started at extravagant figures. We have spoken well of these stocks, without any interested motive, and have had no business relations with the firm of Haggan & Lounsberry.

The Silver Nugget has not proved a profitable stock to deal in. Its management has been suspicious. We have no special information touching the other mines spoken of by our correspondent. As a matter of fact, however, with the exception of Silver King and two Tombstone mines, regular dividends have not been paid by any of the Arizona mines.

An important movement has been developed in Sutro Tunnel stock. There were heavy purchases upon reports that John W. Mackey had secured 900,000 shares from the McCalmonts. Sutro will probably be a good stock to deal in, as it will be subject to wide fluctuations. It has all the possibilities of the best mines on the Comstock, and can penetrate a great deal of virgin ground of its own. It has cut through eleven ledges, which give promising assays, and all the active mines in the Comstock are forced to use it for drainage purposes, and it may eventually become valuable as an outlet for low grade rock.

Its possession by Mackey does not add much to its value intrinsically, for the bonanza people do not work properties for the benefit of any one but themselves. The mills owned by Fair, Flood and Mackey are now standing idle and the Tunnel may be worked to supply ore to keep the mills at work. From their location, however, perhaps it would pay to erect new mills at the mouth of the Tunnel, to be run by water, which pours from it in a never failing stream. Some Sutro Tunnel stock would probably be handy to have in the house, though it may never declare a dividend.

We hear very good reports of the Silver King Mining Company, of Montezuma, Summit County, Col. The ore is said to give an average assay of 437 ounces of silver and 47 of lead. There seems to be an abundance of ore and ground; a mill is in operation, extensive improvements have been made, and it is believed that dividends will shortly be paid. As yet this is a private company, but when it comes upon the market its merits are such as ought to give it the attention of investors.

Bull Domingo is lower in price. The work of sinking the shaft has been resumed, so as to open two more levels. The roads are in such condition that the company have decided to stop concentrating and wait until the railroad reaches the neighborhood of the mine, which will be some time before the 1st of May. So far, the history of this mine has been a case of great expectations unrealized. The gentlemen connected with the Central road, who paid $10@$12 for what they cannot now sell for $2.50, probably do not feel that they have made much in their first mining venture. Yet the mine may be a very good property, and, in view of the opinions of good judge

it ought to be very cheap at the price at which it is selling.

The news about Bulwer is very good. It has $60,000 in the treasury, and it seems likely that there is to be a deal in the stock. It will soon be crosscut from the 1,000-foot level of the Standard, and it may develop some rich ore. This stock has one advantage—there is no likelihood of assessments, as its fine mill can find abundance of work on the Standard and other ores.

At last accounts Mono was selling at 75 cents a share, assessment on. There will probably be another assessment on this stock, but those who ought to know predict that Bodie will be selling for 20 before next November, and Mono may go as high as 10. The Jupiter ground, which has been adjudged to belong to Bodie, is known to be full of rich ore, the continuation of the Standard veins. As the great Bodie shaft is going down on the grounds of the Double Standard, just east of Jupiter, it is probable that the owners of the stock of that company, Messrs. Irving, Boyd, Lent, Harper, Minor and their friends, will profit immensely by new development in Bodie, as it is in contemplation to consolidate the Double Standard with the Bodie; but the payment for the development of the group of mines is to be taken out of the pockets of the stockholders of the Mono and from the ore of the old workings in the Bodie.

There is an absence of any important news from Silver Cliff. Expectation is on tip-toe as to the results of the working of the new mill. On it depends the future of an important mineral region. There are millions of dollars yearly to be mined in the Silver Cliff region, if mills could be erected which would extract a reasonably large percentage of the ore. The silver is there in immense quantities; the mines are easily and cheaply worked, but everything depends now upon the mill processes.

An immense gravel property—the Dardanells and Oro—is soon to be called on our Mining Exchange. It comprises two immense claims, and the writer heard them well spoken of while on a visit, two years ago, to California. The property was then in the hands of Archie Borland, and there was some legal trouble about it. The company has been stocked for $2,000,000, and among the directors will be found leading Boston people, including Mayor Prince of that city. Hydraulic mines are high in favor in California. It is claimed they involve the most certain of all mining ventures. Eastern investors have not made much money in gravel mines. The Spring Valley Company, which was indorsed so highly by leading bank officers, and the stock of which sold so readily at $10 a share, is now scarcely quotable, and the investors have apparently lost their money. The Excelsor Water Mining Company, brought here by the Homestake people, was also a disappointment, and the investors were out of pocket. Calveras, which started at 50 cents a share, and was run up to $2, was another sore disappointment in the way of a gravel mine, though we have heard good news from it lately. It may yet become profitable property. The abundant rains on the west coast make this a good year for hydraulic mining. As for the Dardanells and Oro, everything will depend upon the management. The property is good, but probably did not cost the promotors more than $300,000. It is stocked for $2,000,000, and it may furnish an excuse for extensive gambling. It will bear watching.

A BULL VIEW.

[From *The Public*, March 24th].

It is well to take account, just at this time, of the important points of difference in the monetary and commercial situation one year ago and now. Of all changes, by far the most important is (1) that a dreaded Presidential election is no longer looming up, dark and doubtful, in the near future. That cause alone produced more of the depression during the spring and early summer of 1880 than any other. But (2) the prices of leading commodities had then been tremendously advanced for months; now, there has been comparatively little recovery from a large and general decline. Wheat, now $1.26, was then $1.48; cotton, now $10.75, was then $13.25; iron No. 1, now $29.50, was then $39.50; iron rails, now $49, were then $65; steel rails, now $62, were then $82.50. The amount of money needed to carry stocks on hand of these and other leading commodities is smaller by many millions than it was at this time last year. It will be said that stocks are also higher, but (3) the load of stocks carried in the market has been greatly diminished during the past year by the purchases of home and foreign investors, as one road after another has emerged from difficulty and demonstrated its power to pay dividends. Also (4) the excess of merchandise exports over imports is greater by many millions this year, prices having favored a large balance in our favor, than it was at the same date last year, when prices had operated powerfully to check exports and to stimulate imports. During the first three months of 1880 the excess of exports was only $22,561,873; in January alone, 1881, it was $28,916,438, and will probably be over $70,000,000 for the three months nearly finished. Hence (5), the net imports of gold during the first seven months of 1880 were only $993,403. But the net imports in January alone of the present year were nearly $4,500,000, and during the three months will probably be nearly $12,000,000. These are differences of incalculable importance. He who expects, in the face of them, that the experience of last year will be repeated, might almost as well expect to have a few miracles performed for his private benefit.

BUILDING ITEMS.

On northeast corner of Fifth avenue and Sixty-eighth street, R. L. Stuart has contracted for a mansion fronting 55 feet on the avenue and 136 feet of main building along the street. The architect is Mr. Schickel, and the estimated cost $350,000.

Mr. W. R. Croft is erecting six houses, to sell at an average price of $30,000, on the northeast corner of Madison avenue and Seventieth street.

On the southwest corner of Fourth avenue and Seventy-fifth street Mr. Hugh Blesson has enclosed ground, on which he is about to build five high stoop brown stone houses, which he expects to sell for about $32,000 each.

On northeast corner of Sixty-sixth street and Madison avenue, Dr. Guilbert has commenced the erection of a church on a lot 75x100.

On the northeast corner of Sixty-seventh street and Madison avenue, Mr. Daniel Hennessy has completed two houses and commenced the erection of five others on full lots, the average price to be about $65,000.

On northwest corner of Sixty-seventh street and Madison avenue, W. R. Skidmore is about to erect a large house on ground purchased for J. H. Deane.

On northwest corner of Sixty-eighth street and Madison avenue, H. J. Marquand is about to erect a house with frontage on street of 100 feet and 50 feet on the avenue.

On southwest corner of Sixty-ninth street and Madison avenue, Messrs. Chas. Buek & Co. (successors to Messrs. Duggin & Crossman) will immediately erect five houses on a plot 120 feet x 100 feet, in their usual style.

For erection on the northwest corner of Sixty-ninth street and Madison avenue, Mr. W. Kuttroft has plans, by Mr. J. B. Snook, for a house 34 feet front, 100 feet deep, fireproof throughout.

Mr. Abram Dowdney has also enclosed ground on the northwest corner of Fourth avenue and Seventy-fifth street, where he will immediately commence upon five houses of very striking elevation, in brick and stone, which he expects to have ready by August.

On the north side of the same street (Seventy-fifth street), between Fourth and Madison avenues. Mr. Ed. H. Kendall is about to erect for himself a house in the Queen Anne style, with 25 feet frontage, and depth of 75 feet.

On Seventy-sixth street, between Fourth and Madison avenues, Mr. Wm. Noble is building five houses; also ten more on the same street, between Madison and Fifth.

Messrs. D. & J. Sloane, the carpet dealers, will put up a six-story iron front store on the property recently leased by them on the southeast corner of Broadway and Nineteenth street. The front on Broadway will be 128.7, with a depth on Nineteenth street of 143 feet. The store will also have an entrance on Eighteenth street.

George W. Quintard's large house, on the northeast corner of Fifth avenue and Seventy-third street, is nearly complete. Adjoining this, on the same street, Mr. J. G. Ruddle is to erect four houses, 18.9 frontage each.

On the southeast corner of Fifth avenue and Seventy-fourth street W. Pickardt has commenced upon a mansion from the plans of Mr. Harrison.

On Fifth avenue, between Sixty-ninth and Seventieth street, adjoining the house in progress for Mr. Bishop, Mr. John Sloane has commenced upon a house with 34 feet frontage, and a depth of lot of 175 feet, for which Mr. R. H. Robertson is the architect.

Between Second and Third avenues, and commencing from the latter on Sixty-eighth street, Mr. Crimmins is about to build seventeen small houses with 18 feet frontage and 40 feet depth, three stories high, stoop and basement. It is his intention to offer thoroughly well built and carefully arranged houses, for private use, at a moderate price (about $11,000 each). Great pains have been taken to vary the elevations so as to obtain relief from the monotonous brown stone without destroying the harmony of the whole. For this purpose, brown stone, brick and yellow stone are to be worked up in various pleasing combinations, in such a manner that not more than two houses are to be exactly alike.

On the southeast corner of Fifth avenue and sixty-seventh street, Messrs. Lamb & Wheeler, are opening the ground for four very fine houses, three to face the avenue, being 30 feet, 40 feet, and 30 feet respectively, and one 25 feet, frontage on the street. The elevations are of modern or Queen Anne style, richly ornamented, gable roofs. The corner house is for H. O. Armour, the other three are building on speculation, and expected to sell for $250,000, $220,000, and $135,000 respectively.

Adjoining these on the avenue, will be a house designed for Mr. Thompson, by Messrs. D. and J. Jardine.

J. Molloy has bought ten lots on sixty-first street, between Ninth and Tenth avenues, on which he is preparing to build an apartment house.

Mr. Brennan is preparing to build upon his lots on sixty-seventh street, of which the purchase was noticed last week.

At the Exchange Salesroom, on Wednesday next, Messrs. E. H. Ludlow & Co. will offer some valuable improved property situated on Fourth avenue, near Twenty-eighth street; also dwelling house property on Seventh avenue and tenement property on Sixteenth street, between Ninth and Tenth avenues. For particulars see advertisement.

ANSWERS TO CORRESPONDENTS.

Justice.—The decision in the case of Musgrave vs. Sherwood comes so near to the case you present that we quote it:

Where A, who owned five adjoining new dwelling houses, represented to B that he was restricted from erecting other than first class private residences on the property, and that they would be, first and last, private residences; and B, relying on these statements, purchased one of the houses as a private residence and permanent home, and then A enlarged the other houses, not as private residences, but for business purposes, namely, as part of a family hotel—

Held, That though these representations were not incorporated in the deed, or in the contract of sale, and were not repeated or alluded to at the time the contract of sale and purchase was made, A should, in equity, upon B's application, be restrained from altering the character of the houses, unless B's rights in this respect have been waived.

The use by A of the existing easement, a party wall between the house purchased by B and A's house adjoining, for a purpose antagonistical to the expressed design of A in building the houses, by which the adjoining house was enlarged, not as a private residence but for business purposes, may be restrained; though A would have the right to build upon the party wall if the object were to enlarge his house as a private residence.

A is under no obligation to reform the character of the houses other than the one adjoining B's, because the changes made prior to the commencement of the action, must be regarded as having been assented to by B because they were allowed to be thus changed without objection. [Fannie E. Musgrave vs. John H. Sherwood. New York Supreme Court. Genl. Term.—First Department.]

HOW TO INVEST IN MINING STOCKS.

EDITOR REAL ESTATE RECORD:

I notice you give some good advice to investors in Mining Stocks. Is it not generally desirable for one to purchase any of the new stocks listed upon the Mining Board? The promoters naturally want to create a market, which can only be done by advancing the price. I have done this in several instances, but I confess I have not always made money.

A WOULD-BE SPECULATOR.

ANSWER—There was a time when this was done, shortly after the Mining Board was organized, and money was made by the investor if he was lucky enough to get out in time. But the history of Chrysolite, Little Chief, Aime, Horn Silver, Bull Domingo, Bassick, Freeland and Silver Cliff, not to mention thirty or forty other stocks, tells a different story. In every case the stock was marked at the highest figures when first put on the market, and the people who bought earliest lost the most. It should be borne in mind that people who stock mines, do so with the intention of making a handsome profit upon their investment. No one buys property expecting some one else to make more out of it than they did; they want all the profits themselves. It is true that in some few cases mining properties have advanced in value after they were marketed, for instance the Ontario, Homestake, Green Mountain, Rising Sun, Gold Stripe, Cherkee and the Standard. This last mine has a curious

history. After being profitably worked for a couple of years by the Cook Brothers, it gave signs of being exhausted. It was then bought by William M. Lent and Col. W. F. Shaffer to sell on the New York market. After the stock was disposed of, new developments gave the mine additional value. It kept on improving, and at the present time looks as if it would last for several years. We do not advise the purchase of mining stocks before they are put upon the market. It is the early worm that gets caught.

[*Editor* REAL ESTATE RECORD.]

SOMETHING FROM HARLEM.

Three lots were sold on Tuesday on One Hundred and Twenty-sixth street, 150 feet west of Fifth avenue, to Mr. Van Tassel, for $25,000. These same lots were sold a year ago for $7,000 each, and three years ago they brought only $4,000 each. The consequence of this advance is that fewer houses will be built unless of very narrow frontage, and the numerous inquiries for this class of property find that Harlem, in emulation of lower New York, offers them only flats. Indeed, it may be noted that the inhabitants protest against the distinctive name of Harlem. It is New York, distant 35 minutes from the City Hall and not the least important part of New York; it is fully expected that the neighborhood of the Fourth and Fifth avenues, between One Hundred and Fourteenth and One Hundred and Thirleth streets, will become one of most fashionable quarters of New York, aad owners of lots on Fifth avenue are now holding out for $15,000; $14,000 was refused by Isaac E. Wright, for a lot on Fifth avenue above One Hundred and Fourth street, on Wednesday. The complaint that the facilities for getting down to the city hurt the up-town stores is true only to a limited extent. As a matter of fact, the Third avenue was built up before the present influx of inhabitants had given any indication of what the requirements would be. It is probable that we shall very shortly see a number of stores of which the attraction will be sufficient to intercept the greater part of this down-town trade. Enquiries are numerous for this class of stores, and we notice the projected building of one above One Hundred and Nineteenth street by Mr. Wright.

Mr. Porter, of One Hundred and Twenty-fifth street, who besides doing an extensive business as real estate agent in this neighborhood, manages the property owned by the New York Life Insurance Company, reports a rise of at least 20 per cent. in rents in two years for property in choice locations. There is a very great demand for moderate houses from people coming from Brooklyn and Jersey, and he has sold of small houses on an average one per day during the last three weeks. The enquiries for flats are very numerous, and out of fifty tenement houses under his charge, he has only one flat to let, and has sold a lot this week in One Hundred and Twenty-fourth street, east of Fifth avenue, for $9,000.

Mr. Isaac E. Wright is of opinion that the present summer will see great improvements in Third avenue. He will commence in a few weeks on a large store on it, to cover the entire block above One Hundred and Nineteenth street. The plans are now preparing for a fine apartment house to be situated on one of the prominent avenues above One Hundred and Twenty-fifth street, and he expects to commence on this building on May 1st. He is holding out for $30,000 for his houses on Madison avenue, and has no doubt of getting it.

Mr. Hamilton, the builder of the houses in One Hundred and Twenty-seventh and One Hundred and Twenty-eighth streets and others in the neighborhood, considers that the great rise in the price of lots will cause builders to direct their attention to the advantages of the West Side and predicts a speedy development in this direction. He, himself, will commence in a week or ten days, six four-story brown stone houses, finished in cabinet and hardwood on three stories, with extension for butler's pantry. These will be situated in Seventy-third street, west of the Park, and, if they sell, he is prepared to build a large number of high class houses in that district.

Mr. Frederick Reed, of One Hundred and Twenty-fifth street, is confident that house property must soon rise in sympathy with the greatly enhanced value of lots. He sold last week a house on One Hundred and Twenty-sixty street, between Madison and Fifth avenues, for $16,500, and one between Fourth and Madison, on One Hundred and Twenty-fourth street, for $12,000.

A DESIRABLE PROPERTY.

The number of strictly first-class lots remaining in fashionable locations, suitable for residences for our millionaires is rapidly decreasing, and this fact causes the closest examination by real estate brokers who have orders for anything that may be or is likely to be in the market. We have lately had our attention called to the property on the corner of Fifty-seventh street and Madison avenue, running to Fifty-sixth street, with a frontage on each street of 75 feet, and a depth on the avenue of 200 feet.

This property is in the midst of palatial improvements, and can be bought for about half a million of dollars. There is ample room for a princely residence, and this property once properly improved, would be justly considered one of the finest residences in this country.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages v and vi of advertisements.**

Although there has been no great flourish of trumpets, there is a great deal doing in a quiet way in real estate. The demand for houses and lots is active and comes from most unexpected quarters. For obvious reasons the real estate brokers do not care to have the public know all they are doing. They are anxious to bring parties together and, as in all bull times, when prices are advancing, they find some difficulty in bringing people who have property under their control to sell. The cheap property proper was long ago disposed of. By cheap, we mean property that had to be sold, due to the embarrassments of the owners These bargains are no longer to be had. There is a notable absence of all large offerings. The sale of the Carman estate, or rather what remains of that estate, is all that is immediately offered.

The centre of building activity is to the east and northeast of the Central Park. Everything points to the neighborhood of Mt. Morris Park as being the probable focus of a new fashionable quarter. Lots are in eager demand, and new projects for building are coming to light every day in that fine region, within short distance of the Central Park and west of the Third avenue road.

Our detailed report as given below, and the list of projected buildings we publish from week to week, show that at last the West Side is beginning to come into the market for improvement. It is obvious to anyone that if lots on the east side of the Park, in the side streets, sell at from $15,000 to $25,000 a piece, and for $80,000 on the Fifth avenue, there is no reason why those on the west side should not, within a very few years, approximate these figures, as they are as eligibly situated in every way. Buildings will not only creep up from Fifty-ninth street, but will work down from the upper end of the Park. Some very sharp real estate men and builders have their eyes fixed on the plain north of the Park, between Fourth and Eighth avenues. It is all ready for occupancy, and were the improvements on Morningside and Mt. Morris Parks completed, a very few years would see that plain, up to the Harlem River, filled with houses of a medium type—none very costly nor very poor.

With the 1st of April we enter the last renting month before the May moving. There has been no difficulty in renting eligibly situated houses at advances over last year's prices of from 5 to 15 per cent. There is a deficiency of very choice and costly houses, due to the influx of rich people from California and elsewhere. Agents report a great deficiency of good furnished houses. It will pay people of small means to furnish apartments in eligible locations for people who wish to live temporarily or permanently in New York. With other English fashions our people are beginning to affect the London lodging-house system, where furnished apartments are rented, with service and meals supplied by caterers. American families are beginning to find that by this means they can avoid the annoyances of housekeeping and yet live economically.

The signs "to let" are not as frequent as they were this time last year.

Messrs. E. H. Ludlow & Co. will sell on Wednesday next, Nos. 404, 406 and 408 Fourth avenue, corner Twenty-eighth street, No. 49 Seventh avenue, No. 447 West Sixteenth street, tenement property, and the dwelling house No. 58 East Twenty-fifth street, and on Friday, the first-class stable No. 41 West One Hundred and Thirty-first street.

Messrs. A. H. Muller & Son will sell during the coming week valuable property on the corner of Duane and Church streets, known as Nos. 126, 128, 130 and 132 Duane street; also No. 337 West Twenty-second street, lot 37.6x98.9, and on East Forty-sixth street, No. 342, the five-story brick tenement house. They will also sell on Thursday three lots on Fourteenth street, opposite Tammany Hall; store No. 68 Pearl street, ten lots on One Hundred and Second street, east of Fourth avenue, six lots on Ninety-eighth street, and six on Ninety-seventh street, 300 feet east of Fourth avenue.

Richard V. Harnett will sell on Tuesday, No. 25 Downing street, and on Wednesday, five lots on the Eastern Boulevard and Eighty fourth street, No. 23 Greenwich street, tenement, and French flat on corner Second avenue and Eleventh street. By order of the Star Fire Insurance Company, Nos. 309 and 311 East Thirty-eighth street, No 623 West Forty-fifth street, No. 348 East Sixtieth street, store on Avenue A and Seventy-fourth street, five lots on One Hundred and Forty-seventh street and St. Anns avenue, and No. 436 Union street, Brooklyn, and on Thursday, No. 406 East Eighty-ninth street.

Bernard Smyth will sell on Friday, twenty-six lots on Bedford, De Kalb, Kent, Lafayette, Tompkins and Franklin avenues, and on Spencer, Quincy and Pacific streets, Brooklyn. Maps at Boardman & Boardman's 155 Broadway.

Several very important properties are announced to be sold under foreclosure at the Exchange next week, full particulars of which can be found under our regular list of Advertised Legal Sales. It will be noticed that but little publicity is given to these sales, nothing being expended in the way of advertising except what is really demanded by the legal nature of the proceedings, hence the great value of this list to investors. Among others, that of ten lots on Riverside avenue and on Ninety-fourth street is well worth the attention of investors, and plots on Gerard avenue and Butternut street, on the 30th inst., to satisfy mortgage amounting to about $32,700; about ten acres on and between Boston road and road leading from West Farms to Hunt's Point, and plot on northeast corner of Boulevard and Seventy-fifth street, fronting 110.11 on Boulevard, 130.4 on Seventy-fifth street, and 62 on Seventy-sixth street, at point about 120.8 east of Boulevard, the last two properties mentioned were mortgaged in 1873 and 1872 to the now defunct Eclectic Life and Merchants Life Insurance companies, for $28,000 and $40,000, and will be sold on Saturday next to satisfy mortgages and interest amounting to about $43,300 and $63,500 respectively.

On the same day (Saturday) auctioneer Fairchild will sell the four-story stone front dwelling and three-story brick stable with lot 25x126.6, No. 27 West Thirty-fourth street, mortgaged to Equitable Life Assurance Society, and to be sold to pay about $44,550 now due that institution. For particulars of other sales see list Advertised Legal Sales.

The attention of investors is directed to the advertisement on our second page of Mr. F. R. Houghton No. 145 Broadway, who offers for sale the entire block bounded by Third and Fourth avenues and One Hundredth and One Hundred and First streets, which is about the largest single piece of unimproved available property on the island, its size being 200x800.

Gossip of the Week.

The transactions which have come to light during he past week show that an unsuspected amount of business was done during the previous two weeks. All the brokers report an active inquiry as to real estate, and a larger and steadier business than they have had for years.

L. J. Carpenter has sold to the Stanton Street Baptist Church the plot on the northeast corner of Twenty-third street and Lexington avenue, 50x79, for $42,000. The congregation will, some time during the year, begin the erection of a handsome church, which will be a decided improvement to the neighborhood.

Fred'k Zittel has sold during the past week Nos. 21, 23, 25 and 27 East Sixtieth street, between Madison and Park avenues, for $32,500 each; also No. 49, same street, for $30,000; Nos. 31 and 33, same street, for $32,500 each, all of which were purchased by private parties who intend occupying them immediately. The same broker has also sold the lots on the northeast corner of Sixtieth street and Madison avenue, 100x89, for $102,500, and No. 780 Madison avenue, between Sixty-sixth and Sixty-seventh streets, for $37,000. The above sales show great activity in that quarter of the city, and illustrate the good demand for superior houses.

Judge Charles A. Rapallo has purchased on the northwest corner of Broome and Greene streets the five-story stone and iron front store, 50x100, for $155,000. It is said on Pine street that Messrs. William A. White & Sons were the brokers in the transaction.

John D. Crimmins has sold to Charles Buck & Co., successors to Duggin & Crossman, the plot of ground, 100x120, on the southwest corner of Sixty ninth street and Madison avenue, on which they intend erecting a number of large first class houses immediately.

Dr. Edward P. Huylar has sold No. 683 Fifth avenue, the former Nathan residence, through Messrs. Mordecai & Bellamy, to Hon. H. Victor Newcomb, president of the United States Bank of New York, for $150,000. The lot is 30x125 feet, and is located between Fifty-third and Fifty fourth streets, on Fifth avenue. Dr. Huylar purchased these premises for investment a few weeks ago, through V. K. Stevenson, Jr., for $108,500.

The Liederkranz Society has decided upon the site of its new club house. The property purchased is situated on the north side of Fifty-eighth street, 90

feet east of Fourth avenue, and consists of five lots' each 25 feet front by 100 feet 5 inches deep. The price paid is $70,000. The upward movement will make this a most convenient locality in a few years, and the proximity of railroad lines secures easy access to it. Some idea of the prosperity of the club may be gathered from the fact that the amount to be expended on the purchase of ground and erection of the new quarters has been placed at $160,000. The brokers in the transaction were L. J. & I. Phillips.

Mr. E. B. Harper, Secretary of the Mutual Improvement Company, has bought seven lots on the north side of Fifty-seventh street, 300 feet east of Sixth avenue, for $162,000.

Samuel Kilpatrick has sold two lots on the south side of Twenty-third street, between First and Second avenues, for $12,000; also a three-story brick house on Lexington avenue, between Twenty-fourth and Twenty-fifth streets, on private terms.

V. K. Stevenson, Jr., has sold to Mr. Theodore W Myer, banker, of 19 New street, the Central Park Hotel, together with the two brown stone houses attached, facing 100 feet on Central Park, for $70,000, all cash. This is considered a bargain, the property having been in the hands of the recent seller, Mr. Knuble, who built the hotel, for the past thirty years.

The same broker has sold to Effingham H. Nichols, the four-story brown stone front house, No. 620 Fifth avenue, 25x65x100.

Miss Bertha E. Davy has sold the narrow front three-story brown stone brick dwelling, No. 229 East Fifty-eighth street, 12.6x100.5, to Daniel Humphreys, for $7,500.

The contract for the half frontage of a block on the East Side, was signed on Thursday, by one of the most prominent builders and speculators of real estate in the city. Particulars of the transaction were refused, as it would be likely to interfere with the plans of the purchaser.

Messrs. E H. Ludlow & Co. have sold No. 319 Fifth avenue, on the northeast corner of Thirty-second street, 38.6x140, with dwelling 38.6x75, for $200,000.

S. T. Meyer & Sons have sold three lots on the north side of Fifty-seventh street, between Fifth and Sixth avenues, 69.10x100, for $95,000; also the three-story brown stone front house, No. 728½ Carroll street, Brooklyn, on private terms; also Nos. 74, 76 and 78 Crosby street, and No. 51 Spring street, on private terms.

On Third avenue, between Forty-sixth and Forty-seventh streets, we hear of the sale of a five-story brick house, 20x55x86, for $23,000.

Jacob Cohen has purchased the four-story brown stone house, southeast corner One Hundred and Twenty-fifth street and First avenue, 25x60x75; Nos. 106, 108 and 112 East Seventy-sixth street, five-story brown stone flats, and the southwest corner of One Hundred and Thirty-first street and Madison avenue, three-story high stoop brown stone house, 16.8x50x75.

Mr. S. L. Bradley has sold the four-story high stoop brown stone house, No. 4 East Sixty-eighth street, 28x87x105, to Mr. S. Borg, a Wall street banker, for $80,000.

E. A. Cruikshank & Co. have sold the three-story brick house, No. 223 Mercer street, 20x50, for $15,000.

The purchase by S. T. Meyer & Sons, at auction at the Exchange, of the two two-story brick houses Nos. 43 and 45 Wooster street, each 25x100, for $25,400, was certainly the bargain of the week, when we remember that the southwest corner of Wooster and Broome streets, 25x100, with inferior improvements, brought $45,000 some years ago.

Among the bidders at the Exchange this week we noticed Wm. E. Littleton, Clerk of the Court of Quarter Sessions of Philadelphia, who is largely interested in real estate matters. He reports the market as being very dull in Philadelphia.

Mr. Jere. Johnston has sold three lots, 20x100, on the north side of Hancock street, between Nostrand and Marcy avenues, Brooklyn, on which three first-class brown stone buildings will be erected, for $2,080 each. The above sale is an advance of one hundred per cent. on prices realized one year ago.

Mr. James E. Duff has sold two frame houses, 20x40, on Macon street, between Marcy and Tompkins avenues, for $9,500 cash.

It is the rule of THE RECORD to verify everything which is printed in its columns, which custom accounts for the fact that but few discrepancies ever appear in its pages. This rule was overstepped last week in this column, hence we correct the statement that Messrs. W. & J. O'Brien have leased their property No. 619 and 621 Broadway, for $10,000 per year. The buildings which were leased for the sum named were Nos. 628 and 630 Broadway, directly opposite. The Messrs. O'Brien, who own Nos. 615, 617, 619 and 621 Broadway, together with 75 feet front on Houston street, have refused $25,000 per annum, ground rent over taxes, &c., for the entire plot for 21 years and two renewals, they preferring at present to make no change.

The following are the sales at the Exchange Salesroom for the week ending March 25:

** Indicates that the property described has been bid in for plaintiff's account:*

R. V. HARNETT.

Bank st, No. 123, n s, 126.10 e Washington st, 20.7x125x50.6x115.10, irreg., three-story brick dwell'g and two three-story brick houses in rear. T. Dougherty..... $13,400

Total..... $570,376

James M. Oakley & Co., by order of the Commissioners of Docks, sold the right to collect and retain all wharfage which may accrue for use of the following piers and bulkheads on Hudson River: For term of ten years, Pier No. 1, sold for $30,100, to Iron Steamboat Company; for term of five years, new Pier No. 47 and bulkhead southerly, sold for $14,000, to Quebec Steamship Company; bulkhead along approach easterly side new Piers Nos. 46 and 47, sold for $3,200, to same buyer; for term of three years, new Pier No. 46, sold for $30,500, to William Caverly; pier foot of Bethune st., sold for $605, to Decker & Rapp; bulkhead north of pier at Gansevoort st., sold for $2,000, to New York City Ice Company; bulkhead south of pier at Little 12th st., sold for $800, to Drew & Buckli; pier at Little 12th st., sold for $1,400, to same purchaser; bulkhead at West 14th st., sold for $1,800, to J. J. McCook; pier at West 15th st., sold for $1,500, to Mutual Benefit Ice Company; pier at West 16th st., sold for $1,400, to same buyer; pier at West 34th st., sold for $5,000, to Scott & Co.; pier at West 40th st., sold for $4,500, to James H. Clanahan; pier at West 129th st., sold for $560, to Mutual Benefit Ice Company; pier at West 152d st., sold for $100, to William Brown; southerly half Pier No. 22 and bulkhead adjoining, sold for $3,500, to New York Transportation Company; pier at West 57th st., sold for $3,350, to Frederick Schecker. On East River: For term of ten years, bulkhead south of East 24th st., north of ferry premises, sold for $4,100, to Greenpoint Ferry Company; for term of five years, west half of Pier No. 21, sold for $5,200, to C. H. Mallory & Co.; for term of three years, Pier No. 7, sold for $9,000, to New York, Lake Erie and Western Railroad Company; west half of Pier No. 8 and bulkhead adjoining, sold for $9,000, to same purchaser; bulkhead and platform between Piers Nos. 18 and 19, sold for $500, to John E. Stowe; Pier No. 43, except inner half west side, sold for $3,500, to S. W. Wright; Pier No. 46, sold for $7,500, to William Caverly; Pier No. 60 and bulkhead westerly, sold for $2,750, to Joseph Cooper; Pier No. 61 and bulkhead northerly, sold for $1,000, to S. W. Wright; north half Pier No. 62, sold for $900, to Mutual Benefit Ice Company; bulkhead at East 15th st., sold for $900, to Manhattan Gas Company; pier at East 37th st., sold for $800, to D. T. Robinson; pier at East 38th st., sold for $600, to S. W. Wright; pier at East 79th st., sold for $975, to F. E. Wise; pier at East 86th st., sold for $700, to J. H. Baxter; bulkhead at and south of East 93d st., sold for $800, to Thomas Patton; for term of one year, bulkhead at East 30th st., sold for $250, to Dr. O. L. Jones, and bulkhead at East 47th st., sold for $300, to Owens & Co.

BROOKLYN, N. Y.

In the City of Brooklyn, the following sales have been made for the week ending March 23:

*Sackett st, s s, 244.8 w Hicks st, 20.8x100. Seamans Bank for Savings..... $1,500
*Division av, s e cor Butler av, 100x100. Mutual Benefit Life Ins. Co..... 1,600
Morrell st, e s, 100 s Varet st, 25x100. Max Hallheimer..... 1,135
Greenpoint av, No. 180, 26x83, three-story frame store and dwell'g. John Burnside..... 1,575

Total..... $5,810

BUILDING MATERIAL MARKET.

BRICKS.—The re-opening of regular wholesale operations last week brought with it an easier market, but this week the selling interest has been placed in a still more disadvantageous position, and prices show a perpendicular decline of some little magnitude. The supply from the "Bay" was rather larger than anticipated, and as the ice moved out, down came quite a number of barge loads from "Up River" to add to the offering, until the accumulation became very full and uncomfortable, with scarcely any affecting demand. The outlet, in fact, has proven very disappointing, buyers quite generally manifesting an indifferent tone even at the large concessions granted them, and the few purchases made were, in nearly all cases, based upon some imperative necessity of the hour. The truth of the matter is simply that Bricks have come forward a little too early and before the market was in condition to shape itself for their receipt. The delays of the winter, growing out of the severe weather, has put back work against which supplies had already been provided, and this difficulty is only now being overcome. Hence the demand for fresh arrivals is curtailed and the market correspondingly depressed. Receivers, however, do not appear to be greatly discouraged, and even at the present writing some are inclined to take a more cheerful view of matters. They feel confident that the present comparatively low cost must attract the attention it deserves, that the present lull in the demand, for reasons above cited, is only tem-

porary, and that manufacturers will, now that they have had a trial of the market, be more careful in their shipments until the revival of consumption, which all appear to consider a sure thing, sets in with full force. Quotations remain more or less nominal, but may be placed at about $6.00@6.25 per M for Haverstraws; $5.75@6.00 do. for "Up-rivers," and $5.00@5.50 for Jerseys. No Staten Island or Long Island stock reported, nor is there likely to be much more of the latter at the present range of prices. Pale have gone down in cost with Hards, and now stand at about $2.75@3.00 per M without much sale. They are not wanted here, and Brooklyn, etc., is not yet ready for them. Fronts are likely to meet with a good, full demand, and we understand the Croton Point manufacturers or, "Underhills," have concluded to advance the cost to $11 for Brown, and $13 for Darks and Reds.

CEMENT.—Domestic continues in good demand and firm for lots from yard, but we understand that manufacturers have agreed to open the season at 90c on the "Creek," and $1.00 here for Rosendale. American Portland is sold up close and agents refusing orders in some cases. Foreign quoted at about former rates, and the established and well-known brands either go direct into consumption on previous contract or find an encouraging inquiry. Where receivers, however, are compelled to offer a new brand, or explain some defect in goods previously sold, they also find it necessary to add somewhat to the accumulation of cement already in store awaiting a market.

HARDWARE.—Most of the indications upon this market are of a cheerful and encouraging character. It must of necessity be later in the spring than usual before the condition of the country roads and the resumption of inland navigation tend their aid to facilitate and reduce the cost of transportation, but when these difficulties are overcome there is every reason to believe that the call will be quite liberal from all regular sources. In the meantime exporters and local buyers are affording an outlet for pretty full amounts of stock, and the city consumption is more likely to increase than diminish. Prices generally still appear to have good support, and some manufacturers and agents are talking about an advance. A new list has been issued by the manufacturers of Solid Box Vices, with prices ranging from $8.50 up to $67.50, according to weight, and a discount of 30 per cent. from list. Sargent & Co. make the following changes on January discount sheet: 13, No. 142, Loose pin butts, 55 per cent. discount; Nos. 143, 146, do do, 60 do do; 15, No. 235, do do, 70 and 10 do do; 16, No. 834, Bronze metal butts, 60 and 10 do do; 17, Nos. 845, 848, Bronze do, 10 do do; 22, No. 875, Bronze metal do, 60 and 10 do do; 27, Mayer's hinges, 60 do do; 24, 35, Spring hinges, 55 do do; 43, Sargent's blind hinges, Nos. 1, 3, 75 do do; 43, do do, No. 12, 75 and 10 do do; No. 25, Side pulleys (change list of 2 inch to $1.60, No. 48, End screw pulleys, No. 4½, Incased swivel pulleys, No. 43, Incased screw pulleys, No. 44, do do do, Nos. 45, 47, Screw pulleys, No. 55, Upright pulleys, No. 95, Ceiling pulleys, and Tackle pulleys, 65 and 10 do do; Clothes line pulleys, 60 and 10 do do; Hot house pulleys, Nos. 85, 87, 65 and 10 do do; Crate hasps, No. 12, and do do, Nos. 1, 2, 60 do do; Deep socket casters, change list of No. 21, 25 do do; New list, inch, 1¼, 80c.; 1½, $1.00; 1¾, $1.20; 1⅞, $1.45; 32, Refrigerator hinges, 50 per cent., and add new size as follows: No. 400, inch, 2½x5 and 4x6; Old size, per dozen pairs, $3.35; new size, do do, $6.50; Change list of coat and hat hooks, 60 and 10 do do; No. 19, $3.25; No. 119, $3.50; Shutter bars, new list, 66⅔ do do.

Nos.	167	165	164	169
2 inch	$1 30	1 60	6 60	6 30
2½ inch	$1 40	1 70	6 60	6 60

There has been a change on the discount of Boynton's Circular, and Mill Saws from 25 per cent. to 40 per cent., and on Patent Cross Cuts, One Man Saws, Billet Webs and Patent Handles from 25 per cent. to 30 per cent. from list.

LATH.—Receivers appear to have become the victims of misplaced confidence, and their predictions of ability to hold the market this spring without a break are not verified. There has, in fact, been a clear case of too many lath, a supply of about five million at hand "all in a bunch," with no counteracting demand, forming a weight under which the price settled off quickly from $2 down to $1.80@1.85, and finally as we close to $1.75 per M. After gaining the concessions, however, buyers came forward, and, including one cargo sent around to Philadelphia, the greater bulk of the supply afloat here has been disposed of and dealers say there is not much more near at hand. Manufacturers, in forwarding so freely, have followed precedent, as it is generally expected our market will be bare and ready to exhaust a liberal supply at this season, but, contrary to rule, a large amount of stock was carried over owing to the dull winter trade, and dealers temporarily at least had a position of much advantage.

LIME.—There is nothing new reported this week. All supplies available from first hands receive immediate attention and quick sale at full former rates, and there would be room for more stock if here.

LUMBER.—The irregularity of tone on operations for immediate delivery may still be noted and values vary greatly, according to the luck receivers have in catching customers in want of supplies or indifferent about operating just now, as the case may be. Still, there does not appear to be any great amount left in first hands unsold, and the call for special cargoes, etc., continues quite full. Indeed, all calculations are based upon a first-rate market until well on toward summer at least, and the chances are believed to be much more in favor of an expansion than a contraction in the volume of distribution of lumber. Some of the nearby towns have been represented of late among buyers in attendance, but the desire appeared to be in the main to select only enough for immediate and urgent wants. Export trade is keeping up well, and, at the present rate, will soon equal, and possibly exceed, last season, but is not yet "considerably ahead of corresponding date in 1880," as certain hap-hazard reports have of late stated. The opening of the Huds on River will bring down some stock from cargoes loaded last fall, but receipts are not likely to prove heavy for several weeks.

Spruce shows much the same general features though probably former extreme figures are somewhat modified in all cases. Dealers here have quite a little stock still in yard and do not hasten to secure additions, and, with an increasing number of mills preparing to commence work, the call for specials is also more easily met and prices lose some support. Sellers, however, give way slowly and seem confident of a more uniform market within a few weeks. Randoms are worth about $16@17 per M, and specials $17@19, though a trifle above the latter is in some cases asked.

White Pine continues in good demand, and the deliveries from what may be called the first hand accumulations are full. Holders, however, are meeting the call fairly and the inclination is evidently to keep supplies in motion whenever sales can be accomplished without the shading on cost. Our local distribution is increasing somewhat, but, in the main, by those who expect to obtain additions to their supply direct from the stock they are holding at Albany on purchases made last fall. On the general range about former rates remain current. We quote $17@20 per M for West India shipping boards; $24.50@26 for South America do.; $16@16.50 for box board; $17 17.50 for do. wide and sound do.

Yellow Pine is in moderate accumulation on the spot, most of the wintered stocks showing any attractions at all, having in one way and another been worked off. The demand, however, is somewhat doubtful on randoms, and would exhaust only a small offering of the ordinary run of sizes. The supply of schedules offering, however, is still quite full, and buyers anxious to close quickly on all deliveries up to mid-summer, with not many of the mills in a position to accept much of an addition to their list of orders. Logs at the South are becoming more plenty, but will all be wanted as rapidly as they can be handled. We quote random cargoes at about $23.50@25 per M; ordered cargoes $24@26 do.; green flooring boards, $24@25 do., and dry do. do., $25@26.50. Cargoes at the South $14@17 per M for rough, and $19@20 for dressed.

Hardwoods of attractive quality continue in small supply, and the additions offered are moderate, which, in connection with a good general demand, insures a firm market. All advices from primary points are supporting. We quote at wholesale rates by carload about as follows: Walnut, $77@85 per M; ash, $33@36 do.; oak, $35@40 do.; maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $45@47 do.; white wood, ½ and ⅝ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles find a fair export call, and a little more demand from home sources, with the general tone of the market well maintained. We quote Cyprus at about $6 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@33.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

Yard business is good and tending to increase, with a full line of values maintained on all qualities of stock.

From among the lumber charters and engagements recently reported we select the following:

A Br. barque, 398 tons, from St. John, N. B., to Limerick, deals, 60 s., c. d.; a Nor. barque, 320 tons, from St. John, N. B., to the East Coast Ireland, deals, 62s., 6d., c. d.; a Br. barque, 700 tons, from Brunswick to the United Kingdom, resawed lumber, £5 10s.; an Am. schr., 160 M lumber, from Brunswick to St. John, N. B., $9; two Am. brigs, 529 and 405 tons, hence to Havana, white pine lumber, $4.25; an Am. brig, 263 tons, hence to Arroyo, P. R., lumber, private terms; an Am. schr., 256 tons, hence to Port Spain, white pine boards, $5.25; a brig, 300 tons, from Annapolis, N. S., to North Side of Cuba, lumber, $7; a schr., from Mobile to Jamaica, lumber, $9.50; a Br. barque, 482 tons, hence to the North Side of Cuba, white pine lumber, about $4; a schr., 236 tons, from Norfolk to New York, lumber, $3.50; a schr., 160 M lumber, from Savannah to Bangor, $8; two schrs., 100 and 185 M lumber, from Jacksonville to New York, $8; six schrs., from Portland to New York, lumber, $2.50; a schr., 250 M lumber, from Port Royal to New York, $7; a schr., 360 tons, from Wiscasset to Savannah, hay, $5, and back to Bath, lumber, $7; a schr., 450 M lumber, from Pensacola to New Haven, $8; a schr., 225 M lumber, from Georgetown, S. C. to Bath, $8.50; two schrs., from the Potomac to Boston, oak timber, $5; a schr., 300 M lumber, from Darien to New York, $7.62½; a schr., 170 M lumber, from Brunswick to Baltimore or Philadelphia, $7.75; a schr., 199 tons, from Pocosin River to New York, oak ties, 2½c. ₱ foot; a schr., 160 M lumber, from Savannah to Baltimore, $5.25; a schr., 300 M lumber, from Savannah to New Haven, $6.50; a schr., 200 M lumber, from Savannah to Philadelphia, $6; a schr., 200 M lumber, from Savannah to New York, $6.50; a schr., 270 M lumber, from Brunswick to Philadelphia, $7; a schr., 479 tons, hence to Savannah, railroad iron, $2.25, and back from Brunswick, resawed lumber, $7.50; a schr., 245 tons, from Norfolk to New York, lumber, $3.50.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.
West Indies	500,596	8,441,594
South America	560,640	4,686,746
East Indies, Africa, etc.	99,238	1,185,613
Europe, Continent	14,000	165,150
Europe, United Kingdom	65,000	838,300
Total	1,239,474	15,317,403

GENERAL LUMBER NOTES.

THE WEST.

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, MINN.

There is so little left of the lumber trade that it is hard to note any of its features, and it is not expected to grow much in the next thirty days. The enormous amounts of snow over the West not only stop railroads, but so nearly block all roads that almost nothing can be done, and when this disappears it will be weeks before roads will settle sufficient for farmers to haul lumber.

We note, however, that many retail dealers are quietly figuring to secure stocks for an anticipated heavy spring business, and are making inquiries for prices on large lots. Holders are so firm and confident that they are not anxious to contract at even present figures for desirable kinds, and unwilling to shade anything. This feeling is due in part to the very informate (or otherwise) turn in the weather during the last two weeks, which will cut short the supply of logs 25 per cent. below estimates of a few weeks ago. Added to this is the dangers of great floods to sweep away logs, booms and mills, leaving the crop of lumber shorter than the crop of logs. With four or five feet of soft slushy snow on the ground now, the loggers are more powerless than they were two years ago on bare ground. The New York and Pennsylvania crop of logs is very much below the cut of the last two years and the snows all gone.

The Saginaw district of Eastern Michigan is reliably reported to have over a thousand million feet cut, with prospects of an early commencement of the sawing season. Western Michigan will furnish nearly the same supply she did last year, while the Green Bay Shore will exceed it by many millions. The Lake Superior region will cut over 50 per cent. more lumber than in 1880, and the railroad mills of Wisconsin furnish 200,000,000 more.

In Minneapolis the shipments are light and considerable stuff is being sent in from the country mills, as will be noticed by the table of receipts, but many firms have orders to fill after the snow blockade is removed.

The Northwestern Lumberman as follows:

CHICAGO.

With a partial return of more moderate weather the lumber trade of this city shows signs of the improvement which has been anticipated by the dealers and so often predicted in these columns. The dealers report a demand fully equal to their expectations and fully up to their ability to supply in such stock as will bear shipping. A careful estimate of the stock of one-inch common boards and fencing now in the yards of this city discloses the fact that of the former there is now on hand, both of dry and green, of all kinds of boards below D stock, of No. 1, but 24,224,770 feet, and of No. 2, 10,231,000 feet. This is not for all lengths a stock equal to a proper proportion of sixteen feet lengths in a well-adjusted condition of this market. In fencing strips the inventory is no more satisfactory, showing but 4,671,996 feet of twelve-feet lengths, 5,562,930 feet of fourteen-feet, and 20,997,000 feet of sixteen-feet in the No. 1 grade, and a total for all lengths of 11,172,000 feet of No. 2. Of the quantity enumerated, fully 2,000,000 feet had been already sold, reducing the total yet in the market to about 29,000,000 feet. That this quantity, either of boards or of fencing, will supply the demands of the market until such time as navigation shall fully replenish the supply, is out of the question.

A price list meeting of the dealers was held to-day, at which a few changes only were thought advisable, or at present imperative. These were adopted with unanimity, the only objection urged against them being from those who thought higher rates were warranted. Under the head of box boards, the item C was advanced from $26 to $28. Fencing flooring was raised from $15.50 to $16, and ten-foot fencing from $14.50 to $15. Narrow boards, dressed and matched, and ship lap, and 10-inch common, were advanced 50 cents each. Common and cull boards were raised 50 cents on each item of the list. In fencing, the No. 1 grade was advanced 50 cents and No. 2 grades $1. Dressed pickets were reduced $1, on account of the course taken by a leading planing mill firm with regard to them, and a committee was appointed to confer with that house, with a view to harmony. In dimension grades, joist and scantling, 12 to 18 feet, were advanced to $12; timber, 4x4 to 8x8, up to 18 feet in length, to $13; 2x4, 18 feet, to $13; 10 and 20 feet, to $14, and 20-foot joist and scantling to $17. Extra A shingles were fixed at $3, and standard A at $2.90.

The planing mill association of this city sent in a communication, asserting their intention to adhere to their recently established rates for planing lumber, and asking the lumber dealers to adjust their list for dressed lumber in accordance therewith. As opposition to this action was manifested, a committee, consisting of three lumber dealers and two planing mill men, was appointed to consider the matter and report at the next meeting.

STOCK ON HAND MARCH 1.

	1881.	1880.	1879.
Lumber	398,800,030	338,996,421	302,534,968
Shingles	166,010,000	152,072,000	165,959,000
Lath	41,784,270	37,132,219	33,387,220
Pickets	2,251,438	1,467,974	691,570
Cedar posts	177,304	217,362	342,700

HARDWOODS.—Little that is new can be said concerning the sales for the week. They have been up to the supply of seasoned stock, a condition that has existed for several months, and which will not change until the cut of the winter shall be seasoned ready for the trade.

We make several changes in the price list. Oak timber is firmer; butternut is $5 higher; maple flooring has advanced from $2 to $3, and walnut, ⅝ and ½ inch, 10 inches and up, select, is quoted $3 higher.

Receipts for the week have been heavy. Oak is coming to town in large quantities, also considerable ash. Some of the yards are taking on an old-time look again. But a small proportion of the arrivals, however, is seasoned. We noticed 75,000 feet of dry ash, two and three inches thick, which was placed without going into the yard, and occasionally there is a car load of dry walnut. The latter, though, is a rare occurrence, and eight-tenths of the dealers confess that to get seasoned walnut, in anything like desirable quantities, is an impossibility. Several car loads of 1½ inch, about 90 days from the saw, arrived and found ready buyers.

That the cut of hardwoods this season will be the largest in the history of the business is a foregone conclusion. Everybody that can get a log will cut it. To this rule we know of but one exception. Some of the Michigan men are holding their maple in reserve,

entertaining the opinion that, on general principles in the lumber business, rarely comes to the surface, that a few years hence there may possibly be a call for maple flooring. How wise a move it is, a few years will tell. An extensive pine operator in Michigan recently said to the writer, that although his business was a good one so far as profits are concerned, if he were to sell his mill property and put the money into standing hardwoods, he should expect at the end of a few years to be the winner.

With hardly an exception, our dealers are putting in heavy stocks, and some of them assure us that their contracts are double those of last year. The tendency of prices on some kinds of hardwoods is downward, and we hear of sales in Michigan at $2 under the ruling prices of three months ago. This condition does not apply to ash, walnut and cherry, other than that green stock can be bought cheaper than dry. To pile ash in this city will cost on an average $6 more than last year, and notwithstanding that the cut will be one of fair proportions, the manufacturers of agricultural implements are not expecting that it will meet their demands, and are prepairing to use, wherever available, other woods in its place. Gray elm, to a small extent, is used instead, and as it is quite plentyful, cheaper than ash, and so far has given fair satisfaction it may possibly come into general use.

The stave market is pretty well cleaned out. The dealers here are receiving orders from Iowa, Wisconsin and Minnesota, that they are not able to fill. They attribute the scarcity, partly, to the snow blockade that has kept them back; but, from what we learn, it is safe to say that the stave cut in Indiana has been light this winter. A firm in Minneapolis that heretofore would not use an elm stave has just ordered 100,000 from a dealer here, and other firms are necessarily looking in the same direction. Hoops are in moderate supply and without change in prices, except flat, No. 1, which are selling higher.

NEWS FROM THE LOGGERS.

The hauling in most of the logging districts seems to have improved somewhat since our last report was written, the warm weather having settled the snow and brought it down to a more respectable depth. The average weather now is warm enough to thaw in the daytime, and cold enough to freeze at night, and where there is an abundance of snow this is not specially unfavorable. We are informed that in some districts the conditions are better now than they have been since early in the season, and operators are, of course, doing all they can to take advantage of them. The next two or three weeks are looked upon as likely to be the last good ones the loggers will have, and there is naturally a strong effort making to get all the work done that it is possible to accomplish. A good many camps are coming out of the woods: mainly, now, because they have completed their jobs. They will continue to come out until the season finally breaks up, as fast as they finish what they intended to do, or find they cannot continue to advantage. The present outlook is that the season will last as long as it usually does, and probably the early part of April will find a considerable number of men still in the woods.

THE EAST.

A correspondent of the Bangor Commercial, writing recently from Mattawamkeag, says: "During the past few days the lumbermen, with the exception of the fortunate few who had finished operations and taken their teams from the woods, have had dejected countenances. The thaw of the past week has been severe and widespread. Coming at this time it has done great damage to lumbermen. The swamps and brooks have been filled with water making it almost impossible in many places to move teams in the woods. Some concerns which are operating on high land have been able to keep at work, but of course have been greatly retarded. Many have been obliged to suspend operations for the time being, and a few have been obliged to take their crews from the woods. Undoubtedly a large quantity of lumber will be left on the yards. It is feared that so much of the snow has already melted away that the supply of water for driving will not be as large as usual. Misfortunes rarely come without some blessings mingled, and the result of this thaw will probably be to diminish the supply of lumber, and so that which has been hauled will command higher prices."

THE PROVINCES.

We are in receipt of the Canada Lumberman, now transferred to the proprietorship of Toker & Co., and published semi-monthly at Peterborough, Ont. As its title indicates, it is devoted to the lumber and timber interests of the Dominion, and promises to advocate all measures tending to the advantage of the trade it represents, and to furnish full and reliable reports upon the condition of the Canadian market, statistics, etc. Its introductory is written as if there was a will and a way to execute behind the promises made, which must place the journal in full rank with others of its kind.

FOREIGN.

The Timber Trades Journal has the following:

LONDON.

Messrs. Foy, Morgan & Co. were favored with a very good attendance at their sale on Wednesday, the 2d inst., nor was there a want of buyers for the unreserved lots, which went off quite as well as many that have been disposed of in the same place latterly. Some Quebec spruce, unsorted, ex Red Jacket, fetched £8 5s., and some 2d and 3d quality Quebec yellow pine, in parcels of about 25 standards, ex-Emma, went respectively at £8 10s. and £8, but not much was sold. Another parcel or two of Quebec spruce, about 40 standards, 3ds, brought £7 15s.

LIVERPOOL.

So far the prospects of a good business for the next import season are by no means rosy. The stocks on hand here appear quite sufficient for some time to come, and a large proportion of the chief buyers in the country are fairly stocked with material, and therefore what business is now being done is in the execution of small orders, for which there is pretty keen competition.

The contracts already entered into for future supplies for next season, especially in Canadian woods, are very few and in marked contrast to the numerous orders which have been placed on the Clyde, Tyne and Wear, and other shipbuilding localities.

* * * * * *

The general impression here seems to point to the fact that the wisest course to adopt this season will be to abstain from purchasing at the present prices and wait the chance of buying in the market here, to which there will be in all probability quite as much wood sent as will be wanted for consumption. The high prices that have already been paid for pine deals have forced up the market to a point which precudes the possibility of any profit being made, unless there should be some rapid alteration in the state of trade before these goods can reach this country, and as there is no visible sign of this being the case, those who have usually contracted for a few cargoes appear to have decided to wait for what market cargoes may possibly come forward. That this is the case is shown by low rates of freight, as there are few charterers in the market, and it is a moot question with some shipowners whether they will lay up their ships or run them at a freight which will barely pay their expenses. It is said that two vessels have been chartered at 25s. per load, Quebec to Liverpool. The prices of small averages of hewn and sawn pitch pine are weaker, and this will have no small influence upon the commoner qualities of Quebec pine, and, therefore, holders of the latter kind will have to give way considerably if they wish to meet the market.

On the 25th ult., at Glasgow, Messrs. Wm. Connal & Co., brokers, the cargo of Honduras mahogany ex Ensign, the import of Messrs. Jas. Steven & Son—327 logs, 84,000 sale ft.—prices ranged from 5d. to 10d. per ft., average 5 15-16d., or 6d. nearly. This cargo consisted of small wood, with the exception of a few medium-sized logs.

On the 2d inst., at Glasgow, Messrs. Edmiston & Mitchells, brokers:

Quebec 1st pine deals—9 to 13 ft. 19-30x3, 3s. per cubic ft.; 9 to 13 ft. 17-18x3, 2s. 10½d. do.; 9 to 13 ft. 14-16 x3, 2s. 8d. and 2s. 9d. do.; 9 to 13 ft. 14x3, 2s. 6d. do.; 9 to 13 ft. 12x3, 2s. 5d. do.; 13 ft. 11x3, 2s. 4d. do.; 10 and 11 ft. 11x3, 2s. 1½d. and 2s. 2½d. do.; 9 to 11 ft. 9-10x 3, 2s. 1d. do.; 9 ft. 11x3, 2s. do.; 9 to 11 ft. 8x3, 2s. do. Quebec 3d pine deals—14 and 16 ft. 11x3, 1s. 3d. per cub. ft.; 13 to 15 ft. 7-10x3, 1s. 3d. 12 logs American black walnut, 5s. 7d. to 6s. per cub. ft. string measure, average 5s. 9d.

NAILS.—A slightly unsettled feeling could at times be noticed, but the results do not appear to be very disastrous to holders and the market in a general way retains cheerful and healthy features. All indications point to a large consumption during the incoming season, it is claimed, and manufacturers calculate upon good full prices throughout. Just at the moment the distribution is small on all outlets.

We quote 10d to 60d, common fence and sheathing, per keg, $3@3.10; 8d and 9d, common do, per keg, $3.45@3.55; 6d and 7d, common do, per keg, $3.70@3.80; 4d and 5d, common do, per keg, $3.95@4.00; 3d and 4d, light, per keg, $4.70@4.80; 3d, fine, per keg, $5.45@5.55; 2d, per keg, $5.45@5.55.

Cut spikes, all sizes, $3.45@3.55; floor, casing and box, $3.95@4.45; finishing, $4.20@4.95.

CLINCH NAILS.

1½ inch, $5.70@5.80; 1¾ inch, $5.45@5.55; 2 inch, $5.20@5.30; 2½@2¾ inch, $4.95@5.05; 3 inch and longer, $4.70@4.80.

PAINTS AND OILS.—There is not much change in the general status of the market. Demand is very good from all regular sources within reach of this base of supplies, and dealers assert that the mails bring them evidence that more goods will be wanted as soon as they can be moved. Assortments on hand are fair of both domestic and imported stock, and holders are enabled to afford opportunity for any ordinary selection, but there is rarely to be found any great surplus or indications of a desire to press sales beyond the natural development of demand. Some moderate fluctuations on prices have taken place, but nothing of a radical character. Linseed Oil has found a moderately active demand on the regular outlets and remained about steady in price. We quote at about 56@75c. for City, and 62@62½c. for Calcutta from first hands.

PITCH.—The supply and demand have pretty closely balanced, and the market retained a steady tone, but, beyond this, is without feature of special interest. We quote at $2.00@2.15 per bbl. for City, delivered.

SPIRITS TURPENTINE.—The improved tone of last week has been lost, and buyers gain quite a little advantage. Advices from the South were in a measure instrumental in bringing about a change, most of the primary markets showing a break down on price. Supplies, as a rule, were full and offered with greater freedom. As this report is closed, the quotations stand at about 45@47c. per gallon, according to the quantity of stock handled.

TAR.—Business has been somewhat irregular and also a little fluctuation on prices was shown, and the market, as a whole, appears to be under pretty good control, and holders of stock not likely to lose much advantage. We quote $2.50@2.75 for Newberne and Washington, and $2.62@3.00 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he *hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.*

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

*In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. * means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.*

CO-PARTNERSHIP NOTICES.

THE UNDERSIGNED, DESIROUS OF FORMING a limited partnership under the statutes of the State of New York, hereby certify:

1. That the name or firm under which such partnership is to be conducted is HALL, NICOLL & GRANBERY.

2. That the general nature of the business intended to be transacted by such partnership is the general business of importing and selling foreign and domestic fancy goods and on commission.

3. That the names of all the general and special partners interested in said partnership are as follows:

Bolton Hall, who resides in the City of New York,

Benjamin S. T. Nicoll, who resides in the City of New York, and

David W. Granbery, who resides in the City of New York, are the general partners; and Marcellus Hartley, who resides in the City of New York, and Malcolm Graham, who resides in the City of New York, are the special partners.

4. That the said Marcellus Hartley has contributed the sum of twenty thousand dollars, and said Malcolm Graham the sum of twenty thousand dollars as capital to the common stock.

5. That the period at which the said partnership is to commence is the seventeenth day of March, 1881, and the period at which the said partnership is to terminate is the last day of February, 1883.

BOLTON HALL,
BENJAMIN S. T. NICOLL,
DAVID W. GRANBERY,
General Partners.
MARCELLUS HARTLEY,
MALCOLM GRAHAM,
Special Partners.

CO-PARTNERSHIP NOTICES.

WE, THE UNDERSIGNED, GEORGE W. MILlar, William D. May and William Roberts, having formed a limited partnership do hereby certify:

I. The name or firm under which such partnership is to be conducted is GEORGE W. MILLAR & CO.

II. The general nature of the business intended to be transacted is that of Paper and Paper Stock Dealers.

III. The names and respective places of residence of all the general and special partners interested therein are as follows:

George W. Millar is a general partner, and resides at No. 17 Cottage place, in the city of New York.

William D. May is a general partner, and resides at No. 249 East 110th street, in the city of New York.

William Roberts is a special partner, and resides at Waltham, in the Commonwealth of Massachusetts.

IV. The amount of capital which the said special partner, William Roberts, has contributed to the common stock is Ten Thousand Dollars in cash.

V. The period at which the partnership is to commence is the 21st day of March, 1881, and the period at which it will terminate is the 1st day of January, 1882.

Dated March 21st, 1881.

GEO. W. MILLAR.
WILLIAM D. MAY.
WILLIAM ROBERTS.

FEINBERG AND WINTER.—STATE OF NEW York. City and County of New York s. s —This is to certify that we, the undersigned, have formed a limited partnership, pursuant to the provisions of chapter four, title one, part two, of the Revised Statutes of the State of New York, entitled "Of Limited Partnerships," and of the several acts and statutes amending the same.

First. The name or firm under which such partnership is to be conducted is FEINBERG & WINTER

Second. The general nature of the business intended to be transacted is that of commission merchants and purchasing agents; and also the purchasing, selling and dealing in general merchandise.

Third. The names of all the general and special partners interested therein, and their respective places of residence are,

Moses S. Feinberg, who is a general partner, who resides at San Francisco, in the State of California; Benjamin G. Winter, who is a general partner, and who resides in San Francisco, in the State of California; and Zadoc Staab, who is a special partner, and who resides in the City, County and State of New York.

Fourth. The amount of capital which Zadoc Staab, the special partner has contributed to the common stock is the sum of five thousand dollars.

Fifth. The period at which said partnership is to commence is the fourth day of March, 1881, and the period at which it will terminate is the 4th day of March, 1884.

In witness whereof we the above named persons who are desirous of forming such partnership, have made, and severally signed this certificate this fourth day of March, 1881.

MOSES S. FEINBERG,
BENJAMIN G. WINTER,
General Partners.
ZADOC STAAB,
Special Partner.

State of New York, City and County of New York, s. s.

On this 4th day of March, 1881, before me personally appeared Moses S. Feinberg, Benjamin G. Winter and Zadoc Staab, to me known and known to me to be the individuals described in, and who executed the within instrument, and who severally acknowledged to me that they executed the same.

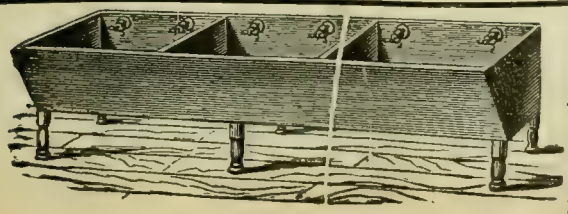
C. F. CONNER,
Notary Public,
N. Y. County.

THIS IS TO CERTIFY THAT THE UNDERSIGNED have formed a limited partnership, pursuant to the provisions of the Revised Statutes of the State New York.

The name or firm under which said partnership to be conducted is APGAR, MERRILL & CO. The general nature of the business intended is the buying and selling on commission, of Stocks, Bonds and other Securities. The place in which the business is to be carried on, is the City of New York.

The names of all the partners are as follows:

Louis J. Apgar, who resides in Jersey City, New Jersey, George Merrill, who resides in Raritan Township, New Jersey, and William S. Hartt, who resides in the City of New York, are the general partners, and Nathaniel Dole, who resides in the City of New York, is the special partner.



The said Nathaniel Dole has contributed the sum of twenty-five thousand dollars in cash, as special capital.

The said partnership is to commence on the twenty-fourth day of February, 1881, and is to terminate on the twenty-third day of February, 1883.

Dated, New York, 68 Broadway, and 17 New street, February 24th, 1881.

LOUIS J. APGAR, Member N. Y. Stock Exchange.
GEORGE MERRILL.
WILLIAM S. HARTT.
} General Partners.

VOL. XXVII. NEW YORK, SATURDAY, APRIL 2, 1881. No. 681

Published Weekly by The

REAL ESTATE RECORD ASSOCIATION

TERMS:

ONE YEAR, in advance - - - - - $6.00

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

Would it not be well for the editors of the daily papers to revise the articles on real estate in which the subjects of rents are discussed? In commenting on this subject, the reporters of the Tribune and other papers have been allowed to indulge in comments which read like the emanations of Justus Schwab in an East Side beer saloon at an anti-rent meeting. The reporters indulge in criticisms on landlords entirely unwarranted by the facts. Up to 1879 the tenants had the best of the landlords, and owners of real property were the most impoverished of the well-to-do classes, for taxes were heavy and rents light. There has been a change, however, and because landlords are charging a fair interest on their money, they are abused. It would, of course, be a misfortune for the city if rents were so high as to drive people over to Brooklyn or Jersey. But this is a matter which will adjust itself. A particularly venomous attack is made upon the owners of real estate in Harlem, but rents have not advanced in that quarter more than in other growing portions of the city. Tenants would do well to take advantage of the present rates and secure long leases. There is no likelihood of lower rents in this city for many years to come. Everything is conspiring to make real property on this island more valuable every year.

It may be that in certain sections east of the Bowery and Third avenue there will be no improvement in prices, but the southern end of the island and the whole western portion from the Battery to Spuyten Duyvil is certain to increase in value, with a corresponding increase in rentals. The newspapers should bear this in mind and not permit their impecunious reporters to write nonsense respecting the rentals of New York.

In Broadway, from Canal street downward, there is to be very little tearing down and rebuilding this season, that part being already built up so high and so solidly as to call for little change for years to come. A large portion of the structures in this part of the city have been well built by good architects, but many of them that were put up by mere builders twenty or twenty-five years ago, more with a view to a fine appearance than to solidity, will have to come down gradually before many years. Further up-town there will be considerable demolition and reconstruction after the first of May. Between Madison square and Forty-third street the increased rents, consequent upon the large advance in the price of property, have caused many stores and offices to be placarded "To Let," the present occupants being disinclined to agree to the advance. The reasons of the advance in this quarter are the improvements on Broadway, above Forty-first street, the proposed Opera House at Fortieth street, and the probability of the property being needed for large business structures, as trade moves up-town.

ATTENTION, BUILDERS!

Before the year 1891 there will be a large addition to the population of New York. A conservative estimate is that in ten years time 500,000 people will be added to our population, of which 400,000 will be on this island alone. This estimate is based upon the result of the several censuses, state and national, taken since the war. Indeed, there is reason to believe that our progress in the future in numbers will be greater than it has been in the past. It follows, if this estimate is correct, that there is no danger of overbuilding. Indeed, as a matter of fact, the erection of houses has not kept pace with the growth of our population. The following table, compiled from official sources, tells its own story:

Year.	Total No. buildings erected.	No. of first-class dwellings.	Apartment houses.	No. other than first-class.
1868..	2,014	853	0	1,161
1869..	2,348	840	1	1,507
1870..	2,351	822	0	1,529
1871..	2,782	1,049	0	1,733
1872..	1,728	499	1	1,228
1873..	1,311	206	0	1,105
1874..	1,388	234	0	1,154
1875..	1,406	382	112	912
1876..	1,379	439	115	825
1877..	1,432	421	157	854
1878..	1,672	525	99	1,048
1879..	2,065	764	253	1,048
1880..	2,252	900	516	836

The above figures are worth studying. We did not erect as many houses in 1880 as we did in 1871 by five hundred and thirty, and of first-class houses not so many by one hundred and forty-nine. But since 1874 a new class of buildings has come into fashion which were unknown before that period. We mean great apartment houses. In 1875 we erected one hundred and twelve of these; in 1879, two hundred and fifty-three, and in 1880, five hundred and sixteen. We doubt if so many large apartment houses will be built this year, but there will undoubtedly be a large increase in the number of smaller flats of a cheaper kind. The number of rich people who want to live in elegant apartments and yet not be hampered with a whole house is steadily increasing, while families from abroad will prefer apartment houses, as it gives them a sense of luxury and comfort which they cannot get at the public hotel or private lodgings in an ordinary family house.

New York, to-day, wants from seven to ten new and magnificent hotels, superior to any now open. Whether we have a World's Fair or not, these great caravansaries are needed to supply accommodations for the rich strangers who are thronging in increasing numbers to our city. Our first-class hotels to-day are over full, and they are not all well located. Now that we have rapid transit, a hotel further up-town than the Windsor would not be out of place. Indeed, the neighborhood of the Central Park is peculiarly suited for hotels that would be attractive to invalids coming to the city for medical advice; to rich strangers who wish to take advantage of the drives in and above the park, while they would not be out of place for merchants, who can easily reach down-town stores by our luxurious elevated road cars.

We judge that there has been too much building of houses which cost anywhere between $16,000 and $40,000; or rather not too much, but that the demand for such houses has been better supplied than those designed for the very rich or very poor. What is needed to-day are accommodations for the two extremes—the millionaires and the working population. These last ought not to be encouraged to remain on this island. The rapidity with which cheap houses have been sold north of the Harlem River, near the railroad lines, furnishes a hint, which builders should take advantage of. New York is destined to become a great manufacturing city, but the homes for the mechanics and working people will be found in the Twenty-third and a portion of the Twenty-fourth Ward. Land is becoming too valuable in every part of this island to furnish houses at low rents. True, more tenement houses might be built, but it seems impossible to provide cleanly and wholesome homes for working people in any tenement house system that has been devised. The poor should be encouraged to own their own little house and lot in the outlying districts. The dangerous classes in a large city are those who occupy poor and densely populated neighborhoods.

But the buildings that will pay best, and of which many are needed in New York to-day, are those which would be attractive to very rich families, who wish to reside in the metropolis. We live in a luxurious age and New York, from this time forth, will vie with the most costly capitals in the world. A glance at the above table, will show the steady increase which has been going on in the number of first-class houses, but it does not seem improbable that ten such will be built in the coming ten years where one was constructed within the last ten years.

To sum up then, New York wants:

1st. A number of new hotels and costly French flats or apartment houses.

2d. Residences for the very rich, who wish to make New York their home and enjoy the advantages of our public parks, drives, amusements, art galleries and educational institutions.

3d. Homes for working people, to be located north of the Harlem River, and east of the New York and Northern road.

Sixth avenue is still alive in spite of the dismal forebodings which the building of the elevated railroad aroused, and it leads Broadway a sharp competition for retail traffic. Capitalists are seeking for eligible

sites for handsome buildings to accommodate retailers, whose increased business calls for large structures. There will be four or five story warehouses of about the style of those that have been recently erected on the same avenue at points between Eighth and Thirtieth street, with unpretentious fronts in keeping with the general appearance of the thoroughfare. In the Bowery—the Broadway of the East Side—stores are being made deeper and higher in order to accommodate the trade of the section east of it, whose teeming population becomes denser year by year. Expensive buildings are not required here, as the middle class of people in that region are steadily moving to more salubrious locations uptown. The only noticeable improvement in the Bowery since the erection of the buildings of the Dry Dock and the Bond Street Savings banks is the two additional stories on part of the Cooper Union.

HAVE JAY GOULD AND ROBERT GARRETT JOINED HANDS?

It looks very like it. When the American Union Telegraph Company was organized, Mr. Robert Garrett took a large block of the construction companies stock, which has netted him up to date some 300 per cent. It will be remembered that one of the blows at Western Union was the order issued by the Baltimore & Ohio management forbidding the old telegraph company using their wires. This was President Garrett's first intimation of his alliance with Jay Gould. Next we hear James R. Keene being out of Jersey Central, and the majority of the stock being controlled by Jay Gould and his friends. So up the price of that bankrupt security goes from 90 to 112. Then comes the information that the line connecting the Baltimore & Ohio and the New Jersey Central had been secured, but here it seems that Messrs. Gould and Garrett were outwitted by the Pennsylvania Company, who retained the Washington, Wilmington & Philadelphia stock by over-bidding them. Another mystery has been the extravagant price of Ohio & Mississippi stock, common and preferred. As a local road, this company has all it can do to pay its interest on its bonded debt; its stock is valueless. But if the Ohio & Mississippi, running as it does from Cincinnati to St. Louis, was made the connecting link between Jay Gould's system of roads in the Southwest, which converge in St. Louis, and the Baltimore & Ohio system of roads, which concentrate in Cincinnati, at once the Ohio & Mississippi becomes the most important link in one of the two greatest trunk lines in the United States.

THE REAL ESTATE RECORD was the first paper in the United States to point out the necessity of the Iron Mountain to Jay Gould as his main trunk line from St. Louis to Mexico. The attention of speculators was skillfully directed to Missouri, Kansas & Texas as being his principal line from St. Louis to the Southwest. But all the while Mr. Gould was laying his plans for the capture of Iron Mountain, which he eventually accomplished. In the same way the street has been led to believe that Mr. Jay Gould intended to utilize the Wabash and the Delaware & Lackawanna to get an outlet into New York. As a matter of fact, Gould has sold out his Wabash interest and never had much in Delaware & Lackawanna. There are 147,000 shares of Baltimore & Ohio, which is selling for nearly $200 a share. The city of Baltimore owns 32,500 shares, the John Hopkins estate has 15,000 shares, Mr. Robert Garrett is supposed to own 50,000 shares. Seventeen individual owners hold 22,000 shares. Much of the stock is owned abroad in Amsterdam and London. We think it not premature to state that Mr. Gould and Mr. Garrett understand each other, and that the public will some day be startled by the announcement of a railroad combinatiou which will connect New York with the city of Mexico by an almost direct line, with Philadelphia, Baltimore, Washington, Chicago, Cincinnati and St. Louis as feeders. The Baltimore & Ohio has a surplus of $40,561,642. Here is a basis for a splendid deal with scrip dividends and the like, which would leave the Western Union and the Wabash combinations far in the rear. If this scheme is carried through, Ohio & Mississippi and Marietta are a good purchase.

The east side tunnel, between the City Hall and Forty-second street depot, has as many lives as a cat in the newspapers. About every month there is a new organization, and the daily journals announce, with a flourish, that the necessary capital has been secured and the work is to be commenced forthwith. But, beyond their publications, nothing comes of it. The last reorganization involves the name of the redoutable General John Cochrane as the President. The General, in his day, has been noted as a politician with a very mixed record, but there is nothing in his training, his abilities or his character, that will warrant capitalists for putting a dollar into an enterprise of which he is the head. Unless the old arcade scheme can be revived and a new avenue opened underground, in which there will be air, light and ventilation, all these tunnel schemes might as well be given up. With our elevated system, comfortable and cheap, passengers could not be tempted into any hole underground. The scheme is entirely impracticable. An eighty fect wide excavation with accommodation for truck traffic and freight, might be feasible, and if it could connect with the leading hotels, would be useful for travelers who wish to reach the Grand Central Depot.

THE POINTS OF THE MARKETS.

The news that Secretary Windom was coming to New York strengthened the stock market, which had previously been very dull, as it was taken for granted that some means would be devised for retiring a portion at least of the 5 and 6 per cent. Government bonds, and reissuing in their place bonds bearing a lower rate of interest. This, of course, would set free a good deal of Government money and would tend to put up prices.

The strength of the market is indeed remarkable. Sales have fallen off largely; indeed, there is not much more than one-third the usual business. In dull times all the sales are reported; when stocks are excessively active there are a great many transactions which are not reported. Indeed, on Wednesday, the dulness was phenomenal.

It is to be seen how Mr. Windom bears himself in Wall street. Ex-Secretary Sherman assumed the office thoroughly equipped for its duties; for, in addition to his long experience as Chairman of the Finance Committee of the Senate, he had the advice of the people connected with the First National Bank of New York, a bank which has more financial ability behind it than any ten similar institutions throughout the country. Secretary Windom must lean on some one, and his choice of an adviser will tell the story of his success or failure as a finance minister. If he is wise, he will not attempt too much; while it is his duty, as he has such extraordinary powers, to prevent any such stringency of money as would interfere with the crops or the business of the country. He should see to it that he is not made a cat's paw in the interest of Wall street speculators. There are sufficient natural influences at work to stimulate prices, without the Government being ranged on the side of a speculation, which sooner or later will end disastrously. If President Garfield's administration wishes to leave office with honor, four years from now, it should use the curb and check-rein on Wall street, and not the whip or spur. This is not the advice that Secretary Windom will get in conferring with the magnates of the "street," but the financial press of the nation ought to urge this view strenuously.

While prices on the Stock Exchange are firm, with a tendency to advance, cotton, wheat, pork, provisions and lard are weaker, with a disposition to decline. It is now found that our surplus of all exportable articles is very much greater than was supposed at the beginning of the season. Hence constant concessions are made to the foreign buyer and hence constantly increased exports. The condition of affairs is reversed from that of this time last year, for we are sending abroad more of everything, including securities, and receive gold in return.

Just at present the outlook looks bullish; for whatever Secretary Windom does it will be used to help the market, and our large exports and imports of gold furnish material for a further advance in prices. There is still the doubt about the crops, but we can afford a diminished harvest this year in view of the enormous surplus of everything in the country.

THE WORLD'S FAIR.

The time has come to speak plainly. A World's Fair would be of incalculable value to New York. It would help build up the upper part of our city and would pour into the channels of our local trade millions and millions of dollars. But the World's Fair cannot be held without the spending on buildings, and the necessary machinery, some seven to eight millions of dollars. William L. Strong says, that ten millions could be raised in a week if one certain site be selected. This site is the one preferred by General Grant, and was the one selected originally by the committee. Had that selection been endorsed, the money would have been raised, the organization perfected and the work now well under way. The shopkeepers, hotel proprietors and the mercantile community generally will not subscribe for a fair to be held for the exclusive benefit of the Central Railroad and a few real estate owners in the northwest corner of the city. They say that with the fair at Inwood, frame hotels would be erected in the neighborhood, and the millions who would throng to the Exposition would be accommodated in the immediate neighborhood.

But the entire newspaper press set up a howl against using any portion of the Central Park, although General Grant and scores

of others explained that our pleasure ground would be improved and not injured, by its temporary use for an International Exposition. As a matter of fact, nearly every paper in town was grinding the axe of the owners of some special sites, and they all agreed to combine against the one location that was the most desirable from every point of view.

Upon the resignation of General Grant, a number of persons were talked of to succeed him. It would have been an easy matter to have found out which of the persons spoken of would consent to serve; but the Committee was guilty of the extraordinary blunder of electing a President who promptly declined the honor. At last accounts, they were considering the propriety of selecting a gentleman who is on a tour around the world, and who would not be in town for several months. So far, the people having the matter in charge, have done nothing but blunder. The one sensible thing they did was, upon the advice of THE REAL ESTATE RECORD, in electing General Grant President. Had they insisted upon the site which his clear judgment at once saw was the only available one, the World's Fair project would not be in the humiliating condition it is now.

ABOUT MININNG.

Quicksilver mining stock has had strange ups and downs in the New York market. The company owns one of the three great quicksilver properties of the world, and had it been well and honestly managed, the stockholders would have had regular and liberal dividends. The managers and manipulators of the company have made a great deal out of the property, and of late years the lawyers have had their pickings out of it. The writer, while in California, visited the mine, and he was told that one of the superintendents had become the largest holder of mortgages in that part of the country. One of the lawyers is reported to have said that he expects to leave the litigation to his decendants. Every new decision is the occasion for an upward or downward movement in the stock. Recently there has been a spurt in the preferred, due to a decision that the owners of the preferred were entitled to many years of back dividends, 7 per cent. per annum. But it is alleged that there is no money to pay these dividends. Yet, according to the treasurer's report on February 1st, 1881, there was $619,983.01 on hand, of which A. B. Baylis, the treasurer, had loaned out $385,000, while $86,079.83 was in the banks of California and Nevada, a small sum in the other banks and the rest in quicksilver in the mines. Said an insider to the writer, "Quicksilver stock lives and thrives under a lawsuit. Its stock is valueless and will never pay a cent." In this case the lawsuit is between the preferred and the common stockholders. The former have a clear right to all the money in the treasury, but the latter control the organization of the company, hence the trouble. But the waste in this case, shows how wise is the Stock Exchange in settling all its difficulties by arbitration, thus keeping the lawyers at arm's length. We judge Quicksilver stock, common or preferred, a good one to leave alone, for the appeal will take two years, although it may sell for much higher figures in the meantime.

The price of seats in the New York Mining Board is quoted at $1,800.

This has been a mixed week in the mining market, with very few notable changes. The business on the whole, however, steadily increases; Let but four or five of the properties now speculatively dealt in become dividend payers, and the market would advance to high figures.

There are some faint indications of a revival of interest in the Comstock lode. This time the movement is in the Southend stocks, Gould and Currie, Yellow Jacket, Belcher, &c. It is not likely much will be done on the old lode until John W. Mackey returns from Paris and "Jim" Fair is released from senatorial duties. The mining business has fled from San Francisco to New York.

Arizona and New Mexico are rapidly coming to the front as the mining regions of the near future. The opening of the Atchison & Santa Fe road to the Pacific has led thousands of people to visit the mining regions of the Southwest with a view to improvement. We hear of a great many promising properties which are about to be put upon the New York market.

There was a time when the New York Mining Board could be reproached for dealing almost exclusively in "cats," in utterly worthless properties. But such is no longer the case. No stock is now admitted which does not represent a real mine with a good title, machinery, ore on the dump, and the like. The Board has now the services of experts in every mining camp, and whenever it is proposed to list a property, word is sent to a competent person, and the mine thoroughly examined. Of course not more than one in twenty good prospects ever amounts to anything. But those who deal in the Board may be assured that the shares they buy and sell represent mines that are actually worked. Of course the Board cannot guarantee either the efficiency or the honesty of the management. It has done all that can be expected, in confining the dealings to legitimate properties.

Chrysolite has now $300,000 in the Treasury. Its net profit for March was $82,000. The very latest news from the mine is not of the best, for, as in all Leadville properties, the yield, though rich, is uncertain. But the property has been honestly and efficiently worked, there is a great deal of development going on and no dividend will be declared, unless there is a fair prospect that it can be continued. A good reserve will always be kept up. There may be a 25 cent. dividend before the 1st of May.

The Highland Chief is one of the most promising properties in Leadville. It is stocked for only 50,000 shares, which are selling at about $5 a share, but the stock is not yet listed. The history of this mine tells the old story. The management has been simply atrocious. Properly worked the stock of this mine should sell for $40 a share. The mine is being worked so as to freeze out the New York stockholders, who thought they had a good purchase at $25 a share. We hear the number of shares of the stock will be doubled.

The deal in Silver Cliff still hangs fire, the waterpipes to the new mill having been detained on the road. Should this mill work all right, and the silver known to be in the ore taken out, the stock could easily double in price.

Horn Silver steadily declines in value, as we have always said it would do. Another case of great expectations disappointed.

At the beginning of the Big Pittsburg deal we warned the mining public against touching the stock. We notice a Leadville paper echoes our warning and says the reports sent down to New York, with a view of bulling the stock, are an injury to Leadville properties, as it is certain to end in disappointment. Big Pittsburg stock would be dear at 25 cents a share. It is in debt $150,000 and almost wholly undeveloped. It ought to have two years work on it before being quoted at all on the Exchange.

A petition is being circulated and extensively signed in the Ninth Ward, praying for the opening of Sixth avenue at its full width through to Canal street, and this, if successful, is to be followed by another petition for the widening of Christopher street.

Governor Cornell has signed the bill to amend the act providing for the improvement of Spuyten Duyvil Creek and Harlem River.

There will be great activity in real estate at Orange this year, it being estimated that $500,000 will be invested in new buildings.

CITY REALTY AT ALBANY.

[*Special Correspondence by Telegraph and Mail.*]

ALBANY, *April 1st*, 1881.

A number of measures affecting real estate and builders' interests have been considered in various forms at Albany during the present week, with prospects of numerous others following along in rapid succession.

The act creating a commission for the repavement of Fifth avenue, and directing the issue of half a million of bonds to pay the expense of the repavement was considered in the Assembly on both Monday and Tuesday. The commission proposed under the bill consisted of the Commissioner of Public Works Thompson, Charles Johnson, and Frederick S. Gibbs, who are to have full charge of the work, and six thousand dollars in addition to the half million provided for the expense of the commission. When Allen Campbell was before the McCarthy special committee he referred to this bill as one that ought not to pass, that the local authorities now had all the authority required to repave that avenue, and would do it just as soon as other work more necessary was done. He gave it as his opinion, based on careful estimates, that the avenue could be repaved in the best manner for $220,000, and protested against the ordering the issue of any more bonds, thus increasing the city debt. This statement was used in the debate on the bill, by Mr. Hamilton of New York, and Mr. Brooks of Richmond. The former moved to strike out the enacting clause, which was rejected by a vote of 34 to 60. Mr. Brooks then moved to recommit the bill, with instructions to amend by striking out the commission, also the requirement for the issue of $500,000 in bonds, and place the work under the Commissioner of Public Works alone, also to insert $220,000 in the tax levy this year to pay for the same. This was adopted by a vote of 64 to 37, and the committee is redrafting the bill in that form.

The Senate, on Tuesday, passed the bill providing for the immediate opening, regulating and grading of One Hundred and Twenty-sixth and One Hundred and Twenty-seventh streets, from Second avenue to the East River. That body also passed Senator Astor's bill, requiring that all bids for work by contractors in the city, and all tenders for furnishing supplies, shall be accompanied with a certified check drawn to the order of the department which advertises for proposals, to an amount not less than three nor more than five per cent. of the amount of the bond required for the faithful performance of the work. No bid to be considered unless accompanied with such check; any bidder who refuses to except the award of the contract made to him, and execute the same, shall forfeit the amouut so deposited, and the check shall be turned over to the sinking fund; when bids are rejected the certified check to be returned. This is to break up the system of straw bids.

The Senate on the same day passed the bill requiring the Park Department to complete the entrances on Eighth avenue at Seventy-seventh and Eighty-first streets to Central Park, to the westerly drive and on the avenue between these streets to the transverse road. The plans for this work to be prepared by the trustees of the American Museum of Natural History; $100,000 is provided for the work, one-half to be raised by this year and the other next.

A bill has also passed the Senate authorizing the Board of Estimate to enter into a contract with the American Museum of Natural History for the maintenance of said museum at the expense of the city.

Senator Bixby's bill, amending the act to regulate the fees and duties of searchers of titles in the County Clerk's office, by requiring the clerk to complete the search and certify to its correctness within twenty days from the receipt of the requisition, and unless done in that time shall forfeit all fees, has been ordered to third reading in the Senate.

A bill has been reported in both Houses, directing proceedings to be taken for the opening, extending, regulating and grading Lexington avenue, from Ninety-seventh to Ninyty-eighth street, and from Ninety-ninth to One Hundred and Second street. The bill is meeting with opposition, on the ground of a clause in it which does away with the necessity for the assent of the property holder in interest. This clause is inserted in both this and the One Hundred and Twenty-sixth street bill, on the plea that one man in each case obstructs the improvements which is desired by the other property holders affected. The passage of the bill has been delayed in both houses on account of opposition to that provision.

The Assembly Committee on cities has reported a bill, requiring the Commissioners of Public Works, within two years, to make an alteration of the map of New York, by laying out and establishing streets, avenues and roads, abandoning and closing, extending, widening or narrowing streets in the section bounded by One Hundred and Forty-fifth street on the north, Avenue St. Nicholas on the

east, the lands of the Academy of Sacred Heart on the south, and Tenth avenue on the west, $4,000 is provided for the expense of surveying and monumenting the new streets and changes which are to be made in a manner that will best promote the interests of the city and the owners of the property affected. The maps of the section as changed showing, the grades of the streets or avenues, to be filed in the Department of Public Works and Register's office.

The same committee has reported a bill amending the act of 1879 for laying out and improving the portion of the city between One Hundred and Forty-fifth and One Hundred and Fifty-fifth streets, west of Eighth avenue, which authorizes the same changes in closing, extending, 'widening and establishing new streets as is confered in the bill relative to the section surrounding the Sacred Heart property, and maps to be filed in like manner. In this bill an additional power is given, when the precipitous character of the natural surface is such that the grades of the streets, or any part, shall be impracticable for travel by carriages, the Commissioner of Public Works may, for that section, provide for a system of steps and winding paths within the line of the streets or avenues established: $2,000 is provided for the expense of surveying and marking that section.

A bill is pending before the Assembly Committee on cities, amending the law of 1880 in reference to the opening of streets and avenues. It provides that the fees of the Commissioners of Estimate and Assessment, in opening the streets, shall not exceed 20 cents per foot for the lineal extent of the street or avenue, or the portion opened or altered, except when the assessment district benefited thereby shall extend beyond the street or avenue lying nearest, then the fees shall not exceed 20 cents for every 2,500 square feet embraced in the assessment district lying beyond the nearest street, but in no case shall such additional fees exceed 10 cents for each lineal foot of the street or avenue. The commissioners are also allowed a clerk, at not exceeding $2 per day, to be determined by the court, $1 per day for room rent, and $100 for each street opened, for advertising, printing and posting notices. No other expenses except the above to be charged against the property affected.

A bill is also before the Assembly Committee directing the Commissioner of Public Works to lay out immediately a street 60 feet wide, extending from Tenth avenue to Avenue St. Nicholas, with such windings and turnings as to him may seem expedient, between One Hundred and Thirty-third and One Hundred and Forty-third streets, and fix and establish the grades thereof.

The report in the daily papers that the bill pressed by the Harbor Masters, making the Captain of the Port one of the parties to the leasing of docks and piers in New York, had been killed by the Senate Committee, is premature. Two of the Harbor Masters and the Captain of the Port were before the Senate Committee presenting their reasons why the bill ought to pass. The arguments were the same as those given in our Albany article of last week. A bill of like import has been introduced in the Assembly. The Senate Committee has set down next week to hear the opponents of the bill.

A bill has been introduced in both houses and ordered to third reading in the Senate, authorizing the Dock Department to construct a new pier at the Battery between Pier 1, North River, and Castle Garden, when completed, to be placed under the exclusive jurisdiction and use by the Police Department, in connection with the management of that department.

On Thursday, two bills were reported in the Senate affecting improvements and character of buildings in the upper end of the Twelfth and all of the Twenty third and Twenty-fourth Wards. One of these declares that the act in relation to buildings in New York shall not be construed to prohibit the erection of frame buildings with shingle roofs and eight inch walls under the same in the Twenty-third and Twenty-fourth Wards of the city.

The other, which was also introduced by Mr. Forster, and reported, provides that all assessments in all proceedings now pending or hereafter commenced to acquire title to lands in the Twelfth Ward, north of One Hundred and Fifty-fifth street, and in the Twenty-third and Twenty-fourth Wards, for the opening, regulating, grading and paving streets and for construction of sewers in said locality, and all assessments for any of said purposes shall be payable in yearly installments of 5 per cent. interest.

A bill, introduced by Mr. Browning, has been reported in the Assembly which declares, that whenever any street or avenue shall be opened, widened, extended or altered, in that portion of the city, south of Fourteenth street, by authority of law, the Commissioners of Estimate and Assessment for such improvements shall assess the expense upon lands and tenements they may deem to be benefited by such improvement; provided that no assessment for any such improvement shall be made or levied in excess of thirty cents per square foot, on any lot of ground assessed for such improvement.

A bill, introduced by Mr. Trimble, has been reported in the Assembly, authorizing the Commissioners of Sinking Fund to lease to "The Mount Sinai Hopital" additional land owned by the city, between Sixty-seventh and Sixty-eighth streets, Lexington and Third avenues. for the erection of an extension of their Hospital building.

The discussion of the new charter for New York still continues in the Senate. It has been decided to retain the Croton water bureau with its present powers as it now exists, and the bureau of permits and licenses as at present in the Mayor's office, the theory being that the property-holders have become accustomed to the present arrangement and a change might result in an inconvenience.

There is some danger that reform in cleaning of the streets in this city will not be sanctioned by the Legislature. The Senate has done its part and passed a bill granting the Mayor all the powers required to accomplish the task of keeping the streets clean. There is a halt in the Assembly, and George Bliss, Jr., appears on behalf of the spoils hunters, the political traders and district politicians, and has made an attack upon the bill generally, admitting that his objections are political. He is trying to prevent the Republicans, who are in a majority in the Assembly from giving the mayor this power and patronage. His argument, reduced to a point, is that it will ruin the Republican party in the city if all this power to keep the streets clean is conferred upon the Democratic mayor. If the mayor would agree to stop his work on the streets each day long enough to divide the patronage with the local politicians on what all political jobbers call non-partisan basis, this opposition would cease, but then there would be no time to clean the streets. The difficulty with the present system is that more attention is paid to division of the patronage than to cleaning the streets, and the politicians want no new powers granted unless the same system of patronage is continued, that is the hitch in the bill and the snag that has been struck.

BUILDING NOTES.

Mr. C. C. Haight has also on hand a seven-story house for S. T. Hopkins, to be erected at the corner of Grand and Mercer streets.

Mr. Adrian Iselin contemplates the erection of a handsome store on his property at the corner of Greene and Canal streets ; its size is 25x100.

Mr. W. H. Gunther has decided not to build at the corner of Broome and Crosby streets this spring, and has leased this property for one year.

Mr. Carl Pfeiffer has prepared plans from which a German-American capitalist is about to erect a large number of houses in Rheinish Bavaria somewhat on the plan of the Philadelphia houses.

Two brown stone apartment houses are to be built on a vacant plot, 50x80, in Thirty-fifth street, between Eighth and Ninth avenues, to cost $80,000, from design by Mr. Jno. Sexton.

In Fifty-eighth street, between sixth and Seventh avenues, Dr. Reynold is going to build upon a 20-foot lot and J. D. Oppenheim will build on the adjoining lot.

Eight small three-story high stoop houses are to be erected in Sixty-eighth street, between First and Second avenues, for Mr. Schemerhorn, from the designs of Mr. Hardenberg.

Work has begun on the foundations for a hotel to be built on the northeast corner of Sixty-second street and Boulevard, to have a frontage of 200 feet on the Boulevard and 83 feet on Sixty-second street.

Bernard Spaulding has taken title to four lots on the north side of Sixty-seventh street, 125 feet east of Fifth avenue, paying therefor $134,000. It is Mr. Spaulding's intention to erect a number of fine houses on this plot.

Mr. Kendall has designs for four apartment houses to be erected on Fifty-fifth street and Fourth avenue, for Messrs. Goelet. The elevation will consist of five stories in Queen Anne style, with high stoop and basement, cost about $100,000.

Mr. F. Krutina will build four brown stone five-story apartment houses, with frontage 20 feet and depth of 75 feet, on Fifty-eighth street, between First and Second avenues, from designs by Mr. Kuhles.

A large apartment house, to cover 100x115 feet, at the corner of Fifty-seventh street and Seventh avenue, is to be built in Renaissance style from design of Mr. J. G. Prague, the cost of which will be $175,000.

A five or six-story, first-class, iron front store is to be erected on the property known as Nos. 102 and 104 Prince street, 50x100, with an L., known as Nos. 114, 116, 118 and 120 Greene street, being 80x50.

Four five-story brick and tenement houses are about to be erected, three on East Forty-fifth street and one on East Forth-sixth street, between First and Second avenues. The cost will be about $50,000, and the architect is Mr. Kuhles; the owners being Messrs. Ruppert and others.

The same architect has prepared plans for apartment houses on Ninth avenue, between Forty-fifth and Forty-sixth streets, for the Trustees of Henry Astor. They are of brick and brown stone elevation, with frontage of 40 feet and depth of 80 feet.

On the corner of Fifty-seventh street and Seventh avenue, an apartment house standing on ground 100x115 feet, will shortly be commenced. The building will be of the Renaissance style, from the designs of Mr. J. G. Prague, and will cost $175,000.

Four stores are to be built at the southeast corner of Hudson and Leonard streets, with a frontage of 100 feet on Leonard and 115 feet on Hudson, for Messrs. R. & O. Goelet. The buildings will be four stories high, of brick and stone, and cost about $100,000. The architect is Mr. Ed. H. Kendall.

An addition is to be made to the south side of Sturtevant House to contain about fifty additional rooms, which will be constructed so as to have no direct connection with the drains, out of respect for the prejudices of visitors to New York. The cost is about $10,000, Mr. Sexton being the architect.

A new building in connection with Columbia College is shortly to be commenced on Forty ninth street, having frontage of 120 feet, and depth of 100 feet, to cost about $300,000. The style will be English Gothic, and the architect is Mr. C. C. Haight.

Two five-story brown stone apartment houses are about to be built from the designs of Geo. W. Da Cunha, in place of the two two-story houses Nos. 367 and 369 West Twenty-third street. They will have a frontage of 58 feet 6 inches and a depth of 100 feet, a lozenge-shaped well being arranged between the houses to afford light and air.

A large pair of apartment houses, seven stories high, the first two in stone and the remainder in brick and stone, with 56 feet frontage and depth of 85 feet, are to be built on Forty-fourth street, between Broadway and Eighth avenue, for Mr. Buch, the architect being Mr. Stroud.

In Seventy-second street, on the north side, between Madison and Fifth avenues, Messrs. Lynd Bros. have commenced to build 25-foot houses on their lots. Between Lexington and Fourth avenues on the south side the ground is being opened for five 20-foot houses, and on the southeast corner of this street and Lexington avenue Bonner & Smith are getting out the foundations for two houses.

A very large apartment house is to be built for Mr. F. G. Hyatt on Twenty-third street, 200 feet west of Seventh avenue, having a frontage of 175 feet, and depth of 100 feet. The building, which will be named the "Graham," will consist of seven or eight stories, brick and stone front, and is from the design of Mr. J. H. Dudley. The cost will be about $600,000. All the rooms except the bedrooms will be finished in cabinet wood, the main staircase being of marble and wainscoted from bottom to top with red and black marble, an independent staircase for tradesmen being provided in Twenty-second street.

Proposals will be received at the office of the Board of Education for the following buildings and alterations: By the School Trustees of the Twelfth Ward, until April 14, for the erection of an addition to Grammar School House No. 72, on the west side of Lexington avenue, between One Hundred and Fifth and One Hundred and Sixth streets; by the Trustees of the Twenty-first Ward, until April 11, for the erection of a new school house on the south side of East Thirty-eighth street, between Second and Third avenues; by the Trustees of the Nineteenth Ward, until April 5, for furniture of Grammar Schools No. 73, on East Forty-sixth street, and No. 74, on East Sixty-third street, and also for steam heating apparatus for both schools; by the Trustees of the Sixth Ward, until April 4, for enlarging and altering Grammar School No. 24, on Elm street, between Franklin and Leonard streets. Plans and specifications may be seen and all necessary information may be obtained at the office of the Superintendent of School Buildings at No. 146 Grand street.

ANSWERS TO CORRESPONDENTS.

Old Subscriber—Mr. James Talcott, about three months since, purchased of Mr. Frederick F. Thompson, of the First National Bank, all his interest in the Metropolitan Building Company; this, with other stock lately purchased by Mr. Talcott, gives him control of about one-half of the capital stock of the company. They do not at present contemplate building on the property owned by them, bounded by Ninth and Tenth avenues, and Ninety-fourth and Ninety-fifth streets.

MARKET REVIEW.

REAL ESTATE.

☞ For list of lots and houses for sale see pages v and vi of advertisements.

This has been a reasonably active week in the real estate market, and some important sales has been made. The Exchange Salesrooms presented an animated appearance, and there is every indication that were a great number of lots offered, the eligible ones would be rapidly bid up and sell for the highest figures of the season. It cannot be said that the market, as yet, has come up to the expectations of speculative dealers, at least so far as the public sales are concerned. But there is a great deal going on in a quiet way, and all the brokers are busy. It is now certain that the season will not pass without the market being thoroughly tested by the offerings of property from every part of the island. It will be noticed that during the last two weeks there have been sales of property in by-streets in the Fifth, Eighth, Tenth, Thirteenth, and Seventeenth Wards, which have brought very good prices. Kid-glove speculators do not care to deal in this undesirable looking property; but shrewd Hebrew and Irish investors know its value, and are not repelled by the unpleasant surroundings of their purchases.

The price at which the two lots on Riverside drive, between Ninety-fourth and Ninety-fifth street, were knocked down will excite surprise that there was not more competition. It will be remembered that Ninety-fifth street is depressed, and will be in time a business avenue. The dock at its foot will sometime be a distributing point for the west side. and there will be the usual surroundings of a railroad depot and lumber and coal distributing point. It is pretty well settled that a bridge will eventually be built over Ninety-fifth street, connecting the bluffs at each side. Until this is done the value of lots on the drive, near the street, is uncertain. There was only one bid on each of the lots, and that was in behalf of the plaintiff. The adjoining lots in Ninety-fourth street were knocked down at $2,000 a lot to the same plaintiff, without competition.

Sales at the Exchange are sometimes misleading as to prices. The dealers present generally know the circumstances of each sale, and when they see a plaintiff is determined to buy in the property, they often let him have it without competition, so as to induce weak holders to sell at less than the real market price. There are no well situated Riverside Park lots above Ninety-fifth street, which can be purchased for less than $10,000 to $12,000.

Some surprise has been manifested at the low price for which Fourteenth street vacant property sold, opposite Tammany Hall. A vacant piece of land sixty feet front by one hundred and sixteen deep, brought only $45,000, a sum which would not represent the taxes compounded for twenty years. But then the future of that part of Fourteenth street is uncertain.

The Academy of Music will in two years' time be eclipsed by the new Opera House on Broadway, and will probably be given over to cheap entertainments. Then Wallack will soon move. It is a puzzle what kind of property would pay on these unimproved lots. It would not be a desirable neighborhood for a first-class apartment house; there are already a sufficient number of lager beer gardens, and yet it would seem as if some profitable use could be made of the ground for cheap and popular amusements. It is very accessible from all parts of the island.

Some interesting sales are on the tapis. What remains of the Carman estate will be sold next week, and the prices will tell the story of how property near the Harlem River is regarded by dealers. When this property was sold before, a perfect title could not be given; but now everything is legal. On the 14th some Riverside drive property near One Hundred and Twenty-second street will be offered for sale. This is the choicest part of the drive, and it ought to test the estimation in which the lots are held by the speculative real estate dealers.

The prices obtained at the extensive sale of Brooklyn property, held at the Exchange yesterday, by Bernard Smyth, were very good, many of the lots being purchased by Brooklyn builders.

Richard V. Harnett, on Monday, will open the week by offering property on Park avenue, southeast corner Eightieth street, lots on Ninth avenue, near One Hundreth street, No. 548 West Forty-first street, and lots on Fourth av, southwest corner One Hundred and Tenth street.

On Tuesday the same auctioneer will sell Nos. 421 and 423 West Thirty-seventh street, Nos. 408, 410 and 412 West Forty-second street, No. 209 East Tenth street, Nos. 1265, 1269 and 1271 Lexington avenue, and No. 406 West Fifty-fifth street.

On Wednesday he will sell, by order of James D. Fish, receiver, Nos. 231 and 233 East Thirty-third street, Nos. 214 and 216 East Thirty-fourth street, Glass Hall; No. 116 West Forty-ninth street, three lots on Sixty-eighth street, near Eleventh avenue, thirteen lots. First avenue, southwest corner One Hundred and Second street; Nos. 106 to 120 West One Hundred and Twenty-third street, No. 28 East One Hundred and Thirty-first street, Nos. 2066, 2070, 2072 and 2074 Madison avenue, and factory property on Railroad avenue, Twenty-third Ward.

On the same day will be held the sale of the Carman estate, comprising two hundred lots on Harlem and Hudson rivers, Highbridge Park, Tenth avenue, and several new avenues. Riverside House, One Hundred and Forty-ninth, One Hundred and Fifty-first, One Hundred and Fifty-second, One Hundred and Fifty-third, One Hundred and Fifty-fourth, One Hundred and Seventy-fifth and other streets.

On Tuesday, E. H. Ludlow & Co. will sell the property known as Odd Fellows' Hall, on Grand street, and as the announcement that this property would be sold brought together a large crowd about two weeks ago we expect to see an equal, if not a larger number present on Tuesday next, as the sale will be positive, all legal obstructions having been removed.

On the same day, Messrs. Scott & Meyers will sell No. 1534 Madison avenue, dwelling property. The veteran, A. J. Bleecker, will sell on the same day the store No. 196 Fulton street.

A. H. Muller & Son will also sell on Tuesday seven lots on Third avenue, east of Avenue A; also, Nos. 235 and 237 East Forty-fourth street, tenement and store property.

On Wednesday A. J. Bleecker will sell No. 128 Goerck street, and E. H. Ludlow & Co., No. 86 Catherine street.

On Thursday, H. N. Camp will sell No. 52 East Eighty-first street, a lot on One Hundred and Twentieth street, 100 west of 8th avenue, and a three-story brick house on Locust avenue, near One Hundred and Fortieth street.

On Thursday, E. H. Ludlow & Co. will sell church property and dwelling on Forty-seventh street, 90 west Lexington avenue.

Gossip of the Week.

The sale is reported of four lots on the northwest corner of Seventy-first street and Eighth avenue (two fronting on the avenue, and two on Seventy-first street), 25x100 each, for $75,000. This is the best price yet obtained for lots on Eighth avenue, fronting on Central Park

Mr. D. D. Orrell has sold the property Nos. 96 and 98 Prince street, twenty-eight feet west of Mercer, 46x72, for $45,000. On the above lot a six-story iron front building is to be erected for a dry goods house at a cost of about $50,000.

Frederick Zittel has sold during the past week the four-story brown-stone front, 20x60 feet, house No. 29 East Sixtieth street, between Madison and Fourth avenues, for $32,000.

The same broker has also sold two lots on the south side of Sixty-seventh street, 150 feet east of Tenth avenue for $4,250 each. Also, two lots on East Fifty-ninth street. being lots Nos. 419 and 421, for $4,000 each.

The Knickerbocker Club has purchased the Moeller mansion, at the corner of Fifth avenue and Thirty-second street, 48.3x150, for $200,000. One of the richest of our railway magnates offered $225,000 for the property next day as an investment.

For a corner house on Fifth avenue, in the vicinity of Thirtieth street, for which $115,000 was paid three years ago, $180,000 has been offered.

Mr. Kip has been offered and has refused $375,000 for the property on the southwest corner of Fifth avenue and Fortieth street, about 30x100, together with a stable on Fortieth street, east of Madison avenue.

Mr. August Belmont has sold the block bounded by St. Nicholas and Seventh avenues, and One Hundred and Twelfth and One Hundred and Thirteenth streets, to Mr. Van Valkenberg for $150,000. Mr. H. B. Gardner, of No. 79 Cedar street, was the broker who made this sale.

The house, with stable, No. 23 Washington square, in the middle of the block, between Fifth avenue and Macdougal street, 25x160, with ground rent of $1,000, has been sold for $13,000.

Last Saturday after finishing reading THE RECORD Mr. W. H. Falconer, of No. 100 Fourth avenue, concluded not to lose any more time but to buy at once which he did from Messrs Breen & Nason the house and lot No. 8 East Sixty-second street, being the third house from Fifth avenue, 25x65x100, for $61,500.

The New York Hospital have purchased the four-story brown stone house, 20x60x100, on Sixteenth street, adjoining the hospital property on the east side. The price has not transpired, but it was a stiff one, as it was known that the hospital needed this lot to square their property.

Mr. B. Muldoon has sold the northwest corner of Sixty-seventh street and Madison avenue for $65,000.

The report that the New York Hospital were about to grant a number of long leases on the West side, is without foundation, and probably was derived from the fact that Mr. Macy, the treasurer, at a late meeting of the Board of Directors, offered a resolution proposing to sell seventy lots on the west side of the Boulevard, between One Hundred and Fifteenth and One Hundred and Twentieth streets. The resolution was referred to a committee.

Mr. Theodore B. Hamilton has purchased the four-story brown stone house and lot, No. 21 East Seventy-third street, 16x102.2, for $40,000 in cash.

V. K. Stevenson, Jr., has sold for Mr. E. S. Higgins the two lots on Fifty-eighth street, commencing 300 feet west of Seventh avenue, 50x100, and one lot in the rear fronting on Fifty-ninth street, and the same distance west of Seventh avenue, 25x100, to Mr. Charles E. Appleby for $45,000.

The same broker has sold for H. H. Baxter, President of the Baxter National Bank of Rutland, Vt., the lot and stable No. 28 East Fortieth street, formerly owned by William M. Tweed, being 25x100, to James A. Garland, Vice-President of the First National Bank, for $29,000.

The house and lot No. 21 East Seventeenth street, 25x80, has been sold for $34,000.

Mr. V. K. Stevenson, Jr., has sold to Mr. W. H. Starbuck, the lot and four-story brown stone house (thoroughly furnished), No. 8 East Sixty-fourth street, 20x100, for $51,000, account of Mrs. James Ames.

A rumor was current at the Exchange yesterday, that the Astor House was about being sold. As yesterday was the 1st of April, this must be taken *cum grano salis*.

The above recalls the rumor current some years ago of the sale of the Fifth Avenue Hotel, by Mr. Enos to the late A. T. Stewart, for $3,000,000.

Mr. Frederick McGlynn has sold to H. Schnitzer, Jr., the three-story brown stone house No. 131 East Seventy-fourth street, 17x48x102, for $13,500.

Mr. John Donovan has refused an offer of $28,000 for his four lots at the southwest corner of Seventy-second street and Second avenue, 25x100 each. These lots were purchased two years ago for $14,000 and are now held at $30,000.

The lot on the north side of Sixty-ninth street, between Fifth and Madison avenues, 60x100.5, has been sold for $70,000.

Messrs. E. B. Harper & Co. sold on Wednesday a four-story high-stoop brown-stone house on Thirty-eighth street, between Fifth and Sixth avenues, for $45,000.

The stables covering an area 100x100 feet on Forty-sixth street, between Broadway and Sixth avenue, have been purchased for Mr. Hamilton for $55,000.

The Calvary Baptist Church have purchased two additional lots on Fifty-seventh street, east of their previous purchase. (Price for the two $45,000.)

On Fifty-seventh street, 75 feet east of Sixth avenue, a plot with 70 feet frontage has been purchased for the erection of an apartment house.

W. H. Fogg has bought two lots on the south side of Fifty-ninth street, between Fifth and Sixth avenues, for $60,000, on which he intends to erect an apartment house.

Messrs. Levy & Cole have sold the four five-story brown-stone flats on Fortieth street, near projected Grand Opera House, in vicinity of Seventh avenue, on private terms; also, No. 27 Mulberry street for $18,500.

Messrs. Hall & Macdonald report that the demand for apartment houses was never so great as at present, and that the supply does not come up to demand.

Mr. A. H. De Motte has sold the three-story brick house No. 24 Bank street, 20x45 x half the block, for $12,250.

Messrs. E. L. & B. T. Burnham have sold the property known as Nos. 155, 157, and 159 Perry street, 66x100.3, for $13,750; also, the three-story brick dwellings Nos. 161, 163, and 165 Perry street, 66x100.3 for $20,750.

Messrs. Dunn & Oatman have sold a three-story brick building, 25x100, in Montclair, N. J., to Judge Bullock, of Rhode Island, for $10,000.

The same brokers have sold an orange grove, containing 200 fine young trees, with ten-roomed dwelling, 45x45, situated on the St. Johns River, Florida, adjoining the well-known residence of Mrs. Harriet Beecher Stowe, to Edward E. Wright for $11,000.

Also, one of the finest orange groves in Florida, containing 3,000 bearing trees, which produced over 4,000 boxes of oranges this season, to the Duchess of Castelluccia for $25,000, and on which the Duchess is now building a handsome mansion.

Lots on One Hundred and Twenty-fifth street, not

far from Sixth avenue, have recently changed hands at nearly $8,000 each, cash.

J. H. Romer, of One Hundred and Twenty-fifth street, has sold for John Fettretch two three-story brown stone front houses, 16.8x50x100, for about $27,000.

Miss Schirmer has purchased the four-story brown stone house No. 67 West Thirty-eighth street, 25x60x 98.9, for $45,000.

Foster Petit has sold the lot adjoining his residence, on Clinton avenue, Brooklyn, 45x200, running through to Vanderbilt avenue, for $23,000, and the purchaser has the refusal of the balance of the property, 55x200, for $28,000.

Mr. J. A. Monsell has purchased two lots on the north side of Sixty-sixth street, 225 east of Ninth avenue, 25x100 each, on private terms.

Mr. Jacob Cohen has purchased the five-story brick tenement, No. 338 East Sixty-third street, 25x68x100, on private terms.

The following are the sales at the Exchange Salesroom for the week ending April 1:

** Indicates that the property described has been bid in for plaintiff's account:*

Mr. Cornell..... 4,000

James M. Oakley & Co., by order of the Commissioners of Docks, sold the right to collect and retain all wharfage which may accrue for the use of the following named piers and bulkheads:

On Hudson River, for and during the term of three years from May 1, 1881: Pier at Jane st, sold for $1,250, to Decker, Rapp & Co; Pier at Horatio st, sold for $1,050, to Consumers' Ice Company; pier at West 17th st, sold for $3,500, to Manhattan Gas Company; pier at West 18th st, sold for $3,500, to same buyer; pier at West 35th st (with reservation regarding public bath), sold for $4,500, to Scott & Co.; bulkhead extension at West 130th st, sold for $300, to T. F. Tone. For and during term of three years from June 1, 1881: Pier at West 121st st, with bulkhead adjoining upper and lower sides, sold for $900, to same buyer; for term of one year, from May 1, 1881. Pier at West 55th st, sold for $1,000, to Union Telegraph Company.

On East River, for and during term of five years from May 1, 1881: East half pier No. 24, and half bulkhead adjoining, sold for $6,500, to Joseph Goodspeed; west half pier No. 25, and half bulkhead adjoining, sold for $6,500, to New Haven Steam-boat Company; east half pier No. 33 and west half pier No. 34, with bulkhead between, sold for $13,000, to Thomas Clyde; south half and outer end pier East 33d st, sold for $1,500, to Knickerbocker Ice Company. For and during term of three years from May 1, 1881: Pier No. 44, sold for $7,000, to Alexander Mason; pier at East 28th st, sold for $1,000, to Joseph E. Brown; pier at East 31st st, sold for $2,250, to Joseph E. Brown. For and during term of one year from May 1, 1881: Bulkhead at East 35th st, sold for $400, to Schuyler & Co; bulkhead at East 36th st, sold for $400, to Popham & Co.; bulkhead at East 48th st, sold for $400, to Thomas B. Tweddle. For and during the term of five years from May 1, 1882: Pier No. 40, and half bulkhead easterly, sold for $9,000, to Phelps & Co.

Total..... $727,580

BROOKLYN, N. Y.

In the City of Brooklyn Messrs. J. C. Eadie, Cole & Murphy, T. A. Kerrigan, R. V. Harnett, and J. Cole have made the following sales for the week ending March 30:

*Clifton pl, s s, 533.4 e Nostrand av, 16.8x100. Josephine C. Bronard..... $1,975

Total..... $125,435

BUILDING MATERIAL MARKET.

BRICKS.—Some irregularity has prevailed on the market for Common Hards, with the final result more favorable to the selling interest, and, as we close our report, quite a steady tone prevails, more particularly noticeable on the choice grades. As suggested last week, buyers appear to have become satisfied that the natural shrinkage to be expected at the opening of the season, assisted by other momentary depressing influences has rapidly developed to a culminating point, and, therefore, where there was actual use for stock, not much if anything could be lost by commencing operations. The demand has, in consequence, shown greater volume and force, restored values to something like a solid and uniform level, and imparted a more cheerful feeling. The stormy weather during the week has to a considerable extent interfered with immediate consumption, but this has been neutralized by the check to receipts, as adverse winds and tides prevented many vessels from loading and there was a much smaller quantity offering than would have been the case under more favorable conditions of the weather. It is also intimated that manufacturers have already commenced to hold back supplies, but when transportation facilities improve again, it will be seen whether this action is voluntary or enforced. The prospects for consumption are quite as promising as ever and a great many million brick will be laid up to "stay" upon the island before the season closes. For Haverstraw the cargo rates are about $6.25@6.75 per M and Up-Rivers $5.50@5.75, possibly a fraction more in some cases. A few Staten Islands quoted about $5.75 and Jerseys $5.00@5.50 per M on the ordinary run of stock. Pales are dull. Holders in most cases ask $3.00 per M, but at this buyers are unwilling to negotiate, and not many bids range above $2.50 on the average offering of stock. In Fronts the business has not yet fairly opened, but all the indications are of the most encouraging character, and the consumption will no doubt prove in excess of last year. The advance on Crotons we noted last week, and it is now understood that some addition is likely on Philadelphias and Trentons, but Baltimores will probably remain as before.

DOORS, SASH, BLINDS, ETC.—As with most other kinds of building material business has been a little slow of development, on the articles named above, but signs of improvement are already quite prominent, and in most cases the predictions are of a very cheerful and confident character. Local wants now form an extensive and certain outlet, while the calls from the country will require a full average, and the export demand is expected to hold its own in comparison with former years. There is considerable competition against American Doors in the English markets, but it has not as yet checked the shipment of supplies. On prices some reduction has been made along pretty much the entire line, and our newly revised table of quotations will show the changes on the principal sizes.

GLASS.—In window glass the business is moderate, and for the present not many features of positive interest shown. Dealers, however, quite generally are hopeful, and stocks are indifferently offered. A recent meeting of importers was held and adjourned, without making a change in the list. American rates also unchanged on window, but the Plate manufacturers have advanced to 40 and 10 per cent. discount. The pressed glassware workers have agreed to shut down on the product from May 1 to September 1 prox.

HARDWARE.—The distribution continues fair, with a tendency to gradually increase on all the regular outlets, and the market, as a whole, is in good shape. The selection is of a seasonable character from the assortment of all standard goods, but embraces a good full proportion of builders' hardware. Some little irregularity is occasionally shown and values and buoyant tendencies are held in check, but there is no indication that buyers are likely to gain many advantages. The manufacturers of Strap and T Hinges have at last came to an agreement and the rate is fixed at discount 50 and 10 per cent. from list. The National Tube Works quote Wrought Iron Pipe 65 and 5 per cent., discount on car-load lots and over, and 65 on smaller quantities. At a recent meeting of the Lock Manufacturers it was decided that no change would be made in the list or discounts.

LATH.—The market has undergone no further decline, and while as yet there is a failure to secure positive reaction the position appears to be steadier and more cheerful. As noted last week, manufacturers generally were anxious to secure the first flush of the spring demand, and in their haste placed an excessive supply on sale before the market was prepared for it, and broke down the rate. The surplus, however, now appears to be out of the way, the demand spreading somewhat, and dealers even talking a little higher. So far as reported, $1.75 remains an actual operating basis, but at least 5c. more has been asked on parcels near at hand. Another cargo is under treaty for Philadelphia, one for Washington, and about one million lath have been sold to go around to Baltimore, all at $2 per M.

LIME.—The reports are of the same tenor given for a week or two past. A good steady demand prevails, with some increase of anxiety shown among dealers who have heretofore held off, and about everything offering from first hands are fresh arrivals finding customers. With this advantage sellers experience no difficulty in maintaining former rates, and the position rules very strong throughout.

LUMBER. Wholesale operators still find some cause for complaint, but, as before, principally with the condition of business on immediate deliveries. In a few instances, supplies have come to hand rather more freely than anticipated, but not to an unusual or remarkable extent, and the difficulty is worse in the slow, careful form of the demand than to any serious excess of offering. Buyers have not yet made a sufficient distribution to neutralize the forced period of inactivity during the severe winter months, and are, in consequence, somewhat careful about handling additional supplies, but at the rate stock is going out from second hands it is thought accumulations must rapidly fall away and thus furnish basis for larger and more general demand for cargo lots, etc. Special orders continue in fair volume, and in some instances, especially on Yellow Pine, would be larger could buy-

ers secure deliveries at anything like an early period. A few offerings have been made from interior sources for summer delivery at what looks like easier terms, but nothing is as yet accomplished to fix a market.

Spruce continues somewhat unsettled. Rather more stock has been offered this spring on "random" than anticipated, and for quite a little time past it has been comparatively easy to place specials where the specification was not extra difficult, and this not only disconcerts the selling interest in a measure, but induces buyers to move with greater care. It is, however, calculated that with the first flush of shipments over, manufacturers will forward supplies less freely, and as the prospects for a good consumption have not abated there is a cheerful feeling regarding the future. Few, if any, randoms have sold below $16 that were properly handled or possessed merit, nor has there been any serious accumulation of stock. Some holders have refused to shade $17, and from this up to $19 is asked on specials.

White Pine remains under sufficiently powerful control to be held quite steadily on a line of about former values, but these seem to satisfy sellers, and they are accepting full bids whenever made, and allowing stock to go out readily. The demand from home sources is fair, a little more active if anything, and the attention of exporters is still retained to a good full degree. Arrivals continue moderate, and the majority go direct into consumption. We quote $17@19 per M for West India shipping boards; $24.50@26 for South America do.; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow Pine still appears to be the best supported of any of the regular offerings, so far as special schedules are concerned. Since logs became more plenty the mills have been driving matters to their utmost capacity, but utterly fail to cover sufficient ground to enable them to enter upon new engagements except for very distant dates. It is said that the number of vessels on demurrage at most of the principal shipping points this spring has been almost unprecedented, and that a great many captains, from advices of late been received, are still under great uncertainty as to when they will be enabled to secure cargo. Not many randoms come to hand, but enough for the moderate and uncertain inquiry prevailing. We quote random cargoes at about $23.50@25 per M; ordered cargoes $26@27.75 do.; green flooring boards, $24@26 do., and dry do. do., $25.50@27. Cargoes at the South $15@19 per M for rough, and $20@24 for dressed.

Hardwoods of fine quality can be sold without difficulty, and a great many additions to the offering would have to be made to satisfy all calls. Choice walnut, ash, maple and quartered oak are especially sought after and would command full rates, though all grades are firm. We quote at wholesale rates by carload about as follows: Walnut, $77@85 per M; ash, $33@36 do.; oak, $35@40 do.; maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $45@47 do.; white wood, ½ and ⅝ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles show much the old conditions. A good export inquiry prevails, and, with the call from home sources slowly but surely increasing, holders feel great confidence and insist upon full former rates. We quote Cyprus at about $6 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@32.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

Among the yards matters look brighter. Distribution has been full enough to reduce supplies materially, the demand promises liberal proportions at an early day, and dealers are confident. Full previous rates asked in all grades.

From among the lumber charters and engagements recently reported we select the following:

An Am. ship, 1,557 tons, from St. John, N. B., to Liverpool, deals, 57s 6d, c. d.; Br. barque, Oliver Emery, 623 tons, from St. John, N. B., to an Irish port, deals, 57s 6d, c. d.; a Nor. barque, 521 tons, from Brunswick to Bilboa, with lumber, and back to a point north of Hatteras with iron ore, £1,300 for the round; a Br. barque. 623 tons, hence to Montevideo or Buenos Ayres. Lumber, $13 net; a schr., 244 tons, from Bermuda to Boston, derelict cargo lumber, $8.87½; a barque, 299 tons, from Machias to Sagua, lumber, $6; an Am. schr., 327 tons, from Annapolis, N. S., to north side of Cuba, lumber, $7; an Am. barque, 459 tons, hence to Havana, white pine lumber, $4.25; an Am. brig, 439 tons, hence to Havana, white pine lumber, $4.25, and coal 90c.; an Am brig, 458 tons, same voyage, white pine lumber, $4.25; an Am. schr., 394 tons, hence to Havana, white pine lumber, $4.25; a schr., 166 tons, from Portland to Newark, lumber, $2.60; six schrs., 97, 163, 141, 141, 149 and 200 tons, from Portland to New York, lumber, $2.50; a schr., 185 tons, from Petersburg to New York, lumber, $3.50; a schr., from Suffolk to New York, oak ties, 18c; a schr., 200 M lumber, from Norfolk to Providence, $3.75; a schr., 200 M lumber, from Brunswick to Bath, $8; a barque, 350 M lumber and timber, from Savannah to New York, $6.50 and $7; a schr., 115 M lumber, same voyage, $6.50; a schr., 240 M lumber, from Savannah to Portland, $7; a schr., 330 tons, hence to Charleston, stone, $1.75, and back from Brunswick with lumber, $7; a schr., 336 tons, hence to Charleston, stone, $1.75, and back from Darien with lumber, $7.25; a schr., 215 tons, from Albany to Charleston, white pine lumber, $3.50; two schrs., 216 and 233 tons, from Norfolk to New York, lumber, $3.50.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.

Europe, Continent	15,000	180,150
Europe, United Kingdom	68,075	906,375
Total	1,027,262	16,344,665

GENERAL LUMBER NOTES.

THE WEST.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.

The lumber business is so near at a standstill that it is hard to find matter in connection therewith worthy of note in this place. Vennor's storms have played havoc with the trade so far and left everybody nervous over the prospective floods to follow. A little local trade is being done at full prices, but no shipments worth mentioning will be made from northwestern markets until after we have settled weather and firm roads. The prospects are excellent for an early and speedy drive, if the waters do not render the logs unmanagable on the main rivers. Everything seems now to turn upon this important matter which will be settled within a couple of weeks. We mention one item which has an important bearing on trade prospects, which is that the railway system of the West bids fair to receive more additions this year than in 1880, especially in the country west and north of Minnesota. This will furnish room for a vast quantity of lumber over and above enormous amounts needed to supply the already settled portions of the West. From the regions east and south of the storm belt, from New York to Texas, the trade has already commenced with the demand far in excess of that of last spring, and at present considerably in advance of its figures.

The foreign demand for first-class timber of all kinds will be much larger than it has ever been. This will take off the uppers from the Lake Superior region, and down the line to the Provinces. Clear pine will soon be limited in the uttermost parts of the earth in vain, and such as have it in the Northwest would do well to save it in the trees.

Complaints of broken stocks reach us from all Western markets, and leading dealers are sorting up from country mills and yards. This is especially true of St. Louis, where the receipts frequently exceed the shipments.

The Northwestern Lumberman as follows:

CHICAGO.

Since our last report was written, the Northwest has been visited with the severest storm of wind and snow that has been experienced this winter. Trains have been stopped upon nearly all the tracks leading out of the city, and some of the railroads, for several days, absolutely refused to supply cars for the transportation of lumber, through the uncertainty as to when they would be able to move them. Under these circumstances, the shipment of 10,317,000 feet, according to the car reports, equalling 16,213,000 feet as would more properly appear, in addition to the heavy city business is reported, must be considered as representing a healthy condition of trade. In fact, the dealers, while not overrun with work, and always ready for more, are well satisfied with the present volume of orders, considering trade under the adverse conditions of weather as remarkably good. Present prospects point to a very late opening of navigation, and few are so sanguine as to hope for any receipts by lake before the first day of May at the least, and the volume will be quite restricted in all probability until the middle of May or the first of June. With present indications of trade, the stock in the yards of Chicago will be sadly depleted before they can be replenished, and many grades are already so scarce as hardly to be obtainable at any price in shipping condition.

The effect of the new price list has not been very marked, but, so far as we can learn, the changes are respected and in the main lived up to, especially on new orders. There is always room for grumbling for a week or two after a new list is isssued, as orders in transit are treated as in hand, until after ample notification to the country has been given.

The total shipments for the year to date are, as reported, 88,963,000 feet of lumber and 14,145,000 shingles; the lumber figures, as revised, represent shipments of 139,799,000 feet, to which is to be added the city trade, which has bsen large since the first of January. That these figures are so near those of the same period of last year is indeed remarkable, when the pleasant weather of last season is contrasted with a winter the like of which no one remembers to have seen.

HARDWOODS.—The heavy snow has again shut off nearly all arrivals. We learn of cars that have been within easy distance for three weeks that have not yet landed their loads at the yards. The lumber was sold, to be delivered at the time it was expected to arrive, and the purchasers are grumbling. On the roads over which coal arrives, coal cars are given the preference, and other heavy freight has to bide its time.

Trade has been all that the seasoned stock would admit of. We were assured by a dealer that he could readily sell one-inch walnut culls, of a good quality, at $45 by the car load if he had them; but that modification controls the cull trade here now, for there are but few in town.

Car building will be lively this season, and the builders are buying oak heavily. Some of the railway companies make heavy rates for oak, and, if complaint be made, they are not backward in saying that that they do so in order that they may secure it themselves. This demand will consume a vast amount of oak, and cut down somewhat the large stock that about everybody is expecting will reach market.

The roads in the whitewood districts of Tennessee have improved to such an extent that hauling is possible, and, as there are heavy piles at the mills, receipts in this market will be soon increased. We are looking for considerable oak from the same section, but the oak growing in some parts of Tennessee is by no means good, and wagon makers reject it.

Staves continue scarce at unchanged prices. Very few are reaching town, and the demand, especially out of town, is heavy.

Respecting the log crop the Lumberman says:

The prospect for driving looks promising in most cases. There is an abundance of water lying about on the ground, in the shape of ice and snow, and when it passes off it will, no doubt, carry the logs down stream pretty rapidly. The greatest dangers are that there is too much water, and that the ice in the streams is too thick and solidly fixed in its position to allow the water to pass off as it should to make good drives. On many streams freshets are looked for, which may, though not necessarily, cause the streams to overflow their banks and land the logs high and dry along the shore instead of carrying them to the mouth of the river where they can be got to the mills. This is one possibility; another is that the water may all run off over the ice before the latter breaks up and the logs can be started, and so rise and subside again without making any drive at all. But these possibilities are both more or less remote ones, taking the average of the streams as they run, and, given an abundant supply of water to start with, the balance of probability is in favor of fairly successful work, with perhaps less than the usual chances of logs hanging up. The drives, however, are not likely to get a very early start. Nothing has yet been done in the way of breaking in rollways, and the ice in most streams is so thick that it is not anticipated that anything of importance will be accomplished for two or three weeks yet. Our Grand River, Michigan, correspondent reports that the drives on that stream and its tributaries, which may be expected to open about as early as any, will probably not start until the middle of April, or fully two weeks later than usual. It may be assumed that other streams will be at least as much behind, which will make driving operations extend well into the summer, especially if some of the fears entertained by the operators are realized, and they are compelled to wait for the June freshets to bring down their logs. The mills do not expect to get a very early start, except where they have carried over a pretty good stock from last year's supply, but they are generally in readiness for work, and the hum of their saws will undoubtedly be heard as soon as the mill owners can make it profitable music.

THE SOUTH.

The Savannah Morning News as follows:

Timber.—We have no change to note in prices. The receipts have been rather light, and found ready sale at quotations:

Shipping timber by the cargo f. o. b.—

700 feet average	$9 00@11 00
800 " "	10 00@11 00
900 " "	11 00@12 00
1,000 " "	12 00@14 00

Shipping timber in the raft—

700 feet average	$7 00@ 8 00
800 " "	8 00@ 9 00
900 " "	9 00@10 00
1,000 " "	10 00@11 00

Mill timber $1 below these figures.

Lumber.—Mills are supplied with work for the present. Demand good. Prices range about as follows:

Ordinary sizes	$16 00@18 00
Difficult sizes	18 00@20 00
Flooring boards	18 00@20 00
Shiffstuff	18 00@20 00

FREIGHTS.

Lumber.—By sail.—Coastwise vessels are scarce and wanted at all the near lumber ports, but offshore tonnage is in but little demand. Our figures include the range of Savannah, Darien and Brunswick, from 50c. to $1 being paid here for change of loading port. We quote: To Baltimore and Chesapeake ports, $5.25@5.50; to Philadelphia, $6.00@6.50; to New York and Sound ports, $6.50@7.50; to Boston and eastward, $7.00@8.00; to St. John, N. B., $8.00@9.00; (timber $1 higher than lumber rates); to the West Indies and windward, $7.00@9.00; to South America, $19.00; to Spanish ports, $15.00@15.50; to United Kingdom for orders, timber, 34s., lumber, £5 5s.@£5 10s.

THE EAST.

The Boston Journal of Commerce says:

The demand from nearby sources is daily increasing, and dealers report that they are receiving orders from local yards that are beginning to get themselves in shape for the coming spring trade. The encouraging reports of more building operations continue to come in, and this, together with the fact that business has not been materially affected by the bad weather, encourages dealers to look to a very large spring trade. The logging camps are now beginning to assume their usual activity, and are in a fair way to give the mills plenty to do to get the raw material in shape for the market. Hardwoods remain scarce and command good prices at sight. We do not change quotations on other grades.

THE PROVINCES.

The Montreal Journal of Commerce has the following on the wholesale lumber market:

Though stocks are light very few contracts have yet been made by Quebec shipping houses for 1881 delivery, if we except waney board timber and oak timber. The former has ranged from 33@36c. per cubic foot at Quebec; the latter 48@50c.; Canada oak, 38@40c. Some heavy purchases of deals have been made by a London house, among which we may quote the Montmorency cutting, for which following prices are said to have been paid per Quebec standard—2,750 feet B. M.

	First Quality.	Second Quality.	Third Quality.
Pine	$110@112	$70@72	$38@40
Spruce	38@ 42	28@30	22@25

the quantity being 20,000,000 feet of pine and 5,000,000 feet of spruce.

Good work has been done in the woods so far, but lately the spring-like weather has stopped chopping and drawn all attention to hauling the logs, which, with the light quantity of snow, is difficult, tedious and expensive. Some log jobbers who foresaw the difficulties of the drive threw up their contracts, and in those places the supply of logs will be short, notably in the Three Rivers district. It is impossible to say how the drives will be, but the small quantity of snow renders any large continued volume of water in the streams exceedingly doubtful.

The cut so far is estimated at 40 per cent. more than

last year in pine and spruce, but as last season's cut was very moderate the present year's supply will not be excessive. Spruce timber is estimated as follows:

Ottawa Valley white and red pine, 8,000,000@10,000,000 cubic feet.
Michigan, etc., oak, 2,500,000@3,000,000 cubic feet; white pine, 3,000,000@3,500,000 cubic feet.
Canada oak, 500,000@750,000 cubic feet.

In the United Kingdom buyers are not very eager. Fair sales have been made of oak and waney board timber at good prices, but pine and spruce deals have been difficult to place and very little business has been done so far. Several large sales of spruce have, however, been made to French houses. The local wholesale trade is in a flourishing state, and will require larger supplies than last year. The United States will apparently be our best customer this year, unless England soon comes to the front; large contracts have already been made in pine, and there is now good inquiry for spruce at generally 10 per cent. advance on last year.

The following are the comparative exports from the St. Lawrence for the last three years:

To United Kingdom—	1878.	1879.	1880.
Timber, mille cubic ft.	12,000	10,500	11,114
Deals, mille feet.....	190,000	199,000	263,000
Staves, pieces.....	1,750,000	1,500,000	1,310,000
To River Plate—			
Number of vessels....	27	31	31
Pine and spruce, mille feet.....	10,868	12,480	10,420

FOREIGN.

The Timber Trade's Journal as follows:

Messrs. Churchill & Sim's great sale has been almost the sole topic of conversation in the London timber trade during the week, and, however favorable it may be regarded by the outside public, it is very certain that the import merchants look upon it as an innovation which may lead, nobody knows where. There were some large sales held last autumn, but it remained for the present March and the same brokers to inaugurate a new system at the public sales which throws all those that preceeded it into insignificance. More than a million and a half of North of Europe deals and battens were advertised and sold without any reserve upon them; over 340,000 American deals and battens; also 210,000 pieces of flooring and about 2,000 loads of various kinds of timber, besides joinery goods sufficient of themselves to have brought together a considerable assemblage, and the quantity held on reserve out of the whole catalogue, instead of about 75 per cent. as heretofore, was not 2 per cent. The three days' sale has been estimated to have dosed the market with a quantity equal to about 300 or 400 average Baltic cargoes of 150 standards each.

The prices were very similar to those obtained by the same firm at their great three days' sale last October, except that on the present occasion mixed goods seemed in more request than they did at that time, though, as we observed before, the prices of the low quantities were not so good. There are reasons, however, that make the prices realized now compare unfavorably with those just mentioned, in the fact that the last October's sale was held at the fag end of a very remarkable season, when buyers had awoke to the fact that during the earlier portion of the year, misled by the reports about shortage, they had been paying needlessly high for their stuff, and under the idea that the stocks forthcoming would be light they allowed values to be maintained till they had supplied all their requirements at the full foreign quotations, by which time they found out the mistake they had made, and a reaction set in, the result being that prices, if we may use the expression, were cried down insomuch that, unless they could secure goods at some heavy reduction, buyers held their hands, and sellers had no alternative but the public sales to clear their stocks at whatever the market could afford. Also at that time, it must be remembered, the yards were full as well as the docks, and a long, dreary, dead season for merchants to contemplate, before any opportunity presented itself of materially reducing their stocks. Now circumstances are changed, the spring trade has almost arrived, and a good demand might reasonably be expected.

Now that the great sale in London is over, it is probable that strenuous efforts will be made to secure orders, and we look forward to hear shortly of a good many transactions being effected, although, in the opinion of some, importers will not be disposed to make engagements generally until about May.

LIVERPOOL TIMBER SALES.

On Friday, the 4th inst., Messrs. Duncan, Ewing & Co. offered by auction about 440 logs birch timber, 77 logs ash and sundry other woods, and on the same day Messrs. A. F. & D. Mackay offered about 73,000 spruce deals, 11,000 pine deals, 12,800 pieces red and white flooring, 1,300 logs birch timber and sundry parcels of Quebec goods.

The weather was much against the attendance of buyers from the country, yet there was a fair company, and although the bidding was slow, and the sale protracted to a great length, a fair amount of business was done in spruce deals. For birch there was not much demand, and hardly a bid was made for the parcel offered by Messrs. Duncan, Ewing & Co., and the wood was promptly withdrawn, and afterwards sold by private treaty.

METALS.—COPPER—Ingot has undergone little or no change of a positive character, the major portion of the business accomplished covering merely regular trade parcels. There is some talk of coming pool purchases by manufacturers, but no action as yet apparent, and also rumors of a desire to export, but the latter has met with little encouragement. We quote at 19@19¼c. for Lake. Manufactured Copper in moderate demand, and steady on all grades. We quote as follows: Brazier's Copper ordinary size over 16 oz per sq foot, 28c per lb; do do do, 16 oz and over 12 oz per sq foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz, per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 34c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz, per sq foot, 26c per lb and Bolt Copper, 28c per lb. IRON—Scotch Pig has sold slowly and weakened in tone as some holders were a trifle anxious to realize with greater rapidity than the natural outlet permitted. The supply has increased a trifle, although most of the deliveries were made from landing parcels. At the present writing the valuation is placed at about $21@24 per ton, according to brand and delivery. American Pig has been delivered with some freedom in fulfillment of contracts made early in the year, but the fresh demand proved quite moderate and uncertain from all quarters. Accumulations have in the meantime been increasing, and prices rather lost tone on all grades, closing unsettled. We quote at $24.50@25 per ton for No. 1 X foundry; $22@23 do. for No. 2 X do. do., and $20@21 do. for gray forge. Rails have continued in good full demand, and most of the companies were refusing orders except for very distant dates so far as steel were concerned, but it would have been a comparatively easy matter to secure contracts on iron rails. Some foreign stock has been sold, both iron and steel, for delivery here and at ports to the Southward. Old Rails, in an irregular manner, have sold very fairly and close about steady, with the stock reduced. We quote Rails at $46.00@48 for iron, and $61.00@64.00 for steel, according to delivery. Old Rails $27.00@29.00 per ton; scrap, $29.00@31.00. Manufactured iron has been disappointing, the demand not taking anywhere near as much stock as hoped for, and the general run of supplies piling up at most points. Prices are weak and unsettled on most kinds of stock. We quote Common Merchant Bar, ordinary sizes at 2.3@2.5c from store, and Refined at 2.5@3.5c; wrought beams at 3c. Fish plates quoted at 2⅜@2½c; track bolt and nuts, 3½@3⅝c; railway spikes, 3c; tank, 3@3.1c; angle, 3c; best flange, 6c; and domestic sheet on the basis of 3½c, for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c less on large lots from cars. LEAD—Domestic pig in moderate and somewhat uncertain demand with the general tone of the market rather tame. Openly the offering is moderate, but an ample supply could be found if called for. We quote at about 4⅝@4¾c. The manufactures of lead are steady and quoted: Bar, 6c; Pipe, 6½c, and Sheet, 7c, less the usual discount to the Trade; and Tin-lined pipe, 15c; Block Tin Pipe, 40c, on same terms. TIN—Pig has found a very good jobbing demand, and, with the outside offerings gradually disappearing the market gained strength and holders manifested greater confidence. We quote 20@20¼c for Australian, 20@20¼c for Straits, 20¼@20⅜c for English Refined, 20@20⅛c for do. Common. Tin Plates are held with steadiness and offered with moderation. A very good distribution has been made on regular outlets. We quote I. C. Charcoal, third cross assortment, $5.75@6.00 for Allaway grade, and $6.12½@6.25 for Melyn grade; I. C. Coke, $4.95½@5.00 for B. V. grade; $5.12½@5.25 for Yspitty grade; Charcoal terne, $5.25@5.50 for Allaway grade 14x20; $10.50@10.87½ for do. 20x28; Coke terne, $4.75@4.87½ for Glais grade 14x20, and $10.00@10.12½ for do. 20x28—all in round lots. Spelter selling slowly, but ruling steady and still quoted at 5@5¼c as to brand, &c. Sheet Zinc moderately active and pretty well sustained on value at 7@7¼c from store, according to quality and quantity.

NAILS.—We find more or less irregularity in the reports from different sources, but the aggregate of business proves comparatively full and rather tends toward an increase if any thing. Supplies remain under fair control and holder's views on value well up to the full former line with no very abundant amount of stock offering.

We quote 10d to 60d, common fence and sheathing per keg, $3@3.10; 8d and 9d, common do, per keg, $3.45@3.55; 6d and 7d, common do, per keg, $3.70@3.80; 4d and 5d, common do, per keg, $3.95@4.00; 3d and 4d, light, per keg, $4.70@4.80; 3d, fine, per keg, $5.45@5.55; 2d, per keg, $5.45@5.55.

Cut spikes, all sizes, $3.45@3.55; floor, casing and box, $3.95@4.45; finishing, $4.20@4.95.

CLINCH NAILS.

1½ inch, $5.70@5.80; 1¾ inch, $5.45@5.55; 2 inch, $5.20@5.30; 2½@2¾ inch, $4.95@5.05; 3 inch and longer, $4.70@4.80.

PAINTS AND OILS.—The wholesale market is without much animation, but in some instances very good sales have been made and full prices realized. The jobbing distribution is improving gradually and some of the Trade have been quite busy of late on both local and out of town orders. It will, however, require a considerable addition to the call to form basis for a positive stimulus on any grade. Leads continue unsettled and somewhat nominal. The list rates are quoted and some of the Trade claim that this is a fair representation of the market, but there is little doubt that constant cutting takes place whenever a desirable customer can be found. Linseed Oil remains in the same monotonous position, a moderately active call prevailing and prices undergoing no change worthy of note on the general range. We quote at about 56@75c. for City, and 62@62½c. for Calcutta from first hands.

PITCH.—A steady movement of supplies on regular outlets is reported with a pretty uniform line of value preserved. Stocks are full enough for all wants. We quote at $2@2.15 per bbl. for city, delivered.

SPIRITS TURPENTINE.—The market has undergone no very important change since our last so far as the jobbing movement is concerned. About the average amount of stock has been called for, and the cost was uniform with last week in most cases. In a wholesale way there was more or less irregularity, with holders, however, inclined to a considerable degree of firmness until the close, when less favorable accounts from the South had a weakening influence. As this report is closed, the quotations stand at about 45@47c. per gallon, according to the quantity of stock handled.

TAR.—Prices generally are held with a showing of firmness, and the market has a healthy, promising undeetone, so far as the ordinary jobbing trade is concerned. On the wholesale market there has been a little irregularity, but without resulting in any positive change on cost. We quote $2.50@2.75 for Newberne and Washington, and $2.62@3.00 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:
1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.
2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The directors of the East Side & Mount Vernon Rapid Transit Railway Company have elected David Quackinbush for vice-president, David Cromwell, treasurer, and Joseph S. Wood, secretary.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) *means judgment for deficiency. * means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.*

Vanderbilt av, No. 595. Jno. P. Sterling agt P. and J. J. Donlon and Thos. Finn. (Feb. 16, 1881).. —

NOTES AND ITEMS.

The iron business is showing increased activity, and some leading makers have advanced prices.

A Macadam pavement in Fifth avenue, between Ninetieth and One Hundred and Tenth streets, is a certainty.

One of the two Pennsylvania commissioners to the World's Fair says that the people of that State are waiting for New York to take the initiative.

It is stated that $500,000 of the capital stock of the Brooklyn Underground Railroad Company, of which the total is $2,000,000, has been subscribed for, and that the projectors intend to keep to the Fulton street route, regardless of what the managers of the elevated railroad do.

Work is progressing on the East River Bridge. A number of the floor beams have been attached to the suspender ropes on each side of both the Brooklyn and New York towers, and many of the suspender ropes have been attached to the bands in the cables, all of which are in place.

The Board of Aldermen of New York have adopted a resolution requesting the commissioners of the various departments of the city government to "increase the wages of mechanics and laborers in their employ to a standard to conform to the wages paid for like services by employers in the leading branches of business in this city."

The city will sell, on May 1st, leases for one year of Nos. 1146 to 1161 Third avenue, west side of the street, also lease of the buildings Nos. 186 and 188 South Fifth avenue, and of vacant lot corner One Hundred and Twenty-ninth street and Twelfth avenue; also, for three years lease, cellars Nos. 1 to 11 Centre Market, cellars Nos. 1 to 10 Essex Market, old Catharine Fish Market, and building and cellar Gouverneur Market.

A strong effort is making in the Brooklyn Common Council to have the East Side Park lands sold. They comprise about 121 acres, lying on the easterly side of Flatbush avenue, which were originally taken for park purposes, the intention afterward being abandoned. They were ordered to be sold in 1874, but the decline in real estate caused them to be withdrawn at that time.

A memorial, signed by 135 heavy importing, manufacturing and other firms, has been presented to the Dock Commissioners, urging upon them the necessity of continuing the new style of bulkhead work from Desbrosses street to Courtlandt street. The widening of West street from Desbrosses street to the Battery is also recommended, and the carrying of the new bulkhead system southward to the latter point.

The Water and Drainage Committee of the Brooklyn Common Council has recommended a reduction in the water rates amounting to $85,366. The reductions would comprise 50 per cent. of the water rent on rear buildings, $1 on each class of tenements, with the exception of one and two-story houses of 16 feet and under, and one-story houses of not more than 18 feet and over, and over 16 feet of front width, and also the repeal of Section 2 of Ordinance relating to extra persons.

The immigrants arriving at this port during the first twenty-five days of March numbered 19,583, against 12,939 in the corresponding period last year, and the arrivals since January 1 have been in a similar ratio. The arrivals last year were 327,371, being the largest number recorded since the Bureau of Emigration was established in 1847, but it is estimated that not fewer than 400,000 immigrants will arrive in New York this year.

BUILDINGS PROJECTED.

NEW YORK CITY.

Plan 254—Twenty-third st, Nos. 367 and 369 W., two five-story brown stone tenem'ts, 28.4x101, tin roofs, iron cornices; cost, each $20,000; owner, C. H. Raymond, 103 Reade st; architect, G. W. Da Cunha; builder, Jno. Smith.

CO-PARTNERSHIP NOTICES.

THIS IS TO CERTIFY, THAT THE UNDERSIGNED have, pursuant to the provisions of the Revised Statutes of the State of New York, formed a Limited Partnership, under the name or firm of E. P. COBY & CO., that the general nature of the business to be transacted is Printing and the manufacture of Stationery, and buying and selling such articles and merchandise as are usually dealt in by dealers in stationery, and that E. Parke Coby and John J. Mountain, who each reside in the City of Brooklyn, County of Kings, and State of New York, are the general partners, and William H. Baker, residing in the same city, is the special partner, and that the said William H. Baker hath contributed the sum of ten thousand dollars as capital towards the common stock, and that the said partnership is to commence on the first day of April, 1881, and is to terminate on the first day of April, 1891.

Dated this 30th day of March, one thousand eight hundred and eighty-one.

E. PARKE COBY,
JOHN J. MOUNTAIN,
W. H. BAKER.

City and County of New York, s.s.

On the 30th day of March, one thousand eight hundred and eighty-one, before me came E. Parke Coby, John J. Mountain and William H. Baker, to me known, and known to me to be the individuals described in, and who executed the above certificate, and they severally acknowledged that they executed the same.

CHARLES NETTLETON,
Notary Public for
New York County, N. Y.

City and County of New York, s. s.

E. Parke Coby one of the general partners named in the above certificate, being duly sworn, doth depose and say, that the sum specified in the said certificate to have been contributed by the special partner to the common stock, has been actually and in good faith paid in cash.

E. PARKE COBY.

Sworn this 30th day of March, 1881, before me
CHARLES NETTLETON,
Notary Public for New York County, N. Y.

THIS IS TO CERTIFY THAT THE UNDERSIGNED have formed a limited partnership, pursuant to the provisions of the Revised Statutes of the State New York.

The name or firm under which said partnership to be conducted is APGAR, MERRILL & CO. The general nature of the business intended is the buying and selling on commission, of Stocks, Bonds and other Securities. The place in which the business is to be carried on, is the City of New York.

The names of all the partners are as follows:

Louis J. Apgar, who resides in Jersey City, New Jersey, George Merrill, who resides in Raritan Township, New Jersey, and William S. Hartt, who resides in the City of New York, are the general partners, and Nathaniel Dole, who resides in the City of New York, is the special partner.

The said Nathaniel Dole has contributed the sum of twenty-five thousand dollars in cash, as special capital.

The said partnership is to commence on the twenty fourth day of February, 1881, and is to terminate on the twenty-third day of February, 1883.

Dated, New York, 68 Broadway, and 17 New street, February 24th, 1881.

LOUIS J. APGAR, Member N. Y. Stock Exchange. } General Partners.
GEORGE MERRILL,
WILLIAM S. HARTT.
NATHANIEL DOLE, Special Partne

THE UNDERSIGNED, DESIROUS OF FORMING a limited partnership under the statutes of the State of New York, hereby certify:

1. That the name or firm under which such partnership is to be conducted is HALL, NICOLL & GRANBERY.

2. That the general nature of the business intended to be transacted by such partnership is the general business of importing and selling foreign and domestic fancy goods and on commission.

3. That the names of all the general and special partners interested in said partnership are as follows:

Bolton Hall, who resides in the City of New York,
Benjamin S. T. Nicoll, who resides in the City of New York, and
David W. Granbery, who resides in the City of New York, are the general partners; and Marcellus Hartley, who resides in the City of New York, and Malcolm Graham, who resides in the City of New York, are the special partners.

4. That the said Marcellus Hartley has contributed the sum of twenty thousand dollars, and said Malcolm Graham the sum of twenty thousand dollars as capital to the common stock.

5. That the period at which the said partnership is to commence is the seventeenth day of March, 1881, and the period at which the said partnership is to terminate is the last day of February, 1883.

BOLTON HALL,
BENJAMIN S. T. NICOLL,
DAVID W. GRANBERY,
General Partners.
MARCELLUS HARTLEY,
MALCOLM GRAHAM,
Special Partners.

CO-PARTNERSHIP NOTICES.

THE UNDERSIGNED, CHARLES BUEK, HENRY F. COOK and CHARLES DUGGIN, being desirous of forming a limited partnership, pursuant to the laws of the State of New York, do make and severally sign the following certificate:

First. The name or firm under which such partnership is to be conducted shall be CHARLES BUEK & COMPANY.

Second. The general nature of the business intended to be transacted shall be that of conducting, managing, and carrying on the business of Architects and Builders and Dealers in vacant lots or plots of land in the City of New York or elsewhere, and the improvement thereof by the erection thereon of buildings, for sale or to hire, and the selling and renting the same, including the planning, designing, constructing, and erecting of buildings for others, and generally doing and transacting whatever properly appertains to the individual profession or calling of the several and respective parties hereto, and the business hereby contemplated to be done and performed.

Third. The names of all the general and special partners interested in said partnership are as follows:

Charles Duggin is the special partner, and resides in the City of New York.

Charles Buek and Henry F. Cook are the general partners, and reside in the same city.

Fourth. The amount of capital which the said special partner has contributed to the common stock of the partnership is the sum of fifty thousand dollars.

Fifth. The period at which the said partnership shall commence is the first day of April, 1881, and the period at which the said partnership shall terminate will be the 30th day of April, which will be in the year 1884.

Dated New York, April 1st, 1881.

CHARLES DUGGIN,
Special Partner.
CHARLES BUEK,
HENRY F. COOK,
General Partners.

City and County of New York, ss.:

On this first day of April, 1881, Charles Duggin, Charles Buek, and Henry F. Cook, known to me to be the individuals described in and who executed the foregoing certificate, severally acknowledged before me that they executed the same.

HENRY C. FREEMAN,
Commissioner of Deeds,
N. Y. City and County.

WE, THE UNDERSIGNED, GEORGE W. MILlar, William D. May and William Roberts, having formed a limited partnership do hereby certify:

I. The name or firm under which such partnership is to be conducted is GEORGE W. MILLAR & CO.

II. The general nature of the business intended to be transacted is that of Paper and Paper Stock Dealers.

III. The names and respective places of residence of all the general and special partners interested therein are as follows:

George W. Millar is a general partner, and resides at No. 17 Cottage place, in the city of New York.

William D. May is a general partner, and resides at No. 249 East 110th street, in the city of New York.

William Roberts is a special partner, and resides at Waltham, in the Commonwealth of Massachusetts.

IV. The amount of capital which the said special partner, William Roberts, has contributed to the common stock is Ten Thousand Dollars in cash.

V. The period at which the partnership is to commence is the 21st day of March, 1881, and the period at which it will terminate is the 1st day of January, 1882.

Dated March 21st, 1881.

GEO. W. MILLAR.
WILLIAM D. MAY.
WILLIAM ROBERTS.

FEINBERG AND WINTER.—STATE OF NEW York, City and County of New York, s. s.—This is to certify that we, the undersigned, have formed a limited partnership, pursuant to the provisions of chapter four, title one, part two, of the Revised Statutes of the State of New York, entitled "Of Limited Partnerships," and of the several acts and statutes amending the same.

First. The name or firm under which such partnership is to be conducted is FEINBERG & WINTER

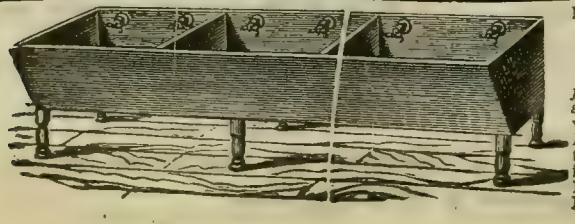
Second. The general nature of the business intended to be transacted is that of commission merchants and purchasing agents; and also the purchasing, selling and dealing in general merchandise.

Third. The names of all the general and special partners interested therein, and their respective places of residence are,

Moses S. Feinberg, who is a general partner, who resides at San Francisco, in the State of California; Benjamin G. Winter, who is a general partner, and who resides in San Francisco, in the State of California; and Zadoc Staab, who is a special partner, and who resides in the City, County and State of New York.

Fourth. The amount of capital which Zadoc Staab, the special partner has contributed to the common stock is the sum of five thousand dollars.

Fifth. The period at which said partnership is to commence is the fourth day of March, 1881, and the period at which it will terminate is the 4th day of March, 1884.



In witness whereof we the above named persons who are desirous of forming such partnership, have made, and severally signed this certificate this fourth day of March, 1881.

MOSES S. FEINBERG,
BENJAMIN G. WINTER,
General Partners.
ZADOC STAAB,
Special Partner.

State of New York, City and County of New York, s. s.

On this 4th day of March, 1881, before me personally appeared Moses S. Feinberg, Benjamin G. Winter and Zadoc Staab, to me known, and known to me to be the individuals described in, and who executed the within instrument, and who severally acknowledged to me that they executed the same.

C. F. CONNER,
Notary Public,
N. Y. County.

THE
FIRE-PROOF BUILDING COMPANY
OF NEW YORK

LEONARD F. BECKWITH, President & Treasurer. E. GILLET, Vice-Pres't

Hollow blocks of any pattern, uniting strength and resistance to fire and water. The Hydraulic Lime of Teil (France), one of the strongest cements known, is largely used in this manufacture. The blocks do not conduct heat, cold or sound, and weigh 60 per cent. less than brick.

Fire-proof partitions, floor arches between iron or wooden beams, and ceilings under iron or wooden beams erected in following buildings:

Western Union Telegraph,	Orient and Queen's Insur.
Coal and Iron Exchange,	Museum of Nat. History,
Equitable, Staats Zeitung,	Hudson R. R. Freig't Dep.
Wil'msb'gh Savings Bank,	N. Y. Hospital, Boreel.
Windsor & Westm'r Hotels	Cluny & Youngs H'tls, Bt'n
Syracuse Savings Bank,	B'k N. Y. & Stevens B'ldg.
Columbia College, Tribune.	Coryell & Vancorlear Flats
Baltimore Safe Deposit Co.	Peabody Institute, Balt.
Peabody Museum, N. H.	John Hopkins, Hospital, Balt
United Bank Building,	Astor Library,
Hotel Vendorne,	Mason Building, Boston.

Sidewalks laid at Lenox Library, Tribune, etc. Hollow burnt clay Bricks for Flat and Curved Arches, Partitions, etc.; and Skewbacks for Brick Arches.

Sole Agents for the United States for HYDRAULIC LIME OF TEIL, and LAFARGE PORTLAND CEMENT.

Sole Agents for the U. S. for METTLACH ENCAUSTIC TILES, laid in Tribune, Staats Zeitung, Mineral Spa, Central Park, Belvidere Hotel, etc.

Our fire-proof work is the only one approved by the New York Board of Fire Underwriters and the Superintendent of Buildings, after severe public tests.

SUPREME COURT SALE.

— VALUABLE LOTS ON —

Ninth Avenue [Boulevard] and West 64th Street.

A. J. BLEECKER & SON will sell at Auction, on

WEDNESDAY, APRIL 13, 1881,

At 12 o'clock, at the EXCHANGE SALESROOM, 111 Broadway, Trinity Building, N. Y., under direction of GEO. V. N. BALDWIN, Esq., Referee.

9th AVENUE—Two fine lots on the northwest corner of 9th Avenue and 63d Street, making a Plot 50.5x100 feet; as the ground in front is an open square or plaza, these lots are really BOULEVARD LOTS.

WEST 64th STREET—One lot, on the south side of 64th Street, commencing 275 feet west of 9th Avenue, size 25x100.5 feet.

☞ For particulars apply to JAMES P. LOWERY, Attorney, 61 Wall Street, or FRANK F. VAN DERVEER, Attorney, 237 Broadway, and for Maps to A J., BLEECKER & SON, Auctioneers, 75 and 77 Nassau Street, N. Y.

ADRIAN H. MULLER, Auctioneer.

IMPORTANT PEREMPTORY SALE

To Close the Estate of JOSEPH DRAKE, Deceased.

THE 205 LOTS

In the Eighth Ward, City of Brooklyn,

—SITUATED ON—

Seventeenth and Eighteenth Sts.,

Prospect, Ninth, Tenth and Eleventh Avs.,

and near Prospect Park.

WILL BE SOLD AT AUCTION,

ON THURSDAY, APRIL 21ST, 1881,

At 12 o'clock, at the EXCHANGE SALESROOM, 111 Broadway, N. Y.

—BY—

ADRIAN H. MULLER & SON,

AUCTIONEERS.

This sale which includes in part the ENTIRE BLOCK of 70 lots (with brick mansion) bounded by the Ninth and Tenth avenues, Seventeenth and Eighteenth streets, is made to close the estate of JOSEPH DRAKE, deceased, and every lot will be

ABSOLUTELY SOLD.

Ninth avenue, Seventeenth and Eighteenth streets are opened and paved with Belgian pavement. The block above mentioned, bounded by Ninth and Tenth avenues, Seventeenth and Eighteenth streets, will be offered as a whole at an upset price, and if not taken will then be sold in lots.

This land is about the highest in the City of Brooklyn, overlooks Prospect Park, and from it extensive views can be obtained of New York Bay, Coney Island, Sandy Hook, &c., and the early completion of the Brooklyn Bridge and Rapid Transit Routes, cannot fail to greatly enhance its value.

TERMS, 60 per cent. on mortgage at 6 per cent.

Descriptive maps can be obtained from: JOHN J. DRAKE, No. 17 Willoughby street, Brooklyn.

J. L. JEWETT, Attorney for the Heirs, No. 287 Greenwich street, New York.

And of the AUCTIONEER, No. 7 Pine street, New York, or will be sent by mail if desired.

REAL ESTATE.

IN PURSUANCE AND BY VIRTUE OF a deed of trust to us made we, the undersigned trustees, will sell at public auction at the Exchange Salesroom, No. 111 Broadway, in the city of New York, on SATURDAY, the 23d day of April instant, at twelve o'clock noon, by JOHN H. DRAPER & CO., Auctioneers, all the lands and premises, with the storehouse thereon, known by the street numbers 166 Pearl street and 79 Pine street, in the city of New York, which, taken together, are bounded and described as follows, to wit.: Beginning at a point on the easterly side of Pearl street, which point is at the northwesterly corner of the store and lot known as No. 166 Pearl street, in the centre of the party wall between said store and the store on the lot hereby sold, running thence southeasterly through the middle of said party wall, and the same course along ground now or formerly of Hendrick Booraem to a point distant seventy-seven feet four and three-quarter inches southeasterly from Pearl street, and distant forty-three feet one inch southwesterly from the southerly side of Pine street, thence northeasterly partly along ground now or formerly of said Booraem, and partly along ground now or formally of John S. Crary forty-three feet and one inch to Pine street; thence northwesterly along Pine street thirty feet and four inches to the northeasterly corner of the store No. 168 Pearl street; thence southwesterly along the rear of said store No. 168 twenty feet eight and one-quarter inches; thence northwesterly along the southerly side of said lot No. 168 forty-seven feet three and three-quarter inches to the easterly side of Pearl street, and thence southwesterly along Pearl street twenty feet seven and three-quarter inches to the place of beginning, be said several dimensions more or less.

ONE YEAR, in advance - - - - - $6.00

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

The rates for fire insurance are hardening and the companies are now doing a more profitable business than for many years past. This is as it should be. It is not best that any necessary business be carried on at a loss. We are, however, approaching a time when conflagrations are frequent, for it is a noticeable fact that the close of the last renting quarter in the year is marked by a relatively great number of fires. Why this is so, needs no explanation to the fire insurance companies. There is a great deal of building going on throughout the country, and this naturally adds to the demands made upon the fire insurance companies. There is nothing to warrant any diminution of rates, and, while there is no reason to expect a return to the charges made during inflation times, the companies at present in existence, whose character is well established, need have no fear but that the growing business of the country and its increased wealth, with the new buildings in course of erection, will give them a constantly growing custom at remunerative figures.

FOR SPECULATIVE INVESTORS.

We have repeatedly pointed out the possibilities for investment in Southern State securities. It is certain that some time or other the more progressive and growing of the Southern States would seek to rehabilitate their credit and would make composition with their creditors. The census shows that the growth of the South in population has not been behind the rest of the country, while the $6,000,000 bales of cotton produced during the past season tells the story of the potential wealth of that section of our country. All of the Southern States are not under a cloud financially. The credit of Georgia is deservedly high and the state bonds of Texas are far above par. And now Tennessee comes to the front as a debt-paying state. Six months ago the evidences of her state debt were sold for 30; to-day they are worth over 70. This has naturally attracted attention to the securities of Louisiana, North and South Carolina, Virginia and West Virginia, all of which have recently advanced in price, and with good reason. The great railway interest of the country has its ramifications all through the South, and the urgent call for state aid to local improvements will bring home to the intelligence of the defaulting states the necessity for confidence in state financial honor at the money centres. The Chesapeake & Ohio, the Louisville & Nashville, the Chattanooga, the Chicago, St. Louis & New Orleans, and the other minor roads through the South are having their influence upon the states they pass through, and it is as certain as anything in the future that every Southern state will seek to have its credit restored, so that it can borrow money for new local improvements.

Of course there is a choice, and investors would do well to give the preference to those states in which the need for local improvements is the greatest. Louisiana and Arkansas are such states. Virginia, in due time, will doubtless come to the front again in vindication of its state honor, but its recent course has not been satisfactory. It is the cotton and sugar growing portions of the South which have been most prosperous, and Virginia doubtless has not profited by the good times as much as other states. Still, Richmond is a growing city, and the new railroads are vitalizing portions of the Old Dominion heretofore inert. The day is coming when there will be a flood of white population to Virginia and North Carolina. The securities of both those states must gradually, but surely, appreciate.

A GOOD TIME TO BUY.

So far there has been no "boom" in real estate. There have been a greater number of transactions than formerly, there has been a moderate advance in prices, some speculative purchases have been made, but there is as yet no speculation proper in the real estate market. The sales of the past week tell the story. Unimproved lots can be bought at moderate prices, and houses can be secured at figures which will give a handsome return in rentals. In other words, the condition of the market is wholesome, and such as ought to attract prudent people. That the time will come when prices will be high and speculation rampant, every one, acquainted with the market, looks for confidently. Indeed it was supposed that the commencement of the speculation might show itself this spring; but while dealers have done a very fair business, and the number of conveyances have increased to higher figures, there has been no evidence of feverishness or unusual excitement.

Of course, the lots which everybody wanted have advanced largely in prices; where building has been active and the location very desirable, the figures obtained in 1870 and 1871 have been reached. But although the population of the city has increased twenty-eight per cent. since that time and local improvements, then projected, have been since completed, well placed lots can be purchased north and west of the park at much lower figures than were asked and paid ten years ago. There has been an apparant large advance in some locations within the past three years. There has been a handsome advance in improved property within that period; but it is safe to say that three-fourths of the real estate in New York to-day, is much cheaper than it was from 1869 to 1871, and yet in the meantime our elevanted road system has been put into operation. True, those were paper money times; but securities on our Stock Exchange are very much higher to-day than they were twelve years since.

For the first three months of 1881 the increase of conveyances over 1880 on this island was only 93; while there was an actual decrease in transactions in the annexed district of 62. But the property sold during that three months for $11,519,000 more than the property purchased in 1880. Of course, this does not give the figures accurately on account of the great number of nominal transfers.

It is mischievous to legitmate business to give the impression that there is any unusual activity or speculation in real estate. We are, it is true, building more houses. Two thousand and sixty-five were erected in 1879; 2,252 were completed in 1880, and we believe that over 3,000 houses will be constructed during the course of the present year. Even these figures do not tell the whole story, for the buildings erected comprise many vast apartment houses, some of which accommodate twenty and thirty families each. Our population increases far more rapidly than the means to accommodate them with homes; but the price of labor is steadily rising, and the working people will not only be able to pay better rents, but will demand better accommodations. From a variety of causes, building materials have not advanced, so there is a large margin of profit in the construction of new houses for we live in "bull" times, and all prices, including rents, will yet largely advance.

There has been a good deal of resistance to the increase of rents in all save the very rich and choice districts. People who have made a great deal of money, speculatively, have not only paid liberal prices for well located residence property; they have also submitted to a large advance in rents. There has been a moderate advance for the houses occupied by the middle class; but while the laboring classes have been actively employed, they have resisted an advance in rents on the ground that they were not better paid. But it will be found that skilled artisans, indeed, all classes of working people, are not only fully employed, but have recently had such additions to their wages as would enable them to live in more comfort.

The outlook is promising. This island will have 400,000 more people in 1891 than it has to-day. By that time the vacant spaces along the line of the elevated roads and north and west of the park, will be covered with new buildings. There is a margin of from ten to two hundred per cent. in unimproved city property. The person that buys to-day is sure of an investment which will not depreciate by the lapse of time.

There is one department of our city government worthy of all praise. We allude to the fire department. It does its work so efficiently and quietly, that our property holders do not realize all the good it is doing. All our older citizens remember the riotous and inefficient volunteer department which the present system replaced. A fire, then, was a noisy affair. The bells clamored, the engines were dragged by men, fires were frequent, riots common and much of a corruption of our city politics dates from the old engine houses. "Bill" Tweed was the foreman of "Big Six," and a sur-

prisingly large number of our local ward politicians graduated from the volunteer fire department. A fire, now, excites no commotion. There is no bell ringing; the engines, drawn by horses, are promptly on hand and, indeed, our citizens are not aware of more than one fire in fifty. All this is because we have a civil service reform in our fire department. The appointments in the force are permanent, and the men are not removable for political causes. There is no promotion into other political positions outside of the department.

Any property holder, interested in the safety of New York, would do well to call at our engine houses and ask to be shown an ordinary drill of one of the companies. He will find the officer in charge eager to oblige him. They are ready any moment, day or night, to give an impromptu drill of the company. The rapidity with which the men are dressed and at their posts, and the horses harnessed and ready to start for the fire, is magical. From three to ten seconds suffice to get the horses out of their stalls into the harness, with the engine attached, ready to gallop to the fire; while the firemen are quicker still. Were our police department equally efficient, New York would indeed be well off.

A LOOK AHEAD.

The daily papers have recently been paying a good deal of attention to real estate, and all the articles show evidence that the writers have been assiduous, if not always accurate readers of the REAL ESTATE RECORD. From an article in the *Sun*, however, we extract the following which puts an old point in a new light:

"The population of New York is estimated by the Health Board Inspectors, who are most familiar with the city, as fifteen per cent. greater than it was when last summer's census gave us about twelve hundred thousand inhabitants. But they include the floating population, never so great as now. The annual increase from 1880 until the next census is taken, however, is likely to be proportionately more than it was between 1870 and 1880, during which period occurred the long business depression. The extension of the rapid-transit system will also assist materially in our progress during the present decade of years. Between 1870 and 1880 we increased from 942,292 inhabitants to 1,206,507, or about 28 per cent. If our gain during the next ten years should be at the same rate, the population of the city in 1890 would be about 1,550,000. But if the rate of increase of our residents which has been apparent since the census of 1880 continues to be maintained, that total will be raised nearer to a million and three-quarters. It is reasonable to expect that during the next ten years we shall be called on to furnish accommodations for between 400,000 and 500,000 more inhabitants than were counted in New York last summer."

From this, it will be seen that building is none too rapid on this island. It will take a good many houses to accommodate 500,000 people. Indeed we think this an under estimate. It may turn out that there will be an addition of 500,000 on this island alone, without counting the Twenty-third and Twenty-fourth Wards. Keeping this fact in mind, the real estate operator need make no mistake in purchasing ahead of improvements. The plain above the Central Park, the west side about Sixtieth street, will present a very different appearance in 1891 from what it does in 1881.

But the *Sun* makes another point, which has been repeatedly urged in these columns. New York, it says: "is also attracting to it for investment a steadily increasing share of the money made elsewhere in the country, some of the largest purchasers of landed property recently having been capitalist from a distance. And if we observe the progress of other great cities, and the increase of value of the land within their limits during any considerable number of years, we shall find reasons for commending their prudence. The land in Broad street bought by a rich Californian for an extensive building cost eighty dollars the square foot, but land in a corresponding situation in London is worth three times as much."

The same paper also calls attention to the steady appreciation of city property and the causes for it, as follows:

"It is obvious why this great appreciation in city landed property should take place at this time, when four per cent. Governments command a premium of thirteen or fourteen per cent. The low rate of interest for money also explains why buildings on an unusually extensive scale are planned this spring wherever there is likely to be a demand for their accommodations If the area of the land for the erection is contracted, the deficiency is remedied by running them up eight or nine stories in the air. The object is to get a permanent investment for a large amount of capital."

In judging of the growth of New York, it would be well to bear in mind, the annexation of Brooklyn and the surrounding country. The completion of the Brooklyn bridge, will put every part of New York into immediate railway communication with Coney Island and all the watering places on Long Island. This will make our city more populous in summer than in winter time; for while tens of thousands of New Yorkers will scatter to the inland watering places, hundreds of thousands of persons from abroad will take their places, to be within easy distance of Coney Island and the finest series of sea beaches and summer hotels in the whole world.

TELEGRAPH STOCKS.

The withdrawal of the Vanderbilt interest from the management of the Western Union Telegraph Company does not seem to have affected the price of telegraph stock on the market. There are many influences arrayed against that stock just now, and we scarcely think it would hold its own so well were it not in the hands of strong parties.

In the first place, it is evident that the consolidation is very unpopular with the business and general public. Then the legal proceedings are costly and vexatious, enough under ordinary circumstances to scare away the timid investor. The absolute control of the property by Jay Gould does not help the stock in the estimation of the investing public, and then, the progress of invention may do away with such general use of the telegraph system. Should the telephone become usable for long distances, it would be a serious blow to the present monopoly. Another element of uncertainty in holding telegraph stock is the fear that Jay Gould may, after he has marketed his own stock at present figures, elect to reduce the tolls, so as at once to popularize his management with the public and freeze out the large holders of the stock. With the shares down to 50 cents on the dollar, he could easily put them up again by increasing the tolls and make the business of the company again remunerative.

But then, on the other hand, it is certain that the company to-day is earning 8 per cent. on its $80,000,000 of capital stock. No matter what the courts may try to do, the companies are consolidated and expenses are being rapidly reduced. It is idle to talk of an opposition company. Polemen and wiremakers may try to get them up, but no more capital will be put into any enterprise which looks to covering the whole country with new wire. It is all well enough for boards of trade and commercial bodies to denounce telegraph monopolies, but capitalists do not subscribe funds to benefit the public so much as to enrich themselves. Jay Gould admitted in his interview with the *Herald* reporter that the American Union, as an independent line, never, for one day, paid anywhere near expenses. This was because the Western Union had such relations with the employees of the railroad lines of the country that its local service did not cost it one-tenth what it would cost other companies which had to pay full salaries to their employees.

The one solution to the telegraph difficulty is the final purchase of the lines by the general government. Messages by telegraph should be part of our postal system, as it is in every other country in the civilized world Bad as our civil service is known to be, our post-office department is managed with efficiency and letter carriage is certainly cheap.

ABOUT TURKISH BATHS.

The three houses, Nos. 5, 7 and 9 East Forty-sixth street, being immediately in the rear of the Windsor Hotel, and a portion of the Goelet estate, have been leased for an extensive Turkish bath establishment, occupying the entire premises with the exception of the first floor of No. 5, which is to be converted into a sumptuous cafe and wine room for the Windsor.

The plans have not yet been decided upon, except in so far that the drawing rooms of the bathing establishment will connect directly with the hotel. As the alterations will necessarily be extensive, it is not expected that the buildings will be completed before next September.

The growth of luxurious tastes in New York is shown by the opening of new Russian and Turkish bath establishments. The first experiment of this kind was in 15 Laight street, about the year 1866. Dr. Shepard's establishment, Brooklyn Heights, next opened, and there are three others now in different parts of Brooklyn. There is also a Turkish bath on the corner of Lexington avenue and Twenty-fifth street, on Twenty-fourth street near Broadway, then there is Dr. Miller's bath in Twenty-eighth street, and the Moline baths in Twenty-seventh street besides the immense establishment, Russian and Turkish, in Lafayette place. There is a very popular and cheap bath on the corner of Bowery and Broome street.

The hot air, Turkish or Roman baths makes its appearance when luxurious tastes have become common, based on large accumulations of private wealth. Nothing gives one the impression of the luxury of ancient Rome more than the remains of the magnificent baths built by the emperors. The time is doubtless coming when New York will vie with ancient Rome in all the appurtenances of a luxurious life. A project has been moo.ed to secure ground in the neighborhood of the Central Park, covering a whole block, on which would be erected a structure, mainly of glass and iron, which would include all kinds of bathing, hot air, steam vapor, swimming baths of fresh and salt water, a splendid cafe, departments for the sale of articles of luxury, choice birds, plants, in short a palace of cleanliness and superior elegance. There will be rooms for

beautifying the person, for chiropodists, manicurists and persons skilled in the mystery of repairing the ravages of time and adding to the charms of lovely woman. In short, a place that will be talked of all over the world and which every visitor to New York would be forced to patronize.

UNIMPROVED REAL ESTATE BURDENS.

Samuel B. Duryea is discussing our tax laws in the Kings County *Rural Gazette*. He thinks, as does every sensible man, they can be greatly improved. He says:

The cost and maintenance of education in the city should be charged wholly upon the improved real and personal property, so also the cost and maintenance of the departments of fire, health and police, and the department of justice as far as it protects the individual and his personal effects.

And he adds:

It is proper that unimproved real estate should bear the cost of drainage, grading, paving, curbing and flagging, all those items which go together to make it more accessible and marketable; but why it should be charged for water never used, or for education not receivable, or for the maintenance of the police, fire and health departments, from which it gains no benefit whatever, is not easily comprehended.

But if our tax laws were revised in accordance to these suggestions it would open the door for demagogism. It would be said that rich people put their money in unimproved real estate in order to escape taxation. One of the arguments which helped to carry the new constitution in California against the protests of the large land owners was that it taxed all property, unimproved as well as improved, alike, on the ground that the equal taxation forced the owners of wild land to improve their property, or to sell it to those who would. As a matter of fact, our tax laws are, to a certain extent, communistic. There is no apparent justice in making the childless bachelor, spinster or married couple pay for the education of children not their own. But the matter is settled and no practical good can come of discussing it.

No street in New York has changed so radically as Fourteenth street within the last seven years. We refer, of course, only to that part of it which lies between Broadway and Sixth avenue. The change was first rendered possible by the extraordinary popularity of Macy's store. This advertised itself in such a way that when the elevated road was established it literally brought a multitude of women shoppers to this establishment. The history of the more recent stores constructed in Fourteenth street could easily be predicted from the thronged concourse at Macy's. Various as were the articles sold, every one that came was not supplied and the neighborhood soon offered other attractions, until now a line of stores on both sides of the street are either opened or about to open. The person who has made the most changes and has taken advantage of the situation is W. Jennings Demorest, who has altered some fourteen private houses into stores. Property on this street is generally leasehold, and therefore not so easy to handle, as money lenders do not like to advance large sums where the property is not in fee. There is not much probability of stores continuing below Sixth avenue, toward the Hudson River, nor is there any likelihood of much change east of Third avenue, but we understand that every house not yet remodelled between Broadway and Fifth avenue will be converted into a store before July of next year. At one time it was proposed to have the great public market at the North River end of Fourteenth street, but this scheme has fallen through. Had it been carried out, it would have led to the establishment of many minor stores from Seventh avenue to the river, and in time Fourteenth street might have been a West Side Grand street. New York needs a great market, but where it is to be located is the problem.

Although March of last year was noted for its wild speculation in products as well as stocks, while this year business has been retarded by storms and late wintry weather, yet, according to *The Public*, the volume of business, as shown by the exchange, was greater in March this year by 18.2 per cent. This is the more remarkable as cotton has declined 15 per cent. in price; flour, 20 per cent., and wheat 12 per cent. Then, pig iron has declined 37 per cent., manufactured iron 25 per cent., and steel rail 17 per cent. Of course, the secret is the larger business done, due to the lower prices.

Secretary Windom will, of course, be urged to make money easy by diminishing the reserve in the United States Treasury. Should he adopt this advice, the finances of the country will be in real peril. Seven hundred and forty millions of unredeemed government notes are afloat, and we really cannot be said to have resumed specie payment until there is a gold or silver dollar in the Treasury behind every greenback dollar. The one weak spot in our financial system is the great excess of demand paper obligation over our available bullion reserves.

If Secretary Windom heeds the appeals of the "bulls" and parts with any of his reserves of gold and silver, the consequences may be most disastrous. For, if gold should take wings and leave the country, there will be a rush on the Treasury and the immediate suspension of specie payments.

THE ANNEXED DISTRICT.

The establishment of rapid transit in the city of New York has been the means of bringing many persons heretofore residing in the adjoining towns of New Jersey and other suburban localities to the metropolis. The class most affected are those who can afford to pay moderate rents for their homes, and who will not live in the squalor of a tenemant house. This portion of our population is constantly increasing as the facilities for rapid transit are extended, and so a great demand. That is, for houses of six to nine rooms, with modern improvements, affording a comfortable place of residence for an ordinary family, has been created.

The above is particularly true of that portion of our city known as the annexed district, and real estate brokers, builders and owners in this locality (we refer especially to the vicinity of Woodstock, Mott Haven, North New York, Melrose, Tremont and Fordham,) report that there is no difficulty in renting small houses at a slight advance over the prices of a year ago, and that owners of these small houses are more desirous of securing good one-family tenants than they are of advancing rents. The lateness of the spring has somewhat interfered with the sales of property and the building of new houses, but it will be seen, in another column, that a number of sales have just been completed, not having gone on record as yet, and that building operations are now being rapidly proceeded with.

The largest owner of real estate in Woodstock remarked to the writer that he believed that purchases of unimproved property in that neighborhood would yield 100 per cent. profit within one year.

The great drawbacks to the foregoing localities are the wretched paving and curbing (where there is any at all) of the streets and the building of houses on the ground that is drained and sewered by nature alone; and while it must be acknowledged that it is unusually well located for the same, we must also remember that in this age of progress most people believe in assisting nature in providing sanitary necessities. It certainly is a strange sight to see one hundred and fifty houses being built on property where there is no sewerage provided for, no streets cut through, and draining left for a matter of future consideration.

The owners of property here are unanimously in favor of the immediate building of the projected Second avenue Bridge and Elevated Railroad, however much they disagree on the best course for the road to take.

THAT BRIDLE PATH.

Mr. McLean, at a meeting of the Park Commissioners, held some time since, proposed a plan for the construction of two new equestrian paths, similar to the world-wide known one in Hyde Park, London. The principal object of this plan is to bring a walk and bridle path in juxtaposition with the drive. The first path is to start from a point nearly opposite to Sixty-second street and Fifth avenue, running along on the east side of the drive to a point opposite the Seventy-second street entrance, and there terminating in a large oblong loop around the beautiful meadow now used as a playground for children, and which, we may add, it would destroy for its present purposes. This will give 3,600 feet of new bridle path, and 5,000 feet of new walk.

The second path will start from a point on the west drive, near transverse road No. 3, opposite Eighty-second street, extend along the east side of the drive to the turn of the drive north of North Meadow, and here terminating as in No. 1, with a loop, although of a smaller character. This path will give 6,100 feet of new bridle path, and 6,800 feet of new walk.

It has been estimated that these improvements will cost upwards of $300,000, and as there are no funds on hand to meet the expense, our equestrian frequenters of Central Park will have to content themselves with the unfrequented and sequestered bridle paths now in use for an indefinite period.

WORKING OF THE PRESENT LIEN LAW.

There is a feature in the working of the present Lien law which calls for amendment. It provides that in the case of foreclosure of a lien, "Such action shall be commenced, carried on, and judgment entered and enforced as provided in an action to foreclose a mortgage in the code of civil procedure, and the plaintiff shall make all other parties who have filed subsequent liens under this act, or have any prior record claims or liens upon said premises and their appurtenances, defendants in such action." Now, this, of course, means that nearly every case shall be sent to a referee for decision.

Anyone who has had any experience in a referee case with its endless delays and postponements, must know that such a system is not adapted to be of the slightest use to a large majority of those whose interests the lien law is intended to protect. It is well known that the referee system as at present conducted, is in defiance of every law of trade or rule of common sense. Ordinary mortals are generally paid according to the amount of work they do, but referees on the contrary, are paid according to the work they do not do. The more they fool away their own and other people's time with adjournments on the most frivolous pretexts the more money they make.

A single case in point will be given, a master mechanic up-town, supplied part of the woodwork on some houses and placed a lien on them

before the builder, who failed, had made his assignment. The lien was foreclosed and the case was sent to a referee. The hearings were generally appointed for Saturdays, when it is very inconvenient for mechanics to leave their business to attend court. At one time the counsel for the principal had a cold, and, of course, such a grave circumstance called for nothing less than an adjournment. Another time, some other lawyer had a touch of rheumatism which pained his shoulder, and the consequence was another adjournment. At the next meeting the stenographer was not present and nothing was done that day. At another time all the parties were present, but one of the lawyers had to be excused for a quarter of an hour and, as he did not appear in that time, another adjournment was had, and so the case went on for a year and a half, and, after employing two lawyers in succession, the plaintiff realized out of his claim for $300 only $125, and of this he had to pay $60 expenses.

As a means of enabling mechanics to recover small claims, such a system is a perfect farce. As a matter of fact, to most mechanics the present law is of no avail whatever. A well-known mill owner and a sash and blind maker up town, have each said that they never foreclose a lien and never even file a lien under the present law, and they are only two examples out of many. They say that the present law is no good to them whatever.

ABOUT MINES.

Insiders say that there may be a deal in Bulwer. The stock is selling for about $2; there is $50,000 in the treasury; the mill working on Standard ore earns $8,000 a month above expenses, and there is now a chance that an ore body may be struck in the course of a couple of months. It will be remembered that the Bulwer had a ledge which netted $200 a ton. It was worked until a sufficient amount of money was raised to build the splendid mill now owned by the Bulwer Company. But it seems the rich ore was used up in the upper levels. There are still large quantities of ore in sight in the Bulwer mine, but its grade is too low to work profitably, in view of the present cost of milling in the Bodie district. It costs 3 cents for every pound of freight taken to Bodie, and ore must mill $18 to the ton before it can be profitably worked. They are now cross-cutting from the 1,000 foot level of the Standard mine into Bulwer ground. Superintendent Irving reports that the formation is favorable, and water has made its appearance, a good sign a ledge is being neared. Should pay ore be found 1,000 feet below the surface, Bulwer stock at present price might be a profitable investment.

Standard has slightly weakened in price this week, but those interested in the mine say that there is an abundance of high grade ore with which to pay divivends of 75 cents a month for two years to come. It should be remembered that while there is a great deal of ore in sight in this well-managed mine, on only two of the levels so far is it profitable to work. On the 385 foot level there is a quantity of five and six hundred dollar rock; this is sparingly worked, only enough being used to mix in with the other ore to keep up the monthly average yield. On the 550 foot level there is also a body of ore which pays a handsome profit in the working. But, while there is plenty of good looking rock in other parts of the mine, it is not in itself rich enough to work. The price of the stock has been maintained, by the faith of those who own it, that other rich ore will be discovered before the present visible supplies will be exhausted.

All the pay rock of the Bodie district cannot be in the Standard mine. There are other properties to the south and north which will be heard from some day. It is a very promising district, but it will take time to develop it.

We have heretofore spoken well of Chrysolite, both mine and management, but we are beginning to doubt about the latter. After letting it be known that there was nearly $300,000 in the treasury and that $2 was produced for one spent, the production has suddenly ceased and the stock weak. Can it be that the people in charge are deliberately playing with the stock and have stopped production in order to buy it in cheaper? The delay in declaring a dividend is suspicious. One hundred thousand dollars is an abundant reserve. The money in the treasury belongs to the stockholders, and a reasonable proportion of it ought to be immediately disbursed. The president of the company does not appear to advantage in the suit against him for damages, when, as an expert, he declared that there were $7,000,000 in sight in the mine. He was probably fooled by the people in charge; but certain it is, that the stock was bought by many persons at high figures, as his reputation was good as an engineer, while his character as a man was unimpeachable.

Silver Cliff, as we write, is selling at $6 a share; when its market price was $2.50, $3 and $3.50 we advised its purchase. It may go higher, much higher, but we do not advise anybody to keep it at any figure over $5. The mine is in debt to Mr. James R. Keene for money to build the mill, and while there is an abundance of good ore, the problem of working it profitably has yet to be solved. There is some peculiarity about every new mineral district, the ores of which always require special treatment. So far the mill test of Silver Cliff chloride ore has not been satisfactory. Much is expected from the new mill, but it will be safer to buy the stock at $10 after this matter has been thoroughly tested than to pay $6 while it is yet an unsolved problem.

A gentleman who has studied Black Hill mining, informs us that he has made a careful examination of the reports of the De Smet and Deadwood Terra Mining companies. It is his deliberate impression that the Deadwood Terra has not earned its dividends. He thinks it not unlikely that Haggan & Co. have not drawn any dividends on the stock which they have locked-up, to secure control of the organization. This expert thinks they are selling all the stock which the market will take at between $10 and $11. We give this statement for what it is worth, and, as the reports are published, anyone can form his own judgment; but, in justice to the promotors of this company, it should be remembered that both Deadwood and Golden Terra were long worked as separate organizations before dividends were declared. There must have therefore been a large accumulated fund with a hundred and twenty-four stamps at work, and the cost of milling and mining less than $3. Deadwood Terra ought to pay 25 cents a month.

There are unmistakable signs of a movement on the Comstock. The new hydraulic pumps are rapidly relieving the middle mines, that is, Gould & Currie, Yellow Jack, Hale & Norcross, etc., of water, which is now being pumped into the Sutro Tunnel. It requires a great deal of courage to stand the assessments, but some day a new ore body will be discovered and Comstock shares will again be prime favorites. But it is hard to tell where or when the lightning will strike. The return to Virginia City of James W. Mackey, from Paris, and of Senator "Jim" Fair, from Washington, may be the signal for a jump in prices. But Mark McDonald, now in the city, is of the opinion that there may be an advance very soon.

Seats in the American Mining Board are selling for $200. In the New York Mining Board for $1,800. Several of the best brokers from the American Mining Board have become members of the old board.

Dardanelles is selling for over $7, that is at the rate of $1,500,000 for the whole property. It is a gravel property, and when the writer was in California two years ago, it was in the market for $250,000. Notwithstanding the eminent respectability of the Boston gentlemen at the head of this company, we do not believe that Dardanelles stock is worth more, intrinsically, than $2 a share.

Numerous complaints are being made by architects and builders against the Board of Health. It seems that the Board meets only once a week, thus causing a serious delay to the building interests of the city. Meetings ought to be held daily, and then there would be no let or hindrance to work, which would otherwise be crippled by dilatory officials.

OUT AMONG THE BUILDERS.

It will be remembered that a short time since that a syndicate of gentlemen, composed of J. B. and J. M. Cornell, W. J. Hutchinson, Bowles Colgate, W. H. Falconer, Hiram Forrester, William D. Farwell and others, purchased four lots on the northeast corner of Madison avenue and Sixtieth street, with the adjoining brown stone house on Sixtieth street from Mr. Hamersley, for $132,500. The intention of these gentlemen was to erect a Methodist Chapel here, and at some future time to erect a large church, retaining the chapel for week night services and Sunday school purposes. The subscription list has been increased so rapidly, $110,000 being already subscribed, that they propose to proceed at once with the erection of a large and substantial church, which, while it will be complete in all its appointments, yet plain in style of architecture, in accordance with the views held by this sect in regard to such matters. They are also considering the desirability of retaining the house on Sixtieth street for a parsonage.

A mammoth stage is being erected in the armory of the Seventh Regiment, Sixty-sixth and Sixty-seventh streets and Fourth avenue, to be used by the Musical Festival Association. The stage will be 142 feet wide, 76 feet deep, 26 feet six inches high, and 4 feet six inches its least height. It will be strongly built, and capable of carrying a maximum safe load of 430 tons. The organ to be used on the occasion weighs eleven tons. It will cost about $75,000 to run the festival, and the rent of the stage will be $10,000 for one week. The festival will be held the first week in May. W. B. Tuthill is the architect.

On the southwest corner of Sixty-second street and Madison avenue, Ira E. Doying is to build five private residences facing on the street. They will be four stories high, and built in the most liberal manner. The corner house is 22 feet wide, the next two 18 feet wide, the fourth 21 feet, and the fifth 16 feet. They will each be three rooms deep, and have a dining room and butler's pantry extension on the first story. Probably they will be heated by steam. Mr. Ware is the architect.

William Graham is going to build a new hotel on Coney Island Boulevard. It will have a spacious bar, billiard rooms, dining rooms, private parlors, and extensive verandas and balconies. It will be finished in Queene Anne style, and will present a highly picturesque exterior. The site is commanding, being on the main drive from Prospect Park to Coney Island. It will be completed by May 1st. The architect is Alfred E. Barlow of 111 Broadway.

J. Stroud is at work on plans for a six story apartment house, to be built for the Cozzens' estate on Seventeenth street near Union square. The exterior will be of terra cotta and Scotch stone, and the interior finished in hard wood. It will have a front of 65 feet and depth of 17 feet. There will be a hydraulic elevator, and the entire building heated by steam.

The same architect has designs for four first class private residences with brown-stone fronts, on Sixty-third street near Fifth avenue. The dimensions in all are 75 feet front by 70 feet deep. They will have cabinet finish, and cost about $100,000.

Wm. O'Gorman is going to build thirty houses in One Hundred and Forty-first street, 18.9x40 and forty in One Hundred and Forty-second street, the same size, both near Willis avenue, also twenty larger ones, 20x60 in One Hundred and Thirty-eighth street between Alexander and Third avenues.

D. & J. Jardine have plans for a hotel on Fifth avenue, corner of Forty-ninth street. It will have a front of 200 feet on the street, and will correspond with the Buckingham Hotel in some respects; at some future time it may be a part of

of the Buckingham. It is owned by George Kemp, and will cost from $300,000 to $400,000.

Mr. P. P. Decker will erect during the coming summer, twenty-eight two-story and basement brick houses in Woodstock, or as it is sometimes called Deckerville.

Mr. C. Bornkamp is building about one hundred and fifty new houses, 20x35 at Concord and Division avenues.

The plans for apartment houses on Ninth avenue, between Forty-fifth and Forty-sixth streets, for the trustees of Henry Astor, were prepared by Mr. J. Sexton instead of Mr. Kuhles as announced last week.

C. W. Clinton is preparing plans for an addition of two stories on the Queen's Insurance building 37 Wall street. The depth will be 100 feet and cost $40,000.

Alexander V. Blake contemplates making some changes in his building on Eighteenth street near Fifth avenue, from plans furnished by Mr. Stroud. The cost is not to exceed $3,000.

Mr. Stroud also has designs for a seven story building, 50x81 feet to cost $50,000 to be erected on Third avenue. It is to be made of brick terra cotta and have stone trimmings.

F. T. Camp is at work on plans for three houses to be erected on One Hundred and Twenty-fifth street near Ninth avenue. Two are to be first class four story flats, and one is to have two stories on the first floor, with single flats above. The estimated cost is about $30,000.

Morris Silberstein will build a private residence on the south side of Eighty-first street, 55 feet west of Lexington avenue. It will be 25x50 feet, three stories high with basement. William F. Burroughs is the designer.

Robert McGinnis is building six houses on One Hundred and Twenty-third street, between Mount Morris and Sixth avenue, from designs by C. Baxter. They will be used for private residences. In a sanitary point of view, will be the most perfect houses in New York.

Alexander P. Ketchum and John Dwight will erect five houses on Mount Morris avenue, 26 feet six inches wide by 65 feet deep, and five stories high. They will be lighted with the Edison Electric light, and cost about $60,000.

Thomas Gilbert will put up four flats on One Hundred and Twentieth street, 20x75 feet, costing $64,000.

Five private residences, first class in style and finish, are going up for Charles McGinnis, on One Hundred and Twenty-third street. The dimensions are 16x55 feet, and the cost $45,000.

Thomas Keenan will also build five private residences on One Hundred and Thirtieth Street and Sixth avenue, costing $13,000 a piece. They are to be 18x65 feet.

Lexington avenue and One Hundred and Thirty-sixth street, will soon witness the erection of three buildings with 20 feet front by 50 feet deep. James J. Davis is the owner.

Four large five story apartment houses, 25x70 feet, will be built by A. H. Jonas, on the corner fo One Hundred and Eighth street and Third avenue.

A block of eight brown stone front houses is to be erected on Third avenue, from Ninty-ninth to One Hundredth street, by Samuel Simmonds. They are 25x70 feet, and will cost in the neighborhood of $116,000.

Samuel Simonds will build four houses, 25x70 feet, on Third avenue, Ninety-eighth to Ninety-ninth street.

In One Hundred and Twenty-sixth street, near Fifth avenue, Charles E. Van Tassel will erect four first class private residences at a cost of $60,000.

On Second avenue, Ninety-seventh and Ninety-eighth streets, thirteen five story apartment houses, 25x70 feet, are being built by John Kaspar at a cost of $18,000 each. In Yorkville, forty or fifty first class apartment houses will go up this season. They will be located on Seventy-second, Seventy-third, Eighty-third, Eighty-fifth and Eighty-sixth streets. The plans for many of these buildings, were made by Charles Baxter.

Alvin J. Johnson and D. & J. Jardine will erect a house of the finest quality on Fifth avenue. between Sixty-sixth and Sixty-seventh streets, 25x 75 feet. This house will be in the market as soon as completed.

In Fifty-eighth street, between Sixth and Seventh avenues, south side, five houses of different sizes are to be built. The owners are John H. Deane and D. & J. Jardine, and they will also be for sale.

An eight-story iron front office building is to be erected on Broadway, Nos. 44 and 46, running through to Nos. 45 and 47 New street. Its dimensions are 40x175 feet. It will have all the modern improvements, and cost about $100,000. The owner is V. K. Stevenson; D. & J. Jardine are architects.

Mrs. Z. Soria will build from designs of James E. Ware, three five-story apartment houses on West Seventeenth street, between Eighth and Ninth avenues. They will be 25x92 feet, and cost $54,000.

Wm. Jose has in hand plans for a five-story apartment house, to be erected at 106 Seventh street. It will be 25x72 feet, with extension 8x16 feet. It is owned by Mr. Frank Wiener, and will cost $16,000.

At number 469 East Sixth street, Wm. Uptegrove will build a three-story saw mill, with 28 feet front. The main building will be 62 feet deep.

The engine and boiler house is to be 20x55 feet and one story high. The architect is Wm. Jose. The mill cost some $12,000.

A five story apartment house, is to be built on the southeast corner of Grand and Norfolk streets, 25x75 feet, with stores on the lower floor. The plan was made by Mr. Jose. It will cost about $20,000.

L. B. Valk has designs for the North Baptist Church, to be built in West Eleventh street. It cost $35,000.

The Harlem Congregational Church, soon to be erected, will cost $45,000 to $50,000.

A church, named after St. Agnes, is in contemplation to be built at the corner of Degraw and Sackett streets, Brooklyn. It will be of brick and stone, will hold about 1,300 people, and will probably cost about $100,000. Mr. T. F. Houghton is the architect.

Mr. J. B. Haskins is erecting three houses on Thomas avenue, near Kingsbridge Road, Fordham, 168x30, to cost about $2,000 each.

Mr. Haskins and some of his friends, are remodelling the old Tenth District court house, which, when completed, will be used for an extensive co-operative grocery store.

The plan for the new Congregational Church soon to be built at Sherburne, N. Y., is also furnished by L. B. Valk. The cost will be $16,000.

At Addision. N. Y., a Presbyterian Church is to be built to cost $9,000.

Pittsfield, Ill., is to have a Congregational Church, designed by L. B. Valk of New York. Its cost will be $22,000.

Mr. T. F. Houghton, architect. of Brooklyn, is preparing the plans for a brick church at Blissville, L. I. It will be 57x130; it is intended to hold about 800 persons, and expected to cost about $25,000.

A contest to secure the relief of mortgages from double taxation has been going on in Massachusetts for several years, and now promises to be successful. Heretofore the majority of the Joint Committee on Taxation has reported against it, yet the bill has for two years passed the House of Representatives by increasing majorities, and last year, the Governor having recommended it in his message, it received a two-thirds vote, but was defeated by one or two votes in the Senate. This year not only has the Governor repeated his recommendation, but the Joint Committee on Taxation is nearly unanimous in favor of the bill. The Senate, moreover, is said to be certain to give it a majority.

CITY REALTY AT ALBANY.

ALBANY, April 7.—The Charter and the Street Cleaning Bill have been the principal measures considered this week in reference to New York City interests. A few minor measures have been advanced on their way through the Legislature.

The Senate, after spending nearly three weeks over the proposed McCarthy charter for New York City, has again recommitted it to the special committee with power to report it for third reading. It is understood that several changes will be made in regard to heads of departments, and in some of the details.

The act providing for the extension of One Hundred and Twenty-sixth and One Hundred and Twenty-seventh streets has passed both houses and is now in the hands of the governer. The full text of the bill is as follows:

SECTION 1. It shall be the duty of the counsel to the corporation of the city of New York, and the proper authorities of said city, to take all necessary legal measures to open, regulate and grade such parts of One Hundred and Twenty-sixth street and One Hundred and Twenty-seventh street, east of Second avenue, in said city, as have not heretofore been opened.

§ 2. All laws now in force relative to proceedings for opening, regulating and grading streets and avenues in said city shall apply to the proceedings authorized by this act, except section one of chapter two hundred and nine of the laws of eighteen hundred and thirty-nine.

§ 3. All motions and applications for the appointment of Commissioners in said proceedings, may be made at any special term of the Supreme Court appointed to be held in and for the city and county of New York.

§ 4. Upon the coming in and confirmation by the said court of the report of the commissioners appointed in said proceedings the Commissioner of Public Works in said city shall forthwith proceed and actually open, regulate and grade said streets.

§ 5. This act shall take effect immediately.

The act for the extension and opening of Lexington avenue has passed the Senate.

A bill has been introduced in both houses this week and advanced to third reading in the Assembly, which authorizes property holders on Forty-second street, between First and Second avenues, to lay out two small parks, under plans to be approved by the Department of Public Works, and maintain them at their own expense.

A bill has been reported in the Assembly directing the Department of Parks to change the map and plan of a portion of the Twenty-fourth Ward by striking out of the map the Spuyten Duyvil Parkway, also the road and all parks and places connected with it, leading from the Spuyten Duyvil & Port Morris Railroad Company's depot at Spuyten Duyvil, and running in a northeasterly direction to Riverdale, thence in a general easterly direction to Broadway. It also authorize the Commissioners to lay out a new street not to exceed 60 feet in width, following the general direction of the present Spuyten Duyvil Parkway from the depot, and connect with this new street all the streets or avenues which are not closed by this act, and to lay out and drain the district through which said road passes. When the map and changes are made, authority is given for the application to the court for the appointment of commissioners to acquire title to the land for the road which is so laid out. The new road is to be laid out in a manner that will make a continuous street from Spuyten Duyvil to Riverdale and to Broadway, having due regard to the interest of the property holders and the formation of the surface of that territory.

Another bill has been introduced and reported in the Assembly, defining the character of the buildings to be constructed in the Twenty-third and Twenty-fourth Wards, north of One Hundred and Fiftieth street. The following is the full text:

SECTION 1. It shall be lawful to erect dwelling houses and other buildings of wood in all that portion of the Twenty-third and Twenty-fourth Wards in the city of New York, which lies northerly of One Hundred and Fiftieth street, provided such buildings shall in no case exceed two stories in height above the basement, and provided further that all the four external walls and the partition wall, forming one side of the hallway, shall in every case be filled in to the roof with brick or some other fire-proof material, provided that not more than two such houses shall be built adjoining each other.

§ 2. This act shall in no way affect or modify the fire laws as applicable to any other portion of the city, or in any respect not specifically stated herein, or as may be necessary to carry out the provisions of this act.

§ 3. This act shall take effect immediately.

The Assembly Committee reported to-day for the consideration of the House, the act for the removal of the reservoir at the corner of Forty-second street and Fifth avenue. The committee could not be induced to make a favorable report, and a compromise was had on a report for the consideration of the House. The onl difference that a report of this kind has from a favo

able recommendation, is that it does not come up backed with the pledged support of the members of the standing committee which acted upon it.

Dock Commissioner Dimmick, George Bliss, Jr., Congressman John H. Starin, and other representatives of steamboat owners were before the Senate Committee on Commerce, this afternoon, in opposition to the bill making the Captain of the Port one of the parties to consent to the leasing of the docks and piers. The arguments were an elaboration of the evidence given before the Assembly Committee in New York, in support of the present system. Reference was made to the extortion of the Harbor Masters, and difficulty experienced before the passage of what is known as the "Shed" Act for Piers, in 1875, by the regular steamboat line. The consideration of the bill was, at the close of the hearing, postponed until the Assembly Committee concludes its investigation in New York, when a joint session will be held of the two committees to hear arguments of the advocates of the bill.

The bill, amending the mechanic's lien law, so as to make the claim of mechanics, laborers, and for materials furnished, priority lien over the builder or contractor, for payment due under the terms of any contract or mortgage made in relation to such buildings, has been advanced to third reading in the Assembly. It makes the claims alluded to prior lien to mortgages or contracts providing for payment not actually made or to be made, or which shall acknowledge the receipt of moneys not actually had and received, and declares them wholly void as against any mechanic, laborer or for materials furnished, who shall file notice of lien under the pursuance of this act. It places the burden of proof with the owner or transferee in any suit or proceeding under the act to show that all payment to such contractor before the filing of such notices or liens were actually made in good faith and received. The lien so authorized to attach to the right, title and interest of the person agreeing to sell or convey such buildings and land or any interest therein to the extent of all advances which are or shall become due after the filing of such lien, and also shall attach to the right, title and interest of the person agreeing to purchase or lease said buildings or land. It also provides that the owner or person agreeing to sell and convey land and buildings shall be liable to a personal judgment for any amount found due from him to his contractor.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages v and vi of advertisements.**

The market during the past week has rudely dispelled some illusions. People who have bought on short contracts property in undesirable locations expecting it to be taken off their hands at high prices early this spring have been disappointed.

There has been an excellent demand, but purchasers have discriminated. They are willing to give higher figures for lots in desirable locations, but some sales in unimproved property show an actual decline. Take the Carman lot sale, for instance, which was put up on Wednesday last. It was a real disappointment. The table below gives a comparison of the prices at the last sale with the present one.

	Prices. 1880.	Prices 1881.
lots on new av north of 148th st...	$1,625	$2,365
10 lots on new av north of 153d st...	4,675	4,375
1 lot on new av north of 154th st....	850	825
13 lots on 175th st, bet 10th and 11th avenues.....	9,850	8,365
1 lot on a new av below 175th st ...	600	500
2 lots on 151st st, west of Boulevard	2,400	2,050
2 lots on 153d st, 525 west of Boulevard	2,400	2,650
Riverside House and 11 lots.....	21,000	12,500
Lot known in catalogue as No. 21, being 101.11 on 12th av, bet 152d and 153d sts, with water front on Hudson River of 99.11....	3,150	2,100
Lot No. 22, being 101.11 on 12th av, bet 152d and 153d sts, with water front on Hudson River of 99.11...	2,500	1,100
11 city lots on a new av south of High Bridge park	3,500	3,920
5½ city lots on a new av north of High Bridge park	2,530	2,338
Mansion House, including 16½ city lots on a new av north of High Bridge park.....	12,778	9,900
6½ city lots, known as No. 182 in catalogue, on a new av north of High Bridge park.....	1,713	1,300
4¾ city lots, known as No. 183 in catalogue, on a new av north of High Bridge park..... ...	1,065	1,065
5¼ city lots, known as No. 183, on a new av north of High Bridge park.....	1,575	1,171
7 city lots, No. 185, on a new av north of High Bridge Park.....	2,660	1,750
7¼ city lots, known in catalogue as No. 186, on a new av, north of High Bridge park.....	2,900	2,537
8¾ city lots, known as No. 189, on a new av, north of High Bridge park.....	2,397	2,100
10 city lots, known in catalogue as No. 190, and lying north of High Bridge park.....	5,000	2,600
9 1-6 city lots, known as No. 189, north of High Bridge park.....	4,616	2,313
6¾ city lots, No. 188, north of High Bridge park.....	2,365	1,385
10 city lots on 10th av, south of Boulevard.....	11,500	8,500
Total..... .....$103,649		$67,809

Decrease in price since May 1880, $35,840,

But the sale of the Globe Insurance property, on the following day, showed that investors stand ready to pay very good prices for property which pays good rentals. Houses bringing a rental of $1,000 and $1,100 in One Hundred and Twenty-third street, between Sixth and Seventh avenues, brought prices which averaged about $14,600; that is to say, something over 7 per cent. on the investment at the present rentals. Of course the neighborhood is an improving one, and renewed rentals will probably pay 9 per cent. on the sum for which the houses were purchased. A house in West Forty-ninth street, which rented for $1,600, was sold for $21,000, which would give an interest of less than 8 per cent., not counting taxes, insurance and repairs. As for the Carman estate, it labored under the disadvantage of having been sold before. There was some technical legal quibble about the title after the last resale which had no merit, but which undoubtedly had its effect upon purchasers It will be seen from our report of this sale that there was a marked depreciation in prices this April as compared to those obtained in the March of last year. This will probably be the cheapest sale of lots ever again to be held on New York Island. All the purchasers may be sure of an immediate 20 per cent. advance upon their bargains. As yet, of course, it is purely but speculative property. It is not reached by a system of rapid transit, and prudent investors prefer to put their means in property just ahead of improvement, where the turns are quicker and the profits larger. Hence the high prices at which property is sold on the East Side, near Mt. Morris, and on the West Side, near the Central Park and below Seventy-second street.

The results of the sales of the last two weeks ought to be very satisfactory to dealers. They can assure their customers that there is no fictitious excitement; that while the population of the city is increasing enormously, so as to insure the building over of every available lot on the island within a brief period of time, yet still there is plenty of unimproved property to be had at very moderate rates. In house property also there is considerable in the market which will assure the purchaser 7, 8 and 9 per cent. In the not distant future 4½ and 5 per cent. will be considered a very satisfactory return for a real estate investment for a long term of years. This will be brought about by the constant additions to the price of real property. We are living in an era of cheap money, when first-class securities are in eager demand when they pay 4 per cent. Hence every house bought at reasonable figures during the last few years on this market has been a bargain, and all who have well located property should be very reluctant to part with it.

Next Thursday week promises to mark an epoch in the price of Brooklyn realty. On that day will be sold by Adrian H. Muller 205 lots belonging to the estate of the late Joseph Drake. They are situated in the choicest part of Brooklyn—in the Eighth Ward. It is on high ground, overlooks Prospect Park and all the country around. Coney Island and Sandy Hook can be seen in the distance. Brooklyn real estate has been active of late, and the amount of building going on is phenomenally large. From local causes there has been little advance in unimproved property and these finely located lots would not now be put upon the market were it not the terms of the will of the late owner are imperative, and the land must be sold, no matter what the sacrifice. Such a chance as this may not occur again for years, for every person interested in real estate knows that lots in this location are certain to enhance greatly in value. The sale, it will be remembered, is absolute and peremptory. For further particulars, we refer to our advertising columns.

Another page contains the advertisement of the peremptory sale of valuable lots on Ninth avenue, corner of Sixty-third street, Boulevard, Sixth-third and Sixty-fourth streets, by Messrs. A. J. Bleecker & Son, at the Exchange Salesroom, on Wednesday, April 13.

Attention is called to the advertisement of a fine piece of property facing on three streets near the centre of Newark, N. J., which is offered for sale. It contains two substantial brick dwelling houses, which can be easily put in good condition. It is said that dwelling houses in Newark are scarce at present.

An important sale will take place at the salesroom of Cole & Murphy, at 370 Fulton street, Brooklyn, on Monday, April 18. The property, which is to be sold at the order of the Receiver of the Globe Mutual Life Insurance Company, comprises thirty-five private dwellings, flats and stores, and sixty choice lots and water fronts, all in Brooklyn. The particulars may be found in the advertisement on another page.

Messrs. Adrian H. Muller & Son will sell the three-story high stoop brown stone houses, Nos 221, 223 and 225 East Seventy-second street, and the three-story brick house, No. 333 Court street, Brooklyn, on Monday next; on Tuesday, the house and lot No. 11 King street, the house and lot No. 111 Varick street, also, by order of the executors of James Grunhut, deceased, the house and lot No. 103 Varick street, No. 215 Spring street, Nos. 236 and 238 Spring street, No. 523 Broome street, No. 123 Macdougal street, Nos. 343, 345 and 347 East Thirty-fourth street; also, by order of Jane Potter, executrix, two lots on the west side of Ninth avenue, north of Sixty-third street, and on Wednesday, by order of the Supreme Court, under Jerome Buck, Esq., referee, Nos. 49 and 51 Washington square, stable and lot No. 95 West Third street, warehouse and lot No. 300 Water st and buildings and lots Nos. 183, 190 and 190½ Division, and 8, 19 and 21 Roosevelt streets.

James Cole's Son will sell at the Commercial Exchange, Brooklyn, on Wednesday next, the mansion and ten lots situated on Pacific and Dean streets, west of Kingston avenue.

Messrs. E. H. Ludlow & Co. will sell on Wednesday next the two lots and buildings thereon, known as Nos. 156 and 158 East Twenty-Third street, and have postponed the sale of lots on Riverside Drive and Clairmont avenue until May.

Richard V. Harnett will sell on Monday next, the two-story brick house, No. 131 Mott street; on Tuesday, the three-story brown stone house No. 91 Lexington avenue, the three-story brick house No. 117 West One Hundred and Thirty-second street, and two lots on the northwest corner of the Boulevard and One Hundred and Eleventh street; also four lots on the northeast corner of the same streets: also four lots on Willis avenue, 25 feet north of One Hundred and Forty-fourth street, and on Wednesday, the house and lot No. 109 West Sixty-seventh street, and the country seat of the late Jos A. Jackson, in Greenwich, Conn.

Hugh N. Camp will sell on Thursday next the four story brown stone house, No. 52 East Eighty-first street, the lot on West One Hundred and Twentieth street, 100 feet west of Eighth avenue, and the house and lot on Locust avenue 50 feet north of One Hundred and Fortieth street.

Bernard Smyth will sell on Tuesday next the residence of Judge Donohue, and two cottages located at Far Rockaway, L. I.

Gossip of the Week.

Mr. J. B. Hutchinson has purchased the property now occupied by Denny, Poor & Co., at the southwest corner of Worth and Elm streets, for $120,000.

The executors of Solomon Kohnstamm have sold to E. S. Jaffrey & Co. the property Nos. 113 and 115 Leonard street, 42.6x81, with an L formed by Nos. 2 and 3 Benson street, No. 2 being 23x85, and No. 3 23x61.8, for $42,500. This property adjoins the store of E. S. Jaffrey & Co. at the corner of Broadway and Leonard street, and almost squares their lot.

A house and lot on Spring street between Broadway and Crosby street, 25x100, has been sold for $40,000.

We hear of the sale of 194 Elm street on private terms.

Levy & Cole have sold three lots in the neighborhood of one of the Sixty streets, location not given, between Fifth and Madison avenues, for $91,000, cash. Also, four lots on Fortieth street, 200 feet west of Seventh avenue, for $34,000, and resold them at a handsome advance. The latter transaction was the first one consummated in their new, spacious office, No. 5 Pine street.

The three lots with four-story brick factory, at the corner of Hester and Mott streets, has been purchased by Ferdinand Brown.

Messrs. Lespinasse & Friedman have sold six lots with the buildings thereon, 75x200, three on Greene street and three on Wooster street, 100 feet north of Bleecker street, for $100,000. Also, five lots on One Hundred and Fifty-second street, and five in the rear fronting on One Hundred and Fifty-first street, with

house and stable, lying between Tenth avenue and the Boulevard, for $50,000. Also, the property known as Nos. 320 and 322 Broadway at the northeast corner of Pearl street, to the Central National Bank, who now occupies the premises, for $400,000. The same brokers have purchased the four-story brick house and lot, No. 58 St. Marks place, 25x100, on account of Mr. Holt, for $17,500, and resold the same for him for $18,000.

Messrs. E. H. Ludlow & Co. have sold the four-story brick dwelling and lot, No. 132 West Sixteenth street, 25x60x103, for $18,200. Also, the lot and stable, No. 10 West Eighteenth street, 28x93, for $20,000.

Mr. V. K. Stevenson, Jr., has sold the lot and four-story high stoop brown stone house No 26 West Thirty-first street, 25x60 x half the block, to Mrs. Sarah Lewis, for $40,000.

Messrs. Scott & Myers have sold fifteen lots on One Hundred and Twenty-first street, with two lots on the rear fronting on One Hundred and Twenty-first street, between Seventh and Eighth avenues, 25x100, for $63,750, on account of Mr. John H. Watson.

Mr. Samuel Kilpatrick has sold the three-story brick dwelling No 219 East Thirty-fifth street, twice during the past week, the first price being $6,000, the later one $6,500.

Also, the lot and three story brick dwelling No 209 West Twenty-first street, being 25x60x100, for $16,500.

The same broker has resold the house and lot on Lexington avenue, between Twenty-fourth and Twenty-fifth streets, the sale of which we reported in our issue of March 26th on private terms, at an advance of $500, the actual price not having yet transpired; he has also resold the two lots, the sale of which was also mentioned in our columns of the same date, being on Twenty-third street, between First and Second avenues, for $13,000, an advance of $1,000 in two weeks.

Mr. Hiram Merritt has sold, for account of Richard Staats, the lot and four-story brick dwelling No. 216 East Eleventh street, 18 6x half the block, to Jacob Gruber, for $8,500.

Mr. D. D. Orrell informs us that the entire new building to be erected on the property recently leased from P. T. Barnum, at the northeast corner of Houston street and Broadway, has been rented at an aggregate rent of $94,000. The building is to be ready for occupation by January 1st, 1882. The above indicates that the property, so long under a cloud, on Broadway, between Broome and Fourteenth streets, will soon begin to yield a reasonable return for the capital invested there.

Mr. S. M. Blakely has sold the lot and three-story brown stone house, No. 325 West Forty eighth street, 19x50x100, on account of Dr. F. S. Hawood, to Mr. Rufus Danow, for $12,000.

The types made us report the price of the lots 60x108.5 on Sixty-ninth street, between Fifth and Madison avenues, sold last week, as $70,000; it should have been $77,000 cash. Since then $84,000 has been bid and refused for the same lots. A bid of $35,000 has been declined this week for a lot, 25x100, in the same block. There are now but few lots remaining in the choice locality bounded by Fifty-ninth and Sixty-ninth streets, and Fifth and Madison avenues.

The State Engineer sold at auction in Albany, on April 1, five pieces of property in this city. A lot on the north side of One Hundred and Thirty-third street 140 feet west of Tenth avenue, was bought by W. J. Newitter, for $4,025; a lot on the south side of One Hundred and Tenth street, 400 feet west of Second avenue, was bought by Charles R. Parfitt, for $1.225. Two lots on the north side of Eighty-eighth street, one being 325 and the other 375 feet west of Tenth avenue, were sold together to Fred. W. White, of Albany, for $8,100 A lot on the north side of One Hundred and Sixth street, 200 feet west of Avenue A, was bought by N. J. Newitter, for $5,500. The whole property, which originally cost the State $7,763, realized $18,900.

The residence of Mr. John Brooks, of Brooks Brothers, clothers, in Grace Church street, Portchester, has been sold to a New York party, for $90,000. It is said that the purchaser intends spending $50,000 in improving the property.

Twenty-third Ward News.

Mr. G. C. Goeller has sold two lots on One Hundred and Thirty-fifth st, 100 feet west of Third avenue, 25x100, to Mr. John Knox, for $2,000 each.

Also, the northeast corner of One Hundred and Fifty-fifth street and Courtland avenue, 50x100, with two-story frame stores and dwelling, for $5,000.

Also, the lot and three-story brick dwelling, 25x100, situated on Courtland avenue, south of One Hundred and Fiftieth street, for $5,000.

Also, a two-story frame building and lot on the south side of One Hundred and Forty-eighth street, west of Morris avenue, 25x100, for $800.

Also, two lots on College avenue, 50 feet north of One Hundred and Forty-first street, 25x100, each, with frame dwellings and stables, for $5,500.

Mr. I. W. Dunsmore has sold three two-story and basement brick houses, 17.6x40x100, situated on One Hundred and Thirty-sixth street, east of Willis avenue, for $5,500 each. The same broker has sold a lot 125x200, with frame cottage on First street near First avenue, Fordham, for $6,000.

Also lot and frame cottage, 25x100, on One Hundred and Forty-third street, west of Willis avenue, for $2,900.

Also two lots on One Hundred and Thirty-fifth street, east of Willis avenue, 25x100, for $1,600 each.

Mr. P. P. Decker has sold the three-story brick store and dwelling at the northeast corner of Cliff street and Concord avenue, 21x40x60, for $7,500.

Also, the two-story and basement brick house at the northwest corner of Cliff street and Jackson avenue, 21x32x75, for $3,500.

Also, a two-story and basement brick dwelling on Jackson avenue, north of Cliff, for $3,000.

Also, the lot, 50x100, on Cliff street, opposite Jackson avenue, with two-story frame dwelling, 20x38, for $4,000.

Mr. O'Gorman has sold the three-story brown stone dwelling at the corner of Willis avenue and One Hundred and Thirty-eighth street, 16.8x45, for $11,500 to Mr. Pugh. He is also offering to lease the houses located on Willis avenue, between One Hundred and Thirty-eighth and One Hundred and Thirty-ninth streets, giving the tenants the privilege of purchasing at prices ranging from $9,500 to $11,500.

Brooklyn Gossip.

John F. James has sold two 16.8 houses, on the west side of Fort Green place, between Hanson place and Atlantic avenue, for $4,500 each; also, 30 South Oxford street, a three and a half story brown stone house, 19 feet front, belonging to Litchfield & Dickinson, the builders, for $15,300; also, at 164 Congress street, between Clinton and Henry streets, 19 feet, brown stone front house, for $9,000; also, an old brick house in Warren street, between Clinton and Henry streets, 25 feet front, for $4,500.

Mr. J. C. Simonson has sold the three-story brick store, at the northeast corner of Oxford street and Atlantic avenue, Brooklyn, 18x60, for $6,000; also, 834½ Dean street, a three-story dwelling, 20x40x100. for $2,600; also, a two-story frame dwelling house on Vernon avenue, near Marcy avenue, 16.8x40, for less than $3,000.

Mr. J. N. Kalley has recently sold a plot of ground 45x200 on Clinton avenue, between Greene and Gates avenues, Brooklyn, for $23,000; also, a three and a half-story brown stone house, 22x100, in Oxford street, between Lafayette and De Kalb avenues, for $19,000; also, another brown stone house of the same dimensions, on the same block, for $14,500; also, a twenty feet brick house, on the same block, for $8,750; also, on Seventh avenue, near Lincoln place, a new brown stone house, 20x90, for $10,000, and in Dean street, near Nevins, a brick house, 21x80, for $5,500.

Mr. Leonard Moody has sold a three-story brown stone house, 20x50x100, in Portland avenue, between De Kalb and Lafayette avenues, Brooklyn, for $15,000; also a brown stone house in Hancock street, near Bedford avenue, 20x45x100, for $8,000; also two brown stone houses in Seventh avenue, between Lincoln place and Sackett street, each 20x45x100, for $10,000 each; also a brown stone house in Sixth avenue, between Sackett and Union streets, 16.8x45x100, for $7,500; also on the same avenue, a three-story brown stone swell front house, 20x50x100, between Sterling place and St. Johns place, for $13,000; and also on the same avenue, between Prospect place and Park place, a three-story brown stone house, 20x50x105, for $11,000.

Mr. Moody has also recently sold several plots of ground for improvement, as follows: In St. Johns place, between Sixth and Seventh avenues, 100x100, for $10,000; in Sterling place, between Sixth and Seventh avenues, near Seventh, 62x100, for $6,500; and at the southeast corner of Prospect place and Sixth avenue, 22x94, for $4,000.

One of the four-story stores in the "marble block" in Court street, between Joralemon and Livingston streets, Brooklyn, 20x50x100, was sold recently by Mr. J. E. Cornell, for $18,500; and for another of the same block he was offered the same price but the owner refused to part with it.

A peculiar feature of the purchases of real estate in Brooklyn this spring, is that buyers generally want to pay cash, and in some cases they have refused to buy property, for the reason that the present mortgages could not be paid off.

Rents in Brooklyn are said to be gradually advancing, but more slowly than on this side of the East River. The brokers there report that numbers of New York people are looking for homes in Brooklyn, but there are not so many vacant houses to be had as last year.

The following are the sales at the Exchange Salesroom for the week ending April 8:

** Indicates that the property described has been bid in for plaintiff's account:*

R. V. HARNETT.

James M. Oakley & Co., by order of the Commissioners of Docks, sold the right to collect and retain all wharfage which may accrue for the use of the following named piers and bulkheads:

On North River, for and during the term of three years from May 1, 1881, bulkhead south of Pier 54, sold for $6,500, to E. G. Blackford; pier North Bloomfield street, sold for $1,000, to Felix Dougherty.

On East River, for and during the term of three years from May 1, 1881, bulkhead at East Fourteenth street, sold for $550, to Daniel Daly; for and during the term of one year, bulkhead East Forty-second street, sold for $300, to Thomas Eldridge; bulkhead and stone dump at East Forty-ninth street, sold for $300, to John H. Benner.

BUILDING MATERIAL MARKET.

BRICKS.—The gain of tone made on the market for common hards noted in our last has been maintained without difficulty, and indeed there is a further stiffening of values, with the position generally quite cheerful. To a considerable degree the condition of the weather has contributed to this result, the loading of vessels and barges at the points of supply being retarded, and in some cases entirely suspended by the low water, and hence the supply ran moderate throughout. The demand, however, was also a very decided factor in aid of the selling interest, the work in progress not only proving quite sufficient to exhaust pretty much every thing as fast as offered, but buyers frequently finding it necessary to watch their chances on some new arrivals in order to meet their wants. It may, however, be added that no purchases so far as known were made in anticipation of the future as there is known to be a pretty good stock still at the points of production, and manufacturers generally are understood to be ready to commence work as soon as the weather will permit, and while the prospects for consumption are quite as full and cheerful as ever there is a probability of a slight lull about the 1st of next month, awaiting the tearing down of old buildings and other preparations necessary before our work can fairly be commenced. As our report is closed there is scarcely anything in the way of a supply afloat, and the tone is firm at $6.50@7 per M. for Haverstraws, $5.75@6 for "Up-Rivers" and $5@5.25 for Jerseys, the latter, with the exception of the favorite brands, not having much favor at the moment. Pales are also rather slow, and while a portion of the offering has been worked off to Brooklyn buyers, etc., the price remains easy at about $2.50@3.00 per M. Fronts are firmer and buyers showing a better inclination to operate.

HARDWARE.—City demand is very good; there is a fair export call, and with an increasing number of orders from the country business is gradually improving and dealers express satisfaction accordingly. The selection is said to be seasonable and to indicate that interior dealers, jobbers, &c., have allowed their assortments to run down quite low. Some few changes take place in values, but there is no serious breaking up of the uniform tone on the leading styles of goods, and generally it is expected that the market will be well sustained. The cost of material has in some cases become a trifle cheaper, but this is more than offset by the addition to the cost of labor, and the product in consequence derives no benefit. Among recent changes announced is that by Joshua Wilkinson & Son as follows: Solid wrought steel-faced anvils 10c per lb., and solid box vises 13½c, with allowance on each of ¼c per lb. in lots of 5 to 10, and ½c per lb. for lots of 10 or more. Steel-faced Smith's hammers and sledges, 11c per lb.; steel-faced stone sledges, 11½c per lb.; steel-faced turnpike hammers, 2½ lbs. and over, 12½c, and do. do. do., less than 2½ lbs., 13½c per lb.; all net cash. The Douglas Axe Manufacturing Company have issued a new special list under date of 1st inst., and announces the following discounts: Hunt's handled axes, 10 per cent; eastern star handled axes, 20 per cent.; Hunt's hatchets, 25 per cent.; Hunt's broad axes, adzes, mattocks, &c., 20 per cent.; union hatchets (same list), 25 and 10 per cent.; union broad axes, adzes, &c. (same list), 20 and 10 per cent. The manufacturers of milled machine screws have perfected an organization with the intent of reaching a uniform price list on their products.

LABOR.—The regular spring adjustment of wages has been made, and most mechanics connected with the building trades receive from 25 cents to 50 per day advance over the rates previously current, the greater sum named showing the gain in the majority of cases. This is in conformity with expectations and intentions of builders and contractors since the first of the year, and has been so well understood among the Trade generally that all engagements were made upon the basis of higher wages this spring. A few of the reporters of the daily press, acting, no doubt, under orders to make up some sort of an item, have taken occasion, upon the change in price of labor, to write some pretty tough yarns about impending strikes and terrible times generally almost upon us, and only averted by the timely condescension of the "bosses" in submitting to the demands made upon them. The truth is, there was absolutely no necessity for strike; none was attempted, nor is there any good reason to believe any was intended. The workmen themselves know full well that employers were never in better condition to resist a strike than at present, and could fight without much, if any, loss to the first of June at least, and, therefore, when fair, and, for the time being, liberal terms were offered, even the demagogues of the trade unions could not prevent a speedy adjustment. The present arrangement is in the form of an agreement between all the leading contractors and their employees, by w ich the recent advance is to be adhered to until December 1st, and, as everything indicates plenty of work, the mechanics, no doubt, have a good summer before them. There is a chance that they may listen to the temptations of windy "orators," and allow themselves to be seduced into the effort to force a still further advance. Should the workingmen thus break the compact they have entered into, they must, of course, expect to lose entirely the confidence of holders, and, there is good reason to believe, will meet with bitter and determined resistance.

LATH.—At about the time of going to press on our last report there was a sudden and apparently somewhat unexpected addition to the supply, and under the pressure of the amount thus brought upon them to dispose of, receivers were compelled to modify their views, in order to secure customers. Prices, therefore, fell off some 10c. per M, bringing the figure down to $1.65 per M. At this about everything afloat was finally cleared up, and, so far as shown, there has been no further change, but the position does not seem to be more than barely steady at the best. Receivers in most cases claim that few additional cargoes are near at hand and that ruling rates will deter manufacturers from further shipments, but dealers manifest a little suspicion that something may have again been overlooked, and, as they have a pretty good accumulation to work upon for the present, are inclined to remain quiet and indifferent, awaiting developments.

At the close we hear that sales have been made as low as $1.50 per M, and the general tone of the market is unsettled.

LIME.—A generally steady market has been maintained, and sellers seem well satisfied with the position. Dealers are not, as a rule, inclined to stock up with much freedom, but their wants have been full enough to exhaust all arrivals, and occasionally engage supplies ahead of receipt, and former rates were in pretty much all cases bid without objection on both Eastern and State.

LUMBER.—With the exception of Yellow or Pitch Pine most grades have been a little easy in tone, and, in one or two cases, somewhat lower terms were openly offered upon goods seeking immediate sale. All prospects for shipment and consumption appear to be quite as favorable as for some time past, but our dealers have not as yet sold stocks down close enough to make the necessity for additions imperative, and a standing off is indulged in that it may bring all the benefits on prices possible. In fact, random offering of stock has been made some two or three weeks too early this season, and has commenced the business with a pruning down of extreme figures. Under all, however, may be found an expression of much confidence in the near future, and receivers and dealers both calculate upon a brisk business before hot weather fairly sets in. In addition to local consumption and export wants, there is also to be found a few calls from out of town sources in order to fill up broken and dilapidated assortments.

Spruce has again been somewhat variable, and it was difficult to keep prices to a close line for any length of time. A little increase in the offering, and no buyers immediately at hand, appeared to have a demoralizing effect upon a portion of the Trade, while again, with quite as large or even greater amount seeking sale, and at the same time a current demand, though only of small volume, there would at once develop a steadier and more cheerful feeling. At no time this spring, however, have those who may be considered the regular dealers given token of any great loss of confidence. As soon as they saw the first rush of supplies here and were advised of additional shipments as likely to follow, some decline was admitted be inevitable, for the reason, as before set forth, that the market had not progressed far enough to afford the necessary exhaust, yet a faith—still unshaken—in a good full demand ultimately to be reached, led to careful offerings, and, as a rule, a shading on cost only under the most positive necessity. There has been some exceptions, however, principally where stock came into hands unaccustomed to handling it, and the advantages obtained by buyers under the hasty offering of a few cargoes has been distorted into a serious weakness of the entire market. Carefully worded "information" (?) given to green reporters anxious to get a point was the instrumentality through which this view of the situation gained currency. Manufacturers, however, have already indulged in a little "blowing up" of consignees, and in one instance we are assured that more money could have been obtained at home on the wharf than the cargo realized here. But one result can follow this of course, and the chances are largely in favor of a check to receipts at just about the time demand commences to set in with additional force, and then a reaction. At present some of the Trade are quoting down to $14, but $15 is the average inside, and thence the range goes up to $18, or possibly $19 on specials, but the latter an asking figure only.

Piling has arrived very moderately thus far this season, and receivers say it must continue in small offering afloat for some time to come, unless demand increases materially over the present volume. Accumulated stocks carried over in chains from last year are very full, and except on extra desirable quality, the demand slow and uncertain, with 5c. per foot about all that can be at present obtained.

White Pine is still quite steadily held by the majority of the trade, and meeting with a fair demand on all regular outlets. The "immense" additions to the supply reported by certain would-be authorities, include in the main, parcels loaded or bought last fall, and scarcely represent new business at the primary points. Neither has the amount received been of remarkably full proportions as some of the prominent concerns here wintered over a large accumulation, and yet failing to find a fairly offsetting demand, are inclined to prevent additions coming forward wherever they can use their influence to do so. The talk about a decided addition to the export movement was also without positive confirmation, though it is possible that more than the ordinary falsification of the record of shipments may have been resorted to as a means to cancel the actual amount, especially as this week shows a sudden expansion of the clearances reported. We quote $17@19 per M for West India shipping boards; $24.50@26 for South America do; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow pine has a very firm market, with a continued good demand, and it is likely that even a random possessing merit would receive quick attention at full rates. What buyers most desire, however, is to get their special schedules under contract and this they find difficult still, as the majority of the mills are making only slow progress in canceling previous engagements, and manufacturers are disposed to move with care. We quote random cargoes at about $26@27.75 do.; $23.50@25 per M; ordered cargoes $26@27.75 do.; green flooring boards, $24@26 do., and dry do. do., $25.50@27. Cargoes at the South $15@19 per M for rough, and $20@24 for dressed.

Hardwoods without new features of an interesting character. Demand is good, supplies exhausted as fast as they become available and extreme prices readily obtained. We quote at wholesale rates by carload about as follows: Walnut, $77@85 per M; ash, $35@38 do.; oak, $40@45 do.; maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ⅛ and ¼ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles show about the same general features. Prices are well supported, the stock at present only fair and between the export and home shipping orders about all the base lots find a place. We quote Cyprus at about $6 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@33.2

for No. 1; for 24-inch, $6.50@7.16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

From among the lumber charters and engagements recently reported we select the following:

An Am. barque, 568 tons, hence to Kingston, Jam., white pine lumber, $5; an Am. brig, 414 tons, from Bridgewater, N. S., to North Side Cuba, lumber, $6, Spanish gold; a Br. schr., 81 tons, from St. John, N. B., to Vineyard Haven, for orders, lumber, $3; a schr., from St. John, N. B., to New York, lumber, $3; a schr., 115 tons, same voyage, laths, 65c; a schr., 385 tons, from Savannah to Matanzas, lumber, $7.50; a schr., 195 tons, from Mobile to Hayti, lumber, $9.50, and back North of Hatteras, logwood, $5; a barque, 300 M lumber, from Pensacola to a Sound port, $8.50, or Boston, $9; a schr., 200 M lumber, from Savannah to Philadelphia, $6; a schr., 275 M lumber, from Brunswick to New Haven, $7.50; a schr., 400 M lumber, same voyage, $7.25; a schr., 200 M lumber, from Apalachicola to a Sound port, $9; a schr., from Norfolk to New Haven, lumber, $3.75; a schr., 251 tons, from Norfolk to New York, lumber, $3.50; a schr., 217 tons, from Portland to New York, lumber, $3, option of Bridgeport, $3.75; a schr., 96 tons, from Portland to Newark, lumber, $2, and towage; a schr., 216 tons, hence to St. Augustine, general cargo, and back from Jacksonville, lumber, $11.50 for the round; a schr., 120 M timber, from Savannah to Noank, Conn., $7.50; a schr., 120 M lumber, from Jacksonville to New Haven, $8.25.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.
West Indies	2,029,952	11,290,463
South America	1,549,845	6,352,861
East Indies, Africa, etc.	227,235	1,412,848
Europe, Continent	313,000	493,150
Europe, United Kingdom	118,000	1,024,375
Total	4,238,032	20,582,697

ALBANY LUMBER MARKET AS REPORTED BY THE ARGUS.

FOR THE WEEK ENDED APRIL 4, 1881.

We have not any change to note in the tone or the condition of the market for Pine, Hard or Coarse Lumber. The shipments continue free and the market is somewhat strengthened by the large quantity of lumber sold at Cambridge, (Mass.), on Sunday last, to the fire insurance companies. The market is more quiet than it was a week or ten days ago on account of the continued cold weather checking building operations and thus keeping buyers out of market.

The shipments of old and new sales are rapidly depleting our stocks, which will be at a very low figure before the canal will be opened for navigation; the opening this year, in consequence of the ungenial weather, will be later than usual, certainly not before May 1st, and may be delayed to May 10th.

A cargo of Georgia pine lumber is being delivered to Messrs. Hunter & Son, near the Bath ferry.

The quotations of the yards are as follows:

Pine, clear, ₱ M	$48 00@60 00

THE WEST.

The Northwestern Lumberman as follows:

CHICAGO.

While the weather during the past week has been an improvement on that which has prevailed for several weeks previous, it has not brought the much needed relief in the melting of snow and the clearing away of obstructions to the successful prosecution of business. The country which is dependent upon Chicago for its lumber supply, is yet too much loaded with snow to enable the railroads to freely transport, or the yard dealers to handle, the stocks which the country demands, and, as a result, while orders are reported in large volume, the railroads are unable to supply sufficient cars for the transportation of the ordered product. This seems just now the greatest drawback to trade, and we hear many dealers complaining loudly of their inability to fill orders on this account. Fears are expressed that customers will get impatient and recall their orders in many cases, although as the evil is one which is general rather than local, it is difficult to see how customers can better their condition by exhibiting an undue degree of impatience.

Navigation shows no signs of opening, and at this writing is looked upon as not likely to start up for two or three weeks yet. Vessel men manifest no activity in the way of fitting out vessels, and the backwardness of the season is a matter of comment in view of the fact that at this date last year some steam barges had made as many as seven trips to this port, from the other side of the lake. We hear no one venture to express a hope that the first cargo will, this year, put in an appearance before the middle of April, and few look for any arrivals before May 1, and it is hardly probable that navigation will be fully open before the middle of that month. This will have the effect to shorten up the season materially. Stocks are daily reducing, and many dealers are already anxious to obtain supplies. Prices are reported well maintained under the present list, but we hear of no suggestions looking to any further advance at present. Notwithstanding the difficulties encompassing the trade, the shipments of lumber during the past week exceed those of the corresponding week of last year by about 20 cars per day.

HARDWOODS.—Our dealers have spent a considerable portion of their time this winter shoveling the snow off their piles of lumber and carting it out of the yards. They hoped that no more time would have to be consumed in such a way, but as we write there is a fair indication that the hope will not be realized. For outdoor seasoning, our lumber dealers do not recall to mind a winter so unfavorable as the one recently ended. There is considerable lumber in town that would have been in fair condition but for this drawback. The men who have paid the most attention to the hardwood business, particularly walnut, ordinarily prefer that the lumber, when sawed, instead of being put upon sticks, be thrown together in piles for two or three months. All mill men do not understand this, and naturally think that if the product of their mill be nicely piled it will sell more readily, and possibly bring them more money. When they neglect to so pile it, we have known dealers, who know better, to argue that the lumber was not quite so desirable because of not having been piled, and, if possible, buy it for less money than they otherwise would. It is one of the tricks of the Trade. But this season, so far as seasoning was concerned, it has mattered little whether lumber was upon sticks or irregularly thrown together. In the former case, the sap was frozen from fall to spring, and in the latter, the sap was frozen, and the lumber packed in snow besides.

Receipts at most of the yards have been very light, but they have given the dealers as much trouble as twice the amount would usually. Owing to the abundance of snow, the work and expense of handling has been greatly increased. One yard has been receiving about 40,000 feet of walnut daily for some time, but it has gone out as fast as it has come in. A majority of the yards has not received much to stay. At one place there is not a stick of walnut, except 2-inch stock, and but little of that. We notice a few car loads of dry ash and a little dry oak.

Continued advices from the walnut districts indicate that they are full of buyers, many of them from the East. As a consequence, the active competition tends to push up prices, and at several points in Indiana firsts and seconds are selling at $70, green, on car. We learn of a heavy purchase in Virginia, but it is not yet decided whether it will be brought here or sent to the Eastern markets.

We advance the price on clear walnut flooring, dressed and matched, though we cannot ask it to be considered as much of a guide. It would take a very elastic price to indicate the worth of that grade. It is sold all the way from $85 to $100, and some are talking even higher than the last figures. There is but little of it in town, and the man who wants it may as well understand that the amount of money he will pay for it will depend upon the conscience of the man who has it to sell.

Maple flooring continues in good demand, and we doubt if there will be much of it left in stock by the opening of navigation. There is some that comes by rail from Wisconsin, but the bulk of it reaches here by water from Michigan. The season of navigation will bring to light a large stock, but we look for it all to be wanted. Building operations will be exceedingly brisk in this city during the year, and maple flooring is constantly growing in favor.

Some of the furniture factories are either shutting down or curtailing operations on account of the scarcity of dry lumber. A few of the hardwood dealers are running lumber through dry kilns for them, but the extra cost is from $3 to $4 per thousand, and they look upon it as the last straw upon the camel's back. So far as we can learn many of the smaller concerns are hard pushed, and their ability to pay is a question that is much discussed by those who sell them their rough material.

The condition of the stave market is not materially changed from last week. We do not know of but one house that has anything like a fair stock of hoops, and were it not for the use of patent hoops, the cooperage business would pretty nearly come to a standstill.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.

The condition and prospects of the lumber trade could hardly be more encouraging than they are now, at this season of the year. A year of almost unexampled prosperity has given them means upon which to operate almost free from debt and to hold stocks which three years ago they would have had to sacrifice at some price. It is a reasonable calculation to say that the lumbermen cleared $2 per M. on 5,000,000,000 feet in the three States in 1880. This leaves them much stronger and more independent, besides their burdens are not heavier in the way of stocks than they were a year ago. The prospects for grand crops lend courage and confidence to the business world, and capital is seeking investment in the West along side of the grand wheat fields of the Northwest in factories, mills and mercantile houses. Railway extensions will add enormously to the demand for lumber this year in all the regions west of the Mississippi River. The reduction of freight in consequence of the opening up of the river line will save an immense sum to the farmers of the West on even the surplus grain of last year, and far more on the coming crop, which will largely go into lumber. The increased mill capacity in the northwest will fall far below the per cent. increase in the population to be supplied.

In the woods all are busy preparing for a drive and cleaning up the odds and end of the cutting, preparatory to stopping the chopping and hauling. Many crews are already out of the woods and from all reports there is everywhere but little difference in the quantity of logs cut this and last year. The available supply will probably be less as the stock of old logs is much smaller.

Shipments from all reporting points continue light, owing to bad weather and poor roads in the interior. The railroad blockade is raised on about all the lines, so that the business is all that could be expected and fully equal to last year's trade.

PENNSYLVANIA.

From an article by a Lock Haven, Pa., correspondent oft he Williamsport Gazette we make the following extract:

As to the probable number of rafts to come to market there are various estimates. Some place the number at thirteen, fourteen and twenty-two hundred, but Judge Smith, an old buyer and close observer, puts it at fifteen hundred. This seems like a large estimate, but there is little doubt among the best informed lumbermen as to the accuracy of his estimate.

Thus far prices are well maintained, and in the main have rated one and two cents per foot higher than they did last year. At present the ruling prices range from 12 to 16 cents per foot for pine square timber, and one choice raft is reported as having been sold for 17½ cents per foot. Oak timber is quoted at from 11 to 14 cents, and hemlock round logs 6 cents. Many of the rafts purchased by Mr. Billmyer will be run to Lewisburg and manufactured into bill stuff, while others will be floated further down the river and sold.

Officers of the Lock Haven boom estimate that there are 36,000,000 feet in it at the present time. The logs have been packed nicely and the boom about filled to its capacity. Logs are running lively to-day in the direction of the Williamsport boom, which probably contains 30,000,000 or 40,000,000 feet already, and will continue to fill up rapidly, as the logs are being thrown in above. There is every prospect of the manufacturers being able to get the bulk of their stock down on this flood, and as soon as the weather will permit saw mills will be started up and the music of the circular and the gang will be heard here and at Williamsport, and there will be a quickening in every department of business. And if the full stock of 275,000,000 feet is got in a busy and prosperous summer may be looked for. Lumber is in fair demand at remunerative prices, and the outlook for the manufacturers and their dependents is encouraging.

THE EAST.

The Boston Journal of Commerce reports:

Aside from exhibiting a slightly irregular basis of prices in some lines, such as is natural to an opening season, the market has remained in about the same position as at previous writings. Business continues fair. Dealers in some quarters are anticipating a short supply on account of the insufficient cut, consequent upon the continuous bad weather, but latest advices do not confirm any such idea. Buyers have been upon the market in fair numbers, replenishing their stocks preparatory to pushing building operations, and in some instances are taking large lots at regular rates. Good dry lumber is difficult to obtain in large lots and commands "stiff" prices at sight. Hardwoods still remain very scarce, with plenty of buyers at holders' prices. It is announced that many of the railroads, both in the East and West, are contemplating large additions to their rolling stock, and with this increased consumption hardwoods will be still more difficult to obtain. On the whole, the outlook is in every way encouraging.

FOREIGN.

The London Timber Trade's Journal as follows:

One of the noticeable eventualities of the great sale last week was the way that Quebec spruce held its ground in spite of the enormous quantity of other kinds thrown on the market, at the same time and place, to go at any price that could be obtained for it. It may be said that instead of suffering from this competition, it beat it, and triumphed over it, for quite as good prices were obtained at this great sale as had been previously reached when smaller quantities were before the buyers to choose from. We have more than once expressed our regret at seeing first quality Quebec spruce of eligible dimensions going at £10 to £10 10s. per standard; but on this occasion such sizes and quality realized £10 15s., and second quality went up to £9 5s., while some thirds, 8x11, obtained £8 15s., and nothing in short lengths and batten sizes went under £7.

"What's in a name? The rose by any other name would smell as sweet." We do not dispute that point with the poet, but certainly spruce, by any other name, does not sell as well as that which is called Quebec. The next in esteem seems to be that from St. John, N. B., which went at 30s. to £2 lower than Quebec, and Miramichi 10s. to a pound below that of St. John. Our readers would be able to collate the London prices of these last, with those obtained at Liverpool by public sale on the 4th inst., as both gatherings are recorded in the same Journal (see p. 179), and it will be seen that the London market suffers nothing by the comparison. It is true Miramichi pine deals went badly here, but that does not alter the case, for our Liverpool correspondent tells us there appeared to be no demand for pine deals at all, and very few were sold at the auction aforesaid, while here in London 1st bright Quebec pine deals went better than than they have done for some time past, up to £23 5s.

LONDON.

The effect of last week's sale has begun to make itself felt, and the Surrey Commercial Dock Company have considerable orders in hand for delivery, for both town and country. From the numbers that are for

craft bound for the outlying ports, which the Dock Company have instructions to secure, it is evident there was much more done at the sale in the interest of provincial buyers than was calculated upon.

LIVERPOOL.

The state of trade in this district still continues in a languid condition, and the prospect of any change to a better state of things does not seem imminent for the near future. There is no disposition to enter into contracts for goods at the prices now ruling, although they have receded in no small degree from the points that were recently asked. On the other hand sellers do not seem at all disposed to give way any further than they have already done in their efforts to meet the market.

With the heavy stock of Canadian goods on hand now there is little disposition to enter into fresh contracts for spring or summer shipments, and the high prices asked for the various articles abroad quite deter buyers from making new engagements. The general impression is that prices have been forced up in Canada by an unhealthy competition which finds no warrant in the demands of this country, and therefore the buyers in this country naturally decline to purchase until prices resume their normal condition.

On Wednesday last Messrs. James Smith & Co. held their auction sale in the Law Association rooms, Cook street. The goods offered consisted of one cargo of Savannah pitch pine hewn timber and deals, one cargo of Pensacola sawn pitch pine timber and deals, and one cargo of Miramichi spruce deals; also to be sold without reserve a cargo of Bay Verte spruce deals, 320 pieces Quebec second quality pine deals, 3,000 Halifax spruce deals, 297 logs of Quebec oak, and sundry other goods.

The hewn pitch pine was offered first, but did not meet with much demand, and only about 70 logs out of 168 were sold at from 16d. to 19d. per ft.; but the planks, 1,500 pieces, were withdrawn. The cargo of Pensacola sawn pitch pine timber, averaging 31 ft. cube, was all sold as follows: 20 to 45 ft., 14 to 18 in. deep, 17½d. per ft.; 19 to 43 ft. 14 to 17 do. do., 17¼d do.; 24 to 46 ft. 12½ to 13½ do. do., 15¾d. to 16d. do.; 40 ft. and upwards, 12 in. and under, 16d. do.; all under 40 ft., 12 in and under, 15d. to 15½d do.; pitch pine planks, chiefly 4x9 to 12, 15d. do.; do. do. do. do. 3x11 to 13, 14d. do.; do. do. do. do. 3x9 and 10, 13¾d. do.

The Richibucto spruce deals sold as follows: 15 to 24 ft., 3x11. £7 7s. 6d.; 12 to 14 ft., 3x11, £6 17s. 6d.; 9 to 11 ft., 3x11, £6 10s.; 16 to 24 ft., 3x10, £7; 9 to 15, 3x10, £6 17s. 6d.; 16 to 27 ft., 3x9, £7 2s. 6d.; 13 to 15 ft., 3x9, £6 15s to £6 17s. 6d.; 9 to 26 ft., 3x8. £6 10s. to £6 12s. 6d.; 9 to 26 ft., 3x7, £6 12s. 6d. to £6 15s.

The goods offered without reserve sold as follows: Spruce deals, Bay Verte: £15 to 19 ft., 3x11, 7 2s. 6d.; 10 to 14 ft., 3x17, £6 15s.; 9 to 21 ft., 3x9 and 10, £6 15s.; 16 to 28 ft., 3x8, £6 15s.; 12 to 15 ft., 3x8, £6 12s. 6d.; 16 to 25 ft., 3x7, £6 17s. 6d.; 12 to 15 ft., 3x7, £6 12s. 6d.; 9 to 18 ft., 3x12 to 17, £6 17s. 6d.; Quebec 2d pine deals, 9 to 16 ft., chiefly 3x11, 13 and 14, £14 10s. to £14 12s. 6d.; A parcel of American wainscoat oak billets, 2s. 8d. per ft.; 157 oak planks, 3x10 to 16 in., 22d. per ft.; 269 Quebec 4th pine deals, £6 15s. per standard; 505 Quebec 4th pine deal ends, £5 5s.; 3,116 Halifax spruce deals, 3x7 and 3x9, £6 15s. to £6 17s. 6d. per standard; palings, 5 ft., 3x1, £3 10s. per 1,200; do. 4½ ft., £2 per 1,200.

NAILS.—The demand has been rather slow and to a large extent unsatisfactory. All classes of buyers have handled a smaller amount than was anticipated, the supply has accumulated and in some cases it is surmised that the list rates have been cut in order to quicken sales. There is, however, no positive evidence of this, and we give the latest figures "officially" published:

We quote 10d to 60d, common fence and sheathing per keg, $3@3.10; 8d and 9d, common do, per keg, $3.25@3.35; 6d and 7d, common do, per keg, $3.50@3.60; 4d and 5d, common do, per keg, $3.75@3.85; 3d and 4d, light, per keg, $4.50@4.60; 3d, fine, per keg, $5.25@5.35; 2d, per keg, $5.25@5.35.

Cut spikes, all sizes, $3.25@3.35; floor, casing and box, $3.75@4.25; finishing, $4.00@4.75.

CLINCH NAILS.

1¼ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, $5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer, $4.50@4.65.

PAINTS AND OILS.—Business has shown some irregularity, and, on the whole, does not appear to have been altogether satisfactory. Indeed, it is not uncommon to hear complaints over the volume of trade shown during the past few weeks, and the tone of the market is in consequence a little tame. Consumption does not concentrate so much upon one or two months as in former years, and this no doubt prevents any heavy demand, yet at the end of the year the amount of supplies handled will probably compare favorably with former seasons, as there is no room for doubt that consumption has been and will continue large. The tone on lead is still quite irregular, and the tendency appears to be mainly in buyer's favor. Linseed oil is not selling very freely, but the supply appears to be pretty well managed, and holders in nearly all cases standing out steadily for a uniform line of values. We quote at about 56@75c for City, and 62@62½c for Calcutta from first hands.

PITCH.—The market has been moderately active on about the former basis of values, and no new features worthy of note can be recorded. We quote at $2.00@2.15 per bbl. for city, delivered.

SPIRITS TURPENTINE.—Some business has been done in both a jobbing and a wholesale way, but not much activity shown, and buyers evidently were the east anxious operators. Stocks have accumulated here to nearly 3,600 bbls., and with new crop close at hand the market rather loses supporters, especially as the foreign outlet is small. Prices generally show a decline. As this report is closed, the quotations stand at about 42@44c per gallon, according to the quantity of stock handled.

TAR.—Demand somewhat irregular and confined in the main to parcels required for immediate consumption, few buyers caring to anticipate their wants. Stocks, however, were not large enough to lead to any pressure to realize, and about former rates are asked. We quote $2.50@2.75 for Newberne and Washington, and $2.62@3.00 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:
1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.
2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

*In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. * means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.*

REAL ESTATE.

JULIUS BROWN,
REAL ESTATE AGENT,
777 FULTON STREET,
Two Doors West of South Oxford Street, Brooklyn.

Special attention given to management of estates. Collection of rents and appraisements.

Having an experience of over 20 years (on my own account, and as chief clerk of, and successor to the late S. Hondlow), my patrons may feel assured of their interests being competently and faithfully attended to.

Capitalists and others, about to invest, are invited to examine some special bargins which I have to offe: in this city, in Flatbush near Prospect Park, and Coney Island.

JULIUS BROWN,
777 Fulton St., Brooklyn.

CO-PARTNERSHIP NOTICES.

THIS IS TO CERTIFY, THAT THE UNDERSIGNED have, pursuant to the provisions of the Revised Statutes of the State of New York, formed a Limited Partnership, under the name or firm of E. P. COBY & CO., that the general nature of the business to be transacted is Printing and the manufacture of Stationery, and buying and selling such articles and merchandise as are usually dealt in by dealers in stationery, and that E. Parke Coby and John J. Mountain, who each reside in the City of Brooklyn, County of Kings, and State of New York, are the general partners, and William H. Baker, residing in the same city, is the special partner, and that the said William H. Baker hath contributed the sum of ten thousand dollars as capital towards the common stock, and that the said partnership is to commence on the first day of April, 1881, and is to terminate on the first day of April, 1891.

Dated this 30th day of March, one thousand eight hundred and eighty-one.

E. PARKE COBY,
JOHN J. MOUNTAIN,
W. H. BAKER.

City and County of New York, s.s.

On the 30th day of March, one thousand eight hundred and eighty-one, before me came E. Parke Coby, John J. Mountain and William H. Baker, to me known, and known to me to be the individuals described in, and who executed the above certificate, and they severally acknowledged that they executed the same.

CHARLES NETTLETON,
Notary Public for
New York County, N. Y.

City and County of New York, s. s.

E. Parke Coby one of the general partners named in the above certificate, being duly sworn, doth depose and say, that the sum specified in the said certificate to have been contributed by the special partner to the common stock, has been actually and in good faith paid in cash.

E. PARKE COBY.

Sworn this 30th day of March, 1881, before me
CHARLES NETTLETON,
Notary Public for New York County, N. Y.

THIS IS TO CERTIFY THAT THE UNDERSIGNED have formed a limited partnership, pursuant to the provisions of the Revised Statutes of the State New York.

The name or firm under which said partnership to be conducted is APGAR, MERRILL & CO. The general nature of the business intended is the buying and selling on commission, of Stocks, Bonds and other Securities. The place in which the business is to be carried on, is the City of New York.

The names of all the partners are as follows:

Louis J. Apgar, who resides in Jersey City, New Jersey, George Merrill, who resides in Raritan Township, New Jersey, and William S. Hartt, who resides in the City of New York, are the general partners, and Nathaniel Dole, who resides in the City of New York, is the special partner.

The said Nathaniel Dole has contributed the sum of twenty-five thousand dollars in cash, as special capital.

The said partnership is to commence on the twenty-fourth day of February, 1881, and is to terminate on the twenty-third day of February, 1883.

Dated, New York, 68 Broadway, and 17 New street, February 24th, 1881.

LOUIS J. APGAR,
Member N. Y. Stock Exchange.
GEORGE MERRILL,
WILLIAM S. HARTT.
} General Partners.

NATHANIEL DOLE, Special Partne

THE UNDERSIGNED, DESIROUS OF FORMING a limited partnership under the statutes of the State of New York, hereby certify:

1. That the name or firm under which such partnership is to be conducted is HALL, NICOLL & GRANBERY.

2. That the general nature of the business intended to be transacted by such partnership is the general business of importing and selling foreign and domestic fancy goods and on commission.

3. That the names of all the general and special partners interested in said partnership are as follows:

Bolton Hall, who resides in the City of New York,
Benjamin S. T. Nicoll, who resides in the City of New York, and
David W. Granbery, who resides in the City of New York, are the general partners; and Marcellus Hartley, who resides in the City of New York, and Malcolm Graham, who resides in the City of New York, are the special partners.

4. That the said Marcellus Hartley has contributed the sum of twenty thousand dollars, and said Malcolm Graham the sum of twenty thousand dollars as capital to the common stock.

5. That the period at which the said partnership is to commence is the seventeenth day of March, 1881, and the period at which the said partnership is to terminate is the last day of February, 1883.

BOLTON HALL,
BENJAMIN S. T. NICOLL,

CO-PARTNERSHIP NOTICES.

THE UNDERSIGNED, CHARLES BUEK, HENRY F. COOK and CHARLES DUGGIN, being desirous of forming a limited partnership, pursuant to the laws of the State of New York, do make and severally sign the following certificate:

First. The name or firm under which such partnership is to be conducted shall be CHARLES BUEK & COMPANY.

Second. The general nature of the business intended to be transacted shall be that of conducting, managing, and carrying on the business of Architects and Builders and Dealers in vacant lots or plots of land in the City of New York or elsewhere, and the improvement thereof by the erection thereon of buildings, for sale or to hire, and the selling and renting the same, including the planning, designing, constructing, and erecting of buildings for others, and generally doing and transacting whatever properly appertains to the individual profession or calling of the several and respective parties hereto, and the business hereby contemplated to be done and performed.

Third. The names of all the general and special partners interested in said partnership are as follows:

Charles Duggin is the special partner, and reside in the City of New York.

Charles Buek and Henry F. Cook are the general partners, and reside in the same city.

Fourth. The amount of capital which the said special partner has contributed to the common stock of the partnership is the sum of fifty thousand dollars.

Fifth. The period at which the said partnership shall commence is the first day of April, 1881, and the period at which the said partnership shall terminate will be the 30th day of April, which will be in the year 1884.

Dated New York, April 1st, 1881.

CHARLES DUGGIN,
Special Partner.
CHARLES BUEK,
HENRY F. COOK,
General Partners.

City and County of New York, ss.:

On this first day of April, 1881, Charles Duggin, Charles Buek, and Henry F. Cook, known to me to be the individuals described in and who executed the foregoing certificate, severally acknowledged before me that they executed the same.

HENRY C. FREEMAN,
Commissioner of Deeds,
N. Y. City and County.

WE, THE UNDERSIGNED, GEORGE W. MILLAR, William D. May and William Roberts, having formed a limited partnership do hereby certify:

I. The name or firm under which such partnership is to be conducted is GEORGE W. MILLAR & CO.

II. The general nature of the business intended to be transacted is that of Paper and Paper Stock Dealers.

III. The names and respective places of residence of all the general and special partners interested therein are as follows:

George W. Millar is a general partner, and resides at No. 17 Cottage place, in the city of New York.

William D. May is a general partner, and resides at No. 249 East 110th street, in the city of New York.

William Roberts is a special partner, and resides Waltham, in the Commonwealth of Massachusetts.

IV. The amount of capital which the said special partner, William Roberts, has contributed to the common stock is Ten Thousand Dollars in cash.

V. The period at which the partnership is to commence is the 21st day of March, 1881, and the period at which it will terminate is the 1st day of January, 1882.

Dated March 21st, 1881.

GEO. W. MILLAR.
WILLIAM D. MAY.
WILLIAM ROBERTS.

FEINBERG AND WINTER.—STATE OF NEW York, City and County of New York, s. s —This is to certify that we, the undersigned, have formed a limited partnership, pursuant to the provisions of chapter four, title one, part two, of the Revised Statutes of the State of New York, entitled "Of Limited Partnerships," and of the several acts and statutes amending the same.

First. The name or firm under which such partnership is to be conducted is FEINBERG & WINTER

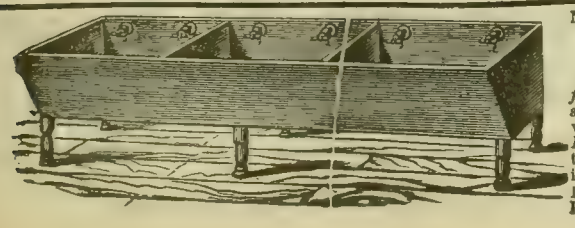
Second. The general nature of the business intended to be transacted is that of commission merchants and purchasing agents; and also the purchasing, selling and dealing in general merchandise.

Third. The names of all the general and special partners interested therein, and their respective places of residence are,

Moses S. Feinberg, who is a general partner, who resides at San Francisco, in the State of California; Benjamin G. Winter, who is a general partner, and who resides in San Francisco, in the State of California; and Zadoc Staab, who is a special partner, and who resides in the City, County and State of New York.

Fourth. The amount of capital which Zadoc Staab, the special partner has contributed to the common stock is the sum of five thousand dollars.

Fifth. The period at which said partnership is to commence is the fourth day of March, 1881, and the period at which it will terminate is the 4th day of March, 1884.



In witness whereof we the above named persons who are desirous of forming such partnership, have made and severally signed this certificate this fourth day of March, 1881.

MOSES S. FEINBERG,
BENJAMIN G. WINTER,
General Partners.
ZADOC STAAB.
Special Partner.

State of New York, City and County of New York, ss.

ADRIAN H. MULLER, Auctioneer.

IMPORTANT PEREMPTORY SALE

To Close the Estate of JOSEPH DRAKE, Deceased.

THE 205 LOTS

In the Eighth Ward, City of Brooklyn,

——SITUATED ON——

Seventeenth and Eighteenth Sts.,

Prospect, Ninth, Tenth and Eleventh Avs.,

and near Prospect Park.

WILL BE SOLD AT AUCTION,

ON THURSDAY, APRIL 21ST, 1881,

At 12 o'clock, at the EXCHANGE SALESROOM, 111 Broadway, N. Y.

——BY——

ADRIAN H. MULLER & SON,

AUCTIONEERS.

This sale which includes in part the ENTIRE BLOCK of 70 lots (with brick mansion) bounded by the Ninth and Tenth avenues, Seventeenth and Eighteenth streets, is made to close the estate of JOSEPH DRAKE, deceased, and every lot will be

ABSOLUTELY SOLD.

Ninth avenue, Seventeenth and Eighteenth streets are opened and paved with Belgian pavement. The block above mentioned, bounded by Ninth and Tenth avenues, Seventeenth and Eighteenth streets, will be offered as a whole at an upset price, and if not taken will then be sold in lots.

This land is about the highest in the City of Brooklyn, overlooks Prospect Park, and from it extensive views can be obtained of New York Bay, Coney Island, Sandy Hook, &c., and the early completion of the Brooklyn Bridge and Rapid Transit Routes, cannot fail to greatly enhance its value.

TERMS, 60 per cent. on mortgage at 6 per cent.

Descriptive maps can be obtained from: JOHN J. DRAKE, No. 17 Willoughby street, Brooklyn.

J. L. JEWETT, Attorney for the Heirs, No. 237 Greenwich street, New York.

And of the AUCTIONEER, No. 7 Pine street, New York, or will be sent by mail if desired.

MORRIS WILKINS, Auctioneer.

Executor's Sale of Valuable Lots on
FIRST AVENUE AND 34TH STREET.

E. H. LUDLOW & CO. will sell at Auction, on
WEDNESDAY, APRIL 20TH, 1881,

At Twelve o'clock noon, at the EXCHANGE SALESROOM, 111 Broadway, (Trinity Building), N. Y.

FIRST AVENUE, northeast corner of 33d Street—The 4 valuable Lots, 24.8¼x100 feet each, together with 4 Lots on the north side of 33d Street, adjoining above, 25x98.9 feet each. Also,

FIRST AVENUE, southeast corner of 34th Street—The 6 valuable Lots, 25x74 0¾ feet each, being 74.0¾ feet on First Avenue, and 150 feet on 34th Street. Also,

EAST 34TH STREET, north side, 100 feet east of First Avenue—The 5 valuable Lots, 25x98.9 feet each.

Maps and further particulars at the office of the Auctioneers, No. 3 Pine Street, N. Y.

GEO. H. SCOTT, Auctioneer.

SCOTT & MYERS will sell at EXCHANGE SALESROOM, 111 Broadway, on
TUESDAY, APRIL 19TH, VALUABLE REAL ESTATE, COMPRISING

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

VOL. XXVII. NEW YORK, SATURDAY, APRIL 16, 1881 No. 683

Published Weekly by The

REAL ESTATE RECORD ASSOCIATION

TERMS:

ONE YEAR, in advance - - - - - $6.00

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

Real estate owners would do well to read carefully the interesting letters of our Albany correspondent. We have employed one of the oldest and most careful of the regular corps of correspondents, a gentleman who is himself interested in New York realty, and who is familiar with the history of the Legislature of the state for twenty years. The daily papers give very copious letters from Albany, but the correspondents generally overlook business matters for those which interest politicians. The letters in THE RECORD have the merit of dealing exclusively with those matters which affect real estate owners, omitting all else. Hence, it is not necessary to read column after column of verbose stuff to get at a few items of really valuable news.

FINANCIAL NEWSPAPERS.

Recently we paid our respects, in the way of comment, upon several of the best known daily financial journals. As a guide to investors, perhaps some further comments on still other journals may be found useful.

The news of the street, and the comments on the fluctuations of the market, are eagerly read by tens of thousands of people, who never, or rarely, speculate. Long experience however, has shown that it is unwise to take a newspaper point. It is nearly always given with the intention to deceive. Then, the money writers occupy an anamalous position. No matter how honest they may be, they cannot give advice or early warnings, without being suspected of improper motives. The great operators use them to try and deceive the public, and the newspapers they serve, but do not own, are always doubtful about them. The financial editors are always open to the charge of grinding axes, and they stand in wholesome awe of the managing editor or the editor-in-chief. Let them be ever so honest, any expression of opinion affects such vital interests, that they are suspected of wishing either to bull or bear stocks. And this is true of all journals, where the proprietary interest is vested in one person, and the writing is done by an employee. Hence the rich leading journals, like the *Herald, Times, Tribune*, have very little influence upon Wall street, and none at all with the leading operators.

In Monday's *Sun*, however, there is an article entitled "In and out of Wall street," which is written by a gentleman who has access to excellent sources of information. He evidently enjoys the confidence of Mr. Charles A. Dana, for he writes freely and wields a vivacious pen.

The *Public*, edited by Colonel William Grosvenor, contains some admirable articles and facts of very great value. But, somehow, one gets the impression that the writer is warped in his judgment by political feeling and personal interests. His article seems to take their color from Mr. Jay Gould's views of things, hence, last fall it was bearish when the market was going up. This spring it was bullish when the market was going down. Its articles on the silver question are grossly absurd, for it advocates theories which have nothing to do with the facts in the case.

The *Financial Chronicle* is also muddled on the silver question, but its statistics and facts, especially about the cotton trade of the port, could not very well be improved. Its general articles show wide information and conscientious study; but its facts are of more value than its opinions. Its judgments carry no weight with the investing public.

The *Commercial Bulletin* has many articles of great value. It is sound on the subject of bi-metalism, and its treatment of general trade topics shows a wide acquaintance with the facts and a good generalizing faculty. It has one defect, however. The chief writer seems to belong to the school of Manchester doctrinaires. It has certain governmental and economical notions, which seemed new and useful in the days of Harriet Martineau and Richard Cobden, but which were only half truths, that have been discredited by recent financial history. But there is a great deal of good, hard work on the *Bulletin*.

The *Evening Post*, when the discussion was pending, was literally insane on the question of mono-metalism. It has lived to see all its predictions falsified and all its arguments refuted by the progress of events. Silver is to be remonetized and the "dollar of our daddies" will take its place as the future unit of value, to the great benefit of the commerce of the country.

The *American Exchange* shows good reportorial work on current financial news, but there does not seem to be a glimmer of sense in its editorial columns. If the people who edit the *Wall Street News* were to get the *American Exchange* and some writer of solid financial articles employed, there could be produced a daily paper that would take the lead of all the financial journals.

The *Journal of Commerce* is a model of industrious reporting. Its editorials or its financial articles have not the slightest value.

The excellence of the *Graphic* financial column is due almost exclusively to the alertness, judgment and acquaintance of C. M. Goodsell, the manager of the paper.

The *Price Current* is a valuable paper for those who care to keep the run of prices. The remarkable thing about it, is that it has existed so long as a semi-weekly. It is one of the curious freaks of the reading and business community, that it will not support a semi-weekly or a bi-monthly. They have been tried thousands of times and have always failed. The *Fortnightly* of London is really a monthly publication. To secure popular favor, a publication must be either a daily, a weekly, or a monthly. The *Times, Tribune* and *Herald* have all tried to establish semi-weeklies, but all have failed to make them profitable. The *Herald*, at one time, spent money lavishly for that purpose to no effect. Horace Greeley, when alive, made special efforts to make one remunerative, but without success.

BOLD, BUT PRUDENT.

In speculating upon the probable action of Secretary Windom, with regard to refunding, some two weeks since, we expressed the wish which we knew was felt by conservative business men, that, in dealing with the money market, he would use the checkrein and curb rather than the spur or the whip. It was in his power to have stimulated a dangerous inflation in Wall street. By using the reserves in the Treasury and issuing Treasury notes he could have poured out a flood of money, which would have speedily produced a speculative delirium. This would have been very pleasant while it lasted; but would have resulted in a ruinous break in prices and disaster to the entire community.

To avoid this danger, the Secretary has adopted a plan which is at once bold and prudent; bold, because if not illegal it is certainly extra legal. His offer to the holders of the 6 per cent bonds, due on the first of next July, is one which meets every business consideration, but it is wholly without warrant of law. His action is a distinct usurpation of the legislative functions of the Government. It has evidently been suggested by the national banks, but is none the less of value to the entire country. The banks will heartily co-operate with the Secretary in carrying out his scheme, so as to forestall any action of Congress, such as was contemplated by the Carlisle amendment to the Refunding bill, vetoed by ex-President Hayes. Should the fives and sixes be retired before the meeting of Congress, and a 3½ per cent temporary bond substituted, it would give the public creditors a higher interest than Congress would allow, and would practically forestall the necessity for any new Refunding bill.

The scheme, at present, seems reasonably sure of being successful. This makes the business prospects for the year look particularly bright; for, while there will be no undue stimulation, the Administration will be forced to use its great powers to keep money easy, and the rate of interest reasonably low. Every business in the country can now adjust itself to the situation. There, as yet, has been no unwholesome rise in prices outside of the Stock Exchange; indeed, the prime products of the nation, cotton, wheat and meats, are unusually low in price. The same remark is true of the metals and of land. In the meanwhile, emigration is phenomenally large and the outlook for the country was never brighter.

Then, as to the stock market. Prices have been dull, but strong, and, unless there are very bad crop reports, we may expect to

see an advancing market with much larger transactions. So far, Secretary Windom has done well Should he succeed in practically refunding the fives and sixes before the meeting of Congress he will take rank with the very best of our Secretaries of the Treasury.

Our export trade is extraordinarily large. Reduced to money value, the exports of wheat in March compared with the same month last year was $1,500,000; of flour, $1.000.000; of cotton. $1,000,000; of bacon, $1,300,000; of petroleum, over $1,000,000; of lard, $300,000, and of pork $200,000. In other words, there was an export of about $83,000,000 against $77,300,000 last year. It is no wonder that gold continues coming from Europe. Hence the stubborn vitality of prices on the stock market.

There is the best authority for announcing that the days of one and two dollar bills in this country are numbered. The national banks withdrew their ones and twos after January 1, 1879, when resumption occurred. That they were forced to do under the law. But Secretary Sherman issued greenbacks of the same denominations to fill their place. Secretary Windom has however determined to reverse this action, and the two dollar bills are to be quietly withdrawn, the ones to follow soon after. In place of these notes, the standard silver dollar will be circulated, also the smaller gold coins. This will not be contraction, but inflation; for the Secretary will be forced to reissue the greenbacks in larger denominations as the law forbids him to contract the greenback currency. It is understood that our Secretary is eager to have our currency similar to that of other civilized nations, in which the money metals are being used for retail traffic, instead of one, two and five dollar notes. The smallest denomination of Bank of England notes is five pounds and travelers in Germany, France or England, rarely see bank bills. Our bullion is now inert and piled up in treasury and bank vaults. With the small notes withdrawn, gold and silver coin will become common.

There is an effort making to induce all the fire insurance companies to agree to one tariff on risks. But there is difficulty in view of the disposition of a few companies to cut rates. Indeed, the action of some of these organizations throws discredit upon the whole business; for while they join with the more honorable companies in calling upon the out-of-town organizations to maintain the rates, they offer policies over their own counters here in New York considerably below them. Indeed, their own agents are put at a disadvantage, for they find the home company is underbidding them. In the long run. honorable dealing pays the best. The really solvent companies find that it is wiser to charge paying rates than to take perilous risks under the market. The safe rates are those which pay in the long run.

The insurance business through March was not as large as in the three previous months, but it was very much larger than for March, 1880. Everything shows that the prosperous condition of the country is having its effect upon insurance, in the increase of business as well as the stiffening of rates. The losses this year have been kept below those of last year.

OUT AMONG THE BUILDERS.

Mr. Gault will build ten private residences, 16.8 x50 feet, three stories high, with basement, on the northeast corner of Pleasant avenue and One Hundred and Twenty-second street, from designs of J. H. Valentine. They will cost $100,000. J. H. Valentine also has plans for six brown stone front houses, to be erected on the northwest corner of Madison avenue and One Hundred and Twenty-eighth street. They will be 20, 18 and 16 x50 feet, and cost $72,000.

A. A. Low will erect an eight-story building on the corner of Court and Remsen streets, Brooklyn, from designs of J. C. Cady. It will be 100x 150 feet, surmounted by a clock tower over 200 feet high. It will be built of brown stone, Philadelphia brick, and terra cotta. There will be 279 offices in the building. One of the features of the structure will be a law library, finished in hardwood, with a lawyers' reading room connected, fitted up in princely style.

The great court, for lighting up the interior offices, will be carried up in handsome masonry. It is expected that the building will be completed May 1st, 1882.

J. C. Cady is also preparing plans for a hospital to be built on Lexington avenue and Eighty-sixth street. It is to be 50x100 feet, five stories high, and built of brown stone and Philadelphia brick. It is estimated to accommodate 150 patients, and to cost $60,000.

A one-story quarantine pavilion, 30x175 feet, is to be erected on Randall's Island. It will be fitted up with the necessary water closets, lavatories and bath rooms. J. M. Dunn is the architect. The cost will be about $20,000. An east wing, 80 x200 feet, and three stories high, with basement, will be built to the Insane Asylum, on Ward's Island, from plans of J. M. Dunn. The patients' room, wash rooms, dining rooms, water closets, bath rooms, and lavatories will all be fitted up in modern style. The cost is estimated at $100,000.

Mr. Dunn also has designs for additions and alterations to the engine house, kitchen and laundry of the Lunatic Asylum on Blackwell's Island. The dormitory on the second story is exclusively for males. The cost of this work will be $15,000. A retreat building for females, at the Insane Asylum, on Blackwell's Island, is soon to be erected. The retreat is for the use of females, and will accommodate 200 patients. It will have slate stairs, and all the necessary fire escapes, and cost $50,000. The plans were prepared by the sane architect.

A pavilion, one-story high, 30x160 feet, is going up at the Almshouse, on Blackwell's Island. It will have all the modern improvements, and hold 75 men. J. M. Dunn, the architect, sets the cost at $18,000.

On the site formerly occupied by the Clinton Hall Association, on the southwest corner of Beekman and Nassau streets, opposite the Morse building, Mr. Eugene Kelly, the banker, is soon to erect a new building. It will be one of the handsomest structures in the lower part of the city, and cost upwards of $400,000. Sillman & Farnsworth, the architects, have already completed the plans, and on the 1st of next month work will begin It will be ten stories high, with cellars underneath. The building will be 103x 100 feet, covering the whole block on Beekman street between Nassau street and Theatre alley. Up to the third story it will be built of granite, and above of Philadelphia brick, laid in red mortar, while between the windows it will have Dorchester stone trimmings and terra cotta panels. Of the two fronts each will be divided into three portions. Piers three feet eight inches in width will bound the two outer portions, between which on each story will be three ordinary sized windows. Three large double windows, seven feet wide, will pierce the central portion. Between the fifth and sixth stories all the windows are to be arched over and richly decorated. Above the elaborately wrought stone cornice between the sixth and seventh floors will rise a Mansard roof three stories high. Tne two outer portions of the walls will straight up through ten stories; the piers will terminate in octagonal pinnacles and the whole capped with an octagonal slate roof. By this means a striking effect will be obtained, making the building appear lower than it is. All the windows will have stone lintels except those on the top stories, which will have decorated arches. The Nassau Bank will occupy a room 26x75 feet on the first floor, of which it has obtained a lease for twenty years. The remainder of the building is to be used for stores, offices, &c. The windows on the street will be of American plate glass, and those in the court, with the doors, of American rubbed glass. A safe-hoist is to be provided by means of trap doors in the gallery floors, so that tenants will not have to raise their safes through the windows. The chandeliers and gas fixtures will be of brass and the hardware of bronze. The hydraulic elevators will run at the rate of 150 feet a minute. The building will have all the modern conveniences and be well lighted and thoroughly ventilated.

Two private stables are to be built on Park avenue, between Sixty-third and Sixty-fourth streets, 25x85 feet, from designs of C. W. Romeyn. They will be of brick and terra cotta, and cost $30,000.

The same architect has made plans for a cottage and stable at Elberon for Mr. Kingsland. The cost is to be $12,000.

Thos. Kilpatrick will erect an apartment building at the corner of Sixty-third street and Park avenue, 75x96 feet, and six stories high. It will be a substantial structures, fitted up with all the modern conveniences, and will cost about $100,000. C. W. Romeyn is the architect.

Thom & Wilson, architects, have draughted plans for six first-class private residences, to be built for B. Spaulding on the north side of Sixty-seventh street, 100 feet east of Fifth avenue. They will cover a space of 146 feet. Four of them will have a front of 25 feet, and two a front of 23 feet. The finish throughout will be of hardwood, with dining-rooms and butlers' pantry extensions. No expense will be spared, and they will cost when completed in the neighborhood of $60,000.

The location is fine, and the houses will be very desirable property in the way of an investment. It may be well to state that they are in the neighborhood where Lamb & Wheeler are now building some magnificent residences.

Mr. John Taylor Johnson is now erecting an extensive building at No. 69 Wall street, running through to Beaver street, which, when completed, will be used for offices, with apartments on the top floor for the use of the janitor. The building will have a front on Wall street of 36.6, and on Beaver street of 54.10, with an average depth of about 96 feet. It will be seven stories in height above the sidewalk, and will have a hall running through from Wall to Beaver street, two elevators, and will be fireproof throughout. The first and second stories will be divided into extensive offices, the higher stories into eight offices each. The front on Wall street will be of white marble and granite, the first and second stories being treated as one with Doric pilasters having carved capitals, with a cornice or entablature across the whole front. The third story will have plain piers with carved capitals supporting a cornice. The fourth, fifth and sixth stories will have fluted pilasters with richly carved capitals, supporting the main cornice which has a moulded architrave above which there is a frieze with rich consoles. The seventh story will have nine arched windows, with moulded architraves and keystones, and a plain cornice surmounted by carved cresting The pilasters of the front door will be of polished red granite. On Beaver street, the first floor will be of gray granite, with red granite door pilasters, above the first story the whole front will be of buff colored brick with terra cotta ornaments.

The cost of this extensive building, which is being erected from plans designed by Mr. James Renwick, will be about $125,000.

Mr. Morquand will soon build a seven-story iron front office building at 162 and 164 Broadway. It will have a front of 59 feet on Broadway, and be 124 feet deep. It will be fitted up in princely style, with all the most modern im-

provements, and will be fire-proof. The cost of this massive structure will be $200,000. Richard M. Hunt is the architect.

Wm. Field & Son, architects, are preparing plans for an apartment house, 25x100 feet, at No. 27 East Sixteenth street. It will be four stories high, with a high basement. There will be accommodations for five families on each floor. O. A. Roorbach is the owner, and cost $15,000.

It is said that Hollis Hunnewell, a Boston capitalist, will erect a building on lower Broadway from designs of G. R. & R. G. Shaw, Boston architects.

Mr. John Dwight will have an astronomical observatory on his new house now building on Mount Morris avenue.

FROM BROOKLYN.

Chester M. Foster will erect a handsome brown stone front house on Cumberland street, between Willoughby and De Kalb streets. It will be four stories high, 25 feet front, with extensions 16 feet deep, with basement and cellar. It will be built in Queen Anne style, and have hardwood cabinet finish inside. The plans are being prepared by M. J. Morrill. The cost is estimated at about $35,000.

Merceine has plans for two brown stone front dwellings houses, 18 feet 9 inches by 50 feet, with four stories and basement, to be built on the hill. They will cost $10,000 each.

The same architect will furnish designs for a double tenement, 32x65 feet, four stories high, to be built by John, on Bridge street, near Sands. It will have brick and stone front, with two stores underneath. The cost to be $12,000.

John Gray is to put up a machine shop in New York, on Jayne and Washington streets, 30x70 feet, from plans of Mr. Thomas, to cost $6,000.

John Sticht will build a frame cottage on Kosciusko street, near Morrisey, from designs of M. Thomas. It is to be 22x20 feet, two stories with basement, and cost $2,500.

THE TRUTH ABOUT MINES.

There is great activity in the mining market. Once more, the old Comstock shows signs of life. Pine street and Montgomery street, San Francisco, are again thronged with eager faces. Stocks have gone up; but whether it is a deal or a development, it is hard to say. There is really no news to justify the apparent excitement. But work is going forward energetically and another bonanza may be developed to gladden the assessment cursed shareholders of the mines situated on the Comstock lode.

The New York Mining Board has grown into a very important institution. The dealings increase in magnitude daily. The newer members are all men of means, and, should any of the numerous mining regions develop meritorious properties, our Mining Board would assume proportions that would recall the San Francisco Stock Board in its palmiest days. As we have said before, there are really very few fraudulent stocks dealt in nowadays. Not one in twenty may become dividend paying, for mining is a very doubtful business; but all of them have real ore and some of them are sure to develop into paying mines.

Now that the Comstock looks better, speculative investors would do well to look up the Bodie stocks. Any one who purchases the best of these to-day, will surely make money before the close of the year. The Lent shaft of the Bodie mine is down 525 feet, at 600 feet it will cross cut, and unless all the signs are deceptive, there will be a great rise in Mono and Bodie stocks. Among the good and promising mines in this district are the Standard, Mono, Bodie, Bulwer, Bechtel, Tioga, Addenda, Oro and the Noondays. We caution everyone against dealing in Consolidated Pacific, Boston Consolidated, South Bulwer, or any of the other properties in this district save those we have mentioned.

It is monstrous that the morning papers, as well as the mining journals, should give so many gratuitious notices of fraudulent properties and those engineered by well-known California rascals. Investors should carefully avoid properties owned and manipulated by the people who did them so much damage in Chrysolite, Little Chief, Amie, Freeland, Hukill, Little Pittsburgh, and the like. We see some of these same names in connection with the State Line properties. We warn investors not to touch any of these. This group of mines is situated in an inaccessible region, so far away as to make it impossible to verify the statements of the promotors. It is so inaccessible as to be unprofitable to work, even if they were good mines. Our special information is to the effect that, while there is some good ore on the surface, the mines have been only partially opened. As yet none of these State Line properties have been listed, but they are dealt in on the floor of the Mining Board. We warn people who have anything to do with them that they will be served as were the original investors in Chrysolite, Little Chief, Freeland, Hukill and the rest. No doubt the directors are all honorable gentlemen, but some of the manipulators behind them ought to be in States prison.

Silver Islet, shares of which are now dealt in on the Boston Exchange, has levied an assessment of one dollar per shares. The mine this company represents is a remarkable one. It is situated on a small island near Thunder Bay on Lake Superior. A great deal of wonderfully rich silver ore has been taken from it; but the stock has seen violent fluctuations. It seems there is a way, after all, of levying assessments on eastern stocks. Everyone who purchases a block of Silver Islet, signs an agreement to submit to at least three assessments in a year or else surrender his stock. A great deal of money has been made and lost in Silver Islet. It has been as high as sixty and down to a dollar. The ore is phenomenally rich, some of it being pure silver; but it "pinches" out very quickly and it costs money to find the vein again. The time is coming when a great deal of silver and gold will be found on the north side of Lake Superior.

Investors would do well to avoid the so-called Tuscarora mines, such as Navajo, Belle Isle, Grand Prize, etc. The district is a treacherous one. The geologist and the miner who see it for the first time are delighted with it. The ledges are well defined in hanging and foot wall, and here and there very rich ore is found in the veins, but it changes its character from free milling to roasting ore, and in dealing in the stocks the insiders have a great advantage over the outside public. Avoid Tuscarora district mines. It was in a property in this district that "Ned" Stokes, who killed "Jim" Fisk, was interested.

James R. Keene, for some reason or other, has been a large buyer of Bull Domingo He has bought over 10,000 shares during the past week, all the way from $2.50 up to $2.90. On the 1st of May the railroad reaches that mine and it will then be economical to sell some of the large accumulations of concentrations. There are quite a good many who believe Bull Domingo has quite a future before it. Its management is, we believe, reasonably honest. It is said, moreover, that Keene has seen very reassuring dispatches from Silver Cliff as to the workings of the new mill. It can turn out a hundred tons a day, and the ore it is now working brings forty ounces to the ton. At this rate, its net product will be $3,000 a day. We do not give these figures as fact, but the "they say so" of those who may wish to deceive investors. The insiders are not yet selling. It would be a great thing for the Silver Cliff region, if the Silver Clfff property should prove profitable, it would lead to heavy outlays for new mills in all the country. It is a great peculiarity of the Silver Cliff region that, while the mills are costly, the production will be calculable. The product can be foretold year by year, with nearly absolute certainty. The Leadville region is very different. The carbonate mining is the most uncertain of any known. It resembles a rice pudding, scattered through with raisins. The latter are very nice when you get them, but they do not last long. The rich pockets in the Leadville mines correspond with these raisins.

As we have repeatedly spoken well of the Chrysolite, we wish, therefore in justice to our subscribers, to say that recent accounts have not been good. For some reason there is no new production and rumor, has it that the best pockets have run out of ore. Like all Leadville properties, Chrysolite is a very treacherous mine. It is said Andrew F. Gill is selling it short. He has generally a keen instinct for taking advantage of failing properties. Still, it must be borne in mind that the company have a large surplus, over $250,000, and that only a very small part of this ground has been worked. There is danger that those who hold on to the stock will see it lower before it is higher.

There has been a great deal of activity in Sutro Tunnel stock, but we are afraid it is only a deal. The articles in the *Herald* and other papers about it, had a very "cooked" appearance. There are great future possibilities in Sutro; but any stock is dangerous which advances from 1 to 2½ within a few weeks time.

The business of the Mining Board has become so large that the brokers find it convenient to have their several corners, as they do in the regular Stock Exchange. One group sells Colorado stocks, another Pacific Coast, and so on. It is estimated that there are 150 active members in the Mining Board, and that they average $5,000 a year in commissions.

There is a great deal more activity on the Comstock lode, and it is believed that there is a development somewhere in the ledge, known to the insiders. The pool in Sutro Tunnel is a very wealthy one, and has its headquarters in London. The Seligmans are dealing heavily in this stock, and are putting their customers into it.

Last week when Bulwer was selling at $2, we said there was going to be an upward movement. It has since sold for $2.50, and is quoted in California at $3.

Eureka Consolidated is selling for 30. It is a wonderful mine, and has paid large dividends for eight years, and is likely to pay them for many years to come.

The annual report of the Standard Consolidated Mining Company of Bodie is before us. It is a very elaborate document, and apparently tells everything about the mine. Every item of receipt and expenditure is put down. With it are given fifteen maps, showing the interior working of this great property. It must have cost a great deal of money to get up this report. The total production for the year, up to February 1st, was $1,952,843.55, of which $950,000 was paid out in dividends. On February 1st there was an actual cash balance of $111,716.66. This is an excellent showing, but there is one puzzle. While every level is fully described, its length, breadth and depth, no statement is made of the gross product from each level, compared with the cost of mining. It is known that most of the ledges are unprofitable to work, while the ore body on the 385 foot level is phenomenally rich. But perhaps it would be asking too much, to keep a record of the ore from the different ledges, as the rock is run through the mills indiscriminately.

BUSINESS POINTS OF INTEREST.

The exchanges show that business throughout the country is more active this year than last. But this time last year, be it remembered, the markets were unduly stimulated by high prices. The activity of the exchanges show that business is not stagnant, as some of the bears would make out.

Imports continue to decrease. Three million less was entered last week, compared with the corresponding week last year.

Gold continues to arrive in large sums and there are no signs of abatement. Since the 1st of August, we have received nearly $83,000,000 against $73,315,000 to the same date last year.

The cotton movement continues largely in excess of last year. We have exported 3,417,188 bales this year so far, an increase of 525,401 bales. It is now certain that our crop will reach 6,290,000 bales.

Forty-two railroads show earnings in March of $14,714,286, an increase of $1,171,346; but the

mileage of the roads reporting increased from 27,967 to 38,208, so the earnings per mile were less than last year.

There will be no war of freight rates among the leading trunk lines. It was denied officially on Thursday.

At length the famous Tribune building is to be finished in accordance with the original plans. Much criticism and some ridicule has been directed against this structure, and it certainly has an awkward appearance in its present unfinished state. But when the additions are made in accordance with the original design, it will be found to be as harmonious in its proportions as it is striking and unique in appearance. The Tribune property, back of the present building, runs through from Spruce to Frankfort street, in the rear of the Sun building. Should the Tribune Association ever secure the Sun property, and make another addition, so as to occupy the whole front on Printing House Square, it would make one of the most notable structures in any modern city. Mr. Whitelaw Reid is now understood to be in control of a majority of the Tribune stock. All gossip to the contrary, he is quite independent of any great street speculator. He is soon to marry the daughter of D. O. Mills, who is reputed to be worth $15,000,000, and who has only two children to inherit his wealth. At the battle of Pittsburg Landing, Whitelaw Reid was an overworked war correspondent of a second-class Cincinnati paper. To-day he is on the road to be one of the richest men in the country, as well as the most influential newspaper editor probably in the world.

Wm. F. Croft will erect a first-class flat on the southwest corner of Fifty-seventh street and Seventh avenue. It will be seven stories high with a basement, and the front will be of Philadelphia brick with Dorchester stone and terra cotta trimmings. The cost of the structure will be a quarter of a million dollars, including the price of the ground, which was $90,000.

CITY REALTY AT ALBANY.

ALBANY, April 14, 1881.

But few of the measures affecting the real estate and building interests in New York have been advanced on their way through the Legislature this week, other measures relating to Railroad Commissioners, State prisons and penitentiaries, new capitol and female reformatories have occupied most of the time.

A bill has been introduced by Mr. Brodsky providing for the appointment of a commissioner by the Governor to examine the water supply of the City of New York and report to the next Legislature a plan for an increased supply.

Mr. Brodsky also introduced a bill providing for the erection of a building at a cost not to exceed $75,000 on the site of the Mount St. Vincent building, which was destroyed by fire, in the Central Park—to be erected by the Park Commissioners and rented as a place of refreshment; the Board of Estimate and Apportionment to provide the means in the tax budget.

Mr. Dayton has presented a bill for the erection of an iron bridge for foot passengers and carriages over the Fourth avenue cut and tracks at Ninety-seventh street, and the closing of Ninety-eighth street at Fourth avenue, the expense of the bridge to be paid one-half by the Harlem Railroad and one-half by the city.

A bill authorizing the sale of school buildings in New York has passed both houses, and was on Saturday last signed by the Governor.

A bill is pending before the Assembly Committee on Cities establishing an exterior street along the East and Harlem Rivers in New York, but not to extend in any place further into said rivers than the present exterior bulkhead line, or line of solid filling, as now established by law between the point where the exterior bulkhead line, as now established by law, intersects the southerly line of Thirty-eighth street (or said line if extended in the same direction easterly), and the point where the pier and bulkhead line as now established by law would intersect the southerly line of Thirty-ninth street, if extended easterly in the same direction, the said exterior street shall not extend further eastward or outward than a straight line drawn between said two points. The westerly and inner boundary line of said street shall be a line drawn parallel with, and 150 feet westerly from the easterly and outward limit beyond which the same shall not extend, hereinbefore mentioned, but between the southerly line of Eighty-third street and the southerly line of Eighty-fourth street, the said westerly or inner line shall be a line drawn from a point in said southerly line of Eighty-third street, distant 176 feet easterly from the easterly line of Avenue B, to a point in the southerly line of Eighty-fourth street, distant 196 feet easterly from the easterly line of Avenue B, and said westerly or inner line shall then continue and extend northwardly from the point last named in a straight line to a point 246 feet east from the easterly line of Avenue B, and 75 feet south from the southerly line of Eighty-ninth street, and the easterly or outward limit beyond which said street shall not in any place extend shall be a line drawn parallel with 150 feet easterly from said westerly or inner line, and extended northwardly until it intersects said established pier and bulkhead line. The said exterior street shall commence at the southerly line of Twenty-third street, or at the point where the said southerly line, if extended in the said direction, would intersect the said bulkhead line as now existing, and shall extend northwardly and northwestwardly until the lines thereof shall intersect the easterly line of Third avenue and the easterly line of the Harlem Bridge respectively.

The several streets as now laid out, and extending to the East and Harlem rivers, shall be continued and extended along the present line from their present terminus to the new exterior street.

The Commissioner of Public Works is authorized to acquire, in the name and for the benefit of the Corporation of the City of New York, all upland, under water and wharf property within the limits as described above, including rights, terms, privileges and easement pertaining thereto, which would not be liable to extinguishment or termination in the event of the filling up or other improvement, by the city, of land under water in front thereof, to which it is entitled, and it is made the duty of the Corporation Council, upon notice by the Commissioner of Public Works, to apply to the Supreme Court for the appointment of commissioners of estimate and assessment to determine the value and assess property which may be benefited by the improvement. In order that the commerce of said city shall be interfered with as little as possible, the proceedings for the acquisition of said up-land land, under water and other property aforesaid, and also the construction of said street and bulkheads as hereinafter provided for, shall be undertaken in sections at different times, due regard being had in respect to priority of any particular section to the urgency of the necessity for such improvement.

§ 5. All the land above existing high-water mark, within the limits defined in the second section of this act, shall be regulated and graded by and under the direction and control of the commissioner of public works in said city. The remaining portion of the land and land under water within said limits shall be under the exclusive charge and control of the board of the department of docks, who may, in accordance with the grade thereof, fill up the same or such part thereof as they in their discretion may determine whenever they may in their discretion determine so to do, in accordance with such plan as they shall adopt for the improvement of said water front, subject to the approval of the commissioners of the sinking fund, and the said board may in like manner in their discretion, whenever they may determine so to do, and in accordance with such plan aforesaid, and with the like approval of the commissioners of the sinking fund, build bulkheads along the water line to be determined upon by them as aforesaid, and also change the existing bulkhead line in accordance with such plan, provided said line be not extended outside the existing line.

The act providing for the payment of the assessments for street openings and improvement in the Twelfth Ward north of One Hundred and Fifty-fifth street, and all of Twenty-third and Twenty-fourth Wards in yearly installments at 5 per cent. interest has passed the Senate.

The act to change the street known as Spuyten Duyvil Parkway, and the alteration of the map in that section has been advanced to third reading in the Assembly.

The proposed new charter was reported complete by the special committee of the Senate on Thursday, and ordered to a third reading. The few changes made required its reprinting, and further action was delayed until next week. The quarrel between the two Houses and the feeling that has been engendered by the difference on street cleaning, do not leave a very favorable prospect for the passage of the charter. What the Senate passes, the Assembly will not agree to, and the Senate will hardly concur in the Assembly's view of a charter, thus between the two, the bill bids fair to drop in the end.

The Assembly has advanced to third reading Senator Astor's bill requiring a certified check to accompany all proposals or bids for work in New York city, equal to from 3 to 5 per cent. of the amount of the bid.

The bill which passed the Senate a week ago, in reference to the completion of the entrances to Central Park on Eighth avenue, near the American Museum of Art, and to place that museum under the suppor of the city, have both been favorably reported in the Assembly.

The following act, reported in both Houses to-day by the joint committee on taxation and made the special order for next Tuesday afternoon, is of special interest to all holders of real estate and owners of bonds and mortgages. It opens the way for the borrower to make a contract with the lender in reference to the tax on the bond and mortgage.

It amends section 1, of title 1, of chapter 13, of part 1 of Revised Statutes as follows:

All lands and all personal estate within this State, except as hereinafter exempted, shall be assessed and taxed at full values, and without deduction for indebtedness of the person or of the property; but in case of such indebtedness, duly verified by the oath or affirmation of the person claiming the same, the tax collector shall, on demand, deliver to such person a certified statement of the amount of tax collected and the percentage of taxation. Such certificate shall be lawful evidence of money paid to and for the use and benefit of the creditor or creditors of such taxpayer and the amount so specified in such certificate shall be a legal and valid set off and counter claim against the interest and principal due or to become due such creditor or creditors for goods bought or money borrowed upon which such tax is paid, subject, however, to any agreement between such taxpayer and creditor as to the payment of said tax upon obligations drawing not more than five per cent. of interest; and any such agreement shall not be construed as violating the usury laws of this State. Credits or securities drawing not more than five per cent. of interest, owned by residents of this State and based upon or affecting property liable to taxation therein, except moneyed obligations of villages, towns, cities, counties, joint stock companies, or associations of this State, shall not be subject to assessment or taxation, but all credits and sureties upon property situated out of this State owned by residents of this State shall be taxed in full.

This act shall take effect Jan. 1, 1882.

BUILDING AND ORNAMENTAL STONES.

At the meeting of the New York Academy of Sciences, which was held at No. 12 West Thirty-first street, on Monday evening last, one of the members exhibited a number of specimens of Italian marble which had been sunk in a steamer in 1871. It was found that the surface to a depth of two or three inches was completely honeycombed in every direction. It was the general opinion that the perforations were the work of some marine insect which secretes an acid that had dissolved the carbonate of lime of the marble.

The principal feature of the meeting was a lecture by Mr. Alexis A. Julian, of Columbia College, on the subject of the Building and Ornamental Stones used in New York, and the microscopic method of examining their structure. Mr. Julian is known as an expert who has made a thorough and scientific study of this subject, and his remarks, which were illustrated by the magic lantern and screen were entertaining and instructive. To illustrate the microscopic appearance of rocks and stones, a thin section of each is cut and mounted, and the light passing through is projected upon the screen. The greater part of the lecture was of a strictly scientific and technical character, and some of the practical remarks and suggestions only can be given here.

People generally have little idea, the speaker said, of the number of different places from which the stones which are used here are brought. Flag stones, for instance, come from Central New York and along the Hudson River; roofing slates from Vermont and Pennsylvania; sandstones from Connecticut, New Jersey, Ohio, Nova Scotia and Michigan; limestones and dolomites from New England, New York, Tennessee, France, etc.; granite from the New England coast and along the Hudson River, while the trap rock that is used for pavements is found in the Palisade range that extends about fifty miles along the Hudson River.

Many specimens of the minerals that enter into the composition of the stones commonly used were projected upon the screen. Among these were augite, which is an important part of most rocks; hornblende, quartz, the various felspars, serpentine and mica. Specimens of the stones themselves were next shown, beginning with brick and terra cotta. If brick were a rock, it would be classed among the eruptive species, the image on the screen showing numerous fragments of quartz and felspar. Diabase or trap rock showed crystals of labradorite felspar which appeared in white bands, the dark part being augite. Specimens of this rock from Mount Desert, Maine, and from different parts of the Palisades and Northern New Jersey, were shown. It is used principally for Belgian pavement, only one building, the Stevens Institute in Hoboken, being known to be built of it.

Among sandstones the one most commonly used is brown stone or ochreous sandstone. It is found at Belleville and Plainfield, New Jersey, and Portland, Connecticut. As the name indicates, it is rich in iron, ochre being a fine clay deeply colored by the sesquoxyd of iron. Sericitic sandstone, or Nova Scotia stone, is so called because it contains the mineral sericite. The church at the corner of Madison avenue

and Fifty-seventh street is built of this stone. Ohio stone which was used in the Decker Brothers' building in Union square, does not differ much from Nova Scotia stone. A more impure sandstone is greywacke, which is not much used in building. A specimen is seen, however, in the trimming of the Academy of Design. Its peculiarity is that the finer silt is not separated from the coarse. Flag stone is only a variety of greywacke which is found in the Catskill region.

Among metamorphic rocks the dolomite of Westchester County, which was at one time much used, wears very badly. It is of coarse grain and decomposes easily. The stone used in the Cathedral came from Lee, Mass., but the face stone of the Academy of Design was Westchester County marble. The greywacke trimming of the latter building wears very well. Serpentine is not so much used here as in Pennsylvania, where it is found, but the synagogue on Lexington avenue and St. Bartholomew's Church are built of it.

Specimens of granite from Singapore, India, and Conway and Concord, N. H., were shown. The last-named, which was used in building Booth's Theatre, contains biatite, a dangerous mineral, where it occurs in a coarse-grained stone, although it lasts very well in a fine-grained. Many other specimens of different varieties of granite were shown. There are many kinds used, and sometimes on structures like the East River Bridge eight or ten different varieties may be seen on different parts of the work. The St. Lawrence County granite, which is sometimes used, is of coarse texture; but most of the granite utilized here comes from points on the New England coast, such as New London, Plymouth and Stony Creek, Conn., and Westerly, R. I., where there are large quarries. The stone used on the New York post-office came from Dix Island, Maine. The Custom House, Astor House, the church at the corner of Lafayette place and Fourth street, and the Bunker Hill monument are of Quincy granite. This is not, however, the best kind of building granIte, as it is liable to decompose. Rockport granite is of a similar coarse description, which admits water into its pores and is thus disintegrated by changes of temperature.

Syenite, which is named from Syene, in Egypt, where it was procured, is merely a hornblendic granite. This stone, from which the obelisk was cut, contains either hornblende or biatite, or both. Judging from an examination of its composition it seems unwise to expose it to the action of the elements. The Lenox Library Building, of Lockport limestone, already shows signs of decomposition from simple weathering. This stone, which is composed of fragments of shells, corals, etc., is not fit for such a use. The Caen stone of Europe, technically known as oolite, is somewhat similar, but is far superior in wearing qualities. The reason of this seems to be that the impurities in the latter appear under the microscope to be gathered together in round grains which are well cemented together. This stone is so soft when newly quarried than it can be readily sawn, but it becomes hard upon exposure. It has been only sparingly used in this country, but it may be seen in Trinity Chapel and the reredos of the Cathedral.

Foreign architects are much more careful in selecting the stones which they use in important buildings than are Americans. Especial care should be taken regarding granites and limestones. But the whole matter of determining and illustrating the qualities of rocks needs investigation. In laying stones in a building, the position which they occupied in the quarry should be taken into account. Brown stone, for instance, should be laid with its laminae level, as it is thus far less liable to weathering. The strength of the minerals composing the stones in use has never been determined, nor how the arrangement of the minerals affects their wearing qualities. One great cause of the disintegration of rocks is believed to be the state of tension in which their component parts are held. When this tension is relieved by cutting or breaking one part, other parts of the stone become granulated. This is the case with Tuckahoe rock.

In considering the durability of rock, many things are to be taken into account. Pyrites in slate ruins it for use by oxidation, consequent upon exposure. The porosity of a stone is an important consideration, as a porous stone admits damp, and is liable to weathering; but one stone is able to resist the disintegrating process better than another. There is a great difference also as regards the resistence to fire, and of late years granite has proved to be easily destructible by heat. The difference depends upon the expansion with heat, and the quality of the cement of the stone. The original tension of the grains is increased with heat. The hydration, or moisture, also affects the resistance to heat, but perhaps more important is the amount of liquid carbonic acid, which is an important constituent of many rocks. Quartz explodes with violent heat, and the obelisk would be unsafe material to expose to fire.

HOUSES WORTH LOOKING AT.

The six houses on One Hundred and Twenty-third street, between Mt. Morris and Sixth avenues, being built by Robert McGinnis, and now approaching completion, are among the finest and most perfect private residences in New York. The location is a favorable one, being within 200 feet of Mt. Morris Park, in sight of Central and Morningside Parks, and only two blocks from the Eighth avenue elevated road. These houses front north and south, and run east and west. They are divided into pairs, the two end houses corresponding with each other, and the two pairs in the centre differing from each other. The basements, which are on a level with the sidewalk, are 9 feet high, and laid out as dining-rooms, and will contain all the modern appliances, such as dumb-waiters and refrigerators. Each kitchen is supplied with a St. George range, and the washtubs are of Roman cement, set on iron frames.

The system of plumbing is a novel one. To prevent any sewer gas entering the houses, an iron pipe is inserted in the soil pipe just inside the front foundation, and extends to the roof and four feet above it. The waste and soil pipes, which also act as ventilators, are each carried four feet above the roof. The marble mantels will be neat and becoming to each story. All of the houses will be heated by Mott's large-sized improved heaters. The kitchens will be trimmed throughout with Georgia pine and black walnut.

The parlors will be of good height, well proportioned, with magnificent mirrors in the halls and front and back parlors. In the second story the stairs and balustrades are black walnut. The bath tubs and water closets will be protected with heavy leaden safes underneath. The bed rooms in this story, front and rear, are large and commodious, furnished with wash basins and wardrobes, and the front and back rooms are separated by sliding doors. Great care has been taken in the selection of the trimmings, and the houses will have all the modern conveniences. The finish throughout all the houses will be hardwood cabinet style. The halls and stair cases are panelled with French and black walnut. All the vestibules will be elaborated tiled. The tow end houses are so uniquely laid out as to suit the most fastidious taste, while the four centre houses will equal them in style of finish and beauty of design. The plumbing has been done by the old firm of J. McLaughlin & Co.; the plastering by Peter Coyle; the bells and speaking tubes will be furnished by Thomas Farrel; dumb waiters by J. Murtaugh; the heating apparatus and ranges by the J. L. Mott Iron Works; mantels and marble work by Samuel Bailey; sash, doors and trimmings by C. B. Keogh & Co.; the mason work has been done by Michael J. Daly; the brown stone fronts of new and elaborate style were furnished by John Cullen; stairs by H. H. Mise. The fronts are elaborately cut, presenting a bold appearance, and surmounted by a very handsomely finished cornice of the composite order with Ionic volutes. The caps of the front doorways stand out boldly and are finely finished in the Ionic order.

This being a very choice and select neighborhood, these admirable houses cannot fail to attract the attention of purchasers. The plans of the above buildings were drawn and their construction superintended by Mr. Charles Baxter, architect. The walls entire, including the foundations, are of the best hard brick.

The Commissioners of the Department of Docks will receive proposals for preparing for and building a new wooden pier at the foot of West Fifty-eighth street, at their office 117 and 119 Duane street, until noon of Friday, April 22, when the estimates will be opened.

Estimates for the following works will be received at the Department of Public Charities and Correction, No. 66 Third avenue, until Tuesday, April 26, at 9 30 A. M., viz.: (1.) The mason work, iron work, carpenter work, and materials required in the erection of water closet tower on Bellevue Hospital grounds. (2.) The steam heating and ventilating to be done in said tower. (3.) The plumbing and gas-fitting to be done in said tower. (4.) For one locomotive boiler for laundry at Charity Hospital. (5.) For steam heating apparatus and other steam and pipe work for said laundry. (6.) For laundry work, etc, for said laundry. (7.) For plumbing and gas-fitting for said laundry. (8.) The work and materials required in the erection of a one-story erysipelas pavilion on dock at Bellevue Hospital.

The Board of Commissioners of the Department of Public Charities and Correction will receive proposals for the following works until Thursday, April 21, at 9.30 A. M.: (1.) The work and material required in the erection of a one-story quarantine pavilion on Randall's Island. (2.) The slating and tinning required for the one-story quarantine pavilion on Randall's Island. (3.) The mason work and material required in the erection of the east wing for Insane Asylum on Ward's Island. (4.) The cut stone and setting required in the erection of east wing for Insane Asylum on Ward's Island. (5.) The carpenter work and materials required in the erection of the east wing for Insane Asylum on Ward's Island. (6.) The iron and wire work required in the erection of east wing for Insane Asylum on Ward's Island. (7.) The slating and tinning required in the erection of east wing for Insane Asylum on Ward's Island. (8.) The work and material required in the erection of a one-story pavilion at Almshouse on Blackwell's Island. (9.) The slating and tinning required for the one-story pavilion at Almshouse, Blackwell's Island. (10.) The mason work, iron work, carpenter work, and materials required in the alterations and additions to be made to engine house, kitchen and laundry at Lunatic Asylum, Blackwell's Island. (11.) The slating and tinning required for the alterations and additions to be made to engine house, kitchen and laundry at Lunatic Asylum on Blackwell's Island.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages ii, iii and v of advertisements.**

There has been a good attendance at the Exchange during the past week, and a considerable amount of property has been disposed of. As usual, well located realty commanded high prices, and vacant lots, just ahead of improvement, were in eager demand at advancing figures. But out of the way lots brought lower prices than they did last fall and winter. The speculative investor is as yet conspicuous by his absence from the real estate market. There is an abundance of unimproved property for sale at moderate figures. There were more fancy values in January and February, 1880, than at any time in April, 1881. Indeed, the real estate market was never more wholesome. There is an investment demand from cautious, prudent capitalists, but dealers who have bought out of the way lots on contract, hoping for a "boom" this spring, have been very greatly disappointed, and some have lost money. In fact, there has been a halt in prices. The landlords in the neighborhood of the Stock Exchange, who doubled up their asking prices in January for office rents, now find they overdid the business, and there are abundance of offices to let to-day at much lower figures than early in the renting season. Another fact has come to light. There are more houses to rent in New York than was supposed would be the case early in February. While there have been large additions to the population of New York, the number of old residents who are going to Europe this year is phenomenally large. All the outgoing steamers are crowded, and every berth is taken up to the 15th of July. Many of those who leave are renting their houses, and this has furnished a larger supply than was anticipated. There is every evidence, however, that early in the fall there will be an unusual demand for residence property. It should be borne in mind that, as yet, there has been no general advance in prices. Cotton, the cereals, metals and food are cheaper than they were in the early spring of 1880. We are on a bullion and not on an irredeemable paper basis. It is hardly reasonable, therefore, to expect the highest prices, such as those which obtained in 1870, except where there are likely to be such improvements as will yield a remunerative return. But the speculation will come inevitably, and they are wise who buy now, when prices represent real and not speculative values.

The sale, by order of the Supreme Court, on motion of General Edward Merwin Lee, plaintiff's attorney, of a portion of what was known as the old Bleecker Farm, on Broadway, Bleecker and Mercer streets, will take place on Friday next at the Exchange Salesroom, and will attract much interest. There have been but three actual transfers of this property within a century, and it has not changed hands since 1821. The first transfer is dated May 12th, 1789, Nicholas Herring and Anna, his wife, to Anthony J. Bleecker and Mary, his wife, consideration, £375 ($1,875); the second, Anthony J. Bleecker and Mary, his wife, to Gurdon S. Mumford and Letitia, his wife, consideration, $3,050, dated January 27th, 1813; the third, Gurdon S. Mumford and Letitia, his wife, to William McAdee and Jeremiah J. Drake, July 25th, 1820, for $5,100, and on March 7th, 1821, William McAdee and Jeremiah J. Drake to Benjamin Stevens and William L. Lippincott for $5,100.

Stevens and Lippincott were partners, and both died intestate, the former in 1836, the latter in 1856, and the sale which is now to take place is in partition for the heirs, of whom there are forty. Among the heirs are the Stevens family, Mrs. Clemence Fish, wife of our present Charge d'Affaires at Berne, Switzerland, and

Marius Willett, grandson of Col. Marius Willett, a prominent colonial officer at the time of the Revolution. At the time the first transfer spoken of was made, Broadway was known by the name of St. George's street, and Mercer and Greene as First and Second streets respectively. The buildings on the property are sixty years old, and are rich in reminiscences, while the auctioneer, Mr. A. J. Bleecker, a descendant of Anthony J. Bleecker, to whom the first transfer was made, and who will sell the property, is 81 years of age, hale, vigorous and able yet to out-cry many of our young auctioneers.

Prudent people should not overlook the sale of 205 lots in the Eighth Ward of the City of Brooklyn next Thursday, the 21st inst. These lots belong to the estate of Joseph Drake, and the sale is peremptory. The property to be sold overlooks the surrounding country and is near Prospect Park. This sale will test the present valuation of property in our neighboring city. For further particulars see Messrs. Adrian H. Muller & Son's advertisement elsewhere.

Shrewd investors would do well to avail themselves of the chance afforded by the sale by E. H Ludlow & Co., of Thirty-fourth street and First avenue unimproved lots, on Wednesday next, April 20th, at the Real Estate Exchange. The neighborhood is not inviting to look upon, just at present, but there is a great deal of future money in property in this locality. The Thirty-fourth street Ferry connects with the whole Long Island system of roads, and is so important, that it is the first direct connection made with a ferry by the elevated road system. Twenty persons cross this ferry to-day, where one did seven years ago, and in very few years, as many people will land in New York at the foot of Thirty-fourth street, as now come to Fulton or Cortlandt street ferries. The particulars of this sale will be found in our advertising columns. Morris Wilkins is the auctioneer.

Adrian H. Muller & Son will sell on Tuesday the house and lot, No. 43 Seventh street, 25x75, and the brown stone house and lot, No. 491 West Fifty-seventh street, 20x100.5, on Wednesday the brick house and stores, Nos. 328 and 330 Water street, corner of Roosevelt street; and on Thursday, 205 lots in the Eighth Ward, Brooklyn, and situated on Ninth, Tenth, Eleventh and Prospect avenues, and Seventeenth and Eighteenth streets.

There is to be a sale on Monday, April 18, at noon, of Brooklyn real estate at No. 379 Fulton street, opposite the City Hall, which will undoubtedly attract a large attendance of buyers. Richard V. Harnett will then sell the Brooklyn property of the Globe Mutual Life Insurance Company. It comprises some very excellent houses in various choice quarters of the city of Brooklyn. There are also some unimproved lots in front of Prospect Park. Real estate is low in Brooklyn, and this is an exceptionally good chance to get cheap property. The sale is positive under an order from the receiver.

R. V. Harnett will sell on Tuesday the house and lot No. 24 Downing street, 28x75; house and lot, 25x100, on the north side of One Hundred and Fifty-ninth street, and six lots on Tinton avenue, running through to Union avenue, 165.2 feet north of One Hundred and Sixty-third street, and on Wednesday the house and lot No. 109 East Sixty-seventh street.

Messrs. Scott & Myers will sell on Tuesday next four lots on Eighty-third street, near Riverside Park; four lots on Eighty-fourth street, between Eighth and Ninth avenues; four lots on Ninety-sixth street, running through to Ninety-fifth street; ten lots on Ninety-eighth street, 100 feet east of Tenth avenue; one lot on One Hundred and Twelfth street, 250 feet west of Seventh avenue; house and lot, 20x100, on Eighth avenue, 50 feet north of One Hundred and Forty-first street, and the northwest corner of Eighth avenue and One Hundred and Twentieth street.

There is a fine chance to buy a really magnificent brown stone house which is to be sold on Monday, April 18, at the Real Estate Exchange. L. J. & I. Phillips are the auctioneers. It is a splendid house, and two-thirds of the purchase money can remain on bond and mortgage at 5 per cent. interest. The furniture will be sold at auction the following day. This is a rare chance to purchase first-class property.

Mr. Hugh J. Grant has recently given up the practice of law in order to take charge of the estate left him by his father, which includes the "Grant" flats in West Fifty-fifth street. He has opened a real estate and insurance office at 303 West Fifty-fourth street, where renting and collecting will be specially attended to.

E. F. Raymond will sell on Wednesday next the store and lot on Third avenue three doors north of One Hundred and Forty-third street.

William Howe has plans for two five-story buildings, 50x85 feet, to be erected on Sixth avenue, near Fifty-eighth street. For the present the buildings will be used for a public hall, but they are designed ultimately for stores and apartment houses. The cost will be, $50,000.

Van Tassell & Kearney will sell on Wednesday six lots on One Hundred and Fifty-second street, running through to One Hundred and Fifty-third street, 425 feet west of Tenth avenue.

Bernard Smyth will sell on Tuesday the residence of Judge Donohue and two cottages, all at Far Rockaway, L. I.

Gossip of the Week.

Mr. Max Danziger has sold the block of ground on the west side of Second avenue, between Eighty-fourth and Eighty-fifth streets, 201.4x100.8, to Q. W. Hawkes, for $54,000. Mr. Hawkes is going to erect a row of first class brown stone flats, with all the latest improvements, on the above-described premises.

Also eight lots together, commencing at a point 325 feet east of Second avenue, on Eighty-fifth street, and running through to Eighty-sixth street, for $55,000, to Mr. James A. Frame, who intends to erect a number of stores and flats.

The above-described properties were lately purchased by Mr. Danziger from Elizabeth Pearsall, of Westchester, for $90,000.

The same gentleman has also sold the southwest corner of Seventieth street and First avenue, 100x105, to Andrew Kelly for $27,500, who is going to build five fine stores and dwellings.

Also, three lots, adjoining the above-described premises, to Thomas H. Walker, for $15,000.

Also the plot of ground commencing 100 feet east of Third avenue on Seventieth street, 102x100, to John Frame and Mr. McGirr, for $26,880.

Messrs. Beadleston & Woerz have sold four lots on Seventy-fifth street, commencing at a point 95 feet west of Madison avenue, to Mr. C. L. Tiffany, for $96,000.

The block bounded by Tenth and Eleventh avenues, and One Hundred and Fiftieth and One Hundred and Fifty-first streets, containing eight lots on each avenue and twenty-three on each street (sixty-two in all), was sold on Wednesday last for $150,000.

The sale of the two lots at the southwest corner of Fifty-third street and Fifth avenue has been incorrectly reported, the contract not being signed as yet, although Elbridge T. Gerry will become the owner of the property to-day, for $73,000.

Mr. John J. Clancy has sold a lot on the west side of the Boulevard, 47.1 south of Seventy-sixth street, 28.6x130x21x124, account of the estate of H. Kelly, for $13,000 cash.

This property together with the corner on Seventy-sixth street, making a full front of 75.10, will be immediately improved by the erection of a first class seven-story apartment house.

Mr. Charles Buek has sold the four-story brown stone house No. 689 Madison avenue, southeast corner of Sixty-second street, 25x50x93, to Miss Theodora Polhemus for $47,000. This completes the sale of the six dwellings erected at this point by Mr. Buek, and he has also sold the four-story brown stone house that is being erected at No. 301 Lexington avenue, 26x50x75, to Mr. James H. Humphrey for $40,000; the house will be ready for occupation by October 1.

Mr. Edward Clark has purchased the plot of ground on the northwest corner of Eighth avenue and Seventy-third street, 50x100, for $52,500.

A. B. Van Duzen has recently sold six houses at a very handsome figure. One on One Hundred and Twenty-third street, for $19,500; the corner house for $30,000; and four on Mount Morris avenue, for $24,300 each. In round numbers the sale amounts to $150,000. It is said that Mr Van Duzen cleared $45,000 on the property, thus making a very handsome profit on his investment.

S. M. Blakely has sold the house and lot 539 West Fifty-ninth street, 25x70x100, for $14,500.

Mr. George H. Allen has purchased the handsome dwelling No. 41 East Fifty-sixth street, 25x55x100, for $60,000.

W. A. Armstrong has sold the two-story brown stone dwellings Nos. 425 and 427 East One Hundred and Twenty third street for $9,000; the two-story brown stone house No. 441 East One Hundred and Seventeenth street for $5,800; a lot in Seventy-third street, 750 feet east of First avenue, for $3,000, and the two three-story brick dwellings Nos. 105 and 107 East One Hundred and Twenty-first street for $7,500.

Mr. J. Edgar Leaycraft has sold the four-story brown stone flat No. 123 West Fifty-fourth street, 25x70x100.5, for $16,250; the three-story brown stone dwelling No. 450 West Forty-third street, 20x50x100.5, for $10,800; the four-story brown stone dwelling No. 144 West Forty-sixth street, 15x60x100.5, for $15,000, and the four-story brick tenement No. 502 West Forty-sixth street, 20x55x100.5, for $7,250.

Mr. F. E. Barnes has purchased the dwelling No. 115 East Twenty-fourth street for $11,400.

Thos. Floyd Jones has sold the new four-story and basement brown stone house at the southwest corner of Mount Morris avenue and One Hundred and Twenty-fourth street, to N. J. Haines, for $30,000.

Three lots on the north side of One Hundred and Twenty-fifth street, 160 feet west of Fifth avenue, have been sold by Aldhous & Smyth, for $9,000 each. A small loan was granted by the seller, and the property is to be improved immediately.

John Gorman has sold the three-story brick house, No. 175 East Seventy-eighth street, 18.9x45x102.2, to Mrs. Koehne, for $8,000, the three-story and English basement dwelling, No. 154 East Eighty-second street, 16.8x40x80, to L. O'Reilly, for $7,600, two lots, 50x102.2, on the south side of Eighty-second street, between Lexington and Fourth avenues, to F. Correll, for $14,600, and one lot, 25x82.6, on the northwest corner of Eighty-fourth street and Fourth avenue, to E. Rafter, for $8,000.

Leonard J. Carpenter has sold the five-story store and tenement, No. 729 Third avenue, 20x50x65, for $16,250, to Mr. Techner.

William F. Croft has sold the handsome four-story brown stone house at the northwest corner of Sixty-fourth street and Madison avenue.

Messrs Benner & Zeller have sold two lots on the north side of One Hundred and Sixteenth street, 100 feet east of Second avenue, to Munch & Loehr for $12,000, who intend to immediately commence the erection of two elegant four-story brown stone flats.

The same brokers have sold the four-story brick house, No. 233 East Seventh street, to J. Scheina, for $7,500.

Messrs. Dunn & Oatman report the real estate market in Orange, N. J., as very active at advancing figures, the advance already recorded, both in the price of realty and rentals, being proportionately as great as in this city. They have recently sold a frame cottage and lot, 75x100, on Linden place for $12,000 to the Duchess of Castelluccia.

Also, a lot on Lincoln avenue, 261x333, for $3,135 to Robert Westcott, and a lot on Berkly avenue, 271.6x600, on private terms to M. F. Oatmen, who intend building a handsome mansion in the Queen Anne style.

Twenty-third and Twenty-fourth Ward News.

Two lots each 50x100, and each containing a two-story and basement frame dwelling, on the south side of One Hundred and Fifty-ninth street, 300 feet west of Elton avenue, were offered for sale at public auction, by George E. Sherwood, on Wednesday April 13. The highest bid that could be obtained on the one first put up was $1,900, and the property was withdrawn. It was said that the owner would not accept less than $4,000 for the house and lot put up.

A lot on the south side of One Hundred and Sixty-ninth street, near Franklin avenue, 25x100, owned by Fred. Zelling, was sold last week for $1,100.

Mr. George C. Goeller, of Mott Haven, says that there is a great demand for small houses in that district to rent from $15 to $40 per month. He has had as many as thirty to forty applicants in a single day and up to this week has let ninety-seven dwellings this year.

The three-story brick houses that Mr. O'Gorman is completing on One Hundred and Forty-first street, between Willis and Brook avenues, rent readily at $600 per annum, and the two-story houses in the same vicinity at a corresponding figure.

Brooklyn Gossip.

Dunn & Oatman have sold the following Brooklyn property: a lot and three-story brown stone house, 20x50x100, on Bedford avenue, between Willoughby and De Kalb avenues, to the Duchess of Castelluccia, for $10,000; and in the same block a very handsomely frescoed brown stone house and lot, 20x50x100, to Mrs. Schuyler, for $15,000.

W. F. Brown recently sold a three-story brown stone front house on Hancock street, near Bedford avenue, belonging to Mrs. Russell, to A. G. Bailey, for $9,000.

John F. James has sold a narrow brown stone front house, located at 402 Sackett street, for $4,750; also, a three-story brick house, at 133 Henry street, for $9,950.

Mr. J. E. Cornell has sold two three-story houses and lots, 16.8x40x100, on Sackett street, Brooklyn, between Court and Clinton streets, for $4,500 each; two two-story and basement brick houses and lots, 18x36x100, on Wyckoff street, between Bond and Nevins street, one for $3,000, the other $3,400, a three story and basement brick house, 20x36x100, on Elliott place, between Hanson place and Atlantic street, for $5,500; a two-story and basement brown stone house on Madison street, between Clason and Franklin avenues, 20x40x100, for $6,000; a three-story and basement brick house on Jefferson street, between Franklin and Bedford avenues, 20x36x100, for $5,000, and a two-story and basement brick house on Wyckoff street, between Court and Smith streets, 20x34x100, for $3,300; also, a three-story house on Atlantic avenue, between Fifth and Sixth avenues, 25x40x100, for $4,000.

The following are the sales at the Exchange Sales room for the week ending April 15:

BUILDING MATERIAL MARKET.

BRICKS.—The market for Common Hards has undergone scarcely any change so far as values are concerned since our last report, but has shown a pretty firm tone, and sellers may be considered as retaining most of the advantage. A change in the wind and tides brought forward a somewhat larger supply of stocks, but this was fully neutralized by an increased consumption, and full former rates were, in consequence, secured, with buyers submitting to extremes quite readily on anything showing really first-class quality. There is still a considerable accumulation at the various points along the river, and in some instances owners are shipping forward regularly as fast as vessels can make the round trip, but there is also a number of manufacturers who commence to complain a little over the price, and think that the situation warrants a somewhat higher figure all around. Following up this idea they forward supplies with same caution, and it is said will hold back to a still more positive extent as soon as the smaller holders are cleaned out. Preparations for the resumption of the production are in a forward state, and while it is likely to be some little time before work can fairly commence, it is understood that it will be conducted without restrictions. Quotations range at $6.50@7.00 for Haverstraws, $5.75@6.00 for "Up Rivers" and $5.00@5.25 for Jerseys. Pale Bricks were selling slowing and ruled only barely steady at $2.50@3.00 per M. Fronts have a steady tone with a fair general trade doing.

GLASS.—The general distribution is moderate on interior orders, and the market as a whole has a dull, uncertain sort of tone. Local wants, however, are full, and in most cases holders of the stock express themselves confident over the future. It is expected that the home production will be reduced materially within two or three months.

HARDWARE.—The market shows about the same general features for some time noted. There is an irregular tone to the demand, and orders came forward spasmodically, but business is on the increase and holders of desirable supplies are correspondingly cheerful in their views. A great many points in the interior were scantily stocked at the commencement of the year after the taking of inventories, and with the natural consumption since, it is thought that accumulations must be seriously reduced. Local wants also are almost sure to be large, and confidence among sellers is quite general. Supplies and assortments available are full, and the Trade here well prepared to meet any ordinary call made upon them, and, as a rule, former rates are quoted, though in some instances a slight irregularity developes.

At a recent meeting of manufacturers the following revised discounts were adopted: Machine Bolts and Lag Screws, discount 65 and 5 per cent.; Nuts, 8½c., and Washers, 7¼c. off list.

LABOR.—Notwithstanding the sensational reports in the daily papers there is still an absence of "strikes." Employers have manifested a disposition to listen to any reasonable demand. Mechanics have asked nothing out of the way, and so far as indicated up to the time of going to press it seems likely that trouble will be avoided through the conservative feelings entertained on both sides.

LATH.—The market has had another pretty severe attack of "too much lath," and the tone was easy throughout. The break to $1.50 per M referred to in our last was the result of pressure of large arrivals from Maine ports and the Provinces, and while the price proved attractive enough to draw out a demand sufficient to exhaust the bulk of the supply afloat, it has not been of an active character and receivers could secure no basis for a recovery of tone. The fact is, a very heavy supply has gone into the hands of dealers this spring, and they are therefore in a condition to act somewhat independent, and while an immense consumption is accepted as a positive result ahead, further anticipation of their wants is not a policy of buyers. Beside this we hear much complaint over quality, and it is said that some of the offerings were very inferior even for this market which generally affords an outlet for almost any kind of stock. At the close receivers make the usual claim of small amounts to come, and talk a little more steadily in some cases, but the feeling is unsettled with $1.50 per M certainly extreme, and some of the least desirable parcels selling a fraction less.

LIME.—A pretty good business has been done in Eastern stock, and on Common the offering again sold close, with evidences that more could have been used if here. This has supported value well, and the full former figure remains current. On Finishing, however, a weakness has developed, the demand proving rather slow and indifferent, the supply excessive, and receivers compelled to sell, with the final result to be found in a drop to $1 per bbl., making the cost uniform with that of Common. State lime somewhat unsettled, but follows about the same general cost as Eastern.

LUMBER.—Very much the same general features appear to be presented by the reports from members of the Trade, as those named for a week or two past. In a few instances there is much firmness shown, and especially so upon Yellow Pine, but, as a rule, there is slight degree of irregularity, and a want of success follows most efforts to work the market into anything better than a fairly steady position. There is as yet nothing shown to neutralize the expectations of a large consumption, and there is every reason to believe the export movement will continue equal to last year, and may reach a portion of the great excess some operators have been claiming. Present buyers, however, are not in large attendance or anxious mood, except for specials of the grade above mentioned, and as, under these circumstances, only a small addition to the offering forms a surplus, even the most confident and careful sellers are placed at a disadvantage, temporarily. Accounts from primary sources are still very firm in all cases.

Spruce has not taken positive position in favor of either buyer or seller as yet, and at times the market shows quite a doubtful tone. Receivers, however, have managed to work off a goodly portion of the accumulation and hope to keep it down sufficiently to prevent any further serious break on values. About $15 per M seems to be the average rate at the moment, and while some forced sales may have been made for less there is nothing offering to arrive except at a trifle higher. Specials nominal at the moment.

White pine has apparently been plenty enough to satisfy all demand and without greatly changing the line of cost. Some rumors have been current to the effect that a few dealers were quietly seeking sale for a portion of their stock at a reduction, but investigation does not seem to endorse the story. On the contrary the average expression is firm and confident, with sellers looking for a steady daily addition to business on home account at least. No supplies are within reach except at relatively higher cost than here. We quote $17@19 per M for West India shipping boards; $24.50@26 for South America do; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow Pine retains its former exceptionally strong position, and there appears no danger of an immediate reaction on the market. There is nothing new, the support as before coming through the liberal engagements already in the hands of manufacturers and the constant pressure upon them to accept additional contracts even at somewhat higher rates. Spot supplies are not much in favor, but are held steadily, especially good dry flooring. We quote random cargoes at about $23.50@25 per M; ordered cargoes, $26@27.75 do.; green flooring boards, $24@26 do., and dry do. do., $25.50@27. Cargoes at the South, $15@19 per M for rough, and $20@24 for dressed.

Hardwoods generally remain steady, and a good outlet would be afforded for attractive and desirable stock. Buyers, however, have, in a few cases, shown a trifle more caution, as offerings at primary points are a trifle larger, with the exception of choice walnut. The export demand very fair. We quote at wholesale rates by carload about as follows: Walnut, $77@85 per M; ash, $35@38 do.; oak, $40@45 do.; maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ½ and ⅝ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles find a good and increasing demand, especially on home account, and the market is firm for all the leading styles. We quote Cyprus at about $6 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30 inch, $16@22.25 for A and $28.75@32.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

From among the lumber charters and engagements recently reported, we select the following:

A Nor. barque, 436 tons, from Doboy to the Continent, sawn timber, £5 12s. 6d. A Nor. barque, 766 tons, from Brunswick to Carthagena, Spain, lumber, private terms. A schr., 181 tons, from Fernandina to Port Spain, lumber, $9.75, option of a second port, $10. An Am. barque, 501 tons, hence to Port Spain, lumber and general cargo, at or about $20.00. A schr., 266 tons, hence to Jacksonville, stone, $1.50, and back to Philadelphia, lumber, $7.50. A schr, 200 M lumber, from Darien to Newburyport, $7.50. A schr., 414 tons, from East Apalachicola to Boston, lumber, $9. A schr., 260 M lumber, from Fernandina to Boston, $7.50. A schr., 357 tons, from Philadelphia to Charleston, coal, $1.25, and back with lumber, $6.50. A schr., 200 tons, from St. Simon's Island to Waldoboro, Me., lumber, $8.50. A schr., 250 M lumber, from Brunswick to New York, $7.25. A brig, from St. John, N. B., to New York, piling, 3c. per running foot. A schr., 240 tons, hence to Jacksonville, general cargo, and back with lumber, $10 for the round. A schr., 350 M lumber (30 M per day), from Savannah to New York, $6.25. A schr., 300 M lumber, from Pensacola to Boston, $9. A schr., 122 tons, hence to Key West, general cargo, and back from a second port, lumber, equivalent to $12. 0. A schr., 216 tons, from Jacksonville to New Haven, lumber, 8 50.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.
West Indies	1,302,821	12,602,284

Europe, United Kingdom	337,500	1,361,875
Total	2,150,491	22,733,188

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus

FOR THE WEEK ENDED APRIL 12, 1881.

There is a good steady trade in lumber with a fair attendance of buyers during the week. The demand is well distributed among the dealers in Pine and coarse lumber and in hardwoods. Coarse lumber is freely taken on arrival and some receivers are over-sold. Prices of all kinds of lumber are steadily held.

Although the receipts of lumber from Canada will be free, the stocks wintered at the Georgian Bay mills, and at other points in Western Canada have been sold and largely for local consumption.

The large increase in production at the West and in Canada, and the late opening of lake navigation brings the question of lake freights into prominence. From Bay City to Buffalo and Tonawanda, whence the rate, a few days ago, was given at $2.25@2.50 ₱ M. feet, was reported to us this forenoon at $2.50@3 00; to Oswego from Toronto, $1.50; from Port Hope, $1.15 @1.25; from Bay Quinte, $1.00. High canal freights are also looked for.

River freights are:

To New York, ₱ M ft	$	@1 00
To Bridgeport		@1 37½
To New Haven		@1 37½
To Providence, Fall River and Newport	2 00	@2 25
To Pawtucket	2 25	@2 50
To Norwalk	1 25	@1 30

THE WEST.

The Northwestern Lumberman as follows:

CHICAGO, April 6, 1881.

At this time last year navigation was open, and the spring business had got fairly under way, with receipts reaching to 10,500,000 feet per week. The present season finds us with thick ice in all the harbors of the lakes, and the big lakes themselves presenting more dangers than inducements to the navigator, while no one hazards his reputation in predicting how soon vessels can put out from port. But, if the two seasons present a contrast in this respect, there is another in which the contrast is equally strong, and we refer to the fact that the shipments of the past week are over 33⅓ per cent. greater than for the corresponding week of 1880, as evidence that business is far better at this time, and that from all the surroundings we are warranted in assuming that, though the season bids fair to be a remarkably short one, it is to be a busy one. The figures of shipment really indicate a volume equal to 23,794,000 feet, or nearly 4,000,000 feet per day for the week, against 18,068,000 feet, or 3,000,000 feet per day, in 1880, and this exclusive of a heavy local trade largely exceeding the volume of 1880.

And yet trade cannot be called lively, for the weather still presents very unfavorable aspects, and outdoor work cannot be freely undertaken. It has been found difficult, too, to obtain the requisite cars, and we find many dealers complaining of inability to fill their orders on this account. In view of the fact that a large area of the territory which seeks its lumber supplies at Chicago is now suffering from the melting of the heavy bodies of snow which have accumulated through the winter, that the rivers and streams of Missouri and the West are threatening to overflow their banks, and in short that all the discomforts of a breaking up of winter are being experienced, it must be allowed that the movement of so large a quantity of lumber as is daily being shipped from Chicago is evidence of a large and extending business, giving promise of all that the trade has hoped for, when spring opens.

Prices are well maintained, so far as we can learn, and dealers are more afraid of not having stock to supply the demand, than of entering upon the new season with too much.

SAGINAW VALLEY.

Lumberman's Gazette.

The market presents no new features this week and there is not likely to be any marked change until after the opening of navigation. Prices are firm, indeed too much so to meet the views of buyers, who would like to see more of a disposition to make concessions. Some of them have been waiting, expecting the usual bear movement which has depressed prices every spring for several years, but they will be disappointed. The signs of its coming are not visible. The spring of 1881 will pass without any change in prices unless it should be a change for the better. There is not a large amount of stock on sale in the valley, except of the coarser quality, and a conviction has found lodgment in the minds of manufacturers that the demand will be sufficient to absorb all there is unsold of that grade without any abatement of prices. There have been a number of dealers from the eastern cities in the valley the past week looking over the stock, and some sales have been made. One lot of 500,000 feet changed hands at $7.25, $14.50 and $35 and 1,000,000 feet at $7.50, $15 and $36. Other sales are said to have been made.

There is a good car trade doing by the yards and a large amount of lumber is leaving the valley in that way.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.

Notwithstanding the interruption of railroad operations by snow blockades and floods in the great Missouri valley, and the Northwest generally the lumber business exhibits considerable activity. Chicago is shipping a million and a half, St. Louis nearly a million per day and Minneapolis two and a half million per week, and other markets a corresponding amount. All are cheerful and confident of a heavy spring business. Among the items worthy of note as indicating this feeling is the fact that the Lumbermen's Association, comprising the trade at Davenport, Rock Island, Moline, Muscatine and Burlington, at a meeting last week resolved to offer the railroads of Iowa one-half cent per ton extra, if they would furnish 500 extra flat cars for use in carrying lumber. Davenport will furnish 30,000 car loads, but has been greatly troubled to get cars. The reports from the East and Canada shows an equally satisfactory condition of the trade here.

The logging season is about closed although a few crews are yet clearing up the cuttings on half bare slushy roads and getting ready for the drives.

The cut is ample but will not be in excess of the demand anywhere, while the increased value of stumpage and the cost of logging (every year on the increase), furnishes an assurance that there will be no falling off in prices. In fact, it is hard to figure out how the lumbermen of Michigan can furnish Chicago with stocks to sell at present figures, unless the price of stumpage in that state is misrepresented. Stumpage at $3.50 to $4, with lumber at $8 in Chicago is a poor investment, especially when stumpage is constantly rising in value.

Crop reports and indications are favorable from nearly every section where the snow has disappeared.

The recent advance in Chicago seems to be sustained, but there is no corresponding movement in the West.

THE EAST.

The Boston Journal of Commerce says:

The demand has not been active nor so large as it usually is at this season of the year. Prices, as a rule, are well sustained, however, and when the weather settles there is likely to be an active inquiry for current wants, which promise to be very large. A large number of logs will be held in the woods, owing to the soft weather in early March, which drove the teams out. Probably 15 to 20 per cent. of the cut East will thus remain over until another season. Even with this, the supply is likely to be sufficient for all probable demands, as the winter was as a general thing very favorable for logging. Eastern lumber is beginning to come forward in small quantities. The mills are many of them at work, and sawing on spruce and hemlock. The stock left over from last fall was unusually light, and very little dry lumber will come forward this spring. Dry pine boards will be very scarce until summer. The yards just now are fairly stocked and dealers do not seem disposed to purchase, except at some concession in prices, especially on Eastern coarse. Western lumber is in moderate demand for pine, without change in prices. Hardwoods of nearly all kinds are active, especially walnut and cherry. The almost impassable condition of the woods West has held back a good deal of lumber that otherwise would have found an outlet, but the supply of walnut and cherry is short, and is likely to be all the season. White wood is the only exception among hardwoods, and the market is well supplied, especially with interior grades. Southern lumber remains in good demand, with no change in prices. Timber and flooring boards are numerous. There are three large cargoes of flooring just arrived, but nearly all is sold, and most of what is on the way is also disposed of to arrive.

FOREIGN.

We select the following from the London Timber Trade's Journal:

LONDON

After a fortnight's interval of breathing time to digest the enormous dose administered to the trade by the Clement's Lane firm, buyers were once again invited to the Baltic, this time by Messrs. Simson & Mason, who, if they did not offer goods on such a magnified scale as their competitors, nevertheless submitted a very attractive assortment to the notice of London buyers.

* * * * * *

We are glad, in looking through Messrs. Simson & Mason's catalogue, to observe on some of the stocks submitted that values have suffered very little decline during the interval that has elapsed since the last sale, and in many instances the prices realized on that occasion are fully borne out by the result of Wednesday's proceedings. On some descriptions of goods Messrs. Simson & Mason succeed in getting even better figures than their neighbors, but on others the same cannot be said. Best goods, for instance, do not compare at all well with those obtained on the previous occasion, but in this respect a great deal may be attributed to the few odd parcels submitted.

* * * * * *

As we remarked above, there was no palpable recoil in prices, though, as it generally happens with some goods, the right sort of buyer for a lot put up was not always there at the right moment, and somebody else picked up a bargain. This was especially noticeable when the New Orleans wainscot logs, ex Italy, were brought forward. These were held on a former occasion (see our reports of February 19th, page 120) with a reserve upon them of £3 10s., which seemed a very low price in comparison of a small lot from Pillau sold on the same day. However, they were offered without reserve, and we should say that the price realized is not likely to entice any considerable quantity of the same kind of wood on speculation to this market from New Orleans. Wainscot logs, be it remembered, are oak butts selected for their freedom from knots and shakes, and the goodness of the grain, for joinery work; and the first four lots with some of the best sizes, went at 42s. 6d. per 18 cubic ft.; then there was an amendment of 5s. per log, and a new buyer sprung up for the last lot, and he gave 52s. 6d., the average being about 2s. 6d. per cubic ft. A small lot of birdseye maple from Quebec, 12 loads, averaging over 30 ft. per stick, went also at a very moderate price, viz., 18d. per ft., hardly the price of common birch, though it is a choice wood and much admired for cabinet work. Dram battens 2nd and 3rd yellow, in good mercantile parcels and sizes, at £6 15s. to £7 5s., was quite as good as this kind of stock has lately been doing, and 3rd white brought £6 10s.

LIVERPOOL TIMBER SALES.

On Thursday last Messrs. Farnworth & Jar line offered a cargo of Pensacola hewn and sawn pitch pine timber and planks, and about sixty logs of Quebec oak, a cargo of St. John (N. B.) spruce deals, Quebec birch timber, and other whitewood goods. The attendance of buyers was in a great measure confined to the local merchants, and though the competition was by no means brisk the spruce deals sold comparatively better than those on the previous Wednesday, as will be seen from a comparison of the prices in last week's issue contrasted with the following:

Spruce deals, St. John, N. B.—

18 ft, 3x11, £7 17s 6d; 16 to 18 ft, 3x11, £7 12s 6d to £7 15s; 12 to 15 ft, 3x11, £7 5s to £7 10s; 21 ft and upward, 3x9, £7 15s; 18 ft, 3x9, £7 15s; 16 to 19 ft, 3x9, £7 10s; 12 to 15 ft, 3x9, £7 to £7 2s 6d; 16 to 19 ft, 3x7, £6 12s 6d; 12 to 13 ft, 3x7, £6 7s 6d.

A few logs of Quebec birch described as "figured," 13½ to 17 in. deep, sold at 1s 8d to 1s 10½d per ft.

There was very little disposition shown to buy pitch pine, and after a few bids being made for the hewn timber, the parcel (476 logs) was withdrawn, but the sawn wood, 165 logs, averaging 25 ft, was sold at 15d to 16¾d per ft, and the Quebec oak, old and weathered, was sold at ridiculously low prices, viz.: 36 logs at 15d and 23 logs at from 1s 5d to 1s 6d per ft.

GLASGOW.

The imports of wood to Clyde during the past week have been two cargoes of St. John, N. B., spruce deals, one cargo of pitch pine and one of East India teak. The tonnage employed for the conveyance of pitch pine received at Clyde ports since the beginning of this year amounts to 12,969 tons; teak timber, 6,165 tons: New Brunswick deals, 1,473 tons. The following are the figures at corresponding date last year: pitch pine, tonnage employed, 6,495 tons; teak timber, 1,600 tons; New Brunswick deals, 4,000 tons. A large consumption for ship building this year is indicated by these totals, and from the orders on hand and still coming in, an adequate demand may reasonably be expected for the increased imports. Of course, much of the pitch pine is selected and taken up by private contract.

There is yet scarcely any perceptible movement in house building in the city.

An auction was held by Messrs. Allison, Cousland & Hamilton, at Greenock, on the 22d inst., but the day proved very inclement, and little business was done.

The severe weather, it may be remarked, has been preventing a good deal of outdoor work from going forward for some time past. This is especially felt in the country districts, where there is a considerable amount of work on hand.

AUCTION SALE.—On the 22d inst., at Greenock, Messrs. Allison, Cousland & Hamilton, brokers

Quebec waney boardwood, 43 c. ft., av per log, 1s. 9d. per c. ft.

Do., 20 logs, 43 c. ft. av. per log, 1s. 8d. per c. ft.

1st yellow pine deals, 14 ft. 7.24x3, 2s. 8¼d. per c. ft.

This week's mail from Rio Janeiro reports as follows:

Pitch Pine Deals.—The only arrival we can report is that of the "Juanita," from Pensacola, with 276,892 feet, which were sold at 38$000 per dozen, 3x9x14. The fact of bearer having brought news of no fresh cargoes loading has strengthened our market, which closes strong at from 38$000 to 39$000 per dozen, 3x9x14, according to quality and assortment. Spruce Pine Deals—The "Walter L. Plummer," from St. John, N. B., arrived with 289,000 feet, which were sold at 33$000 per doz. Market steady. White Pine Lumber—Market steady and sellers ask 112 rs per foot. The following have been the arrivals and sales, all from New York, viz.: Per "Grecian," 99,181 feet sold at 100 rs per foot; 363,601 feet per "Justine H. Ingersoll," partly sold at 112 and 110 rs. per foot; remain about 160,000 feet, which have been stored; 20,012 feet per "Anita Owen," sold to arrive, and 56,695 feet deck load per "Rapid," sold at 105 rs. per foot.

METALS.—COPPER.—Ingot has found only a moderate and uncertain demand with the market at times a trifle nominal, but supplies so fairly under control as to prevent any serious or direct pressure to realize. Neither producers or manufacturers appear anxious to renew pooling arrangements, and exporters are ruled out entirely. We quote at 19@19¼ cash for Lake. Manufactured copper has found about an average demand and rules steady in price at the former general range of values. We quote as follows: Brazier's Copper ordinary size over 16 oz per sq foot, 28c per lb; do do do, 16 oz and over 12 oz per sq foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz, per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 34c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz, per sq foot, 26c per lb and Bolt Copper, 28c per lb. IRON—Scotch Pig meets with scarcely any really new demand, and business presents a dull, unsatisfactory tone generally. A considerable portion of the current arrivals are delivered on contract, but there is some surplus, and the stock in first hands tends to accumulate. We quote at $21@24 per ton, according to brand and delivery. American Pig also meeting with a very slow, uncertain call and while about former rates are quoted, the position is in reality nominal with an impression that the buyer is gaining advantage. It is claimed that the furnaces are secretly selling direct to consumers on every opportunity and at cut rates and even then failing to prevent an accumulation of stock; with every probability that open concessions must soon be made to get trade in motion. We quote at $21.50@25.50 per ton for No. 1 X foundry; $22@22.50 do. for No. 2 X do. do., and $.0@21 do. for gray forge. Rails have met with a less active demand, the orders in the main covering merely such parcels as could be reached on early deliveries, but prices are pretty well maintained and all the mills very busy on back contracts. Old Rails dull and the tone weak. We quote Rails at $45.00@47 for iron, and $61.00@63.00 for steel, according to delivery. Old Rails $27.00@28.50 per ton; scrap, $28.00@30.00. Manufactured Iron has found a moderate uncertain demand and the market failed to afford many satisfactory features. Producers claim that in addition to the light business the ruling prices are so low as to cut off margin for profit, and the indications are that demands for increased wages will make matters worse still. We quote Common Merchant Bar, ordinary sizes at 2.3@2.5c from store, and Refined at 2.5@3.5c; wrought beams at 3c. Fish plates quoted at 2⅜@2½c; track bolt and nuts, 3½@3⅝c; railway spikes, 3c; tank, 3@3.1c; angle, 3c; best flange, 6c; and domestic sheet on the basis of 3½c, for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c less on large lots from cars. LEAD—Domestic pig not very active, the recent purchases having about satisfied immediate wants of consumers. There does not appear to be quite so much stock offering from first hands, however, and the tone of the market is comparatively steady. We quote at about 4⅞@5c. The manufactures of lead are steady and quoted: Bar, 6c; Pipe, 6½c, and Sheet, 7c, less the usual discount to the Trade; and Tin-lined pipe, 15c; Block Tin Pipe, 40c, on same terms. TIN—Pig has been

in good demand in a jobbing way, with an occasional call for an invoice. This and the very fair control of the accumulation has preserved a steady tone and given holders confidence quite generally. We quote 20⅛@20¼c for Australian, 20¼@20½c for Straits, 20⅜@20⅝c for English Refined, 20⅛@20¼c for do. Common. Tin Plates have found a good steady demand, and especially charcoal and coke Tins, with the accumulation of stock under good control, and holders in the majority of cases firm in asking full former rates. A good interior demand is looked for with the re-opening of navigation on the canals, etc. We quote I. C. Charcoal, third cross assortment, $5.75@6.00 for Allaway grade, and $6.12½@6.25 for Melyn grade; I. C. Coke, $4.95@5.00 for B. V. grade; $5.12½@5.25 for Yspitty grade; Charcoal terne, $5.25@5.50 for Allaway grade 14x20; $10.50@10.87½ for do. 20x28; Coke terne, $4.75@4.87½ for Glais grade 14x20, and $10.00@10.12½ for do. 20x28—all in round lots Spelter has shown a trifle more steadiness with a very good average demand, but as a rule holders were ready and willing to meet all calls. Quoted 5¼@5⅝ as to brands, etc. Sheet Zinc finds about the average sale, and remains steady at 7@7¼c. from store, according to quality and quantity.

NAILS.—Operations have been more or less irregular and the market without much vigor. Buyers generally appear unwilling to anticipate their wants and the close hand-to-mouth policy of handling goods has a rather depressing influence. Prices, however, remain as before and there is no pressure to realize of a general character, though in one or two cases the offering seems a little heavy.

We quote 10d to 60d, common fence and sheathing per keg, $3@3.10; 8d and 9d, common do, per keg, $3.25@3.35; 6d and 7d, common do, per keg, $3.50@3.60; 4d and 5d, common do, per keg, $3.75@3.85; 3d and 4d, light, per keg, $4.50@4.60; 3d, fine, per keg, $5.25@5.35; 2d, per keg, $5.25@5.35.

Cut spikes, all sizes, $3.25@3.35; floor, casing and box, $3.75@4.25; finishing, $4.00@4.75.

CLINCH NAILS.

1⅛ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, $5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer, $4.50@4.65.

At a meeting of the Western Nail Association, held this week, the card rate was advanced to $3.15 per keg.

PAINTS AND OILS.—Buyers have not stimulated into any great display of anxiety and while a pretty good business occasionally takes place it is apparently on temporary influences only. The movement in fact is by many dealers reported as below calculations and this leads to some grumbling. It would appear, however, that for a year or two past business has been spread over a wide season and following up this lead it may be that even a larger aggregate of operations than last year will eventually be reached. Supplies are pretty well in hand and owners refrain from offering with any indication of anxiety to realize, but all calls are readily met and full bids receive prompt attention. White Lead and Paris Green incline to a little more strength but are without buoyancy and there is enough available for all the current wants of the market. Linseed Oil meets with a trifle better demand and the market has a firmer tone on good stock though without buoyancy. We quote at about 56@57c for City, and 62@62½c for Calcutta from first hands.

PITCH.—Supplies do not make much show, but are ample and to spare for the current demand, with holders free operators where no reduction of cost is expected. We quote at $2@2.15 per bbl. for city, delivered.

SPIRITS TURPENTINE.—Demand has again been moderate and apparently indifferent, with few buyers operating except upon a basis of early and positive wants. Stocks were offered with some care, but the quantity available proved full and values quite generally on the downward turn, unfavorable advices from the South adding to the depression. The jobbing movement slow. As this report is closed, the quotations stand at about 39@41c. per gallon, according to the quantity of stock handled.

TAR.—The movement has been of fair proportions and in about the ordinary form, with no radical changes on the general run of values. The supply is full enough apparently for all current wants. We quote $2.50@2.75 for Newberne and Washington, and $2.62@3.00 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

BUILDINGS PROJECTED.

Attention is directed to a department which we commenced some five weeks ago, entitled "Out Among the Builders." It contains the fullest and most complete accounts of all projected buildings, not only in New York, but in the surrounding suburbs. This news is given in advance of the official filing of the plans in the Building Department of the city government. This column is of special value to builders and all who deal in builders' materials. The news has the advantage of not only being fuller, but more readable than the necessarily dry official statement of projected buildings. Everyone interested in New York or Brooklyn realty should read "Out Among the Builders."

NEW YORK CITY.

Plan 323—One Hundred and Twenty-eighth st, s s, 410 w 5th av, one four-story brick and Connecticut brown stone tenem't, 25x62, extension, 9x11, tin roof, iron cornice; cost, $17,000; owner, Cowan Keyes, 116 East 126th st; architect, T. S. Goodwin; builder, not selected.

Plan 324—Jane st, s s, 50 e West st, one two-story brick factory, 30x60, and extension 10 deep, gravel roof, brick cornice; cost, $6,000; owner, John Gray, 37 Dey st; architect, M. Thomas; builder, S. J. Acken.
